1 Basis of preparation of interim report

These interim financial statements for the half-year ended 31 December 2016 have been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim report covers the SPDR S&P/ASX Australian Bond Fund (the "Fund") as an individual entity. The Fund was constituted on 14 June 2012 and will terminate on 25 July 2092 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

This interim report does not include all the notes of the type normally included in an annual report. Accordingly, this interim report is to be read in conjunction with the annual report for the year ended 30 June 2016 and any public announcements made in respect of the Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

(a) Significant accounting policies

The accounting policies in these interim financial statements are the same as those applied in the Fund's financial statements for the year ended 30 June 2016.

(b) Segment information

The Fund is organised into one main segment which operates solely in the business of investment management within Australia.

The Fund operates in Australia and holds investments in Australia.

(c) Interim measurement

The nature of the Fund's operations is such that income and expenses are incurred in a manner which is not impacted by any form of seasonality.

This interim report is prepared based upon an accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

The Responsible Entity of the Fund is State Street Global Advisors, Australia Services Limited (the "Responsible Entity"). The Responsible Entity's registered office is Level 17, 420 George Street, Sydney, NSW 2000.

This interim report is presented in Australian currency.

This interim report was authorised for issue by the directors on 23 February 2017. The directors of the Responsible Entity have the power to amend and reissue the interim report.

There have been no changes in the risk management policies and processes of the Fund since year end.

A copy of the 30 June 2016 Annual Report containing detail of the accounting policies and other disclosures can be found at www.spdrs.com.au.

2 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities designated at fair value through profit or loss (see note 3)
- Financial assets / liabilities held for trading
- Derivative financial instruments

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

2 Fair value measurement (continued)

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in the notes to the financial statements as at 30 June 2016.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

2 Fair value measurement (continued)

Recognised fair value measurement

The table below sets out the Fund's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 December 2016 and 30 June 2016.

As at 31 December 2016	Level 1 \$	Level 2 \$	Level 3 \$	Total \$

Debt securities	-	23,880,379	-	23,880,379
Total	-	23,880,379	-	23,880,379

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between the levels for the fair value hierarchy for the half-year ended 31 December 2016 and year ended 30 June 2016. There were also no changes made to any of the valuation techniques applied as of 31 December 2016.

(ii) Fair value measurements using significant unobservable inputs (level 3)

(iii) Fair values of other financial instruments

Independent auditor's review report to the unitholders of SPDR S&P/ASX Australian Bond Fund

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of SPDR S&P/ASX Australian Bond Fund (the registered scheme), which comprises the statement of financial position as at 31 December 2016, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration.

Directors' responsibility for the half-year financial report

The directors of State Street Global Advisors, Australia Services Limited (the responsible entity) are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of SPDR S&P/ASX Australian Bond Fund, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of SPDR S&P/ASX Australian Bond Fund is not in accordance with the *Corporations Act 2001* including:

1. giving a true and fair view of the registered scheme's financial position as at 31 December 2016 and of its performance for the half-year ended on that date;
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
