

GetSwift Surpasses 2 Million Deliveries

GetSwift Limited (ASX: GSW) ('GetSwift' or the 'Company'), the SaaS solution company that optimises delivery logistics world-wide, is pleased to announce that it has recently powered over two million deliveries.

The company has exceeded the two millionth delivery less than 5 months after reaching its first one million deliveries. Previously it took the company 17 months to reach its first one million deliveries. This result reinforces the companies predictive modelling and continued strategy. GetSwift continues to see unabated growth across multiple sectors and is poised to increase its harvest rates.

With broad reaching appeal, high scalability, simple integration, low risk implementation and a white label offering, the GetSwift platform has the capability to service a significant global market covering a broad range of industry verticals. GetSwift is continuing its global market capture with an expansion to a current 65 verticals, 66 countries and 550+ cities, a marked increase from the previous reported reach.

Executive Chairman, Bane Hunter comments:

"Exceeding 2 million deliveries less than 5 months after reaching our first million deliveries is an important data point and represents a fantastic milestone for the company. We are continuing to implement a strategy geared at making the company a tier 1 global player. Additional data points of note are the expanded seeding of new verticals, countries and cities. Our growth curve continues unabated, with implementation under way to accelerate this even further"
