LETTER FROM THE CHAIRMAN

Dear Shareholder,

The Board of Directors is pleased to present the Annual Report for 2017 that details the outcomes and successes of the past twelve months.

The Board is pleased to advise that following a major restructuring the new team has melded well and has improved communication and cooperation between the functions of the Exchange. Whilst it is always difficult to lose long term employees and their expertise, this loss has been offset by the experience, knowledge and enthusiasm of the new team that has enabled the transition to be smooth and problem free.

The effect of this transition is already being felt, with improved communication links with the Australian Securities and Investment Commission, improved interaction with advisors and the finance community and the increased awareness amongst companies that are seeking a listing. The Exchange is looking to build on these improvements over the next twelve months.

These changes are being managed by our CEO Ann Bowering, who is instrumental in creating the new culture and is the public face of the Exchange.

The Board would like to thank shareholders for their support over the past twelve months and invite you to the Annual General Meeting.

Yours sincerely,

LETTER FROM THE MANAGING DIRECTOR

Dear Shareholders,

As the operator of the second largest listings exchange in a deep, active and sophisticated equity capital market, NSX Limited (NSX) is extremely well positioned to build a challenging exchange group, and in doing so secure the creation of long term shareholder value.

Our strategy is to bring fair and vibrant competition to the equity listings market in Australia through:

- expanding the pool of quality investable assets available to Australian investors;
- enabling efficient and effective capital formation for companies seeking growth;
- providing more agile and innovative new market solutions;
- preserving the integrity of our listing venue and the rigour of our compliance frameworks; and
- contributing to the development of industry change in harmony with market stakeholders,

leading to a lower cost of capital, and cost to participate in, Australian capital markets.

Over the past year, NSX committed to and executed an essential, and very significant restructure of the operations, people and culture, and strategy of the National Stock Exchange of Australia (NSXA). These changes go to the core of our business, and how we see ourselves and our role in the Australian financial markets. I am extremely proud of our achievements and pleased to report that we have met, and at times exceeded our milestones for organisational transformation over the past year.

We remain committed to a process of continuous improvement and have imbedded a culture of professionalism and excellence, which will see the standards and expectations being set and applied across the exchange transform NSXA's competitive positioning in the industry.

The New NSX

When I accepted the role of Managing Director and CEO in June last year, I came to the position with a very clear view of what the opportunity was for the exchange, but equally importantly, what needed to change to position the NSXA at the centre of the Australian equity capital markets. In short, those changes needed to be extensive, and they have been.

Market access

Historically, one of the biggest hurdles to the expansion of the market has been a lack of liquidity, driven predominantly by fragmented market access. To address this, in July this year IRESS and NSX successfully released the NSX Connectivity Project, enabling clients of IRESS to trade securities listed on NSXA using the IRESS platform. This is a significant enhancement to our exchange infrastructure, and will bring multiple benefits including significantly broader distribution, industry conformity, reduced complexity, investor confidence and scale efficiencies around investment in NSX listed companies.

Trading infrastructure

In February NSXA successfully relocated the exchange's trading platform management to the Australian Liquidity Centre (ALC). This decision has resulted in enhanced connectivity with market participants, providing for improved market access, enhanced security monitoring, technology support, and promotes further engagement and integration of NSXA into the capital markets.

LETTER FROM THE MANAGING DIRECTOR (Cont'd)

Sydney head office

Another element of change was the closure of the founding offices in Newcastle and Melbourne, and the opening of a single head office, located in the Sydney CBD. The new focus and presence in Sydney gives NSX access to many of the key stakeholders of our business, and enables the exchange to engage with the market in a direct and relevant way. This decision meant that a number of long serving and valued employees of NSX were unable to go forward with the new business. I would like to take this opportunity to thank them for their contributions to the exchange over many years.

Management team

It is important to note that while many of the changes made have addressed “what” we do, “when” and “how” we do it, one of the most significant changes we have made is “who”. In addition to the technology upgrade, head office relocation and rebrand of the exchange, the NSX has enhanced its management capabilities with senior appointments to the Admissions, Market Surveillance, Market Operations, Business Development and Technology divisions. Our new team of industry professionals bring with them a breadth and depth of experience which complements the broader restructure of our operations and the New NSX strategy.

The impact of the changes outlined above is already evident. Whilst an element is reflected in the marked increase in revenues for the period, equally meaningful indicators of the success and value of this strategy can be seen by the inroads we have made to improving the standing with which the NSX is now held in the industry. This is an essential and important shift, which will underpin the competitiveness and future growth opportunities of the exchange.

Financial and operational performance

In the contexts of delivering this change, I am very proud of the underlying performance our team has delivered in 2017.

NSXA welcomed 14 new issuers to the official list in 2017, a 40% increase on the prior comparable period (pcp), and representing 8% of the total number of listings in Australia during that period. Companies raised an average \$2.6 million at IPO, and \$2.4 million utilising their listing to complete subsequent raisings. NSXA saw increases in both trading volumes and the number of trades executed on the market, although in real terms these numbers are still well below targeted future volumes.

Net revenue increased 66% to \$3.2 million from \$1.9 million in the pcp. Application Fees increased 49% to \$1.5 million, whilst Annual Fees increased 105% to \$1.1 million. Subsequent Raising Fees increased to \$0.4 million from \$0.2 million in the pcp. This was driven by an increase in number and the average size of new listings onto the exchange, as well as an increase in the schedule fee.

The operating loss for the NSX was \$2.2 million for the period, which is a \$0.7 million increase from \$1.5 million in the pcp. After excluding restructure costs of \$0.4 million, the underlying loss was a \$1.8 million. This result comprises a loss of \$1.0 million in relation to the operation of the NSXA and Parent Entity, and \$0.8 million loss in relation to the maintenance and development of IR Plus Securities Exchange (IRP).

It is relevant to note that the restructure of NSXA operations has resulted in an increase in the ongoing cost base. However these changes were essential to meet our regulatory obligations and position the exchange to compete globally in the future.

NSX reported no trading platform outages in 2017, resulting in 100% uptime in market performance for the 17th consecutive year.

Our opportunity

The investment in the New NSX over the last year has created a stronger, more unified, agile and innovative business which will allow us to capitalise on the opportunities that lie ahead in our industry.

NSX is now positioned to aggressively compete for listings in the Australian market, and be at the forefront of the delivery of new solutions in what is unquestionably a transformational time for our industry. The value derived from the investment we have made this year in our market access solutions, our people and processes, and our positioning in the market, will continue to materialise well into the future.

I thank you for your ongoing support of NSX. I am excited for what the next twelve months will hold for NSX, and I look forward to the celebrating the growth in our market and our success with you over the coming years.

Yours sincerely,

A handwritten signature in white ink, appearing to read 'Ann Bowering', with a stylized, flowing script.

About Participants

NSXA permits licensed organisations to apply to become Participants. Once a member of a licenced market these organisations can call themselves stockbrokers according to the Corporations Act. Participants offer services such as raising capital, trade execution, underwriting, research, investment advice, settlement and corporate advisory services. Participant services for each new listing includes assisting the listing applicant to obtain sufficient spread of shareholders and working capital requirements. Membership of a licenced stock exchange imposes a higher standard of compliance on Participants.

About Nominated Advisers on NSXA

NSX permits organisations to apply to become Nominated Advisers to NSXA. By becoming a Nominated Adviser these organisations facilitate the listing process onto NSXA by ensuring and confirming to NSXA:

1. that in relation to any application for admission to the official list of the NSXA market by an issuer:
 - (a) the directors of the issuer have received advice and guidance (from the nominated adviser or other appropriate professional adviser) as to the nature of their responsibilities and obligations to ensure compliance with NSXA rules;
 - (b) to the best of the knowledge and belief of the nominated adviser, all relevant requirements of NSXA rules have been complied with; and

that it will be available at all times to advise and guide the directors of the issuer as to their responsibilities and obligations to ensure compliance by the issuer on an ongoing basis with NSXA's rules.

