OVERVIEW

COMPANY PROFILE

Flagship Investments Limited (the “Company”) commenced operations in April 1998 and is a listed investment company providing investors with access to an expertly crafted quality portfolio of Australian growth companies.

The portfolio is managed by EC Pohl & Co Pty Ltd which has a strong funds management investment team renowned for its stability, track record and sound investment process.

The composition and performance of the investment portfolio is monitored by the Board of Directors, which comprises business people with many years of experience in the business, investment and funds management.

There is no fixed management fee. The Manager receives a fee which is performance based and payable annually in arrears if the Company's investments outperform the returns on a cash investment. If the Company's net performance is less than the returns on a cash investment, no performance fee is payable ensuring the Manager is focused on absolute returns to Shareholders (“Shareholders”).

MISSION

Creating Shareholder wealth through active management of a portfolio of ASX listed quality growth companies.

OBJECTIVES

The investment objectives of Flagship Investments Limited are:

- ◆ To achieve medium to long-term capital growth and income through investing in a diversified portfolio of Australian companies;

INVESTMENT MANAGER

The management of the Company's investment portfolio is undertaken by EC Pohl & Co Pty Ltd, which provides administration support even when a performance fee is not paid.

The Manager's investment strategy centres on the view that investing in high quality business franchises with the ability to grow sales and earnings at rates above Gross Domestic Product (GDP) growth, will produce superior investment returns over the long-term.

The Company's portfolio of investments comprises companies whose operations cover a wide spectrum of business activities and the portfolio is constructed from the perspective of a business owner, by investing in well managed companies and not simply by tracking the index weighting of various component stocks.

Dr Manny Pohl is the Managing Director and major shareholder of EC Pohl & Co Pty Ltd.

CHAIRMAN'S REPORT

Dear Investor,

I am pleased to present the 20th Annual Chairman's Report of Flagship Investments Limited for the 2016/17 financial year.

THE YEAR IN REVIEW

In spite of the political turmoil during the year, the Australian share market produced a reasonable return over the period with the All Ordinaries Index rising by 8.5%. The past financial year was very much a year of two halves as growth stocks underperformed during the first half of the year when (political) uncertainty caused future growth to be heavily discounted. This was reversed over the course of the latter part of the financial year as discerning investors paid up for quality growth companies once again. However, it can be said, that large cap stocks have dominated active share returns in the market during the year with small caps under-performing. This shift to large cap companies as well as the strong performance from the Materials sector, has meant that the portfolio marginally underperformed the market with an 8.0% return. At a stock level, the top five performing stocks over the past year were Whitehaven Coal(+167%), A2 Milk(+115%), Bluescope Steel(+107%), Qantas(+102%) and Sims Metal(+94%). The only stock in this list that meets our definition of a high-quality growth company is A2 Milk, a company we added to the portfolio in January 2017 capturing the majority of its performance for the year. The other businesses in this list do not have a history of delivering sustainable, consistent earnings growth over the long-term and in our view are unlikely to be in this list over a longer time horizon.

The Net Tangible Asset (NTA) per share of the Company increased by 0.6% in 2016/17, after paying dividends of 7.25 cents per share or 4.0% of the 2017 NTA.

The After Tax Profit of the Company (before the performance fee) increased by 1.5%.

Although revenue for the year decreased slightly (0.2%), overheads decreased before performance fee by 22.8%. Net increase in Total Assets which includes fair value of investments, cash and dividends receivable was 2.0%.

THE MARKET OUTLOOK

The first six months of the financial year was a very unusual period where pretty much everything we stood for, was working against us. A recent report published by Macquarie Bank indicated that in 2016 active management faced headwinds resulting in returns being down in the first quartile. Moreover, the moves were relatively large in standard deviation terms, indicating to us that the market was at an inflection point at the end of 2016. This proved to be the case as stock selection and quality factors enabled us to perform against the broader market once again.

Over time we believe we can drive returns through stock selection and this has been the case in 2017 with normality returning to the market. Furthermore, we are comfortable with the long-term fundamental drivers of return in our portfolio, and have maintained our positioning despite considerable market pressure. In our view, companies with strong market positions, strong balance sheets and good management, will continue to perform well and reward patient investors, although we expect market returns to be modest again in the coming year.

DIVIDEND

Notwithstanding the excellent performance of our investments, the Board has decided to adopt a conservative approach and approve a final dividend for the year of 3.75 cents per share. It represents an overall dividend for the year of 7.25 cents per share, fully franked.

There is no LIC attributable capital gains tax deduction available again this year, however there is a LIC attributable amount attached to future dividends, refer Note 15(d).

