If you are registered in the issuer sponsored sub register, your statement will be despatched by the Registry and will contain the number of Loyalty Bonus Options granted to you under this Prospectus and your security holder reference number.

2.6 Allotment of the Loyalty Bonus Options

Allotment of the Loyalty Bonus Options will only be made once ASX has approved in principle the quotation of the Loyalty Bonus Options.

If in principle approval is granted, it is expected the Loyalty Bonus Options will be allotted on 3 April 2017 and holding statements will be despatched on or about 4 April 2017.

It is the responsibility of Eligible Shareholders to determine their allocation prior to trading in the Loyalty Bonus Options. Eligible Shareholders who sell Loyalty Bonus Options before they receive their holding statement do so at their own risk.

2.7 Non-renounceable

The rights to the Loyalty Bonus Options are non-renounceable. Accordingly, Loyalty Bonus Option entitlements do not trade on the ASX, nor can they be transferred or otherwise disposed of by you.

2.8 Variation

The Company reserves its rights to vary any term, condition or requirement of the Bonus Issue in its absolute discretion.

SECTION 3: DETAILS RELATING TO ENTITLEMENT OFFER AND BONUS ISSUE

3.1 Participation by Directors

The Directors have advised the Company as follows in relation to their participation in the Entitlement Offer:

- a. Mr Ryan Mount intends to take up his full Entitlement;
- b. Mr Jeremy Gray is an Ineligible Shareholder; and
- c. as at the date of this Prospectus, Mr Robert Barraket is not a Shareholder of the Company and is therefore unable to participate.

In relation to the Bonus Issue, the Directors advise the Company as follows:

- a. Subject to shareholder approval, Mr Ryan Mount will participate in the Bonus Issue to the extent of his entitlement; and
- b. Mr Jeremy Gray and Mr Robert Barraket will not participate in the Bonus Issue.

3.2 Overseas Shareholders

The Entitlement Offer and Bonus Issue is offered only to those Shareholders with registered addresses in Australia and New Zealand at the Record Date.

Shareholders who are not recorded on the Register at the Record Date with an address in Australia and New Zealand are Ineligible Shareholders. The Company has decided that it is unreasonable to make an offer under this Prospectus to Ineligible Shareholders, having regard to the number of Ineligible Shareholders, the number and value of the New Axiom Shares, Attaching Options and Loyalty Bonus Options they would be offered and the cost of complying with the legal and regulatory requirements in the places where they are resident.

Accordingly, the Entitlement Offer and Bonus Issue is not being extended to, and no New Axiom Shares, Attaching Options or Loyalty Bonus Options will be issued to, Ineligible Shareholders. This Prospectus is sent to those Shareholders for information purposes only.

The distribution of this Prospectus in jurisdictions outside Australia and New Zealand may be restricted by law. Persons who come into possession of this Prospectus in those jurisdictions should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities law.

Special notice to New Zealand resident investors

The offers made under this Prospectus to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Australia) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

These offers and the content of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Australia) and the regulations made under that Act set out how the offers must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to these offers. If you need to make a complaint about these offers, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offers may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to the changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

United States

The New Axiom Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state of the United States and may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of, a US person, except in a transaction exempt from the registration requirements of the US Securities Act and applicable United States state securities laws.

This Prospectus is neither an offer to sell nor a solicitation of an offer to buy securities as those terms are defined under the US Securities Act. The Entitlement Offer is not being made to US persons or persons in the United States.

3.3 Market Price of Axiom Shares

The highest and lowest market sale price of the Axiom Shares on ASX during the three calendar months immediately preceding the date of issue of this Prospectus and the last market price on the last day of trading before lodgement is set out below:

3 month high	3 month low	Last market sale price on 24 February 2017
\$0.215	\$0.14	\$0.185

3.4 Risks

Investors should carefully read the section on risk factors in section 6 of the Prospectus. An investment in New Axiom Shares involves various risks, a number of which are specific to the Company and the industry in which it operates.

An investment in securities issued under this Prospectus should be regarded as speculative.

or:

Pay by BPAY®

If you are paying for your New Axiom Shares by BPAY®, please refer to your personalised instructions on your Entitlement and Acceptance Form. Please note that should you choose to pay by BPAY®:

- you do not need to complete or return the Entitlement and Acceptance Form but are taken to have made the declarations on that personalised Entitlement and Acceptance Form;
- amounts received by the Company in excess of the Offer Price multiplied by your Entitlement (**Excess Amount**) may be treated as an application to apply for as many Additional Axiom Shares as your Excess Amount will pay for in full; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Axiom Shares as is covered in full by your Application Money.

When completing your BPAY® payment, please make sure to use the specific Biller Code and unique reference number provided on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form (i.e. where you have multiple holdings), please only use the reference number specific to the Entitlement on that form. If you inadvertently use the same reference number for more than one of your Entitlements, you will be deemed to have applied only for New Axiom Shares on the Entitlement to which the reference number applies.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by **5pm (Sydney Time) on Thursday, 16 March 2017**.

Excess Amounts that are not sufficient to subscribe for a number of New Axiom Shares or Additional Axiom Shares multiplied by the Offer Price will be refunded to you except where that amount is less than \$2.00, in which case it will be retained by the Company. The method by which you receive the refund will be at the discretion of the Company. No interest will be paid to Eligible Shareholders on any Excess Amount received or refunded.

By either returning the Entitlement and Acceptance Form with payment or making payment received by BPAY® you provide authorisation to be registered as a holder of New Axiom Shares and Attaching Options subscribed for by you and agree to be bound by the Company's Articles of Association.

