Axiom Mining Limited ARBN 81 119 698 770

Interim Financial Report for the half-year ended 31 March 2017

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual financial report for the year ended 30 September 2016 and any public announcements made by Axiom Mining Limited ('Axiom' or the 'Company') during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

All amounts in this interim financial report are in Australian dollars unless stated otherwise.

Axiom Mining Limited Directors' report

Your directors submit the financial report of the consolidated group for the half-year ended 31 March 2017.

Directors

The names of directors who held office during or since the end of the half-year:

Mr Ryan R Mount Executive Director and Chief Executive Officer

Mr Jeremy R Gray Non-Executive Director

Mr Robert L Barraket Non-Executive Director and Chairman

Review of operations

Solomon Islands

Isabel Nickel Project

San Jorge

Axiom continued its development activities on its San Jorge Prospecting Licence (PL 01/15) which was granted to the Company in March 2015. In September 2016, Axiom commenced an initial resource definition drilling program (Phase One) over a limited portion of the tenement which included 154 holes over 1,576 meters using 50m by 50m drill pattern across the initial area of focus, supplemented by 25m by 25m infill holes in some areas, as well as sterilisation holes on the edge of the known mineralised zone to assist with boundary identification. On 20 March 2017 the Company announced the successful completion of the Phase One drilling program.

Axiom also submitted an application for a mining lease over the San Jorge tenement in December 2016 and continues regular engagement with the Solomon Islands Government to facilitate the process of licence application where appropriate.

Kolosori

Axiom is awaiting the Solomon Islands Government's decision in relation to its prospecting licence application.

West Guadalcanal Project

Prospecting Licence (PL 01/14) over the West Guadalcanal Project was successfully renewed by the Solomon Islands Government for a further 3 years on 9 May 2017.

The West Guadalcanal Prospecting Licence is adjacent to known gold - silver (Au - Ag) deposits, including the Gold Ridge Mine and boasts potential for epithermal Au and porphyry Cu-Au style deposits. The 3 current exploration targets of Taho, Polo and Mt Tanjili lie within a 10 km long carbonate base metal gold epithermal corridor.

Axiom Mining Limited Directors' report

Corporate

On 1 March 2017 Axiom announced a capital raising which included a private placement of fully paid ordinary shares to raise \$1.5 million at \$0.16 cents with one (1) for two (2) Attaching Options.

On the same date the Company also announced an Entitlement Offer which included a non – renounceable Rights Issue of one (1) for ten (10) ordinary shares at \$0.16 cents with Attaching Options on a seven (7) for four (4) basis along with a Loyalty Bonus Offer of one (1) for eight (8) Loyalty Bonus Options. Loyalty Bonus Options were issued to Eligible shareholders holding 125,000 or more fully paid ordinary shares in the Company at the record date, 16 May 2017.

All Attaching Options and Loyalty Bonus Options were listed, after the reporting period, on the Australian Stock Exchange (ASX) under quotation 'AVQO' with an exercise price of \$0.40 cents and have an expiry date of 14 December 2018.

The Entitlement Offer was completed on 2 May 2017 and raised \$247,316 with the issue of 1,545,723 new Axiom Shares and 2,705,015 Attaching Options. On 19 May 2017 the Company announced the completion of the Loyalty Bonus Offer with the issue of 28,335,371 Loyalty Bonus Options to eligible shareholders. Loyalty Bonus Options were listed on the ASX on 22 May 2017.

On 5 June 2017 the Company announced it had raised an additional \$1 million through a placement of Rights Issue Shortfall as part of the Entitlement Offer announced to the ASX on 1 March 2017. The Shortfall was taken up by InCoR Holdings Plc (InCoR), a long term strategic investor and shareholder in Axiom. The additional investment takes InCoR's holding to 6% of the issued share capital of the Company.

Axiom's Annual General Meeting (AGM) was held on 30 March 2017. with all resolutions passed.

Rounding of amounts

The consolidated group has applied the relief available to it in ASIC Corporations Instrument 2016/191 and accordingly certain amounts in the financial report and the directors' report have been rounded off to the nearest thousand dollars.

