

ASX RELEASE May 15th, 2017

GetSwift Emerging Markets Expansion

GetSwift Limited (ASX: GSW) ('GetSwift' or the 'Company'), the SaaS solution company that optimises delivery logistics worldwide, is pleased to announce that it will be expanding into emerging markets.

GetSwift will be expanding into a new geographic sector - emerging markets due to a strong demand for its product in order to offer additional global touchpoints for the GetSwift platform. At the request of Pigaeon / Carmedia Concept Group who have declared they will be providing delivery services utilising green energy and eco friendly means across key emerging markets in Europe as part of their pre-existing agreements with Amazon, GetSwift will power the underlying last mile logistic services for this requirement.

Although the company had not planned initially to undertake emerging market sectors this early in its strategic roadmap, the unsolicited strong demand and ease of deployment has accelerated the expansion of its global footprint. The company reaffirms its goal of continuing to aggressively and uniquely pursue its vision of being the global solution for last mile logistics for all organisations regardless of their industry vertical, size or geographic location.
