DEVELOPMENT

During the quarter, the development of the Donald continued with the following being undertaken:

Feasibility study

DMS has completed the technical aspects of the optimisation of the feasibility study as previously announced and work continues on the capital aspects of the optimisation. Initial indications are that improvements from the updated technical aspects and the use of Chinese equipment will be positive. An updated feasibility study is anticipated to be completed shortly.

Exploration

A Mineral Resource update for the Donald Mineral Sands Project was announced on 7 April 2016 based on the earlier drilling program.

Work Plan and approvals

The work plan is progressing towards submission, anticipated to be in the first half of 2017. As announced on 2 December 2016, DMS has obtained a permit to export Controlled Ores.

Funding

As announced on 13 October 2015, DMS entered into an EPC (engineering, procurement and construction) contract with the China Machinery Engineering Corporation. As announced on 4 October 2016, the parties have agreed to extend the date for satisfaction of conditions precedent under the EPC contract to 1 May 2017 and now extended to 1 December 2017. The parties continue to work towards satisfaction of conditions precedent and improving the projects.