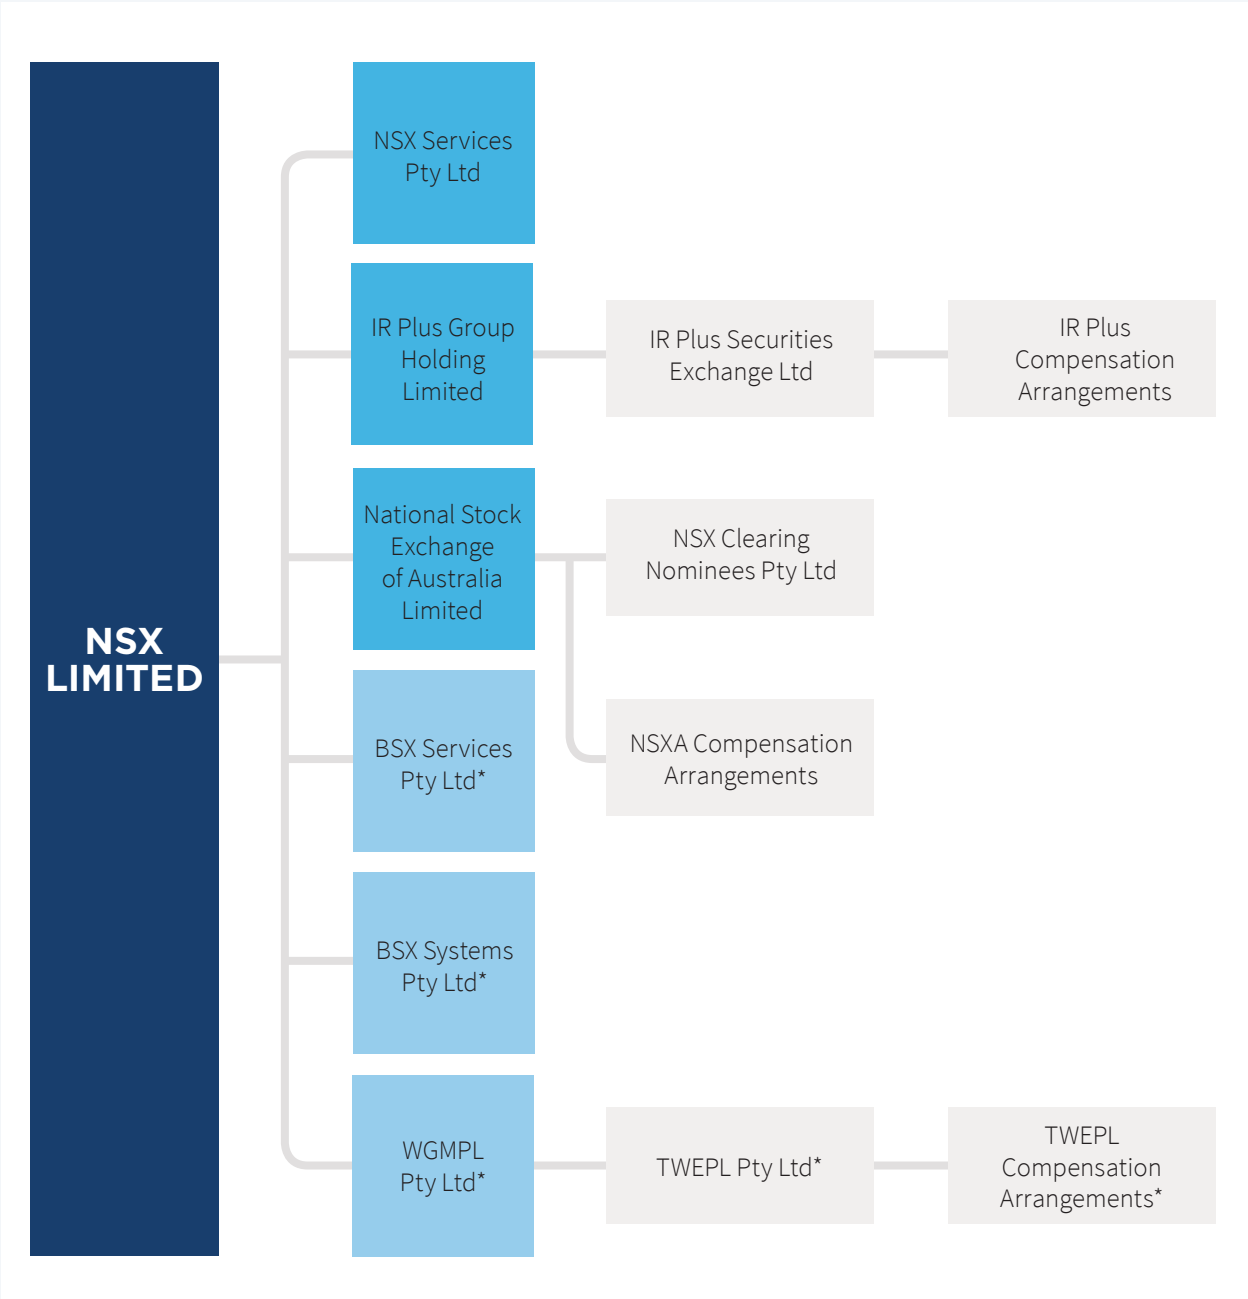

Technology

The trading system for equities markets is supplied by NASDAQ. The system has the ability to expand to other trading classes and markets as required. NSXA hosts the South Pacific Stock Exchange and the IR Plus trading facilities on its platform.

NSXA is Recognised Market Operators in the ASX Settlement CHES system for the settlement of equity trades. Equity trades are settled via the batch Delivery versus Payment mechanism. NSXA also allows the settlement of nominated securities by certificates on a broker to broker basis rather than through CHES.

NSX Group Structure

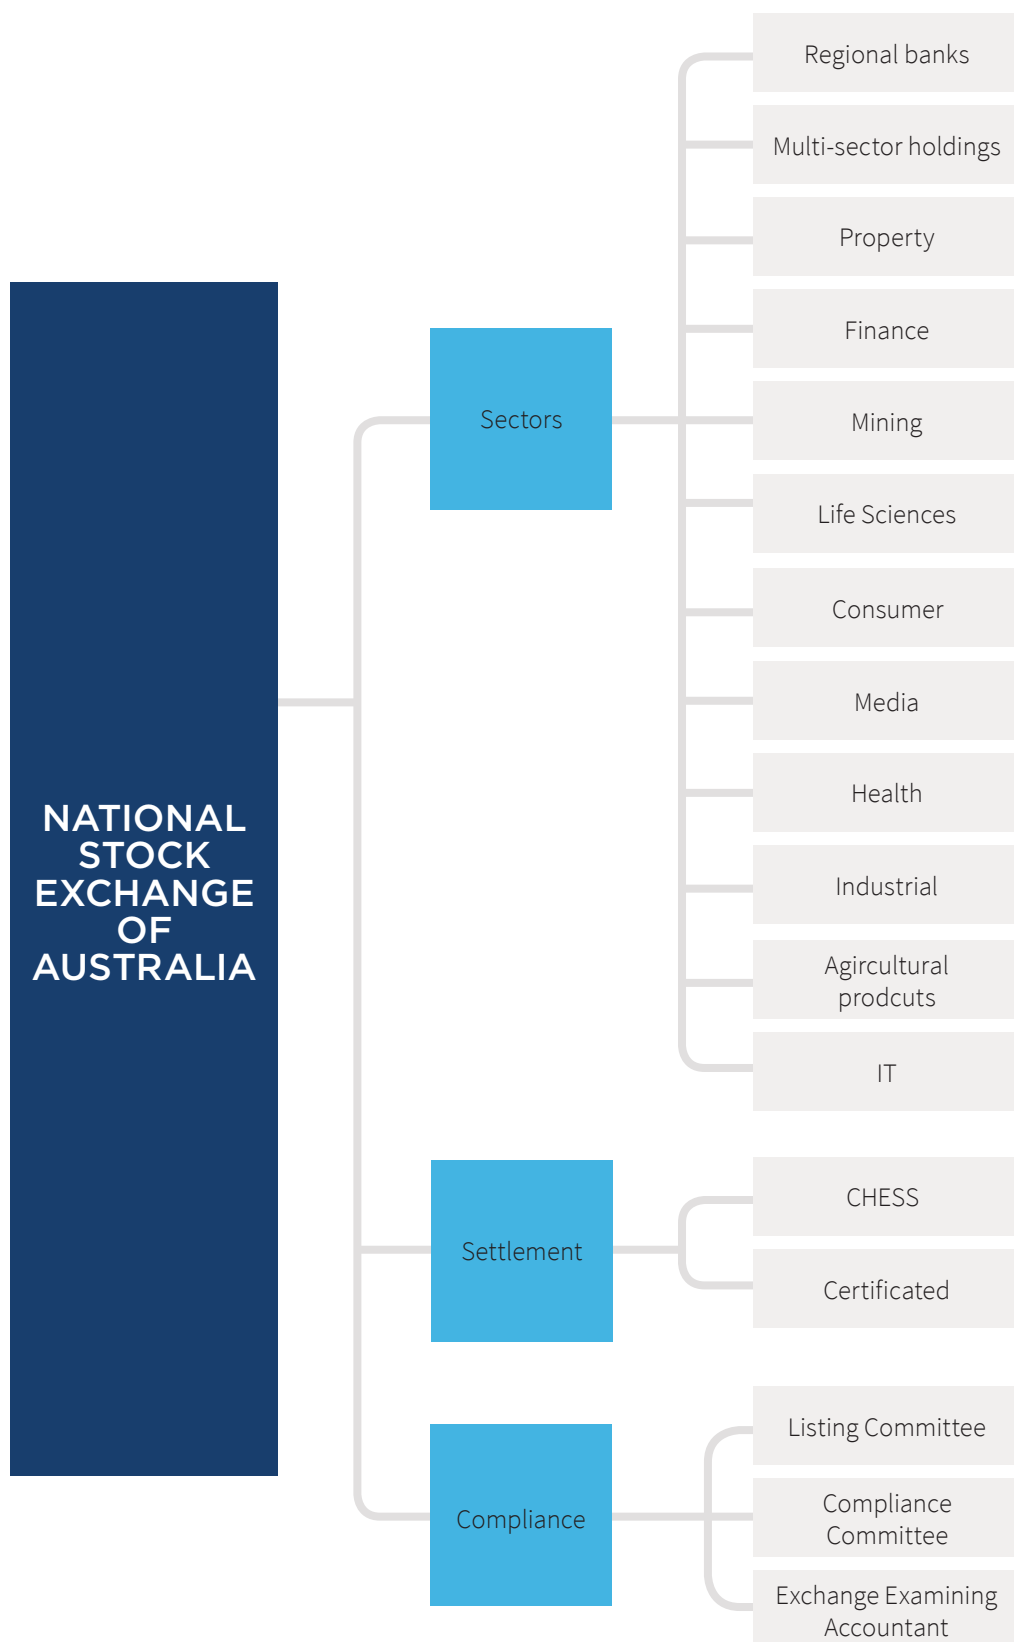

The NSX Limited group structure below depicts the entities that are responsible for the operation of the Stock Exchange and their respective compensation funds arrangements.

