Andrew Cole – Chief Executive Officer

A modern
mining company

Disclaimer

Forward looking statements

This presentation has been prepared by OZ Minerals Limited (**OZ Minerals**) and consists of written materials/slides for a presentation concerning OZ Minerals. By reviewing/attending this presentation, you agree to be bound by the following conditions.

No representation or warranty, express or implied, is made as to the fairness, accuracy, or completeness of the information, contained in the presentation or of the views, opinions and conclusions contained in this material. To the maximum extent permitted by law, OZ Minerals and its related bodies corporate and affiliates, and its respective directors, officers, employees, agents and advisers disclaim any liability (including, without limitation any liability arising from fault or negligence) for any loss or damage arising from any use of this material or its contents, including any error or omission there from, or otherwise arising in connection with it.

Some statements in this presentation are forward-looking statements. Such statements include, but are not limited to, statements with regard to capacity, future production and grades, projections for sales growth, estimated revenues and reserves, targets for cost savings, the construction cost of new projects, projected capital expenditures, the timing of new projects, future cash flow and debt levels, the outlook for minerals and metals prices, the outlook for economic recovery and trends in the trading environment and may be (but are not necessarily) identified by the use of phrases such as "will", "expect", "anticipate", "believe" and "envisage". By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future and may be outside OZ Minerals' control. Actual results and developments may differ materially from those expressed or implied in such statements because of a number of factors, including levels of demand and market prices, the ability to produce and transport products profitably, the impact of foreign currency exchange rates on market prices and operating costs, operational problems, political uncertainty and economic conditions in relevant areas of the world, the actions of competitors, activities by governmental authorities such as changes in taxation or regulation.

Given these risks and uncertainties, undue reliance should not be placed on forward-looking statements which speak only as at the date of the presentation. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, OZ Minerals does not undertake any obligation to publicly release any updates or revisions to any forward looking statements contained in this presentation, whether as a result of any change in OZ Mineral's expectations in relation to them, or any change in events, conditions or circumstances on which any such statement is based.

Certain statistical and other information included in this presentation is sourced from publicly available third party sources and has not been independently verified.

OZ Minerals financial results are reported under International Financial Reporting Standards (IFRS). This release includes certain non-IFRS measures including Underlying EBITDA, Underlying EBIT and Underlying NPAT. These measures are presented to enable understanding of the underlying performance of the Company without the impact of non-trading items such as impairment and litigation settlement expense. Non IFRS measures have not been subject to audit or review.

All figures are expressed in Australian dollars unless stated otherwise.

A bit about OZ Minerals

What we do?

- **Based in Adelaide, South Australia**
 - Prominent Hill mine
 - Developing Carrapateena project
 - Exploration projects
- **ASX 100** – Market capitalisation of around \$2 billion.
- **Non-negotiable** – Safety, disciplined capital approach and strong values.

Tjati Decline at Carrapateena

Our portfolio

- Operating Mine
- Developing Mine
- ▲ Exploration

Eloise

- With Minotaur Exploration
- Targeting Cannington style lead/zinc/silver mineralisation + high grade copper/gold mineralisation

Oaxaca

- With Acapulco Gold
- Targeting copper/zinc VHMS systems in southern Mexico

West Musgrave

- With Cassini Resources
- Further scoping study underway
- Commercialisation of copper/nickel magmatic sulphide mineralisation

Portugal

- With Avrupa Minerals
- Targeting shallow IOCG mineralisation in southern Portugal

Yandal One

- With Toro Energy
- Targeting nickel sulphide mineralisation

Prominent Hill Operation

- Open pit and underground operations
- Copper concentrate (containing gold and silver)

Coompana

- With Mithril Resources
- Targeting copper/nickel magmatic sulphide mineralisation

