

ASX RELEASE

18 July 2017

Kyckr signs a multi-year collaborative agreement with Bloomberg

Kyckr Limited (ASX:KYK) ('Kyckr' or the 'Company'), a regulatory technology company, is pleased to announce it has signed a multi-year partnership agreement with Bloomberg to provide access to business registry data to customers of various Bloomberg products, including the Bloomberg KYC Entity Exchange service. The agreement is for an initial three years with options for renewal.

David Cassidy, Kyckr's Managing Director states: "A global blue chip client such as Bloomberg provides the greatest level of validation for what we do and why it's important. The Bloomberg team has been a pleasure to work with and has shown that a big company can have entrepreneurial capability".

Ends.

About Bloomberg

Bloomberg is a global financial data and software company. The company's strength – delivering data, news and analytics through innovative technology, quickly and accurately – is at the core of the Bloomberg Professional service, which provides real time financial information to approximately 325,000 subscribers around the globe.

About Kyckr Limited

A global regulatory technology (RegTech) business, Kyckr provides KYC technology solutions to help protect against money laundering, fraud and tax evasion. Kyckr's solutions are connected to over 180 regulated primary sources, in over 120 countries, providing real-time company registry information on over an estimated 80 million businesses globally. Kyckr provides an automated technology solution to maintain up to date critical company identity information, in place of the traditional error and fraud prone manual people based processes.