Market Structures

The National Stock Exchange of Australia (NSXA) is able to accommodate many different types of equity and equity related securities on its markets.

FINANCIAL MARKET SUPERVISION

FINANCIAL MARKETS SUPERVISION

NSXA is supervised by the Australian Securities & Investments Commission (“ASIC”) and is subject to an annual review as required by section 794C of the *Corporations Act 2001*. Under the Australian Market Licence, Market Licencee’s primary obligations are to conduct a fair, orderly and transparent market. It is an obligation placed on the directors of each Licencee to ensure that the Licencee has sufficient resources to meet its obligations.

As part of this role, the Licencee reviews the trading activity and disclosure of its Listed Issuers as well as the operations of its Participants. For listed issuers, this means adherence to the continuous disclosure regime and also periodic disclosure as required by the Listing Rules so as to maintain an informed market. For Participants, this means adherence to the Business Rules; adherence to high standards in trading and settlement of transactions; monthly submission of Surplus Liquid Funds reports; and annual reviews by NSXA of Participant operations. From 1 August 2010 this also means adherence to ASIC Market Integrity Rules.

The following outlines some of the committees and structures operating within the NSX Limited Group that supervise the markets.

Listing & Admissions Committee

The Listing & Admissions Committee (LAC) operates under a charter from the Board of the National Stock Exchange of Australia Limited.

The role of the Listing & Applications Committee is to review applications for listing by Issuers, Participant brokers and Nominated Advisers. Only if the information provided by companies is acceptable as being sufficient to ensure an informed market in the relevant securities will a recommendation for acceptance of admissions to the Official List be made.

Compliance Committee

The Compliance Committee operates under a charter from the Board of the National Stock Exchange of Australia Limited.

The role of the Committee is as follows:

- Recommend waivers from Listing Rules;
- Review and Monitor Participant obligations in accordance with the NSXA Business Rules;
- Make recommendations to the Board concerning Participant obligations, breaches of the Business Rules and disciplinary action, including suspension and removal of Participant recognition; and
- Adjudicate on appeals.

Also in operation is an independent Compliance Officer whose responsibilities are to Chair the Compliance Committee, report to the Board on Compliance matters and report to ASIC on Compliance matters as required.

Exchange Examining Accountant

The external Exchange Examining Accountant (“EEA”) operates under a service agreement from the National Stock Exchange of Australia Limited to provide reviews of Participant Surplus Liquid Funds.

Participants are required to submit monthly Surplus Liquid Funds reports to the EEA showing, amongst other things, how they are meeting their capital adequacy requirements. Participants failing to meet business rule requirements are referred to the Compliance Committee.

Compensation Arrangements

NSXA maintains investor confidence in the integrity of the markets by regulating the conduct of market participants and monitoring market activity for any irregularities. The NSXA Compensation arrangements provide a mechanism whereby retail clients of Participants may claim recompense for losses under certain circumstances as defined by the *Corporations Act 2001*.

From 11th March 2004 the Fidelity Fund operates under Part 7.5 of the *Corporations Act 2001* for the purpose of covering Division 3 losses specified by section 885C, but excluding losses under section 885D.

Information about the Compensation Arrangements for NSXA is available from the NSXA website. A Market Licencee is obliged to maintain this arrangement for six months after a Market Licencee ceases to hold an Australian Markets Licence.

Complaint Handling

The NSXA takes pride in providing the highest degree of market integrity. With this in mind, NSXA welcomes all efforts by the public to ensure that NSXA maintains excellence in regulation.

Examples of situations where a complaint may be filed with the NSXA are:

- Disclosure practices of NSXA listed companies;
- Poor execution of an order by a Participant of NSXA;
- Possible violations of operating rules by any Participant of NSXA;
- Listing or Business rules of NSXA;
- Possible insider trading or market manipulation;
- Compensation arrangements; and
- Complaints about NSXA Products and Services.

Information about making complaints is available from the NSXA website as well as a form for lodging a complaint. All complaints must be made in writing outlining the full details of the complaint and cannot be anonymous.

CORPORATE GOVERNANCE

CORPORATE GOVERNANCE

The NSX Limited Board has put in place measures to strengthen its Corporate Governance regime with the overall aim of meeting the ASX Corporate Governance Council Guidelines and best practice recommendations on a continual basis.

Board Charter

The Board charter sets out the role, composition and responsibilities of the Board of NSX Limited (“NSX”) within the governance structure of NSX and its wholly owned entities (“the NSX Group”). The conduct of the Board is also governed by the Constitution of NSX.

The charter covers areas such as:

- Board Responsibilities;
- Term of membership of the Board;
- The role of the Chairman;
- Separation of functions between Chairman and Chief Executive Officer;
- Restriction on activities of Chief Executive Officer and Chairman;
- The role of the Company Secretary;
- Scope of activities of the Board; and
- Reporting by the Board.

Code of Ethics and Conduct

The NSX is committed to conducting its business in a way that is open and accountable to shareholders and the wider marketplace. NSX believes that its corporate governance practices as a public company are of a high standard. The Code of Ethics and Conduct applies to both directors and employees of NSX.

The objective of the Code is to ensure that:

- (a) high standards of corporate and individual behaviour are observed by all NSX directors and employees in the context of their employment and activities with NSX;
- (b) directors and employees are aware of their responsibilities to NSX under their contract of employment; and
- (b) all persons dealing with NSX whether it be directors, employees, shareholders, suppliers, customers or competitors can be guided by the stated values and policies of NSX.

The code covers such areas as:

- NSX’s responsibilities to shareholders;
- Care and Diligence;
- Conflicts of Interest;
- Confidentiality;
- Fair Dealing;
- Use of Company Assets;
- Dealing Rules;
- Privacy; and Monitoring and reporting of the Code.

Corporate Governance

In March 2003, the ASX Corporate Governance Council published the 'Principles of Good Corporate Governance and Best Practice Recommendations'. This publication is the basis for the NSX's own corporate governance statement as a listed entity. The NSX does not believe in a one size fits all approach and has responded to the guidelines appropriately with respect to the size of its business.

The statement document is structured along the same lines as the Council's guidelines, with sections dealing in turn with each of the Council's eight corporate governance principles as follows:

1. Lay solid foundations for management and oversight;
2. Structure the board to add value;
3. Act ethically and responsibly;
4. Safeguard integrity in corporate reporting;
5. Make timely and balanced disclosure;
6. Respect the rights of security holders;
7. Recognise and manage risk; and
8. Remunerate fairly and responsibly.

Summaries of the relevant codes, policies and charters are available from the NSX website.

Corporate Governance Statement

ASX Listing Rule 4.10.3 requires companies to include a statement in their annual report that outlines the extent to which it has followed the ASX Corporate Governance Council's "Principles of Good Corporate Governance" (Principles) and the "Best Practice Recommendations" (Recommendations) (together referred to as the Guidelines).

For convenience, the measures adopted to ensure compliance with the Guidelines are presented in a tabular format below. In most cases, NSX has adopted the Guidelines per se, however where this has not been possible NSX has highlighted the steps taken to ensure compliance with the intent or 'spirit' of the Guidelines on an "if not, why not basis". The following table is compliant according to the 3rd edition of the Corporate Governance Council's Principles published on 27 March 2014 effective up until 30 June 2017. As per ASX Listing Rule 4.7.3 NSX lodges Appendix 4G: Key Disclosures – Corporate Governance Council Principles and recommendations that became effective 1 July 2014 at the same time as this Annual report.

The following table summarises NSX compliance with ASX Corporate Governance Council's guidelines. Shaded sections are Guidance Principles, while unshaded sections are NSX's responses. NSX's Corporate Governance statement is also available on its website (<http://www.nsx.com.au/about/governance>).

