The board operates under a formal charter, which can be found on the Company's website.

(b) Appointments to the Board

When considering the appointment of directors to the board, appropriate checks are carried out. In addition, the board considers and formally resolves to support the election or re-election of directors to shareholders at general meetings/annual general meeting.

The board supplies all material information in relation to the election or re-election of directors for shareholders to make an informed decision, in the notice of meeting and explanatory notes for those meetings.

Non-executive directors are appointed pursuant to formal letters of appointment which, among other things, set out the key terms and conditions of the appointment, the Board's expectations in relation to the performance of the director, procedures for dealing with a director's potential conflict of interest and the disclosure obligations of the director, together with the details of the director's remuneration.

The board has established the following standing committees, which assist it with the execution of its responsibilities. The composition and effectiveness of the committees are reviewed on an annual basis:

(e) The Company Secretary

The company secretary acts as secretary of the board, attending all meetings of the board and its committees. The company secretary is accountable to the board through the chairperson on all corporate governance matters and the proper functioning of the board.

(f) Diversity

In appointing members to the board, consideration is given to the skills, business experience and educational backgrounds of candidates. The advantage of having a mix of relevant business, executive and professional experience on the Board; the importance of cultural and ethical values; and the benefits of diversity, including gender diversity are also recognised. These factors, in addition to identified skills gaps, were considered in the new appointments to the board.

The Nomination Committee oversees the director nomination process. Ultimately, the full board determines who is invited to fill a casual vacancy after one-on-one and collective interviews with candidates and thorough due diligence and reference checking.

The board currently has two female non-executive directors out of seven directors, Dr Cherrell Hirst and Ms Judith Downes.

A formal Diversity Policy has been adopted by the board that outlines the Company's commitment to diversity in the workplace and the provision of a work environment that is free from discrimination and promotes equal opportunity for all. ImpediMed promotes an inclusive workplace where employee differences in areas like gender, age, culture, disability and lifestyle choice are valued. The company has a diverse mix of employees with the appropriate qualifications for roles within the current business.

The Company's employees bring unique skills, perspectives and experience that ultimately drive improved business performance.

The policy does not include measurable objectives for achieving gender diversity. The board has considered setting gender diversity targets, but decided that as the Company already recruits on the basis of no bias and has a culture that supports workplace diversity, the establishment of gender diversity targets should not be put in place at this time. This will be considered again during FY18.

As at 30 June 2017, the following gender diversity levels were evidenced in the Company:

- The proportion of female directors: 28.57%,
- The proportion of female employees who are vice presidents and above: 40%
- The proportion of female employees in the whole organisation: 42%

(g) Board and director performance

The board is committed to enhancing its effectiveness through performance management and review. The board review process is designed to help enhance performance by providing a mechanism to raise and resolve issues and to provide recommendations to enhance its effectiveness.

In June 2017, the board conducted a formal, structured evaluation that involved each director completing a confidential questionnaire covering the role, composition, processes and the carrying out of its responsibilities. The results of the questionnaire and an analysis of these results were reported to the board.

Results of the evaluations consistently indicate that the perception of the role, the composition, function, procedures, working style, behaviours and administration of the board are effective and that the board is performing well.

In relation to the board, the evaluation identified that the high quality of interaction between board members and the relationship between the board and management, and the board's strong understanding of the business were key factors in its effective function.

The evaluation process noted strengths, recommended improvements and identified areas for increased focus.

Non-executive directors receive director's fees outlined in their letters of appointment and the level of remuneration is reviewed periodically with reference to external benchmarking.

(h) Senior Executives

The board delegates the responsibility for the day-to-day management of the Company to the Chief Executive Officer/Managing Director (**CEO/MD**), who is assisted by the senior executives who report to him.

The CEO/MD consults with the chairman on any matters that the CEO/MD considers are of such a sensitive, extraordinary or strategic nature as to warrant the attention of the board, regardless of value. The authorisation thresholds for the control of expenditure and capital commitments are established and defined in the Company's Delegated Authority Policy, which are set to optimise the function and decision-making of the executive as the Company continues to grow and expand, whilst maintaining appropriate oversight by the board.

Subject to these policy limits and the directions of the Audit and Risk Management Committee, the CEO/MD may sub-delegate the day-to-day running of the Company to the senior executive team. The exercise of delegated authority is restricted to specific organisational functions and roles.

The Delegated Authority Policy details the delegated thresholds for various types of commitment and individual positions, as well as the authorisation processes required to be followed.