THE INVESTMENT MANAGEMENT TEAM

I particularly want to record my appreciation and that of the Board as a whole, to our Investment Manager led by Dr Manny Pohl and his team of professionals at E C Pohl & Co. In only four of the past 19 years, has the Company's portfolio failed to outperform – and in most cases, comprehensively – the performance of the All Ordinaries Index. Our continuing success could not have been achieved without the outstanding contribution of these very committed individuals.

THE BOARD

In a year of transition from our previous Chairman, Mr Henry Smerdon AM, I particularly want to thank my fellow Board members for their support and input throughout the past year.

In terms of Henry, while he stepped down as Chairman in November 2016, his legacy is to have left the Company in excellent health and a deep and established culture of high performance by the Investment Manager and the Board.

Separately, I would like to acknowledge our Company Secretary, Mr Brian Jones, whose efforts have allowed the Board to complete its function efficiently and expeditiously (and, while they have otherwise attended all meetings, agreed to act as alternate to Ms Sophie Mitchell and myself).

In conclusion, I want to thank Shareholders most sincerely, for their on-going support and look forward to another good year ahead.

Yours sincerely

Signature

Chairman

DIRECTORS' REPORT (Continued)

3. PRINCIPAL ACTIVITIES

The principal activity of the Company is investing in securities listed on the Australian Securities Exchange. There have been no significant changes in the nature of this activity during the year.

4. REVIEW OF OPERATIONS

Our portfolio performed in line with the market, increasing by 8.0% over the twelve months, while the NTA increased by 0.6% after tax (on realised gains only) to \$1.83 after paying dividends of 7.25 cents per share to Shareholders during the year.

Overall performance of the Australian equity market was driven by a heightened level of uncertainty in the world's major economies and local investors seeking yield. The Australian share market, as represented by the All Ordinaries Index, increased by 8.5%.

Once again high quality businesses were recognized as such by the market and marked up, while the speculative resource companies remain under pressure.

As our investment horizon is three to five years, we believe there is significant capital appreciation potential for the portfolio.

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Significant accounting policies adopted in the preparation of these financial statements are presented below and are consistent with prior reporting periods unless otherwise stated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Balance Sheet Format

The Statement of Financial Position is in a liquidity format. The adoption of a liquidity format results in the removal of the terms "current asset" and "non-current asset" from the Statement of Financial Position, in favour of the general term "assets".

(b) Revenue and Other Income

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Company and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue is measured at the fair value of the consideration received or receivable and is presented net of returns, discounts and rebates.

All revenue is stated net of the amount of Goods and Services Tax (GST).

Interest Revenue

Interest is recognised using the effective interest method.

Dividend Revenue

Dividends are recognised when the entity's right to receive payment is established.

(c) Income Tax

The income tax expense recognised in the Statement of Profit or Loss and Other Comprehensive Income comprises of current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in Other Comprehensive Income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

(d) Goods and Services Tax (GST)

Receivables and payable are stated inclusive of GST.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Statement of Financial Position.

Cash flows in the Statement of Cash Flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

FINANCIAL REPORT *(continued)*

FLAGSHIP INVESTMENTS LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

(f) Financial Instruments *(continued)*

Financial Assets At Fair Value Through Other Comprehensive Income

The Company is a long-term investor in equity instruments. Under AASB 9, these investments are classified as fair value through Other Comprehensive Income. After initial recognition at fair value (being cost), the Company has elected to present in Other Comprehensive Income changes in fair value of equity instruments investments.

Unrealised gains and losses on investments are recognised in the Asset Revaluation Reserve until the investment is sold or otherwise disposed of, at which time the cumulative gain or loss is transferred to the Asset Realisation Reserve.

The Company derecognises an investment when it is sold or it transfers the investment and the transfer qualifies for derecognition in accordance with AASB 9. Upon derecognition, unrealised gains/losses net of tax relating to the investment are transferred from the revaluation reserve to the realisation reserve.

Available-For-Sale Financial Assets

These investments are measured at fair value.

Unrealised gains and losses arising from changes in the fair value of these assets are taken directly to Other Comprehensive Income and accumulated in Equity.

When these financial Assets are sold, the accumulated fair value adjustments are reclassified from Equity to the profit or loss as gains and losses on sale.

Available-For-Sale Financial assets are assessed at each reporting date to determine whether there is an objective evidence that it is impaired. In the case of Available-For-Sale Financial Instruments, a significant or prolonged decline in the value of the instruments below cost is considered to be evidence of whether or not impairment has arisen.

Any cumulative impairment loss in respect of an Available-For-Sale Financial Asset previously recognised in equity is reclassified to profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For Available-For-Sale Financial Assets that are debt securities, the reversal is recognised in profit or loss. For equity securities, the reversal is recognised in Other Comprehensive Income.