Principle 4	Safeguard integrity in corporate reporting	
Recommendation 4.1	<p>The board of a listed entity should:</p> <p>(a) have an audit committee which:</p> <ul style="list-style-type: none"> (1) has at least three members, all of whom are non-executive directors and a majority of whom are independent directors; and (2) is chaired by an independent director, who is not the chair of the board, and disclose: (3) the charter of the committee; (4) the relevant qualifications and experience of the members of the committee; and (5) in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or <p>(b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.</p>	
NSX Response	<p>NSX accepts the importance of safe guarding the integrity of its financial reporting systems. The Board sees that this obligation requires conduct at two levels.</p> <p>First, it requires the Board members to take steps to maintain the integrity of its reporting systems that is with respect to being properly resourced to produce relevant reports. Secondly, this requirement obligates NSX to adopt strategies to verify and safeguard the integrity of those financial reports.</p> <p>The Board has established an Audit & Risk Committee but it is currently inactive. The Board oversees this function.</p> <p>Secondly, the Board considers that the Board is of sufficient size and possesses sufficient technical accounting and commercial expertise to ensure NSX carries out its reporting obligations.</p>	<p>Board Charter</p> <p>Audit & Risk Committee Charter</p>

Principle	Compliance/Response	References
	<p>The integrity of NSX financial reporting is promoted by the following:</p> <ol style="list-style-type: none"> 1. That at least one director has significant accounting experience and expertise; 2. NSX is not so large as to warrant resources beyond that of the existing board being utilised; 3. The NSX Board engages with its auditors on a regular basis; 4. As NSX continues to develop the sophistication of its markets and business structure the board will reassess its position in relation to its reporting safe guards. <p>The Board is of the view that this is the best arrangement to grow the business of the NSX in the current development cycle of the Company.</p>	
Recommendation 4.2	The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO/Managing Director and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Trading Policy

NSX is concerned with minimising conflicts of interest within its business. Conflicts which arise through dealing in securities listed on NSX Markets can potentially affect objective decision making within the group. The Trading Rules are designed to assist in preventing breaches of the insider trading provisions of the Corporations Act. Ultimately, it is the responsibility of the employee or director to ensure that none of his or her dealings could constitute insider trading.

NSX employees and directors may have in their possession sensitive commercial or compliance information which could materially affect the value of financial products traded on NSX markets or on other markets (where such products are related to products traded on NSX markets), including NSX Limited securities. The suggestion of insider trading by an employee or director would do great harm to the employee/director and also to NSX irrespective of whether insider trading actually occurs or is proven. The *Corporations Act 2001* prohibits insider trading in relation to financial products. The provisions are wide ranging and breaches are serious offences.

The procedures cover the following areas:

- Insider Trading Prohibition;
- Other relevant Corporations Act provisions;
- Dealing in Shares issued by NSX Limited and its controlled entities;
- Prohibition on Dealing in Financial Products issued over NSX Shares by Third Parties;
- Dealing in listed financial products traded on NSX's markets and other markets unrelated to NSX shares; and
- Related Parties & Relevant Interests.

These documents are published on the NSX shareholder website (www.nsx.com.au)

Audit & Risk Committee

The Audit and Risk Committee structure is currently inactive as the NSX Board oversees these functions. The Board is of the view that this is the best arrangement to grow the business of the NSX in the current development cycle of the Company.

The primary function of the Committee is to assist the Board of Directors of the NSX Limited to carry out the following:

- monitor the integrity of the NSX Group's statutory financial reports and statements;
- monitor management's framework to identify and manage enterprise risk and internal control for the NSX Group;
- monitor compliance, in conjunction with the NSX Compliance Committee, with laws and regulations and code of conduct for the NSX Group; and
- monitor the performance and independence of the external auditor.

When considering the financial reports and statements of the NSX Group, the Committee relies on the Board of each NSX Group controlled entity to review and consider their respective financial statements, risk management processes, internal controls and compliance systems. The Committee receives confirmation of these matters through the annual reports of the respective entity boards to the NSX Board.

Remuneration and Nomination Committee

The Remuneration and Nomination Committee structure is currently inactive as the NSX Board oversees this function. The Board is of the view that this is the best arrangement to grow the business of the NSX in the current development cycle of the Company.

The Committee's primary functions are to:

- review director competence standards;
- review Board succession plans;
- evaluate the Board's performance;
- make recommendations for the appointment and removal of directors to the Board; and
- make recommendations to the Board on, executive remuneration and incentive policies, the remuneration packages of senior management, recruitment, retention and termination policies for senior management, incentive schemes, and remuneration for directors.

Conflicts of Interest - Declared Conflicts and Review Parties

As part of the requirements of its corporate governance arrangements and as a part of the obligations for holding two Australian Market licences able to operate Stock Exchanges in Australia, NSX has a number of policies and procedures to help manage conflicts of interests that its officers and employees may face in the course of their day to day activities.

Further, NSX has obligations to disclose potential or actual conflicts of interest. Disclosure is in two forms

- (1) the conflicts of interest that officers and staff may have to manage on a day to day basis and
- (2) conflicts that NSX, its officers and its staff may have when the NSX supervises third parties known as Review Parties.

A commercial conflict of interest is a situation where an employee interest and NSX interest(s) are in conflict and the employee gives preference to the employee's interest usually for a financial gain or other benefit, ahead of the interest(s) of NSX. For example a director or employee is involved with a supplier to NSX, a Nominated Adviser, a Participant of NSX or a listed Issuer on NSX and by the Director or employee actions that Participant or Issuer derives a benefit that they would not have ordinarily obtained.

Further, where NSX supervises competitors who are Participants of the NSXA or IR Plus markets, then there is potential for conflict if the NSX makes a decision, unfairly, that is to the detriment of that competitor. Also, there may be a regulatory conflict where NSX's commercial interests or those commercial interests of the parties that Directors and Staff are involved with potentially override the regulatory obligations of the NSX as a holder of Australian Market Licences.

DIRECTORS' REPORT

For the Year Ended 30 June 2017

Your directors present their report on the company and its controlled entities for the financial year ended 30 June 2017.

Directors

The names of the directors in office at any time during, or since the end of, the year are:

Director	Appointed
Ann Bowering	Appointed 25 May 2009
Thomas Price	Appointed 17 November 2009
Michael Cox	Appointed 23 November 2009
Tony Shen (Weiguo)	Appointed 29 September 2016

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Company Secretary

Scott Evans, General Manager (appointed 24 September 2001 and resigned 30 June 2017) and Company Secretary B.Ec (hons), GAICD, SA Fin, (appointed 7 March 2006). He previously worked for the Australian Securities Exchange as National Manager, Information Products and for Reuters PLC as Historical Database Manager Asia/Pacific. Mr Evans has extensive experience in the finance industry, in managing companies and reviewing NSX listed entities compliance with the listing rules.

Principal Activities

The principal activities of the Economic Entity during the financial year were the operation of the National Stock Exchange of Australia Limited.

Operating Results

The net loss of the Economic Entity for the financial year after providing for income tax amounted to \$2,183,022 (2016: loss of \$1,484,186).

An analysis of the factors contributing to this result is provided in the Review of Operations section (below).

Dividends Paid or Recommended

The Directors do not recommend the payment of a dividend. No dividends have been paid or declared during or since the end of the financial year.

Review of Operations

Revenue

Group Revenue reported of \$3.2 million represented an increase of \$1.3 million or 66% on previous corresponding period (pcp).

Receipts associated with the operation of the NSXA account for 95% of all receipts. The balance of revenue is principally interest earned on cash and investments held during the period.

Application Fees reported for the period were \$1.5 million, and represent an increase of \$0.5 million or 50% from \$1.0 million in pcp. NSXA welcomed 14 new listings during the period, up 49% on the pcp, and the average market capitalization of the new listings was higher than those listing in 2016.

Annual Listing Fees reported for the period were \$1.1 million, and represent an increase of \$0.5 million or 105% from \$0.5 million in pcp. This is a function of the growth in listing activity during the period, combined with an increase in average size of the issuers.

Secondary Raising Fees were \$0.4 million, up \$0.2 million or 83% from \$0.2 million in pcp. Interest received increased by \$0.1 due to the full year effect of cash on deposit raised in December 2015.

30 June Revenue Category	Notes	2017 \$'000	2016 \$'000	Change(%)
Exchange Revenue	2	3,062.1	1,836.0	67
Interest Recieved	2	167.0	97.1	72
Other Revenue	2	3.3	12.7	-74
Total Revenue		3,232.4	1,945.8	66

Expenses

Group Expenses incurred in the operation of NSXA and IRP increased \$2.0 million or 53%, from \$3.4 million in the pcg to \$5.4 million. The following is an explanation of the material movements.

Employee benefits for the Group of \$2.1 million increased by \$0.8 (net of restructure costs). Following the closure of the Melbourne and Newcastle offices, NSXA appointed an experienced Sydney based team which consisted of a head count of eleven as at 30 June 2017, and represent \$1.6 million of the current year expense. IRP incurred \$0.5 million in employment benefit costs during the period.

Depreciation, amortisation and impairments of \$0.3 million reflects the investment in PP&E as part of the establishment of the new Sydney Head Office.