All senior executives are appointed to their positions after a rigorous recruitment process. Each member of the senior executive team, including the executive director, have signed formal employment contracts at the time of their appointment, covering a range of matters including their duties, rights, responsibilities and any entitlements on termination. Each contract refers to a specific formal job description. Each contract sets out the remuneration of the executive, including their entitlements to any rights under incentive plans.

(i) Performance of Senior Executives

The evaluation for all executives is based on specific criteria, including the business performance of the Company, whether strategic objectives are being achieved, and the development of management and personnel.

The CEO/MD's performance is formally assessed on an annual basis by the board. All Key Performance Indicators (**KPIs**) are carefully considered by the Remuneration Committee, which evaluates the CEO/MD's performance and makes recommendations to the board.

An annual assessment of the performance of all other senior executives is undertaken by the board on the basis of recommendations by the CEO/MD, who conducts performance reviews in relation to each senior executive.

A performance evaluation for all senior executives, including the CEO/MD, was undertaken in the reporting period in accordance with the process disclosed above.

Further information on directors' and executives' remuneration, including principles used to determine remuneration and KPIs, is set out in the Annual Report under the heading "Remuneration Report".

Principle 2: Structure the board to add value

(a) Board size and composition

The table below sets out the skills and experience considered by the board to be important for its directors to collectively possess. This information presented has been taken from the board's current skills matrix that was reviewed and updated during the 2016-17 financial year.

Each of the stated skills in the table represents a competency that the board believes it requires to effectively discharge its duties. The board via the use of its skills matrix has assessed the relevant level of each competency on the board and although collectively some competencies and skills have a higher expertise or skill level than others, the board is of the opinion that collectively it has an adequate skill level for all competencies to discharge its duties.

The board noted that the skill areas of IT, social media and new technology were potential areas of weakness in the collective skill set of the board. These skills gaps have been largely filled with the appointment of Mr Patel to the board and additional management capability in these areas.

In addition to the skills and experience set out in diagram below, the board considers that each director has the following attributes:

- Honesty and integrity;
- The ability to think strategically;
- The time available to devote to ImpediMed's business;
- A willingness to question and challenge; and
- A commitment to the highest standards of governance.

All directors are expected to use their range of relevant skills, knowledge and experience and to apply their judgement to all matters discussed at Board meetings.

The table below illustrates the extent to which the current board fulfils each of the identified required skills of the board. These percentages are extracted directly from the board skills matrix, where directors are rated on their level of competence in each identified skill.

The board's current tenure and diversity are depicted in the diagrams below. The board promotes diversity in line with its policy and diversity is a consideration when making board appointments.

(c) Director Appointments

Under the Nomination Committee Charter, the Committee reviews and where appropriate, makes recommendations to the board on the size and composition of the board, including assessment of necessary and desirable competencies of board members. To this end, the Nomination Committee periodically assesses the appropriate mix of competencies, skills, experience and expertise required by the board and assess the extent to which the required skills and experience are represented on the board.

The Nomination Committee is also responsible for reviewing and making recommendations to the board on its membership, including recommendations for the appointment and re-election of directors and where necessary, proposing candidates for consideration by the board. The Nomination Committee must have regard to the factors set out in the Nomination Committee Charter, including that the board should comprise directors with a broad range of skills, expertise and experience from a diverse range of backgrounds in accordance with the Diversity Policy.

Ultimately, the full board determines who is invited to fill a casual vacancy after extensive one-on-one and collective interviews with candidates and thorough due diligence and reference checking. In accordance with the Company's Constitution, a director appointed by the Board holds office until the conclusion of the next Annual General Meeting when he or she will be eligible for election at that meeting.

The Nomination Committee's current membership is set out earlier in this Statement and the independence of the members is discussed below.

(d) Director Remuneration and Induction

Non-executive director remuneration is reviewed on an annual basis.

A director induction program has been designed and directors are expected to participate in this induction and orientation program on appointment.

(e) Directors' independence

The board has considered specific principles in relation to directors' independence. The board considers an independent director to be a non-executive director who is not a member of the Company's management and who is free of any business or other relationship that could materially interfere with, or could reasonably be perceived to interfere with, the independent exercise of their judgement. The board will consider the materiality of any given relationship on a case-by-case basis, having regard to both quantitative and qualitative principles.

On an annual basis, the board assesses the independence of all directors against the criteria outlined in Box 2.3 of the third edition of the ASX Recommendations.

