Sydney Airport Traffic Performance May 2017

Pax ¹ (‘000s)	Monthly performance			Year to date performance		
	May-17	May-16	Growth (%)	YTD-17	YTD-16	Growth (%)
Domestic	2,187	2,130	+2.7%	11,083	10,994	+0.8%
International ²	1,153	1,066	+8.1%	6,516	6,069	+7.4%
Total	3,340	3,196	+4.5%	17,599	17,063	+3.1%

Sydney Airport Managing Director and CEO Kerrie Mather said, “International traffic growth of 8.1% versus the prior corresponding period (pcp) is the highest May growth rate we have seen in 9 years. Domestic traffic also grew strongly at 2.7% above the pcp, contributing to overall traffic growth of 4.5%.

“International traffic was driven by a combination of higher load factors, and larger, next generation aircraft. It is pleasing to see that over 25% of incremental year-to-date capacity growth has been from airlines upgauging to larger aircraft, whilst over 33% of our total international capacity is being served by next generation aircraft such as the quieter, more fuel efficient Boeing B787 and Airbus A380 aircraft.

“In 2017, I am delighted that airlines have already announced almost one million additional seats into Asia on an annualised basis, reflecting the confidence that our airline partners see in the Sydney and NSW markets. The additional capacity spans right across the Asian continent, including Indonesia, Vietnam, Hong Kong, China, Taiwan and South Korea.”

¹ Due to data availability, all international passenger numbers (including prior corresponding period comparisons) are based on Confirmed Airline Passenger (CAP) data. As per previous information releases, these figures may contain estimates with any adjustments to preliminary statistics included in the year to date results in future months.

² Includes Domestic-On-Carriage.