Loans and Receivables

Loans and receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Trades receivables are due for settlement no more than 30 days from the date of recognition.

Collectability of loans and receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due, according to the original terms of the receivables.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired.

The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial. The amount of the provision is recognised in the Profit or loss in other expenses.

Fair Value Estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and securities) is based on quoted market prices at the Statement of Financial Position date. The quoted market price used for financial assets held by the Company is the current bid price. The appropriate quoted market price for financial liabilities is the current bid price.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

(g) Trade and Other Payables

Liabilities for trade payables and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

(h) Provisions

Provisions are recognised when the Company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions for Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(i) Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options which vest immediately are recognised as a deduction from equity, net of any tax effects.

FLAGSHIP INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED 30 JUNE 2017

(j) New Accounting Standards and Interpretations

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. The Company has decided not to early adopt these Standards. The following table summarises those future requirements, and their impact on the Company where the standard is relevant:

AASB 9 Financial Instruments and amending standards AASB 2010-7 / AASB 2012-6	1 July 2018	Changes to the classification and measurement requirements for financial assets and financial liabilities	The impact of AASB 9 did not have a material impact on the Company
AASB 16 Leases	1 July 2019	AASB 16 introduces a single lessee accounting model by eliminating the current requirement to distinguish leases as either operating leases or finance leases depending on the transfer of risks & rewards of ownership. AASB 16 requires recognition of a right to use asset and liability for all leases excluding those with a tenure period of less than 12 months and those relating to low value assets. The assets will be depreciated in line with AASB 116 Property, Plant & Equipment with the unwinding of the liability in principal and interest components.	The Company is assessing the potential impact on its financial statements resulting from the application of AASB 16.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

(a) Key Estimates

There are no key assumptions or sources of estimation uncertainty that have a risk of causing material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period, as investments are carried at their market value.

(b) Key Judgements

The preparation of Financial Reports in conformity with Australian Account Standards require the use of certain critical accounting estimates. This requires the Board to exercise their judgement in the process of applying the Company's accounting policies.

The carrying amount of certain assets and liabilities are often determined based on estimates and assumptions of future events. In accordance with AASB 112 Income Taxes, deferred tax liabilities and deferred tax assets have been recognised for Capital Gains Tax (CGT) on the unrealised gains/losses in the investment portfolio at current tax rates.

As the Directors do not intend to dispose of the portfolio, the tax liability/benefit may not be crystallised at the amount disclosed in Note: 11. In addition, the tax liability/benefit that arises on the disposal of these securities may be impacted by changes in tax legislation relating to treatment of capital gains and the rate of taxation applicable to such gains/losses at the time of disposal.

The Company has an investment process which is anticipated will deliver medium to long-term capital growth - minimum investment period is three to five years.

The deferred tax asset has been carried forward as it believed that this process will deliver growth over this period to utilise the deferred tax asset.

The Company does not hold any securities for short term trading purposes. Therefore the investment portfolio is classified as Financial Assets at fair value through Other Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

19. FINANCIAL RISK MANAGEMENT

The Company is exposed to a variety of financial risks through its use of financial instruments.

The Company's overall risk management plan seeks to minimise potential adverse effects due to the unpredictability of financial markets. The Company does not speculate in financial assets.

The Company's overall risk management program focuses on the volatility of the financial markets and seeks to minimise potential adverse effects on the financial performance of the Company. Risk governance is managed through the Board which provides direct oversight on the Company's risk management framework and overall risk management performance.

The Board provides written principles for risk management covering investment portfolio composition. Risk is managed by the professional, disciplined management of the investment portfolio by EC Pohl & Co Pty Ltd (the Manager).

The Company held the following financial instruments:

	2017	2016
	\$'000	\$'000
Financial Assets		
Cash and cash equivalents	261	1,969
Receivables	318	304

Total Financial Assets	47,311	46,382
Financial Liabilities		
Trade and Other Payables	450	711
Total Financial Liabilities	450	711

(a) Market Risk

Foreign exchange risk

The Company operates entirely within Australia and is not exposed to material foreign exchange risk.

Equity market risk

The Company is exposed to risk of market price movement through its investments in Australian listed equity securities. Equity investments held by the Company are classified on the Statement of Financial Position as Financial Assets at fair value through Other Comprehensive Income and any movement in the listed equity securities is reflected in Other Comprehensive Income.

The risk to Shareholders is that adverse equity securities market movements have the potential to cause losses in Company earnings or the value of its holdings of financial instruments. The Manager's investment strategy centres on the view that investing in proven high quality businesses with growth opportunities arising from their sustainable competitive advantage will outperform over the longer-term. Consistent with this approach, the Manager has an established risk management framework that includes procedures, policies and functions to ensure constant monitoring of the quality of the investee companies. The objective of the risk management framework is to manage and control risk exposures within acceptable parameters while optimising returns.