Dr Cherrell Hirst AO, Mr Scott Ward, Mr Gary Goetzke, Mr Amit Patel, Mr Don Williams and Ms Judith Downes are considered by the board to be independent.

Dr Cherrell Hirst AO is considered by the board to be independent despite being on the board for twelve years. During her tenure, management of the Company and the majority of the board have been refreshed, so there is no risk of her independence having been compromised by becoming too close to management. On the contrary, Dr Hirst's experience in the industry and knowledge of the history of the Company is considered an asset to the board.

Given the executive position held by Mr Carreon, he is considered to be non-independent based on the criteria in Principle 2 of the ASX Recommendations.

Based on this assessment the board has a majority of independent directors.

(f) Directors' interests

Directors are required to keep the board advised of any interest that may be in conflict with those of the Company, and restrictions are applied to directors' rights to participate in discussion and to vote, as circumstances dictate when a conflict has been identified. In particular, where a potential conflict of interest may exist, directors concerned may be required to leave the board meeting while the matter is considered in their absence.

The Company has also entered into a deed of disclosure with each director, which is designed to facilitate the Company's compliance with its obligations under the ASX Listing Rules relating to disclosure of changes in directors' interests in ImpediMed securities. Directors and their nominated related party shareholdings, are also monitored to identify changes that may require urgent disclosure.

Standing items at each board meeting include:

- Director's Shareholding Register; and
- Director's Standing Notice Register.

(g) Chair of the board

The same individual does not occupy the role of chair of the board and CEO/MD. The board has agreed that it should continue to have a majority of independent non-executive directors, that the positions of chair and CEO/MD must be separate, and that the chair should be an independent non-executive director.

Dr Cherrell Hirst was appointed chair of the Company on 8 November 2011 and is considered an independent non-executive director as outlined above.

(h) Board meetings

The board typically schedules meetings on a bi-monthly basis, with additional meetings convened as required. Agenda's for each meeting are prepared by the company secretary together with the chair and input from the CEO/MD and CFO, and are distributed prior to the meeting together with supporting papers.

Standing items include the CEO/MD's report and the financial report, as well as reports addressing matters of strategy, governance and compliance. Senior executives are directly involved in board discussions as required.

(i) Independent advice

The board has a policy of enabling directors to seek independent professional advice for Company related matters at the Company's expense, subject to the prior notification of the Chair and where the estimated costs are considered to be reasonable.

Principle 3: Act Ethically and Responsibly

(a) Code of conduct and ethical behaviour

The board acknowledges the need for high standards of corporate governance practice and ethical conduct by all directors and employees of the Company.

The board has endorsed a code of conduct which outlines 'acceptable behaviour' and attitudes expected from all staff to promote and maintain the confidence and trust of all those dealing with the Company.

The Company's Code of Conduct may be viewed on the Company's website.

Various measures have been established to ensure that a high standard of ethical business behaviour is observed by all staff members, including policies and procedures for:

- managing conflicts of interests;
- personal security trading;
- whistleblower procedures; and
- handling confidential information.

In addition to their obligations under the Corporations Act in relation to inside information, all directors, employees and consultants have a duty of confidentiality to the Company in relation to confidential information they possess.

(b) Employee and director trading in ImpediMed securities

The Company has a Security Trading Policy that governs the ability of directors, executives and employees to trade in the Company's securities. Subject to necessary prior written consents being obtained, the Company's directors, executives and employees may trade in the Company's securities at any time except during the following prohibited periods:

- Two weeks prior to the half year end, to the close of trading on the business day after ImpediMed's half yearly results are announced to the ASX;
- Two weeks prior to the financial year end, to the close of trading on the business day after ImpediMed's annual results are announced to the ASX (for clarity, the release of the preliminary financial report will trigger this clause, noting that ImpediMed usually releases final results concurrently with preliminary results);
- Four weeks prior to the Annual General Meeting (**AGM**) and ending on the close of trading on the business day after the AGM is held; and
- During any extension to the above closed periods, and during any additional Prohibited Periods, as declared by the Board. The Board has complete discretion on the opening of Prohibited Period at any time, irrespective of the periods outlined above.

Directors and senior executives may, in exceptional circumstances as defined in the policy, trade in prohibited periods but only with the prior written consent of the chair for directors, the company secretary for other applicable employees. Notwithstanding the trading windows and approval requirements, a person is prohibited from trading at any time if they possess material, price-sensitive information about the Company that is not generally available to the public.