Acceptances or payments received after the Closing Date may not be accepted.

4.3 Applying for Additional Axiom Shares

If you have applied to take up all of your Entitlement, you may also apply for Additional Axiom Shares.

If you apply for Additional Axiom Shares and your application is successful (in whole or in part) your Additional Axiom Shares will be issued at the same time that other New Axiom Shares are issued under the Entitlement Offer. There is no guarantee that you will receive any Additional Axiom Shares. The Directors reserve their right to allot and issue Additional Axiom Shares in their absolute discretion.

4.4 Allow your Entitlement to lapse

If you **do not wish** to accept all or part of your Entitlement, you do not have to do anything in respect of the Entitlement you are not accepting, and any Entitlement not taken up will automatically lapse. You will receive no payment for your lapsed Entitlement.

4.5 Acceptance of the Entitlement Offer

By completing, and the Company receiving, your personalised Entitlement and Acceptance Form with the requisite Application Money or making a payment by BPAY®, you:

- a. agree to be bound by the terms of this Prospectus and the provisions of the Company's Articles of Association;

- f. agree to apply for, and be issued with up to, the number of New Axiom Shares and Attaching Options that your payment will pay for at the Offer Price;
- g. authorise the Company and its officers or agents to do anything on your behalf necessary for the New Axiom Shares and Attaching Options to be issued to you, including to act on instructions of the Axiom Share Registry upon using the contact details set out in the Entitlement and Acceptance Form;

- i. acknowledge that the information contained in this Prospectus is not investment advice or a recommendation that New Axiom Shares are suitable for you, given your investment objectives, financial situation or particular needs;
- j. acknowledge that investments in the Company are subject to risks;
- k. represent and warrant that you are an Eligible Shareholder and have read and understood this Prospectus and the Entitlement and Acceptance Form and that you acknowledge the matters, and make the warranties and representations and agreements contained in this Prospectus and the Entitlement and Acceptance Form;

SECTION 4: HOW TO PARTICIPATE – ENTITLEMENT OFFER AND SHORTFALL OFFER

Continued

- m. you acknowledge that the Entitlements and the New Axiom Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction in the United States, or in any other jurisdiction outside Australia and New Zealand, and accordingly, the Entitlements may not be taken up, and the New Axiom Shares may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the US Securities Act and any other applicable securities laws; and
- n. you have not and will not send any materials relating to the Entitlement Offer to any person in the United States or that is a US Person, or is acting for the account or benefit of a US Person.

4.6 Entitlement and Acceptance Form is binding

Receipt of payment of Application Money by cheque and a completed and lodged Entitlement and Acceptance Form constitutes a binding acceptance of the Company's offer to acquire New Axiom Shares on the terms and conditions set out in this Prospectus and an acknowledgement by you that you have received and read this Prospectus, you have acted in accordance with the terms of the Offer detailed in this Prospectus, and that you agree to all of the terms and conditions as detailed in this Prospectus.

The Entitlements and Acceptance Form, once lodged, cannot be withdrawn.

The Entitlement and Acceptance Form does not need to be signed to be binding. If the Entitlement and Acceptance Form is not completed correctly, the Company, in its absolute discretion, can reject it or treat it as valid.

The Company's decision as to whether to accept or reject an Entitlement and Acceptance Form or how to interpret an incorrectly completed Entitlement and Acceptance Form is final.

4.7 Application Money

The Company is entitled to retain any interest paid on Application Money, whether or not allotment and issue of the New Axiom Shares takes place. If quotation of the New Axiom Shares is not granted by ASX within the time required by law, no New Axiom Shares will be allotted and Application Money will be refunded to Eligible Shareholders without interest within the time prescribed under the Corporations Act.

SECTION 5: EFFECT OF THE ENTITLEMENT OFFER AND BONUS ISSUE ON THE COMPANY

5.1 Overview

(a) Entitlement Offer

The Entitlement Offer will have an effect on the capital structure and the financial position of the Company.

(b) Bonus Issue

The Bonus Issue will not result in any additional Axiom Shares being issued immediately. Axiom Shares will be issued following the exercise of any Loyalty Bonus Options.

5.2 Effect on capital structure

The following table sets out the Company's current capital structure and its fully diluted capital structure immediately following the successful completion of the Entitlement Offer and Bonus Issue, assuming that:

- 12,500,000 Axiom Shares and 6,250,000 Axiom Options are issued under the Placement;
- no options are exercised prior to the Record Date;
- no new Axiom Shares are issued before the Bonus Issue allotment date;
- all of the Entitlements are taken up; and
- no Eligible Loyalty Bonus Shareholders change their Shareholdings and/or Option holdings between the date of this Prospectus and the Loyalty Bonus Record Date (other than subscribing for their Entitlements in full).

In this section 5, these assumptions are called the **Full Subscription Assumptions**.

** Assuming all Options and performance rights are exercised.

Commentary

The Company's actual position on completion of the Entitlement Offer and grant of the Loyalty Bonus Options may differ from the positions illustrated in the pro-forma capital structure table above.

If the Entitlement Offer is not fully subscribed, fewer New Axiom Shares and Attaching Options may be issued and there may be fewer Axiom Shares on issue following completion of the Entitlement Offer.

The Company will announce to ASX the actual number of New Axiom Shares, Attaching Options and Loyalty Bonus Options to be issued under the Entitlement Offer and Bonus Issue as soon as practicable after all securities have been issued.