Auditor's independence declaration

The lead auditor's independence declaration under S 307C of the *Corporations Act 2001* is set out on page 4 for the half-year ended 31 March 2017.

This directors' report is signed in accordance with a resolution of the Board of Directors.

Director

Robert Barraket

Note 1: Summary of significant accounting policies

Basis of preparation

This consolidated interim financial report for the half-year reporting period ended 31 March 2017 has been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Axiom Mining Limited (Axiom) and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the group for the year ended 30 September 2016, and any public announcements made during the interim reporting period in accordance with the continuous disclosure requirements.

These interim financial statements were authorised for issue on 14 June 2017.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

The group has considered the implications of new or amended accounting standards and has determined that their application to the financial statements is either not relevant or not material.

Mineral exploration expenditure

Mineral exploration, evaluation and development expenditures incurred are capitalised in respect of each identifiable area of interest. These costs are only capitalised to the extent that they are expected to be recovered through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Accumulated costs in relation to an abandoned area are written-off in full against profit or loss in the year in which the decision to abandon the area is made. When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to capitalise costs in relation to that area. Costs of site restoration are provided for over the life of the project from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with local laws and regulations and clauses of the permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Note 1: Summary of significant accounting policies (continued)

Going concern

The consolidated group has recorded a net loss of \$3.5 million for the half-year ended 31 March 2017 (2016: \$17.1 million), had net cash outflows from operations of \$3.6 million for the half-year ended 31 March 2017 and currently has no ongoing source of operating income. At 31 March 2017 the consolidated group had net assets of \$514,000 and the working capital deficiency was \$1.45 million.

The financial report has been prepared on a going concern basis that assumes the realisation of assets and extinguishment of liabilities in the normal course of business and at the amounts stated in the financial statements.

The directors believe the going concern basis is appropriate for the following reasons:

- at 31 March 2017 the consolidated group had cash and cash equivalents of \$927,000
- the ability to raise additional share capital by share placements, options, convertible notes, or rights issue
- the ability to farm out all or part of its exploration projects
- the ability to sell particular exploration projects
- the group successfully raised \$1.5 million by way of private placement in the half-year ended 31 March 2017
- subsequent to the period end on 2 May 2017, Axiom announced it had raised \$248k by way of Rights Issue.
- subsequent to the period end on 5 June 2017, Axiom announced it had raised \$1 million through
 a placement of the Rights Issue Shortfall. The Shortfall was taken up by InCoR Holdings Plc
 (InCoR), a strategic, long term investor.
- the Company is continuing to hold discussions with sophisticated and professional investors for the take up of additional Rights Shortfall Placement from the recent Entitlement Offer and other forms of investment funding.

Accordingly, the directors are confident in the ability of the group and the company to successfully secure sufficient cash inflows to enable it to continue as a going concern and that it is appropriate to adopt the going concern basis of accounting in the preparation of the financial statements.

Note 2: Loss for the period

	Consolidated Half-year Half-year ended ended 31 March 2017 31 March 2016		
	\$000	\$000	
a. Significant items			
The following revenue and expense items are relevant in explaining the financial performance for the interim period:			
Share based payments	-	(2,503)	
Impairment loss on assets / other receivables	-	(730)	
Write-off of capitalised exploration expenditure on areas of interest abandoned during the period	-	(9,132)	

b. Income tax

Income tax expense is recognised based on management's estimate of the weighted average effective annual income tax rate expected for the full financial year. The estimated average annual tax rate used for the year ended 30 September 2016 is 0%. The group had losses as at 31 March 2017. As a result, no income tax was provided.

Note 3: Operating segments

The group's operations are predominately confined to mineral exploration and development within the Solomon Islands and Australia. The group retains a small presence in Vietnam.

The group has identified its operating segments based on the internal reports that are reviewed and used by the management team in assessing performance and determining the allocation of resources. The operating segments are identified by management based on the manner in which the expenses are incurred and resources allocated. Discrete financial information about each of these operating segments is reported to the Board on a regular basis.

