ASX RELEASE

31 August 2017

HURRICANE HARVEY

Ardent Leisure Limited and Ardent Leisure Management Limited in its capacity as responsible entity of the Ardent Leisure Trust (together, **Ardent, Group**) (ASX: AAD) today provides an update on the status of its operations that have been impacted by Hurricane Harvey in the US.

The Main Event business operates five centres in the immediate Houston area which have been affected by the impact of Hurricane Harvey.

These five centres have been closed since the hurricane struck the coast on 26 August 2017 and have sustained varying degrees of damage. The level of damage is currently being assessed but this process is hampered by access and utility issues.

At this stage, Ardent expects three of the centres to re-open within seven days. The opening of the fourth centre is likely to be delayed, possibly one to two months. The fifth centre has sustained more extensive damage and it is not possible at this time to determine a likely re-opening timeframe. This represents the current preliminary assessment of the Main Event team who are managing the situation on the ground, but remains subject to change based on further evaluation work and changes in prevailing weather and environmental conditions.

A further three centres in adjacent areas outside of Houston are being assessed for any damage, although at this stage any damage to these is considered to be minor.

The Group maintains property and business interruption insurance coverage which is expected to cover any costs and loss of earnings.

Main Event is working on an employee assistance program for those have been affected by this situation.

The Group will provide additional information or updates in the event of any material change in circumstances.
