

ASX ANNOUNCEMENT | COVATA LIMITED

Covata and NSCglobal join Colt Technology Services to Provide Data Security Solution *Safe Share* to Global Capital Markets

SYDNEY – 2 JULY 2015 – Leading multinational telecommunications and IT provider Colt Technology Services will make Covata Safe Share available to the financial services sector within their global customer base.

Colt Technology Services (LON: COLT) is a European provider of world-class network, voice, data centre and managed cloud services. Colt, headquartered in the City of London, has a market cap of €1.7b and annual revenues of €1.5b for 2014. Colt counts many of Europe's largest financial services and capital market institutions as core customers and the Safe Share product is to be targeted at this global segment through its new Extranet service.

The Colt Financial Services Extranet, having been designed in consultation with over 20 investment banks, asset managers and brokers, connects providers of financial content and services to capital market firms. Colt capital markets services more than 400 financial institutions, including 18 of the top 25 banks and diversified financial groups, and the company currently operates across Europe, Asia and North America with connections into over 200 cities globally.

Safe Share, as one of the first solutions to be offered, will be delivered over Colt's world-class infrastructure and provide financial institutions with a complete solution for securing sensitive and valuable company data. Covata's patented approach combines the three pillars of security; Identity Management, Policy and Key management. This unified security service supports customers in meeting the rigorous level of corporate governance, access monitoring and compliance demanded by financial markets.

Covata CEO Trent Telford states, "Our European Telco and MSP strategy has strong momentum. Colt owns and manages secure networks with tier one clients operating in a highly regulated environment. Safe Share has been designed to be deployed to these customers, where trust, access monitoring, security and compliance are of the utmost importance."

Covata and nscglobal will be targeting firms seeking 1000+ seats and will be sold on a per user, per month basis.

About Covata

Covata enables true ownership and control over your data in the cloud and over mobile services. We deliver data-centric security solutions without compromising simple usability; providing true end-to-end security. Your data is always protected wherever it may travel – inside your network, beyond the domain, to mobile devices and to the cloud – with granular access controls that extend to external ad hoc users, view-only restrictions, real time revocation and complete visibility and auditability.

Own Your Data, control your data and choose where it is stored – with complete assurance that it is protected and secure. For further information please visit Covata.com.

About Colt

Colt provides network, voice, data centre and managed cloud services to thousands of businesses around the world, allowing them to focus on delivering their business goals instead of the underlying infrastructure. Customers include 18 of the top 25 bank and diversified financial groups and 19 out of the top 25 companies in both global media and telecoms industries (Forbes 2000 list, 2014). In addition, Colt works with over 50 exchange venues and 13 European central banks.

Colt operates across Europe, Asia and North America with connections into over 200 cities globally. It recently completed the acquisition of KVH, an integrated managed communications and IT infrastructure services business, with headquarters in Tokyo and operations in Hong Kong, Seoul and Singapore.

Colt is listed on the London Stock Exchange (COLT).