Carrapateena Project

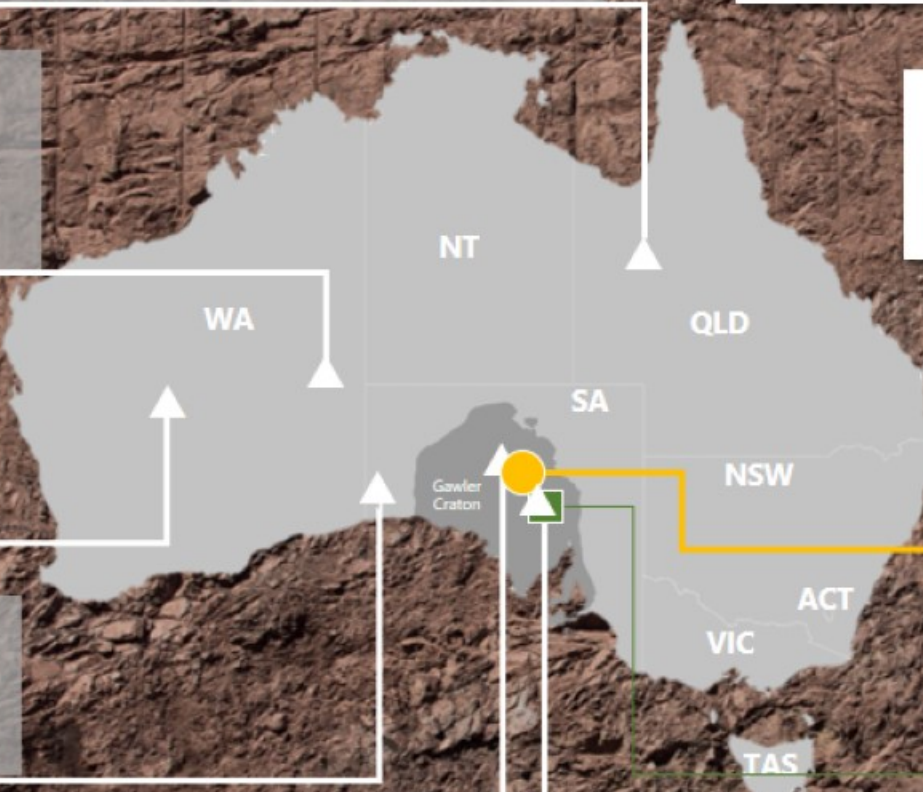

- Feasibility study underway
- IOCG deposit

Mount Woods

- With Minotaur Exploration
- Targeting brownfield copper resources around Prominent Hill

Intercept Hill

- With Red Tiger Resources
- Targeting IOCG mineralisation 30km NW of Carrapateena Project

A bit more about OZ Minerals

A modern mining company

- **Growth strategy** – Creating value for all stakeholders.
- **Lean business** – Fit for purpose today with an agile and flexible approach to opportunity.
- **Customer focus** – Preferred supplier of mineral products to customers.
- **Copper core** – Foundation built on copper with base metals and gold opportunistically pursued.
- **Multiple assets** – Build and maintain a portfolio of valuable, risk managed cash generating assets.

Development work at Prominent Hill mine

Carrapateena

- Copper-gold project
- 20+ year mine life*
- Capable of accommodating advances in technology

Further information about the Carrapateena project is available in the Company's announcement 'Carrapateena Pre-Feasibility Study Executive Summary' released to the ASX on 07 November 2016, which is available at <https://www.ozminerals.com/media/carrapateena-pre-feasibility-study-executive-summary/>