SECTION 5: EFFECT OF THE ENTITLEMENT OFFER AND BONUS ISSUE ON THE COMPANY

Continued

5.3 Effect on Shareholdings

(a) General

If you exercise your full Entitlement under the Entitlement Offer you will not be diluted. If you do not exercise your full Entitlement you will be diluted.

Ineligible Shareholders will have their holdings diluted by the Entitlement Offer.

The effect of the Offer on the control of the Company will depend upon a number of factors, including:

- i. the level of Shareholder participation (including both the taking up of Entitlements and applications for Additional Axiom Shares); and
- ii. which Shareholders participate.

If every Shareholder was to take up their full Entitlement, there would be a minimal effect on the control of the Company, as the Entitlement Offer is made pro-rata and, in that case, there would not be any scope for any Shareholder to apply for Additional Axiom Shares under the Offer.

(b) Dilution due to Bonus Issue

The Bonus Issue will not dilute existing Shareholdings, however, the issue of Shares on the exercise of the Loyalty Bonus Options may dilute shareholdings of Shareholders who either:

- i. were not Eligible Loyalty Bonus Shareholders; or
- ii. were Eligible Loyalty Bonus Shareholders but chose not to exercise the Loyalty Bonus Options.

SECTION 5: EFFECT OF THE ENTITLEMENT OFFER AND BONUS ISSUE ON THE COMPANY

Continued

5.4 Effect on control of the Company

The Directors cannot speculate as to the extent that Entitlements will be accepted by Eligible Shareholders or the effect on control that the Offers will have on the Company.

If all Eligible Shareholders accept their Entitlements in full, the Offers will not have an effect on the control of the Company.

The Loyalty Bonus Options will not have any effect on control until the Loyalty Bonus Options are exercised and Shares are issued. Again, the Directors cannot speculate as to the extent that Loyalty Bonus Options will be exercised or the effect that this will have on the Company (if any).

5.5 Effect on financial position

(a) General

The broad effect of the Entitlement Offer on the Company's financial position if the Offer is successfully completed will be, if the Entitlements fully taken up, to increase Shareholders' funds and net assets by up to approximately \$5.6 million before payment of the expenses of the Entitlement Offer.

(b) Pro-forma balance sheets - basis of preparation

To illustrate the effect of the Entitlement Offer on the Company, the following pro-forma consolidated balance sheets of the Company have been prepared based on the unaudited management accounts of the Company as at 31 December 2016.

The pro-forma balance sheets have been prepared on the basis of accounting policies normally adopted by the Company. The financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by the Australian Accounting Standards applicable to annual financial statements.

The table below is the pro-forma balance sheet of the Company as at 31 December 2016 adjusted to reflect the following pro-forma transactions:

- as at 31 December 2016, the Entitlement Offer was fully taken up and \$5,590,933 was received under the Entitlement Offer from the issue of 34,943,334 New Axiom Shares;
- \$2,000,000 is raised under the Placement;
- no Axiom Shares were issued pursuant to the exercise of existing options on or before the Record Date; and
- payment of approximately \$45,000 representing the expenses of the Offer.

Continued

(c) Management discussion and analysis of pro-forma balance sheets

The pro-forma balance sheets are not forecasts.

The actual financial position of the Company on completion of the Offer will differ from the position illustrated in the pro-forma capital structure and pro-forma balance sheets due to net expenditure during the period between 31 December 2016 and the date when the Entitlement Offer is completed.

SECTION 6: RISK FACTORS

6.1 General

There are a number of factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company, its products, the industry in which it operates and the outcome of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that forward-looking statements will be realised.

This section describes certain, but not all, risks associated with an investment in the Company. Each of the risks set out below could, if it eventuates, have a material adverse impact on the Company's performance, profits and the value of its Axiom Shares.

Before deciding to invest in the Company, potential investors should read the entire Prospectus and the risk factors that could affect the financial performance of the Company.

You should carefully consider these factors in light of your personal circumstances and seek professional advice from your accountant, stockbroker or other professional adviser before deciding whether to invest.

6.2 Specific risk factors

In addition to the general risks set out in section 6.1, the Directors believe that there are a number of specific factors that should be taken into account before investors decide whether or not to apply for Axiom Shares. Each of these factors could have a materially adverse impact on the Company, its expansion plans, operating and product strategies and its financial performance and position.

These include:

(a) Regulatory and title risk

The Company's exploration and development activities are subject to extensive laws and regulations relating to numerous matters including resource licence consents, conditions of operation including environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters.

The Company requires permits from regulatory authorities for its exploration, development, production and rehabilitation activities.

- i. Kolosori tenement – Isabel Nickel project – Solomon Islands
On 21 March 2016, the Court of Appeal in the Solomon Islands delivered judgment that the Kolosori tenement on which part of the Isabel nickel deposit is located remains customary land. As a result, the land register was rectified to remove the registration of the perpetual estate over Kolosori land and Axiom KB Limited's lease and prospecting licence were set aside;
Axiom has submitted a new application for a prospecting licence. While the application is pending, Axiom is unable to continue its prospecting activities at the Kolosori tenement.
There is a risk that this application may not be successful. If Axiom is unsuccessful in obtaining a prospecting licence, it will not be able to develop the Kolosori tenement.
- ii. San Jorge tenement – Isabel Nickel project – Solomon Islands
Axiom KB Limited currently holds a prospecting licence (PL 01/15) over a tenement on San Jorge Island. The Company has applied for a mining lease to take its operations into production. There is a risk that may this application may be unsuccessful and, if this occurs, it will not be able to commence commercial production; Obtaining the necessary permits can be a time consuming process and there is a risk that the Company will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with such permits and applicable laws and regulations could materially delay or restrict the Company from proceeding with the development of a project or the operations or development of a mine. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities, suspension of the Company's activities or forfeiture of one or more of its tenements.