The reportable segments are based on aggregated operating segments determined by similarity of expenses, where expenses in the reportable segments exceed 10% of the total expenses for either the current and/or previous reporting period.

Note 4: Contingent assets and contingent liabilities

Contingent assets

As at the date of this report there are no contingent assets.

Contingent liabilities

Following the judgement by the Solomon Islands Court of Appeal on 21 March 2016, Axiom KB Limited was ordered to pay the legal costs of the land appellants. At this stage, the decision on the obligation of payment for the legal cost has not been determined by the Court of Appeal.

Note 7: Events after the end of the interim period

In May 2017, the Company has successfully renewed the prospecting license PL 01/14 over the West Guadalcanal Project. The project is situated in the west of Guadalcanal Island, Solomon Islands; it is highly prospective for epithermal gold-silver and porphyry copper-gold mineralisation.

An Entitlement Offer was completed on 2 May 2017 and raised a total of \$247,316 with the issue of 1,545,723 new Axiom Shares and 2,705,015 Attaching Options on a seven (7) for four (4) basis. New Axiom shares and Attaching Options were issued for quotation on the ASX on 10 May 2017. The Directors have reserved the right to place any or all of the 33,090,111 shortfall Axiom shares and Attaching Options after closing date of the Entitlement Offer.

On 19 May 2017 the Company announced the completion of the Loyalty Bonus Offer with the issue of 28,335,371 Loyalty Bonus Options to eligible shareholders. Loyalty Bonus Options were listed on the ASX on 22 May 2017 under quotation 'AVQO'.

On 5 June 2017 the Company announced it had raised an additional \$1 million through a placement of Rights Issue Shortfall as part of the Entitlement Offer announced to the ASX on 1 March 2017. The Shortfall was taken up by InCoR Holdings Plc (InCoR), a long term strategic investor and shareholder in Axiom. The additional investment takes InCoR's holding to 6% of the issued share capital of the Company.

The Company is continuing to hold discussions with potential sophisticated and professional investors for the take up of additional Rights Shortfall Placement from the recent Entitlement Offer and other forms of investment funding.

All proceeds raised and referred to above are to be used to further develop the Isabel Nickel Project and for on-going working capital of the Company.

Other than the above, the directors are not aware of any other significant events since the end of the interim period.

Axiom Mining Limited Directors' declaration

In accordance with a resolution of the directors of Axiom Mining Limited, the directors of the company declare that:

- 1. The financial statements and notes, as set out on pages 6 to 14, are in accordance with the *Corporations Act 2001*, including:
 - a. complying with Accounting Standard AASB 134: Interim Financial Reporting; and
 - b. giving a true and fair view of the consolidated entity's financial position as at 31 March 2017 and of its performance for the half-year ended on that date.
- 2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Director

Robert Barraket

AXIOM MINING LIMITED ARBN 81 119 698 770 AND ITS CONTROLLED ENTITIES

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF AXIOM MINING LIMITED

Report on the Half-year Financial Report

We have reviewed the accompanying half-year financial report of Axiom Mining Limited, which comprises the consolidated statement of financial position as at 31 March 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Half-year Financial Report

The directors of Axiom Mining Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410: Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of Axiom Mining Limited's financial position as at 31 March 2017 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Axiom Mining Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF AXIOM MINING LIMITED

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Axiom Mining Limited is not in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of Axiom Mining Limited's financial position as at 31 March 2017 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial report, which indicates that the consolidated group incurred a net loss of \$3.5 million; incurred net cash outflows from operations of \$3.6 million and had a working capital deficiency of \$1.45 million as at 31 March 2017. Further the consolidated group had no ongoing source of operating income for the half-year ended 31 March 2017. These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty that may cast significant doubt about the consolidated group's ability to continue as a going concern and therefore, the consolidated group may be unable to realise its assets and discharge its liabilities in the normal course of business and at the amount stated in the financial report. Our conclusion is not modified in respect of this matter.
