Comments

The group's revenue for the year ended 31 December 2016 was \$12.6 million (31 December 2015: \$12.1 million). Revenue was driven primarily by sponsored posts as well as an increased performance from Churp Churp in the Influencer Platform segment, seeing growth of 22% and accounting for 33% of overall revenue. The entire Influencer Platform segment achieved revenue for the year ended 31 December 2016 of \$9.3 million (31 December 2015: \$8.9 million) which contributed 74% of total revenue for the year ended 31 December 2016 (31 December 2015: 74% of total revenue). The increase in revenue was also further driven by a one-off profit neutral partnership deal with Flexiroam Asia Limited accounting for \$1.5 million which at the same time contributed to \$1.5 million advertising expenses for the expansion efforts of Aroi Mak Mak Pte Ltd.

The group's loss before income tax totalled \$5.3 million (31 December 2015: loss before income tax of \$1.3 million) largely driven by efforts to expand group operations throughout our target markets and in doing so, incurring additional administrative, employee and advertising expenditure. The loss is further attributed by a one-off non-cash impairment of goodwill arising from the acquisition of Ripplewerkz Pte Ltd amounting to \$0.9 million.

Netccentric Limited Notes to the financial statements 31 December 2016

Note 1. Significant accounting policies

Statement of Compliance

The Appendix 4E preliminary financial statements ("financial statements") for the year ended 31 December 2016 have been prepared in accordance with ASX listing rules and the recognition and measurement criteria of the Singapore Financial Reporting Standards ("FRS") and the related Interpretations to FRS ("INT FRS") as issued by the Singapore Accounting Standards Council.

Basis of preparation

The financial statements have been prepared on applicable going concern basis under the historical cost convention except where a FRS requires an alternative treatment (such as fair values). The accounting policies and methods of computation adopted in the preparation of the preliminary financial statements are consistent with those adopted and disclosed in the consolidated entity's half yearly financial statements as at 30 June 2016.

The financial statements are presented in Singapore dollars.

Note 2. Segment Reporting

For management purposes, the group is organised into the following major strategic operating segments that offer different products and services: (1) Influencer Platform, (2) Display Ad Network, (3) Social Media Agency, (4) Digital Asset Production and (5) Others. Such a structural organisation is determined by the nature of risks and returns associated with each business segment and it defines the management structure as well as the internal reporting system. It represents the basis on which the management reports the primary segment information that is available and that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. They are managed separately because each business requires different strategies.

The principal segments and type of products and services are as follows:

(1) Influencer Platform	Enables advertisers to engage social media influencers to promote their products and
(1) Illiluelicei Flatioilli	Enables advertisers to engage social media initidencers to promote their products and
	services

services.

(2) Display Ad Network Enables advertisers to promote their products or services across a network of over

950,000 sites that attract over 35 million visitors per month.

(3) Social Media Agency Digital marketing agency specialising in social media strategy and campaign

management for advertisers.

(4) Digital Asset Production Boutique all-in-one digital media production house specialising in web design and

development; print & graphic designs; and corporate identity designs.

(5) Others Others including media production house and mobile blogging applications.

Segment results consist of costs directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Inter-segment sales are measured on the basis that the entity actually used to price the transfers. Internal transfer pricing policies of the Group are as far as practicable based on market prices. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

The following tables illustrate the information about revenue by business units and countries.
