## COMMENTARY

Preparations have been completed for the fracture stimulation of the Blackdog 3-13-14H well, which is scheduled for tomorrow.

All of the Tofte 2 pad wells are now flowing into the pad production facilities.

Frontier 24 has completed its rig move to the Matilda Bay pad and has spud Matilda Bay 2-15-H.

Sail and Anchor is flowing ahead of the Blackdog frac and will be subject of a coil tubing clean out in conjunction with the Blackdog frac.

The Rennerfelt #1 and 2 wells are scheduled to commence fracking on March 22nd and are currently undergoing wireline operations in preparation of that activity.