SECTION 6: RISK FACTORS

Continued

(b) Going concern risk

The Company's 2016 Annual Report contains a 'going concern' note. The Directors are of the opinion that Axiom and its subsidiaries (Axiom Group) will have sufficient working capital to finance its operations and to meet its financial obligations in the future as and when they fall due in the foreseeable future after taking into consideration the following:

- i. as at 30 September 2016, the Axiom Group had cash and cash equivalents of \$4,070,000;
- ii. the Company continues to have the ability to raise additional funds by undertaking various capital raising initiatives;
- iii. the Axiom Group has the ability to farm out all or part of its exploration projects;
- iv. the Axiom Group has the ability to sell particular exploration projects; and
- v. the Axiom Group has the ability to renew pending exploration applications based on previous experience.

In the event that the Company is not successful in raising further capital or is unable to undertake any of the initiatives listed above, there is significant uncertainty as to whether the Company can continue as a going concern, which is likely to have a material adverse effect on the Company's activities.

(c) Funding risk

The Company currently operates on a negative cash operating basis in that its operating expenses exceed its revenue. There is no guarantee that the monies raised under the Entitlement Offer will be adequate or sufficient to achieve its stated objectives or meet the funding requirements of the Company under its current business plan.

Unless and until the Company develops or acquires income producing assets, it will be dependent upon the Company's cash reserves, and its ability to obtain future equity or debt funding to support exploration, evaluation and development of the properties in which it has an interest. The Company's ability to raise further equity or debt or to divest part of its interest in a project, and the terms of such transactions, will vary according to a number of factors, including the success of exploration results and the future development of the Company's projects, stock market conditions and prices for minerals in world markets.

The Company may exhaust its current cash reserves and still require further capital, in which case, neither the Company nor the Directors can provide any assurance that if further funding is required, such funding can be raised on terms favourable to the Company (or at all). Additional equity funding will dilute existing Shareholders.

If the Company is unable to obtain additional funding as required, the Company may be required to delay or indefinitely postpone exploration, development or production on the Company's properties and/or reduce the scope of its operations, which may affect the Company's ability to continue as a going concern.

(d) Risks specific to the New Options

i. Exercise price risk

There is a risk that the prevailing market price for Axiom Shares at the time of exercise of the New Options may be less than the exercise price affecting the value of the New Options.

ii. Taxation consequences

The exercise or sale of a New Option may have taxation consequences, depending on each Shareholder's particular circumstances. Shareholders should seek their own taxation advice before exercising or selling a New Option.

(e) Takeover risk

On 15 October 2015, Shareholders approved various amendments to the Company's Articles of Association to provide that Chapter 6 of the Corporations Act will apply as if the Company were an ASX listed company incorporated in Australia.

Shareholders must therefore have regard to, and comply with, the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold), when exercising New Options granted pursuant to this Prospectus.

If a Shareholder is at risk of breaching section 606 as a result of the exercise of New Options, the Shareholder has the following options:

- i. sell its New Options;
- ii. sell some of its Axiom Shares prior to exercising any New Options;
- iii. rely on some other exemption from the takeovers prohibition in section 611 of the Corporations Act (such as the 3% creep exemption).

If a Shareholder is at risk of exceeding the 20% voting power threshold in section 606 or increasing its voting power from a position above 20% as a result of the acquisition of Axiom Shares on exercise of a New Option, the Shareholder should seek professional advice before exercising those Options.

(f) Exploration, development, mining and processing risks

The mineral tenements of the Company are at various stages of exploration. The business of minerals exploration, project development and production involves significant risks by its very nature. It depends on, amongst other things, the successful exploration, identification, appraisal and development of commercially viable mineral reserves, security of tenure, the availability of adequate funding, satisfactory performance of mining operations, weather conditions, availability and cost of consumables, plant and equipment and skilled labour when required, favourable industrial relations and competent management.

Profitability and asset values can be affected by unforeseen changes in operating circumstances, mineral reserves and geotechnical considerations.

There can be no assurance that exploration of the Company's current tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic mineral deposit. Even if an apparently viable deposit is identified, there can be no assurance that the technical, financial and regulatory hurdles can be cleared and profitable, commercial production achieved.

The success of the Company will also depend upon the Company being able to maintain title to its tenements and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful, this outcome could lead to a diminution in the value of the tenements, a reduction in the base reserves of the Company and possible relinquishment of the tenements.

Outcomes of the exploration program outlined in this Prospectus and/or the Company's announcements will affect the future performance of the Company and its Axiom Shares.

Whilst the Company has announced its intentions and goals with regard to the application of its current cash reserves, there is no certainty that this expenditure will result in the Company's mining concessions becoming a viable, saleable or identifiable resource.

(g) Operating risks

The operations of the Company may be affected by various factors, including:

- i. failure to locate or identify mineral deposits;
- ii. failure to achieve predicted grades in exploration;
- iii. mining operational and technical difficulties encountered;
- iv. mining difficulties in commissioning and operating plant and equipment;
- v. mechanical failure or plant breakdown;
- vi. unanticipated metallurgical problems which may affect extraction costs adverse weather conditions industrial and environmental accidents industrial disputes, and
- vii. unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be given in light of the above factors that the Company will achieve commercial viability through successful exploration and/or mining of its projects.

