3.1 BUSINESS UPDATE

Villa World updated the market on 15 February 2017 at the time of announcing its results for the half-year ended 31 December 2016. The key highlights of the announcement included:

- Statutory profit after tax of \$19.6 million (1H16: \$20.4 million).
- EPS: 17.4 cps (1H16: 18.5 cps).
- FY17 guidance increased to profit after tax of \$37.5 million, representing growth of 11% over FY16 (\$33.7 million).
- 8.0 cps fully franked interim dividend declared post balance date (1H16: 8.0 cps).
- Guidance for total dividend for FY17 increased to 18.5 cents per share fully franked.
- 554 sale contracts carried forward with a gross value of \$191.6 million.
- Acquisitions success – 1,496 lots acquired.
- Debt facility with long-term, staggered maturity profile (refer to Section 3.5 of this Offer Specific Prospectus).

You should refer to the Appendix 4D and consolidated financial statements for the half-year ended 31 December 2016 which were lodged with ASX on 15 February 2017 for further details of Villa World's results for the period then ended.

On 22 March 2017, Villa World announced that it was conducting an underwritten institutional placement to certain sophisticated and professional investors to raise approximately \$20 million ("**Placement**"). A non-underwritten share purchase plan ("**SPP**") capped at \$10 million was also announced by Villa World. On 23 March 2017, Villa World announced that it had completed the Placement raising approximately \$20 million.

3.2 USE OF PROCEEDS OF THE OFFER

The proceeds of the Offer, along with the proceeds from the Placement and the SPP, will be used for the acquisition of new sites that meet Villa World's investment criteria. Investors should have regard to Section 3.2.4 (*Villa World Business Model*) and 3.2.6 (*Portfolio acquisitions to ensure growth over the medium term*) of the Base Prospectus which sets out further information on Villa World's business model which includes investment in new sites over time and actively assessing a pipeline of projects that may be suitable for acquisition. This business strategy is illustrated by Villa World's purchase in 1H17 of 1,496 lots, and more recently, its announcement of the acquisition of a 42 hectare site at Clyde in Victoria.

As Villa World continues to assess different acquisition opportunities within its pipeline, the proceeds of the Offer, the Placement and the SPP, will give Villa World additional financial capacity to replenish and increase land stocks through strategic purchases in optimal growth corridors, resulting in a 'step change' in the business. A successful Offer will also have the effect of diversifying Villa World's debt capital structure and support its growth objectives, yet at the same time maintaining prudent gearing levels.

The table below outlines the net proceeds of the Offer, assuming an issue of \$50 million in Bonds. The costs set out are estimates and exclusive of GST:

	\$
Funds raised	50,000,000
Less costs of the Offer	
Arranger and Joint Lead Manager fees	1,000,000
Legal	215,000
Debt and capital structuring advice	150,000
Accounting and tax	61,000
Registry costs	44,250
Other (including statutory costs, distribution costs, other)	50,531
Net proceeds of Offer	48,479,219

The pro forma impacts of the issue of the Bonds and Placement are outlined in the following sections of this Offer Specific Prospectus:

- (i) Section 3.3 (Effect of the Offer on Villa World) – this section includes the pro forma impacts on the Group's historical balance sheet as at 31 December 2016;
- (ii) Section 3.4 (Key Financial Ratios) – this section shows the pro forma impact on the Key Financial Ratios and other relevant financial ratios; and

3.3 EFFECT OF THE OFFER ON VILLA WORLD

3.3.1 HISTORICAL AND PRO FORMA HISTORICAL BALANCE SHEET

The unaudited financial information in this section is presented in an abbreviated form and does not contain all of the presentation, disclosures, statements and comparative information as required by Australian Accounting Standards that are usually provided in an annual or interim financial report prepared in accordance with the Corporations Act.

The historical consolidated balance sheet has been derived from the Group's financial statements for the half-year ended 31 December 2016, which have been reviewed by Villa World's auditors.

The historical consolidated balance sheet has been prepared in accordance with the stated basis of preparation, being the recognition and measurement principles contained in Australian Accounting Standards ("AAS") as issued by the Australian Accounting Standards Board.

The pro forma historical balance sheet for the Group has been prepared solely for inclusion in this Offer Specific Prospectus and has been derived from the reviewed historical balance sheet of the Group as at 31 December 2016, adjusted for the effects of the pro forma transactions described below. Due to its nature, the pro forma historical balance sheet does not represent the Group's actual or prospective financial position.

The pro forma historical balance sheet for the Group has been prepared in accordance with recognition and measurement principles prescribed in AAS other than it includes adjustments which have been prepared in a manner consistent with AAS that reflect the impact of events or transactions as if they had occurred as at 31 December 2016.