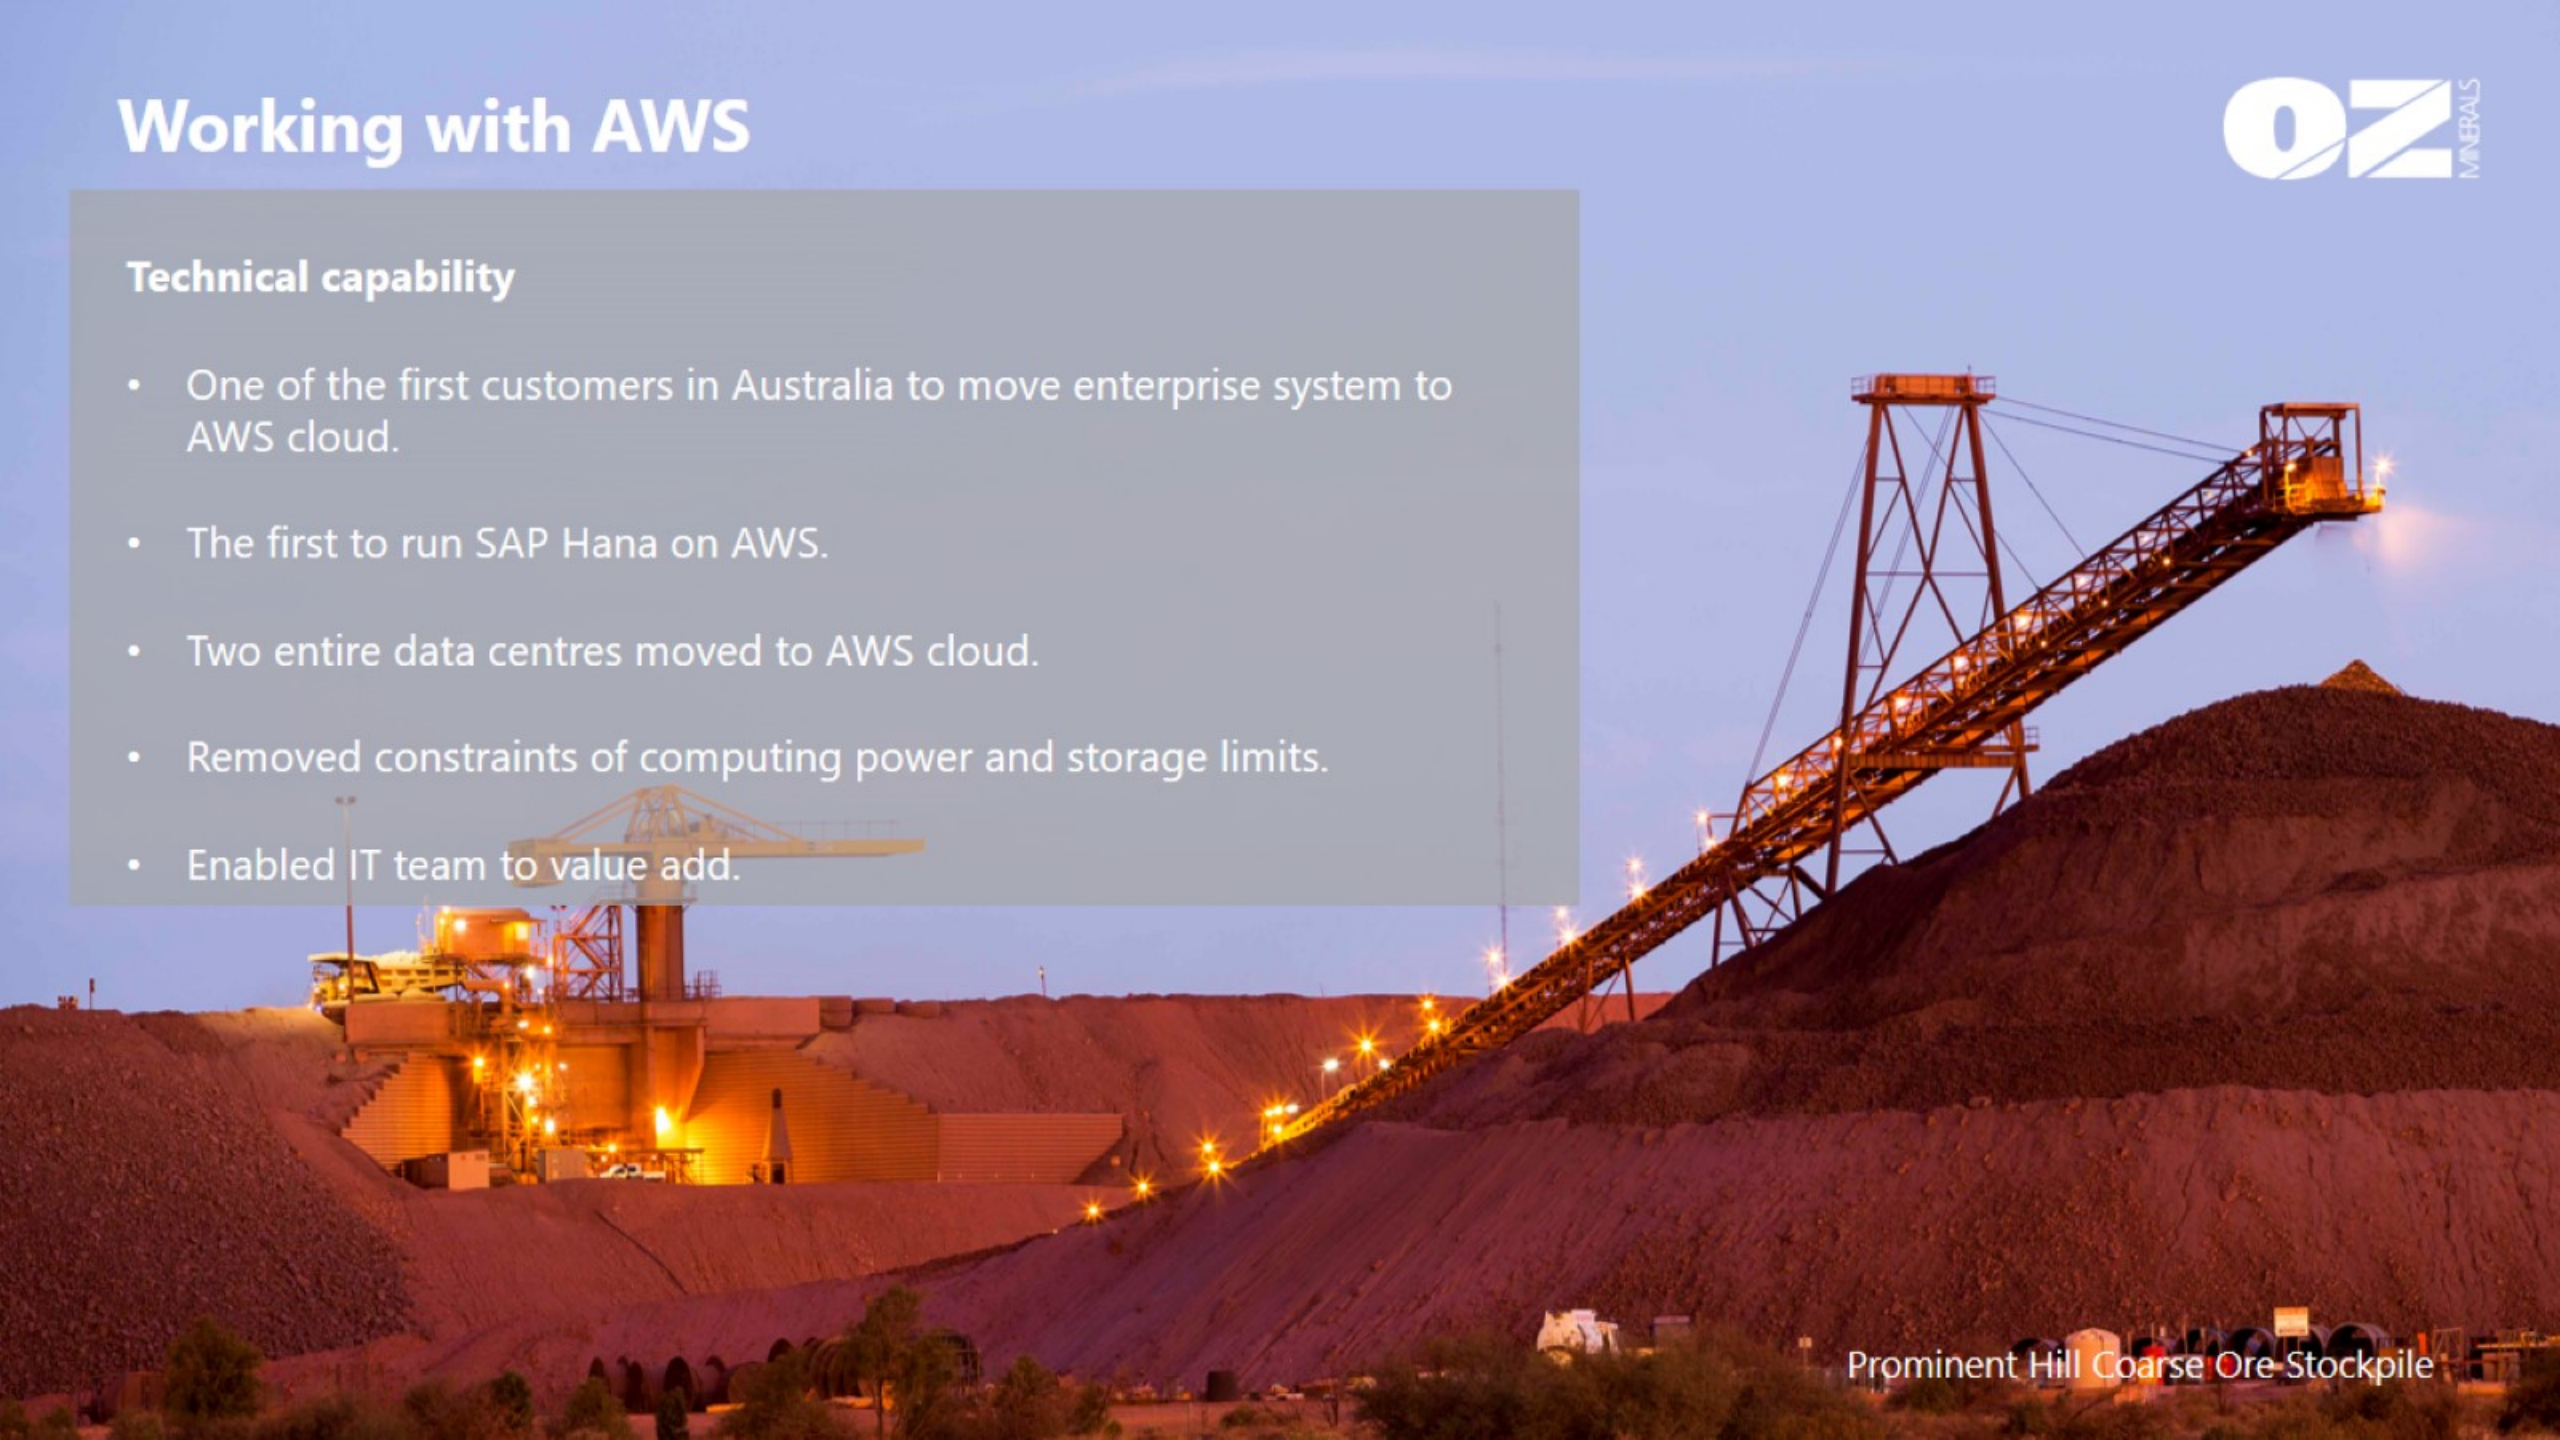

Early works at the Carrapateena project

Working with AWS

Technical capability

- One of the first customers in Australia to move enterprise system to AWS cloud.
- The first to run SAP Hana on AWS.
- Two entire data centres moved to AWS cloud.
- Removed constraints of computing power and storage limits.
- Enabled IT team to value add.

Prominent Hill Coarse Ore Stockpile

Working with AWS

Culture

- Customer experience drives innovation at all levels.
- Set of principles driving culture.
- Using data to problem solve – an aspiration for us.

Inside the Prominent Hill Mine

Working with AWS - 2.0

- 30 TB of geological data uploaded via AWS Snowball.
- Exploration data is valuable for miners requiring access and integration of diverse data sets.
- Reliable data storage a challenge in remote locations, often with no power, communications and water.
- New project with 20+ year mine life needs solid infrastructure to meet evolving requirements.
- Working with AWS on new phase of relationship, enabling us to make better use of collected data.