(h) Production risks

Operations such as design and construction of efficient mining and processing facilities, competent operation and managerial performance and efficient transport and marketing services are required to be successful for the Company to generate sufficient profit to make distributions or return capital on Axiom Shares. In particular, production can be hampered by force majeure circumstances, engineering difficulties, cost overruns, errors in ore resource estimation, inconsistent recovery rates and other unforeseen events. In the event the Company proceeds to development of economic deposits, production may be affected by these matters.

SECTION 6: RISK FACTORS

Continued

(i) Access to land

There is a substantial level of regulation and restriction on the ability of exploration and mining companies to have access to land in the Solomon Islands and Australia.

Inability to access, or significant delays experienced in accessing privately owned freehold, communal, state customary or leasehold land may be caused by weather, deference to landholders' activities such as cropping, harvesting and other factors and may impact on the Company's activities.

(j) Cultural heritage

Delays may be experienced if evidence of cultural heritage exists on any land to which the Company requires access.

When exercising a right or permission for access to any land, it may be an offence to disturb physical evidence of human occupation of prehistoric or historic significance without statutory permission. This restriction applies to any activity including minerals exploration and production.

The Company has not undertaken the comprehensive research, investigations or enquiries which would be necessary to enable it to form an opinion with certainty as to whether any such evidence exists on any land covered by the Company's wholly-owned or optioned tenements.

(k) Environmental risks

The Company's projects are subject to Solomon Islands Government, Queensland State and Australian Federal Government regulations regarding environmental matters.

Development of any mineral resources will be dependent on the Company's projects meeting environmental guidelines and gaining approvals from the relevant governmental authorities.

As with all exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws.

There are also environmental risks that are inherent to the Company's activities, such as accidental spills, leakages or other unforeseen circumstances, which could subject the Company to extensive liability against which it has not insured or cannot insure, including those risks in respect of past mining or other activities for which it was not responsible.

Environmental regulations are likely to evolve in a manner that will require stricter standards and enforcement, increased fines and penalties for non-compliance and more stringent environmental assessments of proposed projects. Environmental regulations could impact upon the viability of the Company's projects. The cost and complexity of complying with applicable environmental laws and regulations may prevent the Company from being able to develop potentially economically viable mineral deposits.

The Company may require approval from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals will prevent the Company from undertaking its desired activities and could lead to forfeiture of its tenements. The Company is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

There can be no assurance that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business and financial condition.

Changes to legislative requirements including changes to income tax laws introduced to reduce emissions caused by greenhouse gases may have an adverse effect on current and future exploration and mining operations.

The introduction of a carbon price mechanism in any of the jurisdictions in which the Company operates may increase the cost structure of the Company.

(l) Exploration and appraisal expenditure

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. Exploration and appraisal is a process subject to unforeseen contingencies. Exploration programs must be flexible enough to respond to the results obtained.

By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual scope, costs and timetables of exploration programs may differ substantially from these estimates and assumptions. No assurance can be given that the costs estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability and returns to Shareholders.

Financial failure, or default by any future alliance or joint venture partner of the Company, may require the Company to face unplanned expenditure or risk forfeiting relevant tenements.

(m) Exploration activity and Resource estimates

The Company has identified a number of exploration areas based on geological interpretations and data and historical drilling. Insufficient data exists to provide certainty of the mineralisation of the Company's projects.

Whilst the Company intends to undertake additional exploratory work with the aim of defining the relevant Resources, no assurance can be given that additional exploration will result in the determination of the relevant Resource. Even if a Resource is identified, no assurance can be provided that it can be economically exploited.

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to an extent on interpretations, which may provide to be inaccurate. As further information becomes available through additional fieldwork and analysis, Resource estimates are likely to change. These changes may result in alterations to the development and mining plans of the Company which may, in turn, adversely affect the Company's operations.

(n) Key personnel risk

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel.

If any member of the senior management team ceases their engagement with the Company there may be a detrimental impact on the Company's prospects.

In addition, the ability of the Company to achieve its objectives depends on the retention of key external contractors who constitute its technical panel and provide technical expertise. If the Company cannot secure external technical expertise (for example to carry out drilling) or if the services of the present technical panel cease to become available to the Company, this unavailability may affect the Company's ability to achieve its objectives either fully or within the timeframes and the budget the Company has set.

Whilst the ability of the Company to achieve its objectives may be affected by the matters mentioned above, the Directors believe that appropriately skilled and experienced professionals would be available to provide services to the Company at market levels of remuneration in the event key external contractors cease to be available.

(o) Commodity price volatility and exchange rate risk

Assuming the Company achieves success leading to mineral production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price and exchange rate risks.

Commodity prices fluctuate and are affected by a number of factors beyond the control of the Company including supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.

In addition, international prices for various commodities are subject to a number of international factors including world inflation, geo-political events, central bank transactions, exchange rates as well as supply and demand factors. The price of commodities in Australian dollars will influence returns on the Company's projects, subject to any hedging contracts the Company may take out in relation to future production.

SECTION 6: RISK FACTORS

Continued

(p) Volatility in the market price of Axiom Shares

Although the Company is listed on the ASX, there is no assurance that an active trading market for its Axiom Shares will be sustained. There is also no assurance that the market price for the Axiom Shares will not decline.