Set out on the following page is a summary of the Group's historical consolidated balance sheet as at 31 December 2016, together with pro forma adjustments that assume the following transactions were completed on 31 December 2016:

- (i) \$50 million Bond issue (pursuant to this Offer Specific Prospectus), which is classified as borrowings – this results in 'Cash and cash equivalents' increasing by \$50 million and non-current 'Borrowings' increasing by \$50 million.
- (ii) Approximately \$1.52 million in transaction costs associated with the Bond issue – financial liabilities are recognised net of their transaction costs, in accordance with Australian Accounting Standard AASB 139. Accordingly, the payment of the transaction costs results in non-current 'Borrowings' and 'Cash and cash equivalents' each reducing by \$1.52 million.
- (iii) \$20 million underwritten Placement issue (net of associated costs of approximately \$550,000).¹

The Financial Information included in this Offer Specific Prospectus is intended to present potential investors with information to assist them in understanding the historical financial position of the Group, together with the Pro Forma Historical Balance Sheet for the Group.

¹ As at the date of this Offer Specific Prospectus and in addition to the \$20 million raised under the Placement, Villa World is seeking to raise up to \$10 million pursuant to the SPP. This amount has not been included in the pro-forma calculations in Section 3 of this Offer Specific Prospectus as the SPP is not underwritten and there is no certainty as to the final amount to be raised under the SPP.

3.4 KEY FINANCIAL RATIOS

Source of Financial Information

This section describes some of the key financial indicators which will assist investors in assessing the financial position and strength of the Group. In addition to these key financial indicators, you should review the Group's financial statements contained in Villa World's 2016 Annual Report and the Group's financial statements for the half-year ended 31 December 2016.

You must refer to Section 3.7.2 of the Base Prospectus which describes the Key Financial Ratios.

The table below sets out the prescribed Key Financial Ratios (Prescribed Gearing Ratio, Prescribed Interest Cover Ratio and Prescribed Working Capital Ratio) which are calculated on the basis prescribed by the Corporations Act and Corporations Regulation 6D.2.06. The intended purpose of this requirement is to give an indication of the capacity of an issuer to meet its obligations to holders under the bonds.

The ratios are based on the Group's financial information for the years ended 30 June 2015 and 30 June 2016 and the half-year ended 31 December 2016 and for the pro forma half-year ended 31 December 2016 (assuming a raising of \$50 million under the Offer and the \$20 million raised under the Placement):

Prescribed Key Financial Ratios as at	30 June 15	30 June 16	31 Dec 16	Pro forma 31 Dec 16
Prescribed Gearing Ratio	96%	102%	75%	87%
Prescribed Interest Cover Ratio	4.2x	6.3x	8.4x	8.4x
Prescribed Working Capital Ratio	2.3x	2.7x	3.1x	4.2x

Other Relevant Financial Ratios

In overseeing the capital management aspect of its business, Villa World focusses on other relevant financial ratios, which include the Reported Gearing Ratio, the Reported Interest Cover Ratio and the ratios under the Terms.

Reported Gearing Ratio and Reported Interest Cover Ratio

Villa World has historically reported the Reported Gearing Ratio and the Reported Interest Cover Ratio to ASX as part of its annual and half-yearly reporting.

The Reported Gearing Ratio and the Reported Interest Cover Ratio are based on Villa World's consolidated financial information for the years ended 30 June 2015 and 30 June 2016 and the half-year ended 31 December 2016 and for the pro forma half-year ended 31 December 2016 (assuming a raising of \$50 million under the Offer and the \$20 million raised under the Placement).

Ratios under the Terms

Villa World is also subject to certain ratios, which are used in the negative pledge and the limitation on debt incurrence covenant contained in Clauses 4.1 and 4.2 of the Base Terms. Those ratios are the Gearing Ratio (which is calculated consistently with the Reported Gearing Ratio described above) and the Secured Gearing Ratio.

The calculation of these ratios is based on financial information derived from the Group's consolidated financial statements for the years ended 30 June 2015 and 30 June 2016 and the half-year ended 31 December 2016 and for the pro forma half-year ended 31 December 2016 (assuming a raising of \$50 million under the Offer and the \$20 million raised under the Placement). These consolidated financial statements include investments in joint ventures on an equity accounted basis (and not on a look-through basis) in accordance with Current Accounting Practice.

