## **ACT LAND ACQUISITION – EXTENSION TO COMPLETE**

The directors of Integrated Green Energy Solutions Ltd (“IGES”, or “the Company”) are pleased to advise that, following detailed discussions with the ACT Suburban Land Agency (“SLA”) regarding a range of options, an amicable and constructive solution has been reached and the parties have agreed to defer completion on the Hume site.

The revised completion date is 20 October 2017. With this revised approach both parties meet their contractual obligations. The extension provides time for IGES to complete its capital raise of up to \$15 million and for the Company to carry out its growth strategy as outlined in the recently released prospectus.
