Market Update – Contract Award

The Directors of Site Group International Limited (“Site”, ASX: SIT) are pleased to announce the signing of two (2) contracts for Site with the Colleges of Excellence in the Kingdom of Saudi Arabia in partnership with Abdulali Al-Ajmi Company (“Al-Ajmi”) for the Capability Building Contracts Wave 2 (CBC+) Phase 1 project.

The contracts are to develop Training Unit Improvement Plans at five Technical and Vocational Training Corporation Colleges throughout the Kingdom.

There was unprecedented interest from International Training Providers for this project and the contracts are due recognition of the excellent outcomes of graduates of Site’s 3 colleges over the past 4 years.

Site’s CEO and Managing Director Vernon Wills added, “The Kingdom of Saudi Arabia is in the midst of a large upgrading of their TVET system. This is widely regarded as the largest TVET upgrade in the world and Site is a key partner in this. It is recognition of our outcome focussed approach to training and competency development and the fantastic feedback from employers of our Saudi graduates. At our Saudi Colleges, over 1,000 young Saudi’s have graduated with 100% employment of the graduates.”

Mr Jarrod Belcher, Site’s General Manager – Middle East North Africa, said, “Wave 2 of the CBC project is a significant investment by The Kingdom of Saudi Arabia to use International expertise to work with Saudi operated training colleges and upgrade the whole of college operations. Our contribution will ensure graduates will meet the changing needs of the Kingdom as it implements Vision 2030. These two contracts will produce revenues of circa \$1 million to Site and will be delivered over coming months. Site and its Partners expect to be well placed to participate in the long term delivery, which is the next phase, post completion of this initial phase.”
