Appendix 4C and Quarterly Activities Report

The Directors of Site Group International Limited ("Site", ASX:SIT) have released the Appendix 4C quarterly cash flow for the quarter ended 30 June 2021.

The results for the quarter saw revenues reduce to \$2.1m with an EBITDA loss of (\$0.8m). The cash position of Site at the end of the June quarter was \$0.15m with undrawn facilities of \$0.44m. Operating cash for the quarter was a net outflow of (\$0.9m).

After the settlement of the Site Skills Australia training business sale to Verbrec, management has had time to focus on the previously stated objectives of the build of the international business and a potential development pathway for the Clark land. As also previously announced both have been impacted by the COVID-19 epidemic however there is mounting evidence of a strong return to activity in the international training and manpower segments as a global skills shortage looms substantially driven by the recommencing of stalled projects and the substantial amount of government funded `infrastructure initiatives` around the world designed to stimulate recovery.

We expect to be able to update shareholders on progress with the Clark land in August.

Australian Skills Shortage

Australia and in particular Western Australia has a rapidly increasing skills shortage across a number of sectors including industrial, construction, mining as well as oil and gas maintenance trades. In the last 2 months, Site WorkReady has deployed 18 welders to Perth who have now been placed on to projects in the mid-west of WA and Roxby Downs. A further 14 skilled welder and mechanical fitters are currently being processing for the same client.

Another client is currently negotiating the commercial terms for the provision of 50 boilermakers and 50 welders. We expect to finalise the agreement within the next 2 weeks which should result in a purchase order for circa \$1m.

In addition to this Site WorkReady have an order book for circa 30 workers across various clients and industries with new enquiries every week.

Philippines Training

OceanaGold

OceanaGold has been granted a 25-year extension of its mining licence at Didipio Gold Mine in central Luzon, Philippines. As a result of the extension, recent discussions with OceanaGold have focused on training and procurement methods for reskilling and ramping up their workforce.

Site has a long relationship training workers for Didipio utilizing the purpose built Underground Training Mine at Site's Clark, Pampanga facility.

Orica

Orica are looking at recommencing training people from their International operations to Clark once the current travel ban is lifted.

Sandvik

Sandvik currently have a substantial amount of training equipment including mining equipment and simulators stored at our Clark facility. Sandvik continue to support OceanaGold closely working alongside Site as they begin to ramp up their workforce.

Sandvik currently send a number of maintenance personnel as support to their projects in PNG, Mongolia and other countries in the region. They are currently studying the utilization of Clark for training of their personnel prior to deployment.

Fieldcore

Fieldcore continues to maintain its presence at Clark and have been in constant contact during the pandemic with their intention to move some of their training out of the MENA region to Clark. This will occur once they can get their international people in to the Philippines when the travel ban is lifted.

Kingdom of Saudi Arabia

Site and its Saudi consortium partners have been busy presenting for a substantial new long-term project over the last three months. The consortium believes it has performed very well showing the prerequisite competencies, track record and in country capability to be awarded this very meritorious project and looks forward to updating shareholders this quarter.

ACCC / Litigation

As announced on the 2 July 2021, Site continues to review the judgement made against its subsidiary Productivity Partners Pty Limited and will provide an update when that review is complete.

Authorised for release by the Board.

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer: Net operating cash flows will improve significantly following the removal of costs due to the sale of the trades training business in Australia completed on 12 April 2021. This sale has caused a number of one off costs to be incurred in the quarter including professional fees and restructuring costs in excess of \$500k. In addition to realising the cost savings, the Company is seeing renewed activity in its international operations as indicated in the review of activities attached.</p>	

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The entity is continuing to focus on its plan to maximise international asset values through the potential development of its 30-hectare Clark leasehold property.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The entity fully expects to continue to meet its business objectives and to continue existing operations.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
