

Retail investor briefings postponed

5 September 2022

Weebit Nano Limited (ASX:WBT), a leading developer of next-generation memory technologies for the global semiconductor industry, needs to postpone the previously scheduled retail investor briefings for Melbourne, Sydney, and Perth, as CEO Coby Hanoch has contracted COVID-19 and is unable to travel to Australia.

Once new dates are arranged (currently planned for around the AGM) the Company will provide further details.

Approved for release by the CEO of Weebit Nano Limited.

About Weebit Nano Limited

Weebit Nano Ltd. is a leading developer of next-generation semiconductor memory technology. The company's ground-breaking Resistive RAM (ReRAM) addresses the growing need for significantly higher performance and lower power memory solutions in a range of new electronic products such as Internet of Things (IoT) devices, smartphones, robotics, autonomous vehicles, 5G communications and artificial intelligence.

Weebit's ReRAM allows semiconductor memory elements to be significantly faster, less expensive, more reliable and more energy efficient than those using existing Flash memory solutions. Because it is based on fab-friendly materials, the technology can be quickly and easily integrated with existing flows and processes, without the need for special equipment or large investments.
