RECENT EVENTS OF SIGNIFICANCE.

The first half of 2014 has been notable for the continued engagement of stakeholders through formally constituted arrangements directed towards a potential re-start of the Panguna mine.

The Joint Supervisory Board met in Kokopo, East New Britain, on July 4. The JSB was established under the Bougainville Peace Agreement, to oversee the establishment of Bougainville autonomy and the referendum on Independence, as well as the transfer of powers including those relating to mining.

As reported to ASX on June 25th, 2014, a Draft Bougainville Mining (Transitional Arrangements) Bill circulated which, in its current form and if passed into law by the Bougainville Parliament, may adversely impact on the mining rights held by the Company, which include a Special Mining Lease, various other leases for mining purposes, and several Exploration Licences. The Company has not made any adjustments to its financial statements for any impacts that might arise should this Bill be enacted in its current or similar form.

Further meetings of the Joint Panguna Negotiation Co-ordination Committee have been held, facilitating preparations for formal mine redevelopment processes, and the scoping of baseline social, economic and environmental studies. This committee has high level representation from the Governments of PNG and Bougainville, as well as the landowners and BCL, with inputs from agencies including the United Nations Environment Program. The meeting on May 8th was the tenth meeting of the JPNCC.

Issues being addressed with the formally constituted United Panguna Mine Affected Landowner Association include Bel Kol reconciliation ceremonies, outstanding 1989/90 compensation payments, landowner relocation and resettlement, and skills training for future mining operations.

It is anticipated that the completion of the symbolic Bel Kol process will be followed by a formal invitation from the ABG, Landowners and Ex-Combatants to BCL, to re-establish an office on Bougainville.

Negotiations are continuing aimed at resolving the Taxation Dispute between BCL and the Internal Revenue Commission of PNG.

2014 DIVIDEND

The Directors have not declared a dividend in respect of the six months ended 30 June 2014.

BORROWING

No borrowings were outstanding at year-end.

STOCK EXCHANGE

The standard proforma Appendix 4D was lodged with the Australian Stock Exchange in accordance with official listing requirements.

3 The directors are able to declare that the financial report comprising Appendix 4D to the Australian Stock Exchange for the half year ended 30 June 2014:

a.) complies with International Accounting Standard IAS 34: Interim Financial Reporting, and the Australian Stock Exchange Listing Rules relating to half yearly financial reports, and

b.) gives a true and fair view of the entity's financial position as at 30 June 2014 and of its performance, as represented by the results of its operations and it's cash flows for the half year ended on that date;

except that the results of the company for the six months ended 30 June 2014 have been in the opinion of the directors, substantially affected by events of a material and unusual nature as noted in the annual report dated 31 December 2013. The accounts have been prepared with the inclusion of the company's mine assets at their 1 January 1991 book value, with a separate general provision of K350 million having been made in 1991 for the value of the indeterminate level of deterioration, damage and pilferage of assets which has occurred in the period since the withdrawal of company personnel from Bougainville in early 1990. While the directors have made this impairment provision in good faith based on the limited information available to them, it must be recognised that the actual extent of the necessary write-downs can only be established when access to the mine site by appropriate company representatives is again possible. Accordingly, the 1991 provision may eventually prove to be above or below the sum which is necessary to reflect these losses. The directors believe that in the absence of reliable information and the lack of a more suitable alternative, this is the only appropriate basis to use, despite the current cessation of operations.