Other Relevant Financial Ratios as at	30 June 15	30 June 16	31 Dec 16	Pro Forma 31 Dec 16
Reported Gearing Ratio / Gearing Ratio under the Terms	17%	26%	23%	18%
Secured Gearing Ratio	17%	26%	23%	7%
Reported Interest Cover Ratio	4.0x	6.1x	8.1x	8.1x

The methods for calculating the "Other relevant financial ratios"

The method for calculating these "Other relevant financial ratios" and the reasons for their use by Villa World are set out in Sections 3.7.3 and 3.7.4 of the Base Prospectus.

- ³ Pro forma - adjusted for the net amount raised under the Placement (\$20 million net of \$0.5 million in costs).

The tables on the following pages set out the maturity profile of Villa World's external debt facilities as at 31 December 2016². It does not include any adjustment for the issue of the Bonds.

The secured debt is owed to two Australian banks, including ANZ. This debt matures before the maturity date of the Bonds and may or may not be refinanced by those banks. ANZ's role as a lender to Villa World could give rise to potential conflicts of interest between ANZ and its affiliates and the Holders. Neither ANZ nor any other financier to Villa World has any obligation to take into account the interests of Holders when making decisions in their role as creditors (including when negotiating the terms of any such refinancing, or whether to refinance at all). If the secured debt is not refinanced, Villa World's financial condition may change adversely, which may impact Villa World and the Guarantors' ability to meet their obligations under the Bonds. In its role as a creditor, ANZ will have access to information about, and analysis on, Villa World and the Guarantors, but ANZ is under no obligation to (and will not) provide such information and analysis to Holders of the Bonds during the term of the Villa World Bonds.

² The maturity dates for Villa World's facility with ANZ were extended in March 2017 under a credit approved term sheet signed on 14 March 2017. The tables in this Section 3.5 of this Offer Specific Prospectus reflect the extended maturity dates under that facility.

Villa World's existing external debt facilities and their maturities as at 31 December 2016 are as set out below. Each of the bank facilities referred to below is secured.

Secured bank facilities	Drawn balance – 31 December 2016 (\$m)	Bank facility limit (\$m)	Maturity ³

³ The maturity dates for Villa World's facility with ANZ were extended in March 2017 under a credit approved term sheet signed on 14 March 2017.

⁴ The bank facility maturing in October 2020 of \$80m is interchangeable between cash and bank guarantees. Villa World may draw up to \$15m under the bank guarantee sub facility with the remainder of the \$80m facility not drawn as bank guarantees available for cash advances. Similarly, the bank facility maturing in March 2019 of \$50m is interchangeable between cash advances and bank guarantees. Villa World may draw up to \$7.5m as bank guarantees with the remainder of the \$50m facility not drawn as bank guarantees available for cash advances.

⁵ Capital commitments are future cash outflows which are dependent on a future event. Put and call arrangements with land owners are a part of Villa World's ordinary course of business. The call option gives Villa World or a third party an option to purchase land lots at a nominated price by a future date. The put option gives the land owner the right to sell the lots to Villa World at the nominated price by a future date. The commitments are crystallised to the balance sheet on the exercise of the put or call option which aligns to the registration of the land by the land owner on a stage by stage basis. The agreements are severable by development stage and the commitments may be less than the total commitments under the agreements as shown above. The nominated price is predominantly paid to the land owner out of third party proceeds on the settlement of house and land contracts.

Villa World's existing external debt facilities and their maturities, assuming the issue of \$50 million in Bonds on a pro-forma basis as at 31 December 2016, are as follows:

Applications received during the Exposure Period will not be processed until after the expiry of that period. No preference will be conferred on Applications received during the Exposure Period.

4.5 ALLOCATION POLICY

Bookbuild

The Bookbuild is a process that was conducted by the Joint Lead Managers before the Opening Date.

On the basis of those bids, Villa World, in consultation with the Joint Lead Managers, determined the Margin and the firm allocations to Bookbuild participants, being Syndicate Brokers and certain Institutional Investors.

Broker Firm Offer

If you have applied under the Broker Firm Offer, your Syndicate Broker is responsible for determining your Allocation from their Broker Firm Allocation. Villa World takes no responsibility for any allocation, scale-back or rejection that is decided by your Syndicate Broker. It will be a matter for your Syndicate Broker to determine how they allocate Bonds among their eligible retail clients and if any Application Monies need to be refunded.

Institutional Offer

Allocations to Institutional Investors were determined by Villa World in consultation with the Joint Lead Managers following the Bookbuild.

4.6 ISSUE AND QUOTATION OF BONDS

It is expected that the Bonds will be quoted on the ASX under the ASX code "VLWHA". If ASX does not grant permission for the Bonds to be quoted by the Issue Date, the Bonds will not be Issued and all Application Monies will be refunded (without interest) as soon as practicable.

It is expected that the Bonds will begin trading on ASX on a normal settlement basis on 27 April 2017.