The policy also prohibits short term trading, margin lending, short selling and hedging of the Company's securities.

The Company's Securities Trading Policy may be viewed on the Company's website.

Principle 4: Safeguard integrity in corporate reporting

The Audit and Risk Management Committee is responsible for assisting the board in discharging its responsibilities to safeguard the integrity of the Company's financial reporting and the system of internal control. A key component of the committee's role is to provide appropriate advice and recommendations to the board to assist the board to fulfil its responsibilities in regard to financial reporting, the internal control environment, and audit management where appropriate across the Company.

The Audit and Risk Management Committee operates pursuant to a Charter (available on the Company website) which takes into account the roles and responsibilities of the Audit and Risk Management Committee as well as contemporary governance practices. The Charter includes details on the appointment and oversight of the external auditor. The Company will ensure the external auditor is available to shareholders at the annual general meeting to answer any questions they may have about the Company's external audit.

The Audit and Risk Management Committee's current membership, the independence of the members and details of Audit and Risk Management Committee meetings and attendance by each Committee member are set out earlier in this Statement and the Directors Report in the Annual Report.

The qualifications and experience of the members of the Audit and Risk Committee are outlined in the Directors Report in the Annual Report and earlier in this Statement where skills of each of the Directors is addressed.

In accordance with section 295A of the Corporations Act and Recommendation 4.2 of the ASX Recommendations, before it approves the entity's financial statements for a financial period, the Board receives from its CEO/MD and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Principle 5: Make timely and balance disclosure

The Company is committed to complying with its continuous disclosure obligations under the ASX Listing Rules and Corporations Act and to ensuring that its shareholders are kept well-informed of all major developments affecting the Company's state of affairs, in order to promote transparency and investor confidence.

The Company has a Disclosure Policy and it incorporates the continuous disclosure framework as set out in the ASX Listing Rules Chapter 3, as well as the revised ASX Listing Rules Guidance Note 8. This policy is available on the Company's website.

The policy creates a framework for compliance with relevant disclosure obligations and establishes the accountability of the board for achieving compliance. More specifically, the policy:

- Explains the Company's obligations under ASX Listing Rule 3.1 and the Corporations Act 2001;
- Establishes internal processes for reporting of information considered to be potentially price-sensitive and for consideration of information reported by the board;
- Establishes processes for the disclosure of price sensitive information, taking into account the clarification provided by ASX Guidance Note 8;
- Establishes internal processes for briefing of analysts, investor and media groups, responding to market speculation, leaks and rumours and calling trading halts where appropriate to avoid trading occurring in an uninformed market;
- Outlines authorisation procedures for ASX announcements; and
- Delegates to the company secretary the authority to release information or make disclosures to the ASX and responsibility for decisions regarding price sensitive information, coordinating disclosures, establishing and monitoring procedures under this policy and making recommendations to the board on any necessary updates to the policy.

Principle 6: Respect the rights of security holders

The board aims to ensure that its shareholders are kept well-informed of all major developments and business events that are likely to materially affect the Company's operations and financial standing, and the market price of its securities. Information is communicated to shareholders through:

- The Company's website in the Investors section;
- Annual and half year financial reports lodged with the ASX and made available to all shareholders;
- Announcement of market-sensitive and other information, including annual and half year results announcements, quarterly cashflow reports and analyst presentations released to the ASX; and
- The chairman and CEO/MD's addresses to, and the results of, the annual general meeting.

The Company's website contains a large amount of information for investors and is all contained in the investors section.

The following information for investors is located in the Investors tab:

- Share Price details;

- ASX releases;
- Shareholder reports;
- General information about the company;
- Contact details (including the email address for investor relations);
- Share registry information and contact details;
- Details on the board of directors and the management team; and
- Corporate Governance information – including Charters and Policies.

The Company's Disclosure Policy includes a formal procedure for dealing with potentially price-sensitive information. The policy sets out how the Company meets its disclosure obligations under ASX Listing Rule 3.1. The Company's policy is to lodge with the ASX and place on its website all market-sensitive information, including annual and half year result announcements, quarterly cashflow reports and analyst presentations, as soon as practically possible.

The Company produces two sets of financial information each financial year: the half year financial report for the six months ended 31 December and the annual financial report for the year ended 30 June. The Company also prepares quarterly cashflow reports. All are made available to shareholders and other interested parties via the Company website and the ASX.

