## Market Update

The Directors of Site Group International ("Site", ASX:SIT) are pleased to announce the signing of a Training Services Agreement (the "Agreement") with Granite Services International Inc., an affiliate of GE Power ("Granite").

The Agreement is for the continuation of training and assessment services at Site's facility in Clark, Philippines, and is designed to develop Granite's in-region specialist workforce around maintenance of heavy duty rotating equipment in power generation and other industrial applications. In addition to the specialized training, the Agreement includes other mechanical skills, as well as safety related training and assessment around lifting, rigging and crane operations.

Ted Toth, Asia Region General Manager for Granite commented "This Agreement confirms Granite's commitment to our employees and our customers."

"Investments in training and skills development are part of our core belief that everyone benefits when a passionate work force receives the best available training, especially with equipment as critical as that which we work on" said Ted Toth.

"Using Site Skills Training enables us to validate that the training programs are being learned, remembered and are relevant to developing our workforce's competencies in safety, productivity and innovation" Toth added.

Site's CEO and Managing Director Vern Wills added "the passion Granite has for the continuous improvement of its workforce and customer service aligns very closely with Site's objective of workforce nationalisation and competency focussed training aligned directly to the needs of industry."

"Leaders like Granite are the perfect industry example of utilising real environments in striving for best practice delivery for its customers."

"The highly skilled capability required around critical equipment such as turbines and rotational motors is well suited to delivery at a specialised training precinct like Site's Clark facility."

The Agreement aligns with Site's objectives to deliver technical excellence through competence assurance and capability development.

--- END ---

## About Site

Site Group International Limited ("Site") operates several businesses specialising in the delivery of education, training and labour services.

Services are delivered to government, corporate and individual clients, predominately operating in energy, mining, construction and industrial sectors.

Site operates over a dozen facilities throughout Australia, as well as in Papua New Guinea, Myanmar and Malaysia, with a flagship 300,000sqm training and live-in environment in the Philippines. Further, Site has delivered its services to governments and companies throughout the world, in countries including Indonesia, Singapore, China, UAE, Azerbaijan and others.

Site Group International Limited is an emerging company with a strategic business model pursuing earnings-accretive acquisition opportunities along with organic growth. Site is run by an experienced board and management team.

### **Competency Framework Development**

*Site consult on competency requirements to ensure a workforce holds skills required to safely perform their tasks. Clients include governments and tier one project owners in the oil and gas space.*

### **Immersive Environment Training Centres**

*In conjunction with project owners, managers and/or operators, Site engineer, procure and construct Immersive Environment Training Centres which replicate real-life worksite conditions for proper training and competency development of individuals. Amongst others, Site has constructed safe live process plants and underground mine training environments for these purposes.*

### **Training**

*Site specialise in the delivery of training across numerous industries, including energy, mining, construction and professional services. Training is delivered across a range of accredited and non-accredited short courses, Australian High Risk Licences, competency assurance testing, and non-funded and government funded certificate to advanced diploma level courses, apprenticeships and traineeships. Clients include multinational corporations, Small to medium Enterprise, governments and individuals.*

### **Online Learning**

*Site has the capacity for the development, implementation and management of Online Learning Management Systems (LMS) and online training programs. The provision of training services occurs on our online learning platform. These services are delivered to corporate and individual clients across all training brands.*

### **Workforce Labour Services**

*Site deliver the sourcing, training and deployment of skilled labour on to projects throughout numerous countries. Site has expanded this capability to include the provision of labour hire services and expat workforce management.*