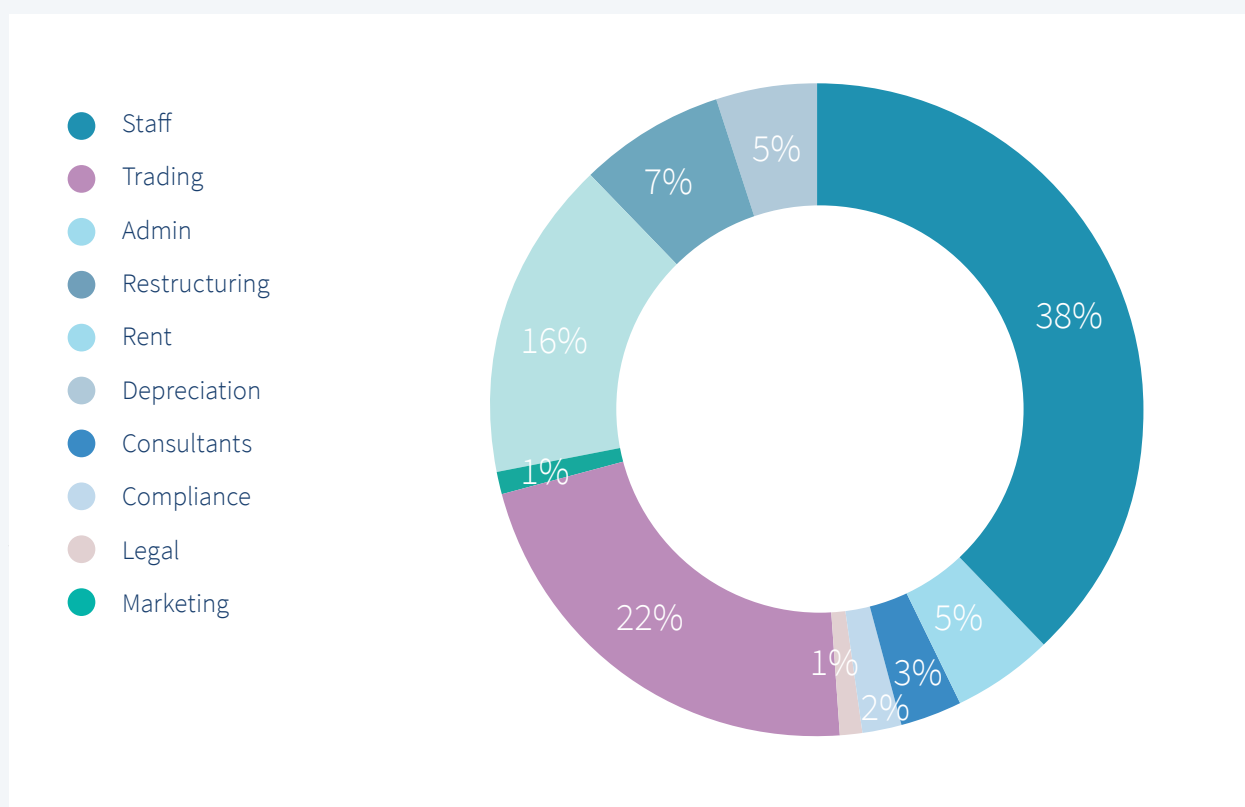

Consultancy expenses of \$0.2 million, a marginal decrease on the pcg of \$0.2. Included in this item are contractor payments and external advisers.

Market trading expenses of \$1.2 million encompass costs associated with the trading and settlement activities of the exchanges, including trading systems, data centres, security, market access and regulatory fees. This expense increased by \$0.3 in the current period as a result of the upgrade in systems which occurred as part of the restructure of NSXA and the commencement of services with IRESS.

Occupancy expense of \$0.3 million, up \$0.1 from the pcg, includes expense related to the offices maintained by NSX at a point in time during the period. The current period includes an expense overlap for multiple offices, whilst the restructure and consolidation of facilities was completed. The Melbourne office (closed in October 2016), the Newcastle office (closed in August 2017) and the Sydney office (which moved to the new premises in November 2016).

Administration and other expenses increased \$0.4 million from the pcg to \$0.9 million. The balance in the current period includes a provision for doubtful debts of \$0.1 million and \$0.1 million in insurance.

Restructure costs of \$0.4 million relate to the costs associated with the closure of the Melbourne and Newcastle offices and staff redundancy entitlements incurred in the current period.

30 June Expense Category	2017 \$'000	2016 \$'000	Change(%)

Total Expenses	5,415.3	3,429.9	58

Consolidated Summary

The operating loss for the Group was \$2.2 million for the period, which is a \$0.7 million increase on the prior comparable period (pcp). After excluding restructure costs of \$0.4 million, the underlying performance of the Group was \$1.8 million loss. This result comprises a loss of \$1.0 million in relation to the operation of the National Stock Exchange of Australia (NSXA) and Parent entity, and \$0.8 million loss in relation to the operation of IR Plus Securities Exchange (IRP).

Revenue for the operations of the NSXA was \$3.2 million, representing an increase of \$1.3 or 66% on the pcp. This was driven by a 40% increase in the number of companies applying and successfully listing on the exchange, an increase in the average market capitalisation of listed issuers, and an increase in fees from 1 July 2016. No revenue was generated by IRP during the period.

Expenses for the Group were \$5.4 million, representing an increase of \$1.7 million. As noted, \$0.4 million of costs are non-recurring and relate to the restructure of the NSXA. Ongoing costs attributable to the operation of the NSXA and Parent entity were \$4.0 million, and \$0.8 million for IRP.

The Group maintains a cash balance of \$4.9 million at the end of the period. Of the cash held, \$2.2 million is held as part of the compensation arrangements and other general guarantees leaving \$2.7 million as working capital for the NSX Group as at 30 June.

Earnings per share (EPS) decreased from (1.1) cents per share to (1.5) cents per share or a decrease of 40% based on a weighted average number of shares of 147,905,288. Net tangible asset backing per share diminished from 4.9 cents to 3.2 cents.

The following table provides summary of the group results.

Refer Note 20 for more detailed information.
300A(1)(d)	If an element of the remuneration of a persons referred to in paragraph (c) consists of securities of a body and that element is not dependent on the satisfaction of a performance condition – an explanation of why that element of the remuneration is not dependent on the satisfaction of a performance condition;	Securities were not a component for remunerating directors during this reporting period. The NSX does not currently operate an executive share scheme.
300A(1)(e)	For each person referred to in paragraph (c).	refer to Note 20.
300A(1)(f)	such other matters related to the policy or policies referred to in paragraph (a) as are prescribed by the regulations; and	Not Applicable
300A(1)(g)	if: (i) at the company's most recent AGM, comments were made on the remuneration report that was considered at that AGM; and (ii) when a resolution that the remuneration report for the last financial year be adopted was put to the vote at the company's most recent AGM, at least 25% of the votes cast were against adoption of that report; (iii) an explanation of the board's proposed action in response or, if the board does not propose any action, the board's reasons for inaction; and	There were no comments made, at the last AGM, concerning the remuneration report. At the last AGM votes cast were less than 25% against the remuneration report. The Board has engaged with its major shareholder concerning the remuneration report and believes it currently has in place a suitable remuneration policy. The Board reviews its policy whenever necessary.

Section	Obligation	Discussion

As at 30 June 2017 the share price was \$0.25. As at 12 September 2017 the share price was \$0.29. There have been no bonus payments made nor are there any employee incentive schemes based on share price movements as there is no employee share incentive scheme in operation.</p>
300A(1A)	The material referred to in subsection (1) must be included in the directors' report under the heading "Remuneration report".	A remuneration report segment is included in the Directors Report. Refer to discussion above and also to Note 20.

Financial Position

The net assets of the Economic Entity have decreased from \$6,900,863 as at 30 June 2016 to \$4,717,841 as at 30 June 2017.

Significant Changes in State of Affairs

There were no significant changes in the Economic Entity's state of affairs occurred during the financial year.

Post balance date events

During the year the directors of TWPL Pty Limited decided that it was no longer needed and an application was put forward to ASIC. On 5 July 2017 formal notification was received that the company was deregistered.

Other than mentioned above there are no other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Economic Entity, the results of those operations or the state of affairs of the Economic Entity in future financial years.

Future Developments

Likely developments in the operations of the Economic Entity and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Economic Entity.

Environmental Issues and Carbon Tax

The Economic Entity's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or State. The directors are not aware of any significant material environmental issues arising from the operations of the economic entity during the year.

Non-audit services

The Board of Directors is satisfied that the provision of non audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- All non-audit services are reviewed and approved by the board of directors prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- The nature of the services provided do not compromise the general principles relating to auditor independence as set out in the Institute of Chartered Accountants in Australia and CPA Australia's APES 110: Code of Ethics for Professional Accountants.

The following fees for non audit services were paid/payable to the external auditors during the year ended 30 June 2017:

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 30 June 2017

Note 1 - Statement of Significant Accounting Policies

This financial report includes the consolidated financial statements and notes of NSX Limited and controlled entities ('Economic Entity'). The separate financial statements of the parent entity, NSX Limited, have not been presented within this financial report as permitted by the *Corporations Act 2001*.