The market price of the Company's Axiom Shares may be subject to significant fluctuations due to various external factors and events, including the liquidity of the Axiom Shares in the market, any difference between the Company's actual financial or operating results and broader market-wide fluctuations.

Furthermore, any stock market volatility and weakness could result in the market price of the Axiom Shares decreasing so that they trade at prices significantly below the issue price, regardless of the Company's operating performance.

(q) Negative publicity may adversely affect the Axiom Share price

Any negative publicity or announcement relating to the Company, any of its substantial Shareholders or key personnel may adversely affect the stock performance of the Company, whether or not this is justifiable. Examples of this negative publicity or announcement may include involvement in legal or insolvency proceedings, failed attempts in takeovers, joint ventures or other business transactions.

(r) Insurance risk

The Company maintains insurance coverage that is substantially consistent with exploration industry practice. However, there is no guarantee that such insurance or any future necessary coverage will be available to the Company at economically viable premiums (if at all) or that, in the event of a claim, the level of insurance carried by the Company now or in the future will be adequate, or that a liability or other claim would not materially and adversely affect the Company's business.

(s) Dividends

There is no guarantee as to future earnings of the Company or that the Company will be profitable at any time in the future and there is no guarantee that the Company will be in a financial position to pay dividends at any time in the future.

(t) Foreign jurisdiction risk

As the Company is incorporated in Hong Kong, changes in Hong Kong laws may have an adverse effect on non-Hong Kong holders of Shares. Laws and regulations in Hong Kong may provide Shareholders with fewer rights than under the Corporations Act.

6.3 General risk factors

(a) Axiom Share (and underlying Share) market risk

On completion of the Entitlement Offer, the New Axiom Shares may trade on ASX at higher or lower prices than the Offer Price. Investors who decide to sell their New Axiom Shares after the Entitlement Offer may not receive the amount of their original investment. There can be no guarantee that the price of New Axiom Shares will increase after listing. The price at which the New Axiom Shares trade on ASX may be affected by the financial performance of the Company and by external factors over which the Directors and the Company have no control.

These factors include movements on international share and commodity markets, local interest rates and exchange rates, domestic and international economic conditions, government taxation, market supply and demand and other legal, regulatory or policy changes.

(b) Dependence on general economic conditions

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates and exchange rates, access to debt and capital markets and government fiscal, monetary and regulatory policies.

A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have a material adverse impact on the Company's business or financial condition. Changes to laws and regulations or accounting standards which apply to the Company from time to time could adversely impact on the Company's earnings and financial performance.

(c) Wars, terrorism, political and environmental events

Events may occur within or outside Australia that could impact upon the world economy, the market for minerals, the operations of the Company and the price of Axiom Shares. These events include war, acts of terrorism, civil disturbances, political intervention and natural events such as earthquakes, floods, fires and poor weather affecting roadways, mining and transport of minerals. The Company only has a limited ability to insure against some of these risks.

(d) Issue of additional securities

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership of existing Shareholders may be reduced and diluted.

(e) Tax risk

Any change to the rate of company income tax in jurisdictions in which the Company operates will impact on shareholder returns, as will any change to the rates of income tax applying to individuals or trusts. Any change to the tax arrangements between Australia and other jurisdictions could have an adverse impact on future earnings and the level of dividend franking.

(f) Legislative and regulatory changes

Legislative or regulatory changes, including property or environmental regulations or regulatory changes in relation to products sold by the Company, could have an adverse impact on the Company.

SECTION 7: RIGHTS ATTACHING TO SECURITIES

7.1 Axiom Shares

The securities being offered under the Entitlement Offer are Axiom Shares. Each Axiom Share represents a beneficial interest in one Share. The Axiom Shares will be newly issued.

(a) What are Axiom Shares?

An Axiom Share is a CHESS Depository Instrument (CDI) which represents a beneficial interest in one Share in the Company.

(b) What is a CDI?

The ASX uses an electronic system, called CHESS, for the clearance and settlement of trades on the ASX. Axiom Mining Limited is incorporated in Hong Kong, which does not recognise the CHESS system of holding securities or electronic transfers of legal title to Shares. To enable companies such as Axiom to have their securities cleared and settled electronically through CHESS, Depository instruments called CDIs are issued.

Each Axiom Share represents one underlying Share.

Axiom Shares are traded in a manner similar to shares of Australian companies listed on the ASX.

(c) What is the principal difference between holding Axiom Shares and holding Shares?

The principal difference between holding Axiom Shares and holding the underlying Shares is that a holder of Axiom Shares (Holder) will hold a beneficial interest in Shares but not the legal title. The legal title to the Shares will be instead held by a depository, CDN, which is a wholly-owned subsidiary of the ASX, CDN is an approved general participant of ASX Settlement.

CDN will not receive any fees from investors for acting as the Depository for the CDIs.

7.2 Rights attaching to Axiom Shares

The relationship between the Company, CDN and a Holder is governed in part by the Listing Rules and the ASX Settlement Operating Rules. The Listing Rules and the ASX Settlement Operating Rules have the force of the law under the Corporations Act.

(a) Title

The Holder holds the beneficial title to the Shares underlying the Axiom Shares while CDN holds the legal title. Holders receive all direct economic and other benefits of the Shares. CDN may not dispose of any of the Shares unless authorised by the ASX Settlement Operating Rules, and is not able to create any interest that is inconsistent with the beneficial title held by the Holders.

(b) Ratio

Each Axiom Share represents a beneficial interest in one Share.