Shareholders have the right, and are encouraged, to attend the Company annual general meeting, held in October or November each year, and are provided with explanatory notes on the resolutions proposed through the notice of meeting. A copy of the notice of meeting is also posted on the Company website and lodged with the ASX.

Shareholders are encouraged to vote on all resolutions and unless specifically stated otherwise in the notice of meeting, all shareholders are eligible to vote on all resolutions. Shareholders who cannot attend the annual general meeting may lodge a proxy in accordance with the Corporations Act. Proxy forms may be lodged with the share registry by mail, hand delivery, facsimile or electronically.

Transcripts of the chairman and CEO/MD's reports to shareholders are also released to the ASX upon the commencement of the annual general meeting. These transcripts, together with the results of the annual general meeting are also posted on the Company website and the ASX.

The Company has a communications plan and an investor relations calendar providing information of key dates impacting shareholders, analyst briefings and conferences.

All shareholders are provided the option to receive communications from the Company and the share registry electronically (and are encouraged to do so, with election documentation included in regular mail outs to shareholders).

Principle 7: Recognise and manage risk

The board is responsible for ensuring that sound risk management strategy and policies are in place. The board has delegated to the Audit and Risk Management Committee the responsibility for identifying and overseeing major risks and ensuring that systems are in place to manage them.

In addition, the Audit and Risk Management Committee:

- Identifies and assesses the Company's material business risks;
- Regularly reviews and updates the Company's risk profile; and

- Oversees the risk management policies and systems.

The Audit and Risk Management Committee's current membership and the independence of the members are set out earlier in this Corporate Governance Statement. Details of Audit and Risk Management Committee meetings and attendance by each Committee member are outlined earlier in this Statement and in the Directors Report Contained in the Annual Report.

This committee has at least one meeting per year to review and assess the Company's risk management framework and to review the identification and management of the key risks of the business and the mitigation of those risks where possible.

The committee considers risk matters on an ongoing basis and undertook a formal review of its risk management framework during the year ended 30 June 2017.

It is intended that this framework will be subject to another formal review during FY18 together with the consideration of risk matters on an ongoing basis.

(a) Internal Audit

The Company does not have an internal audit function as the board considers the Company not of the size to warrant such a function.

The Company's risk management framework is integrated with its day-to-day business processes and functional responsibilities. Risks are monitored and managed by management reporting to the Audit and Risk Management Committee on such matters.

(b) Economic, environmental and social sustainability risks

In accordance with Recommendation 7.4, the Audit and Risk Committee has considered whether the group has any material exposure to economic, environmental and social sustainability risks and determined that there is no material exposure to these risks.

Principle 8: Remunerate fairly and responsibly

The board has established a Remuneration Committee, which in accordance with its Charter (available on the Company's website), is responsible for reviewing and making recommendations to the board in respect of:

- Executive remuneration;
- Executive incentive plans;
- Remuneration of the Company's key management personnel;
- Equity based incentive plans;
- Recruitment, retention, performance measurement and termination policies and procedures for non-executive directors, the CEO/MD and any other executive director and all senior executives reporting directly to the CEO/MD; and
- The disclosure of remuneration in the Company's Annual Report.

The Remuneration Committee's current membership and the independence of the member's are set out earlier in this Corporate Governance Statement. Details of Remuneration Committee meetings and attendance by each Committee member are also outlined earlier in this Statement and in the Directors Report contained in the Annual Report.

The Company distinguishes the structure of non-executive directors' remuneration from that of executive directors and senior executives.

ImpediMed's policy is to reward executives with a combination of fixed, performance-based and equity-based incentives. In relation to ASX Recommendation 8.3, the Company's Security Trading Policy prohibits employee shareholders (which includes those that have obtained shares via the equity-based remuneration scheme) short-term trading, margin lending, short selling and hedging of the Company's securities.

Non-executive directors receive board fees that are set having regard to the responsibilities and risks of the role and market competitiveness. To create alignment between non-executive directors and shareholders, non-executive directors are encouraged to hold ImpediMed securities. The Company has adopted a policy of directors holding a minimum holding of ImpediMed shares equivalent to one-times annual director fees (after tax) over a five-year period, with an expectation that shares are held for the duration of their directorship. Conversely to preserve independence and impartiality, no element of non-executive director remuneration is 'at risk' (that is, it is not based on the performance of the Company).

For details of the Company's remuneration structure, please refer to the Remuneration Report contained within the Annual Report.

This Corporate Governance Statement was approved by a resolution of the board on 22 August 2017.