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(a) Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent (NSX Limited) and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

Equity interests in a subsidiary not attributable, directly or indirectly, to the Group are presented as "non controlling interests". The Group initially recognises non controlling interests that are present ownership interests in subsidiaries and are entitled to a proportionate share of the subsidiary's net assets on liquidation at either fair value or at the non controlling interests' proportionate share of the subsidiary's net assets. Subsequent to initial recognition, non controlling interests are attributed their share of profit or loss and each component of other comprehensive income. Non controlling interests are shown separately within the equity section of the statement of financial position and statement of comprehensive income.

A list of controlled entities is contained in Note 13 to the financial statements. All controlled entities have a June financial year end.

(b) Income Tax

Current Income Tax expense

The charge for current income tax expense is based on the profit for the year adjusted for any non assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the Statement of Financial Position date.

Deferred income tax assets

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

Accounting for deferred tax

Deferred tax is accounted for using the Statement of Financial Position liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax calculation

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the statement of financial position except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

The economic entity is a tax consolidated group. At the time of signing these accounts there are no formal tax sharing agreements in place.

Tax Consolidation

NSX Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity in the Group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity.

(c) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to note 1(f) for details of impairment).

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Economic Entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of financial performance during the financial period in which they are incurred.

Depreciation

The depreciable amounts of all fixed assets are depreciated on a diminishing value basis over their useful lives to the Economic Entity commencing from the time the asset is held ready for use.

Depreciation rates

The depreciation rates used for each class of depreciable assets are:

- **Class of Fixed Asset:** Plant and Equipment
- **Depreciation Rate:** 20 -40%

(d) Leases

Operating leases

Lease payments for operating leases, where substantially all of the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

(e) Financial Instruments

Recognition and initial measurements

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Finance instruments are subsequently measured at either of fair value, amortised cost using the effective interest rate method, or cost. *Fair value* represents the amount for which an asset could be exchanged for or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- a) the amount at which the financial asset or financial liability is measured at initial recognition;
- b) less principal repayments;
- c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest method; and
- d) less any reduction for impairment.

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The Economic Entity does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments.

Financial assets at fair value

Financial assets are classified at "fair value through profit or loss" when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

Loans and receivables

Loans and receivables are non derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

(e) Financial Instruments (Cont'd)

Held-to-maturity investments

These investments have fixed maturities, and it is the Economic Entity's intention to hold these investments to maturity. Any held-to-maturity investments held by the Economic Entity are stated at amortised cost using the effective interest rate method.

Available-for-sale financial assets

Available-for-sale financial assets include any financial assets not included in the above categories or designated as such by management. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are recognised in other comprehensive income.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

At each reporting date, the Economic Entity assess whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether impairment has arisen. Impairment losses are recognised in the statement of comprehensive income.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are discharged, cancelled or have expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(f) Impairment of Assets

At each reporting date, the Economic Entity reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value-in-use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the Economic Entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

(g) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Those cash flows are discounted using market yields on Australian Corporate Bonds with terms to maturity that match the expected timing of cash flows.

(g) Employee Benefits (Cont'd)

Contributions are made by the Economic Entity to an employee superannuation fund and are charged as expenses when incurred.

(h) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less such as term deposits, and bank overdrafts. Term deposits held on a short term basis in support of operating guarantees and letters of credit for the NSXA and IR Plus Compensation Arrangements have been classified as a current financial asset. This is due to a requirement that these deposits be available for immediate payment to a claimant, should they be called upon, and the obligations of section 885B(1)(g) of the Corporations Act, which requires the Company to provide timely access to Compensation Arrangements. Bank overdrafts are shown within short term borrowings in current liabilities on the Statement of Financial Position.

(j) Revenue and other income

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Listings revenue includes revenue from annual listing fees, initial listing fees and secondary capital raisings. Initial and secondary capital raising fees are recognised when the listing or subsequent event has taken place. Annual listing fees are recognised evenly over the year.

Revenue from the rendering of other services is recognised upon the delivery of the service to the customers.

All revenue is stated net of the amount of goods and services tax (GST).

(k) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(l) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(m) Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Economic Entity.

(i) Key Estimates – Impairment

The Economic Entity assesses impairment at each reporting date by evaluating conditions and events specific to the Economic Entity that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions. Refer to Note 12 for details of these assumptions.

(m) Critical Accounting Estimates and Judgements (Cont'd)

(ii) Key Estimates – Equity Settled Compensation

In determining the amount of the share-based payments under the Group's equity-settled share-based payment employee share scheme, the Directors have determined that the probability of employees under the Employee Share Scheme meeting the vesting conditions is 100%. This estimate is based on discussions with the employees involved and analysis of historical employment records.

(iii) Long service leave provision

As discussed in Note 1(g), the liability for long service leave is recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

(iv) Control of IR Plus Group Holdings Limited (IRP)

During the year NSX Limited's interest in IR Plus Group Holdings Limited was maintained at 50%. The directors have concluded that the group still controls IR Plus, even though it holds half of the voting rights of this subsidiary due to:

- (a) An agreement which exists between NSX Limited and IR Plus Group Holdings Ltd where NSX Limited is required to provide financial support to IR Plus Group Holdings Ltd until such time as IR Plus Group Holdings Ltd returns to a profitable position; and
- (b) NSX Limited has the financial capacity to provide financial support to IR Plus Group Holdings Ltd.

(n) New Accounting Standards, Interpretations and Amendments Adopted by the Group

During the current year, the Group adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

(o) New accounting standards for application in future periods

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2017 reporting periods and have not been early adopted by the Group. The Group's assessment of the impact of these new standards and interpretations is set out below.

There are no other standards that are not yet effective and that are expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

IFRS 16 Leases

Applicable for reporting periods beginning on or after 1 January 2019.

IFRS 16 will cause the majority of leases of an entity to be brought onto the statement of financial position. There are limited exceptions relating to short-term leases and low value assets which may remain off-balance sheet.

The calculation of the lease liability will take into account appropriate discount rates, assumptions about lease term and increases in lease payments. A corresponding right to use asset will be recognised which will be amortised over the term of the lease. Rent expense will no longer be shown, the profit and loss impact of the leases will be through amortisation and interest charges.

Whilst the impact of IFRS 16 has not yet been quantified, it is not anticipated that this will result in a material impact on the financial statements of the Company. Interest and amortisation expense will increase and rental expense will decrease.

(o) New accounting standards for application in future periods (Cont'd)

AASB 15 Revenue from contracts with customers

Applicable for Annual reporting periods beginning on or after 1 January 2018

AASB 15 introduces a five step process for revenue recognition with the core principle of the new Standard being for entities to recognise revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services. AASB 15 will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements.

The changes in revenue recognition requirements in AASB 15 may cause changes to the timing and amount of revenue recorded in the financial statements as well as additional disclosures. The impact of AASB 15 has been quantified and will not impact the current revenue recognition policy of the group.

AASB 9: Financial Instruments (December 2010) and AASB 2010-7: Amendments to Australian Accounting Standards arising from AASB 9 (December 2010)

Applicable for the financial year ended 30 June 2018

These standards are applicable retrospectively and include revised requirements for the classification and measurement of financial instruments, as well as recognition and derecognition requirements for financial instruments.

Once adopted, this standard will affect the Group's accounting for its available for sale financial assets resulting in fair value gains and losses associated with the instruments being recognised directly in profit or loss.

The new hedging rules align hedge accounting more closely with the Group's risk management practices. As a general rule it will be easier to apply hedge accounting going forward. The new standard also introduces expanded disclosure requirements and changes in presentation. There is no expected impacts to NSX's accounts.

(p) Removal of Parent Entity Financial Statements

The Group has applied amendments to the *Corporations Act 2001* that removes the requirement for the Group to lodge parent entity financial statements. Parent entity financial statements have been replaced by specific parent entity disclosures in Note 29.

(q) Fair Value of Assets and Liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (ie the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

(q) Fair Value of Assets and Liabilities (Cont'd)

For non financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instrument, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

(i) Valuation techniques

In the absence of an active market for an identical asset or liability, the Group selects and uses one or more valuation techniques to measure the fair value of the asset or liability. The Group selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

- Market approach: valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.
- Income approach: valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value; and
- Cost approach: valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Group gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

(ii) Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

- Level 1: Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

The Group would change the categorisation within the fair value hierarchy only in the following circumstances:

- i. if a market that was previously considered active (Level 1) became inactive (Level 2 or Level 3) or vice versa; or
- ii. if significant inputs that were previously unobservable (Level 3) became observable (Level 2) or vice versa.

When a change in the categorisation occurs, the Group recognises transfers between levels of the fair value hierarchy (i.e. transfers into and out of each level of the fair value hierarchy) on the date the event or change in circumstances occurred.