(c) Conversion

A Holder may either leave their holdings in the form of Axiom Shares (so that legal title remains in the name of CDN) or convert the Axiom Shares to Shares and hold legal title in their own right.

Holders can convert their ASX listed Axiom Shares to Shares in the following ways:

- i. for Axiom Shares held through the issuer sponsored sub-register, by contacting the Registry directly to obtain the applicable conversion request form; or
- ii. for Axiom Shares held on the CHESS sponsored sub-register, by contacting their controlling participant (usually a stockbroker) who will liaise with the Registry.

The Registry will then arrange for the transfer of Shares from CDN to the former Holder and a new Statement of Account Holding will be issued. The Shares will be registered in the name of the holder on Axiom's Share Register and trading on the ASX will no longer be possible.

The ASX Settlement Operating Rules require the conversion process to be completed within three business days of receipt of the conversion request.

A holder of Shares can convert their holdings to Axiom Shares by contacting the Registry and completing the relevant form. The underlying Shares will then be transferred to CDN and a holding statement for the Axiom Shares will be issued to the Holder. No trading in the Axiom Shares on the ASX can take place until the transfer process is complete.

(d) Shareholder meetings and voting

As Holders do not appear on the Company's register, they are not entitled to vote personally at Shareholder meetings. However the ASX Settlement and Operating Rules require the Company to send notices of Shareholder meetings to each Holder at the address recorded on the Axiom Share register if any Shareholder meeting is convened. This notice must include a form permitting the Holder to direct CDN to cast proxy votes according to the wishes of the Holder for whom it holds Shares. The Company is obliged to collect and process these directions. CDN is required to vote in accordance with the instructions it receives from Holders.

If a Holder wishes to vote in person at a meeting of Shareholders (whether on a show of hands or on a poll), they will first need to convert their Axiom Shares into Shares.

(e) Dividends and other entitlements

The ASX Settlement Operating Rules ensure that Holders have the right to receive dividends, rights issues and bonus issues. Where a dividend or any other cash distribution is made in a currency other than Australian dollars, the Company's Australian registry (acting as CDN's agent) will convert the dividend or distribution into Australian dollars. The payment will then be made to Holders in Australian dollars in accordance with each Holder's entitlement.

(f) Takeovers

If any takeover bid is made in respect of any of the Shares of which CDN is the registered holder, CDN is prohibited from accepting the offer made under the takeover bid except to the extent that acceptance is authorised by the relevant Holder in accordance with the ASX Settlement Operating Rules.

If a Holder instructs it to do so, CDN must ensure that the offeror processes the takeover acceptance.

7.3 Rights attaching to Shares**(a) General**

Full details of the rights and liabilities attaching to Shares are set out in the Company's Articles of Association, a copy of which can be inspected, free of charge, at the Company's registered office during normal business hours.

The following is a broad summary of the rights, privileges and restrictions attaching to all Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders.

(b) General meetings

Notice of every general meeting is to be given to every Shareholder, other than those Shareholders who, under the provisions of the Company's Articles of Association or the conditions of issue of the Shares held by them, are not entitled to receive the notice of meeting (at present there are no such restrictions). The failure of a Shareholder to receive a notice of meeting does not invalidate the proceedings at that meeting.

No business may be transacted at any meeting of Shareholders unless a quorum of Shareholders is present.

Shareholders are entitled to be present in person or by proxy or, in the case of a Shareholder which is a body corporate, by a corporate representative and are entitled to vote at general meetings of the Company.

(c) Voting rights

Subject to any special rights or restrictions as to voting attached to any Shares (at present there are none), at meetings of Shareholders:

- i. each Shareholder entitled to vote may vote in person or by proxy or, in the case of a Shareholder which is a body corporate, by a corporate representative
- ii. on a show of hands, every person present who is a Shareholder or a proxy or representative of a Shareholder has one vote, and
- iii. on a poll, every person present who is a Shareholder or a proxy or corporate representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy or representative, have one vote.

Where there are two or more joint holders of the Shares and more than one of them is present at a meeting and tenders a vote in respect of the Share (whether in person or by proxy), the Company will count only the vote cast by the Shareholder whose name appears before the other(s) in the Company's register of Shareholders

SECTION 7: RIGHTS ATTACHING TO SECURITIES

Continued

(d) Dividend rights

Subject to the rights of holders of shares issued with special, preferential or qualified rights (at present there are none), the profits of the Company which the Company in general meeting determines following a recommendation of Directors to distribute by way of dividend are divisible among the holders of Shares in proportion to the amounts paid up on the Shares held by them.

(e) Rights on winding up

On a winding up of the Company, all assets that may be legally distributed among members will be divided up as between members or different classes of members as the liquidator determines.

(f) Transfer of Shares

Subject to the Articles of Association, the Companies Ordinance (Chapter 622) (Hong Kong), the Corporations Act, the ASX Settlement Operating Rules, the Listing Rules and any other laws, Shares are freely transferable.

(g) Future increases in Capital

The current authorised share capital of the Company is 1,000,000,000 Shares. Any increase in the capital of the Company requires an ordinary resolution of Shareholders. Subject to that requirement, the allotment and issue of any Shares is under the control of the Directors.

Subject to restrictions on the allotment of Shares to Directors or their associates, the Listing Rules, the Articles of Association, the Companies Ordinance (Chapter 622) (Hong Kong) and the Corporations Act, the Directors may allot and issue Shares on such terms and conditions as they see fit.