Equity market risk is measured as a percentage change in the value of equity instruments held in the portfolio, as compared to the total market index for the same period.

At 30 June 2017, the effect of profit and equity as a result of changes in the interest rate, with all other variables remaining constant, would be as follows:

	2017	2016
Portfolio five year return	16.7%	13.82%
All Ordinaries Index five year return	2.8%	2.7%

(b) Sensitivity Analysis

Increases/decreases in an equity securities price, affect the Company's asset revaluation reserve and Other Comprehensive Income for the year. The analysis is based on the assumption that the Financial Assets at fair value through Other Comprehensive Income had increased/decreased by 5% (2016 - 5%) with all other variables held constant.

Impact on Equity and Other Comprehensive Income for the year:-

2017 +/- \$2,336,600

2016 +/- \$2,205,450

Impact on profit or loss is nil.

(c) Cash Flow Interest Rate Risk

The Company is exposed to cash flow interest rate risk from holding cash and cash equivalents at variable rates. The objective of the Company is to minimise the potential adverse effects of interest rate risk.

In order to minimise the potential adverse effects of this risk, the Manager reviews the interest rate exposure as part of cash flow management and takes into consideration liquidity and yields as part of cash flow management. The cash and cash equivalents held are subject to an insignificant level of risk of changes in value.

As at the reporting date, the Company had the following cash and cash equivalents:

30 June 2017: Balance \$579,000

Weighted average interest rate 2.3%

30 June 2016: Balance \$1,969,000

Weighted average interest rate 2.11%

(d) Relative Performance Risk

The Manager aims to outperform the risk free cash rate over the long-term. However, as the portfolio consists of equity investments these will tend to be more volatile than cash, so there will likely be periods of relative under and over performance compared to the benchmark risk free rate.

Over the long-term the Manager is confident that the portfolio can achieve outperformance through an investment selection process that invests in companies that have a sound business model, display a sustainable competitive advantage and have proven quality management.

FLAGSHIP INVESTMENTS LIMITED
NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED 30 JUNE 2017

(e) Credit Risk

Credit risk is the risk of a counterparty defaulting on their financial obligations resulting in a loss to the Company. The objective of the Company is to minimise credit risk exposure. Credit risk arises from cash and cash equivalents and Financial Assets at fair value through Other Comprehensive Income. Credit risk is managed by the Manager.

Credit risk arising from cash and cash equivalents is managed by only transacting with counterparties independently rated with a minimum rating of A. The providers of financial services to the Company are rated as AA by Standard and Poor's. Credit risk on cash and cash equivalents is deemed to be low.

Credit risk arising from Financial Assets at fair value through Other Comprehensive Income relates to the risk of counterparties on the ASX defaulting on their financial obligations on transactions for Australian listed equity securities. The credit risk for these transactions is deemed to be low.

The maximum credit risk exposure of the Company at year end is the carrying value of the assets in the Statement of Financial Position.

There is no concentration of credit risk with respect to financial assets in the Statement of Financial Position.

(f) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The objective of the Company is to ensure as far as possible that it will always have sufficient liquidity to meet its liabilities when due, under both normal and distressed conditions.

Prudent liquidity risk management implies maintaining sufficient cash and marketable Australian listed equity securities.

The Manager controls liquidity risk by continuously monitoring the balance between equity securities and cash or cash equivalents and the maturity profiles of assets and liabilities to ensure this risk is minimal.

20. CAPITAL MANAGEMENT

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The capital structure of the Company consists of equity attributable to members of the Company. The Board monitors the return on capital, which is defined as net operating income divided by total Shareholders' Equity. The Board also monitors the level of dividends to Shareholders.

The capital of the Company is invested by the Investment Manager in accordance with the investment policy established by the Board. The Company has no borrowings. It is not subject to any externally imposed capital requirements.

There were no changes in the Company's approach to capital management during the year.

Information Other Than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon. Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon. In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that here is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Matters Relating to the Electronic Presentation of the Audited Financial Report

This auditor's report relates to the financial report of Flagship Investments Limited for the year ended 30 June 2017, intended to be included on the Company's website. The Company's directors are responsible for the integrity of the Company's website. We have not been engaged to report on the integrity of the Company's website. The auditor's report refers only to the statements named above. It does not provide an opinion on any other information which may have been hyperlinked to/from these statements. If users of this report are concerned with the inherent risks arising from electronic data communications they are advised to refer to the hard copy of the audited financial report to confirm the information included in the audited financial report presented on the website.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