Changes during 2016/2017

During the year the directors of TWPL Pty Limited decided that it was no longer needed and an application was put forward to ASIC. On 5 July 2017 formal notification was received that the company was deregistered. Other than this there were no changes to the controlled entities.

Changes during 2015/2016

During the year FEX contributed \$533,747 in satisfaction of the final payment for shares in IR Plus Group Holdings Ltd. This took FEX's ownership in the IR Plus Group Holdings Ltd to 50.0% (refer to Note 13(a)). Subsequently FEX sold their holding in IR Plus Group Holdings Ltd to Asian Exchange Infrastructure Pty Ltd (AEI).

During the year NSX Limited's interest in IR Plus Group Holdings Limited reduced from 61.8% to 50% by way of a share dilution. The directors have concluded that the group still controls IR Plus, even though it holds only half of the voting rights of this subsidiary due to:

- (a) An agreement exists between NSX Limited and IR Plus Group Holdings Ltd where NSX Limited is required to provide financial support to IR Plus Group Holdings Ltd until such time as IR Plus Group Holdings Ltd returns to a profitable position; and
- (b) NSX Limited has the financial capacity to provide financial support to IR Plus Group Holdings Ltd.

The company completed a placement to a new shareholder SHKL Group Limited ("SHKL") in December 2015. HKL was listed on the National Stock Exchange of Australia in August 2015.

Ordinary shares participate in dividends and the proceeds on winding up of the Economic Entity in proportion to the number of shares held. At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

The partly paid shares are only callable at the option of the holder or on liquidation. They can be voted in proportion to the amount that is paid up.

(b) Capital Management

The Economic Entity's objective in managing capital is to continue to provide shareholders with attractive investment returns and ensure that the group can fund its operations and continue as a going concern.

The Economic Entity's capital consists of shareholders equity plus net debt. The movement in equity is shown in the Statement of Changes in Equity. At 30 June 2017 debt was \$Nil (2016: \$Nil).

There are no externally imposed capital requirements. In order to maintain or adjust the capital structure, the Economic Entity may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Office Leases

During the year offices were occupied by the Company in Newcastle, Melbourne and Sydney. As part of the restructure of Company operations, all operations were consolidated in Sydney in the fourth quarter of 2016.

Newcastle

Leased offices have been occupied at Level 2, 117 Scott Street, Newcastle NSW 2300. The property lease for the Newcastle premises is a non-cancellable lease with rent payable monthly in advance.

The lease commenced in August 2008 and continued until August 2017. This lease was not renewed and accordingly closed.

Sydney

The NSX moved into its new premises at Level 3, 1 Bligh Street Sydney in late October 2016. The serviced offices that it occupied from October 2014 until late October 2016 have been vacated.

Technology Leases

NSX Limited has an agreement with NASDAQ to provide technology related services to enable the Economic Entity to operate a market for trading securities. The lease commenced on 31 July 2016 for a period of 10 years, with rental paid quarterly in advance. The amount of the lease agreement is subject to confidentiality clauses and cannot be disclosed. NSX is in the process of renegotiating the lease with the supplier.

New leases

Other than that stated above, no other new leases have been entered into during the period.

(g) Remuneration Practices

The Board's policy for determining the nature and amount of compensation of key directors and key management for the Economic Entity is as follows:

The Directors' are allowed to claim reimbursement for expenses incurred when acting on behalf of the NSX. Directors' are allowed to claim remuneration approved by the Board of Directors as a member of the NSX Audit & Risk Committee, Remuneration & Nomination Committee, Compliance Committee or Listing & Admissions Committee. Approved by shareholders at the AGM of 20 December 2004, the remuneration pool for non-executive directors is \$200,000 per annum inclusive of Superannuation. Director's fees are comprised of a fixed component only and exclude any performance components.

Disclosures for director fees paid during the financial year are provided in Note 20(b).

Director Remuneration

Approved by shareholders at the AGM of 20 December 2004, the remuneration pool for non-executive directors is \$200,000 per annum inclusive of any superannuation guarantee remittances. Non-executive Chairman and Director fees are comprised of a fixed component being \$87,600 and \$43,800 respectively inclusive of superannuation. Executive director fees for service are by mutual agreement with the Board. Disclosures for director fees and allowances actually paid during the financial year are provided in Note 20(b).

Short Term Incentive Plan

No short term incentive scheme had been approved by the Board or shareholders.

Long Term Incentive Plan

No long term incentive scheme had been approved by the Board or shareholders.

Note 21: Contingent Liabilities

Estimates of the maximum amounts of contingent liabilities that may become payable:	Consolidated	
	2016 (\$)	2015 (\$)
Compensation Arrangements	1,800,000	1,800,000
ASX Settlement Performance Bond	500,000	500,000
Total	2,300,000	2,300,000

Compensation Arrangements

Part 7.5 of the *Corporations Act 2001* requires licensed markets through which participants provide services for retail clients to have compensation arrangements. The compensation arrangements are limited to the coverage of losses arising from defalcation of client assets held by participants registered with the Exchanges as the holders of Australian Market Licences (AML) as detailed in the *Corporations Act 2001*.

National Stock Exchange of Australia Limited Compensation Arrangements

The minimum cover that NSX is required to have as part of the compensation arrangements is \$800,000. The arrangements to meet the minimum cover are in two parts: (a) the NSX Fidelity Fund as detailed in this report (Note 24), and (b) a Letter of Credit for the amount of \$700,000. The combined sources have over \$1.2 million in funds which exceeds the minimum cover by over \$400,000.

During the period there were no claims on the compensation arrangements.

IR Plus Securities Exchange Limited Compensation Arrangements

The minimum cover that IR Plus is required to have as part of the compensation arrangements is \$1,000,000. The arrangements to meet the minimum cover are in two parts: (a) the IR Plus Fidelity Fund as detailed in this report (Note 24), and (b) a Letter of Credit for the amount of \$1,000,000. The combined sources have over \$1.1 million in funds which exceeds the minimum cover by over \$50,000.

During the period there were no claims on the compensation arrangements.

ASX Settlement Performance Bond

National Stock Exchange of Australia acts as a settlement agent on behalf of several NSX and SIMVSE broker participants. Consequently NSX is registered with ASX Settlement as a General Participant for the purpose of ASX Settlement Operating Rules to effect CHESS settlements. ASX Settlement Operating Rule 4.9.1 requires General Participants to post a Settlement Performance Bond to the value of \$500,000. ASX Settlement can make a demand under Operating Rule 4.9.5 if ASX Settlement is satisfied that a Participant has contravened a provision of the rules and as a result of that contravention, ASX settlement has suffered or incurred any losses, damages, costs or expenses.

NSX has established a bank guarantee backed by a term deposit of \$500,000 to satisfy the requirements of the Settlement Performance Bond. During the period there were no claims arising from ASX Settlement Operating Rule 4.9.5.

Rental Bond

As at 30 June 2017, the National Stock Exchange of Australia had two rental bonds for a total of \$275,000 for the properties at 1 Bligh Street Sydney and 117 Scott Street Newcastle. These bonds are currently secured with term deposits held in the bank. During 2016 there was a total of only \$15,000 in deposits for the Newcastle property.

Note 22: Financial Instruments

(a) Financial Risk Management

The Economic Entity's financial instruments consist mainly of deposits with banks, short-term investments, accounts receivable and payable, and loans to and from subsidiaries.

The main purpose for non-derivative financial instruments is to raise finance for group operations.

The Economic Entity does not have any derivative financial instruments at the end of the financial year.

(b) Interest Rate Risk

The economic entity's exposure to interest rate risk, which is the risk that a financial instruments value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is as follows:

Financial Assets	Weighted Average Effective Interest Rate	Floating Interest Rate	Maturing within 1 Year	Non-Interest Bearing	Total
Cash and cash (2017)	1.50	739,197	-	-	739,197

Total Financial Liabilities (2016)	-	271,938	-	-	271,938

(c) Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the Statement of Financial Position and notes to the financial statements.

The economic entity does not have any material credit risk exposure to any single receivable or group of receivables under financial instruments entered into by the economic entity.

Note 22: Financial Instruments (Cont'd)

(d) Net Fair Value

The net fair value of financial assets and financial liabilities approximates their carrying values as disclosed in the Statement of Financial Position and notes to the financial statements.

The aggregate net fair values and carrying amounts of financial assets and financial liabilities are disclosed in the Statement of Financial Position and in the notes to the financial statements.

(e) Sensitivity analysis

The Economic Entity has performed a sensitivity analysis relating to its exposure to interest rate risk. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in this risk. As the Economic Entity does not trade in commodities, is not involved in foreign exchange transactions and has minimal trade receivables. It has determined it is not exposed to any other market rate fluctuations.

(f) Liquidity risk

Liquidity risk is the risk that the economic entity is unable to meet its financial obligations as they fall due.

The economic entity has a zero level of gearing and manages liquidity risk by closely monitoring forecast and actual cash flows and matching the maturity profiles of financial assets.