(h) Variation of rights

The Company may, with the sanction of a special resolution passed at a meeting of Shareholders, vary or abrogate the rights attaching to Shares. If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of the issue of the shares of that class), whether or not the Company is being wound up may be varied or abrogated with the consent in writing of the holders of three quarters in nominal value of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

7.4 Rights attaching to Attaching Options and Loyalty Bonus Options (New Options)

(a) Entitlement

Subject to and conditional upon any adjustment in accordance with these conditions, each New Option entitles the holder to subscribe for Share upon payment of the relevant Exercise Price.

(b) Exercise Price

The exercise price for each New Option is \$0.40 (Exercise Price).

(c) Exercise Period

The New Options are exercisable at any time on or before 5:00pm (Sydney time) on 14 December 2018 (Exercise Date). New Options not exercised by the relevant Exercise Date lapse.

(d) Manner of exercise of New Options

Each New Option may be exercised by notice in writing addressed to the Company's registered office. The minimum number of New Options that may be exercised at any one time is 1,250. Payment of the Exercise Price for each New Option must accompany each notice of exercise of the New Options (as applicable). All cheques must be payable to the Company and be crossed 'not negotiable'.

(e) Ranking of Axiom Shares

Axiom Shares issued on the exercise of New Options will, subject to the Articles of Association of the Company, rank equally with all existing Axiom Shares on and from the date of issue in respect of all entitlement offers, bonus share issues and dividends which have a record date for determining entitlements on or after the date of issue of those Axiom Shares.

(f) Timing and issue of Shares

The Company will, as soon as practicable (and not later than 15 days) after the Company receives a valid exercise notice from the Optionholder, and in accordance with the Corporations Act and the Listing Rules, allot the number of Axiom Shares in the Company so subscribed for by the Optionholder. In the case of fractions (if any), the number of Axiom Shares issued will be rounded down to the next lower whole number and the exercise price will be rounded up to the next highest cent.

(g) New Options transferrable

New Options may be transferred in the same manner as Axiom Shares and may be exercised by any other person or body corporate.

(h) Quotation

Subject to the New Options meeting the ASX requirements for quotation of a new class of securities, the New Options will be quoted and be tradeable on the ASX.

(i) Participation in new issues

There are no participating rights or entitlements inherent in the New Options to participate in any new issues of capital which may be offered or made by the Company to its shareholders from time to time prior unless and until the Options are exercised.

(j) Adjustment for bonus issues of Axiom Shares

If there is a bonus issue to the holders of Axiom Shares, the number of securities over which each Option is exercisable will be increased by the number of Shares which the Optionholder would have received if the Options had been exercised before the record date for the bonus issue.

(k) Pro-rata issues

If there is a pro-rata issue (except a bonus issue) to the holders of the ordinary Axiom Shares, the exercise price of the New Options shall be reduced according to the following formula:

$$O' = O - \frac{E[P - (S + D)]}{N + 1}$$

Where:

O' = the new exercise price of each New Option

O = the old exercise price of each New Option

E = the number of Axiom Shares into which each New Option is exercisable

P = the average market price per Axiom Share (weighted by reference to volume) of the Shares during the 5 trading days ending on the day before the ex-rights or ex-entitlements date

S = the subscription price for an Axiom Share under the pro rata issue

D = the dividend due but not yet paid on the Axiom Shares (except those to be issued under the pro rata issue)

N = the number of Axiom Shares with rights or entitlements that must be held to receive a right to one new Axiom Share.

(l) Reconstructions

If the Company reorganises its capital in any way while any New Options are on issue, the number of New Options will be reorganised in accordance with the Listing Rules so that the Optionholder will not receive a benefit that the existing holders of Axiom Shares do not receive and in addition will be changed to the extent necessary to comply with the Listing Rules applicable to the particular reorganisation of capital at the time.

SECTION 7: RIGHTS ATTACHING TO SECURITIES

Continued

(m) Conversion of Axiom Options into Options

Holders of Axiom Options may at any time convert their Axiom Options into Options (with the same terms and conditions as an Axiom Option) as follows:

- i. for Axiom Options held through the issuer sponsored sub-register, by contacting the Registry directly to obtain the applicable conversion request form; or
- ii. for Axiom Options held on the CHESSE sponsored sub-register, by contacting their controlling participant (usually a stockbroker) who will liaise with the Registry.

Any Options that are converted from Axiom Options will be unquoted and will not trade on the ASX.

(n) Listing Rules

If and to the extent any of the preceding terms and conditions are inconsistent with the Listing Rules, such rules will prevail in all respects to the extent of the inconsistency.

8.2 Continuous disclosure and inspection of documents

The Company is a disclosing entity for the purpose of the Corporations Act. As such, it is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or value of the securities in the Company.

Having taken such precautions and having made all enquiries as are reasonable, the Company believes that it has complied with the general and specific disclosure requirements of the Corporations Act and Listing Rules, which require the Company to notify ASX of information about specific events or matters as they arise, for the purpose of ASX making that information available to the market conducted by ASX.

This Prospectus is issued under section 713 of the Corporations Act. Accordingly, this Prospectus does not contain the same level of disclosure as an initial public offer prospectus.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. The determination of non-executive Directors specified in the Company's Articles of Association is US\$300,000 per annum.

In addition to non-executive directors' fees, Mr Barraket has entered into a consultancy agreement with the Company for corporate advisory services under which the Company has agreed to pay him \$100,000 per annum.

Directors' remuneration for the last two years was as follows:
