Reimbursement Updates

- BCBS* Association website update states they will sunset their Evidence Street platform in December 2023¹.
- This means BCBS Association may no longer publish national medical policies for Association members to adopt.

- Success to date with one-by-one approach with BCBS, with seven (7) individual BCBS health plans already published

30%

With this BCBS change we expect ~30% coverage by the end of calendar year 2023².

PREVIOUS: ~50%

~85%

~85% of all Private Payors still projected to publish coverage by end of our FY24².

PREVIOUS: 95%+

Commercial Goals Remain Unchanged

- ~85% coverage unlocks substantial growth opportunity in all key markets with broad reimbursement.
- FY24 continues to be a year of building and preparing for scale.
- Laying the groundwork for a significant run of growth for FY25 and beyond.

* BCBS = Blue Cross Blue Shield

1. Refers to updates made to the BCBS Association website related to Evidence Street: <https://www.bcbsaoca.com/evidencestreet/>

2. Projected timing based on a combination of direct correspondence with private payors by ImpediMed or our provider partners and publicly available BIS medical policy publishing updates.

Regulatory Landscape

Achieved 510(K) Clearance for SOZO Pro

- Secured FDA clearance to remove the contraindication for patients with implantable permanent pacemakers (PPMs) or implantable cardioverter-defibrillators (ICDs)

Bilateral arm software update

- Successfully completed an update to the SOZO software, removing bilateral arm L-Dex assessment
 - Pertains to single digit % of breast cancer patients
- Does not impact our core business of unilateral arm L-Dex assessments, which applies to the majority of breast cancer patients
- Will not have an impact on our customer retention, sales forecasts, or ROI model
- Completed the necessary regulatory filings for the U.S. and Australia and on track to complete filings with all regulatory authorities in the coming months