(d) Accounting Policies

Segment revenues and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by a segment and consist principally of cash, receivables, intangibles, property, plant and equipment, net of allowances and accumulated depreciation and amortisation. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. Segment liabilities consist principally of payables, employee benefits, accrued expenses, provisions and borrowings. Segment assets and liabilities do not include deferred income taxes.

(e) Intersegment Transfers

Segment revenues, expenses and results include transfers between segments. The prices charged on intersegment transactions are the same as those charged for similar goods to parties outside of the Economic Entity at an arm's length. These transfers are eliminated on consolidation.

(f) Business and Geographic Segments

Business segments

The Economic Entity has the following business segments:

- The Stock Exchanges segment primarily includes the activities of the National Stock Exchange of Australia.

Geographic segments

The Economic Entity's business segments are located in Australia.

Note 24: Financial Market Fidelity Fund

As at 30 June 2017 the National Stock Exchange of Australia Limited Fidelity Fund had a balance of \$559,666 (2016: \$548,119). The National Stock Exchange of Australia Limited is the manager of the fidelity fund and the assets of the fidelity fund can only be used for the purposes prescribed in the Corporations Act 2001. The Board of National Stock Exchange of Australia Limited has waived the contribution fees for Participants.

As at 30 June 2017 the IR Plus Securities Exchange Limited Fidelity Fund had a balance of \$52,197 (2016: \$51,620). IR Plus Securities Exchange Limited is the manager of the fidelity fund and the assets of the fund can only be used for the purposes prescribed in the Corporations Act 2001. The Board of IR Plus Securities Exchange Limited has waived the contribution fees for Participants.

Note 25: Reliance on Technology and Systems

The ability of the National Stock Exchange of Australia Limited to conduct its operations is heavily reliant upon the capacity and reliability of the trading systems which are licensed to the economic entity by NASDAQ Group and the ASX Settlement CHESS settlement systems, which are licensed to the Economic Entity by the Australian Securities Exchange Limited.

The ability of the IR Plus Securities Exchange Limited to conduct its operations is heavily reliant upon the capacity and reliability of the trading systems which are licensed to the economic entity by NASDAQ Group and the ASX Settlement CHESS settlement systems, which are licensed to the Economic Entity by the Australian Securities Exchange Limited.

A significant and sustained failure of those systems would have a materially detrimental effect on the economic entity's short-term results, which in turn could undermine the longer term confidence in the Economic Entity.

Note 26: Events after the end of the reporting period

During the year the directors of TWPL Pty Limited decided that it was no longer needed and an application was put forward to ASIC. On 5 July 2017 formal notification was received that the company was deregistered.

There are no other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Economic Entity, the results of those operations or the state of affairs of the Economic Entity in future financial years.

The Group measures the following assets and liabilities at fair value on a recurring basis:

- Investment in Finance TV Pty Ltd –fully paid ordinary shares

Fair value hierarchy

AASB 13 *Fair Value Measurement* requires all assets and liabilities measured at fair value to be assigned to a level in the fair value hierarchy as follows:

Level 1 - Measurement based on unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 - Measurement based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Measurement based on unobservable inputs for the asset or liability.

The table below shows the assigned categorisation within the fair value hierarchy for each asset and liability held at fair value by the Group:

30 June 2017

Recurring fair value measurements	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Level 4 (\$)
Finance TV Pty Limited fully paid ordinary shares	-	-	76,364	76,364

30 June 2016

Recurring fair value measurements	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Level 4 (\$)
Finance TV Pty Limited fully paid ordinary shares	-	-	120,000	120,000

Investment in Finance TV – Level 3

The Company has considered the fair value of its investment in Finance TV Pty Limited having regard for recent arms-length market activity with respect to the asset.

DIRECTORS' DECLARATION

The directors of the company declare that:

1. The financial statements and notes, as set in the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows and notes to the financial statements, are in accordance with the *Corporations Act 2001* and:
 - (a) comply with Accounting Standards and the *Corporations Act and Regulations 2001* (section 296); and
 - (b) give a true and fair view of the financial position as at 30 June 2017 and of the performance for the year ended on that date of the company and economic entity (*Corporations Act 2001* section 297); and
 - (c) the audited remuneration disclosures set out in the Remuneration Report section of the Directors' Report for the year ended 30 June 2017 complies with section 300A of the *Corporations Act 2001*;
2. The Chief Executive Officer and General Manager have each declared according to section 295A(2) of the *Corporations Act 2001* that:
 - (a) the financial records of the company for the financial year have been properly maintained in accordance with section 286 of the *Corporations Act 2001*;
 - (b) the financial statements and notes for the financial year comply with the Accounting Standards; and
 - (c) the financial statements and notes for the financial year give a true and fair view.
3. The declaration under section 295A of the *Corporations Act 2001* is founded on a sound system of risk management and internal control and the system is operating effectively in material respects in relation to financial reporting of risks.
4. In the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NSX LIMITED

Report on the Financial Report

Opinion

We have audited the accompanying financial report of NSX Limited and its controlled entities (the Economic Entity), which comprises the consolidated statement of financial position as at 30 June 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company and the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

In our opinion, the financial report of NSX Limited is in accordance with the Corporations Act 2001, including:

- i) Giving a true and fair view of the consolidated entity's financial position as at 30 June 2017 and of its performance for the year ended on that date; and
- ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the Auditor's Responsibility section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the consolidated entity in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

1. Classification of cash held for compensation arrangements

Why significant

Classification of cash held for compensation arrangements

Under compensation arrangements, NSX Limited must maintain a minimum level of cash available for immediate use in the event of a claim. This cash is held on a short-term basis in term deposits.

NSX Limited classify these term deposits as a current financial asset, regardless of the term invested.

The cash deposits amount to \$2,200,000 and are disclosed as Financial Assets in the Statement of Financial Position and included in Cash and Cash Equivalents for the purpose of the Statement of Cash Flows. This includes a letter of credit for \$700,000 within National Stock Exchange of Australia Limited, a letter of credit for \$1,000,000 within IR Plus Securities Exchange Limited and an established bank guarantee backed by a term deposit of \$500,000 as noted in Note 21.

How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- PKF held discussions with management to determine their basis for classification as a current financial asset. Management of NSX Limited provided a detailed basis for classification, supported by reference to Australian Accounting Standards.
- PKF reviewed management's basis for the classification against the requirements of Australian Accounting Standards, while also taking into consideration the intent of Chapter 7, Part 7.5 of the Corporations Act 2001 which sets out requirements for a compensation regime, and the nature of approved compensation arrangements.
- PKF concluded that NSX Limited has an unconditional right to call the deposit at their discretion. Therefore, the classification as a current financial asset is reasonable.

Key Audit Matters (cont'd)

2. Control of Joint Venture

Why significant

Control of Joint Venture

NSX Limited hold 50% of the shares in IR Plus Group Holdings Limited with the other 50% being held by a single shareholder.

While a 50:50 split exists, Directors and management determined that NSX Limited maintains control of IR Plus Group Holdings Limited. This conclusion has been reached due to the agreement in place between NSX Limited and IR Plus Group Holdings, whereby NSX Limited is required to provide financial support to IR Plus Group Holdings Limited until such time as IR Plus Group Holdings Limited returns to a profitable position. As at 30 June 2017 this agreement provides IR Plus Group Holdings Limited the ability to continue its operations into the foreseeable future. As a result of this agreement, NSX Limited has the ability to direct the relevant activities of IR Plus Group Holdings Limited.

As a result of this judgement, the financial records of IR Plus Group Holdings Limited have been consolidated into the financial report of NSX Limited, resulting in a non-controlling interest for the 50% interest held by other parties.

Should any of the conditions set out in Note 1 m) iv) vary, it could alter the relationship between NSX Limited and IR Plus Group Holdings Limited, and result in a joint venture arrangement whereby NSX Limited interest would be equity accounted.

How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- PKF reviewed the nature of control by both parties and we are satisfied that there is sufficient evidence to support NSX's judgement that they maintain the ability to control IR Plus Group Holdings Limited.
- Further to this, there remains common Directors in both NSX Limited and IR Plus Group Holdings Limited, which further supports the assertion that NSX Limited maintains the ability to control.
- We have assessed the appropriateness of the related disclosures in Note 28 and concluded that these disclosures are sufficient and appropriate.

Other Information

Other information is financial and non-financial information in the annual report of the Economic Entity which is provided in addition to the Financial Report and the Auditor's Report. The directors are responsible for Other Information in the annual report.

The Other Information we obtained prior to the date of this Auditor's Report was the Director's report. The remaining Other Information is expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, the auditor does not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information in the Financial Report and based on the work we have performed on the Other Information that we obtained prior the date of this Auditor's Report we have nothing to report.

Directors' Responsibilities for the Financial Report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the Directors are responsible for assessing the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using a going concern basis of accounting unless the Directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individual or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

Auditor's Responsibilities for the Audit of the Financial Report (cont'd)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the consolidated entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated entity to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the consolidated entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

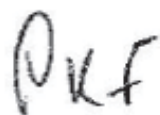

Opinion

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2017.

In our opinion, the Remuneration Report of NSX Limited for the year ended 30 June 2017, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
