SCHROLE AWARDED TENDER FOR HOSPITAL CONTRACT

Schrole Group Ltd (ASX:SCL) (**Company** or **Schrole**) is pleased to announce that since lodgement of the Company's prospectus on 18 August 2017 (**Prospectus**), the Company has been awarded the tender to implement a staff messaging system for Sir Charles Gairdner Hospital. The implementation of the system will commence shortly.

The term of the contract is for an initial one year period, with extension options at the discretion of Sir Charles Gairdner Hospital of up to a further four years. The contract value for the initial one year period is \$14,300, with a total potential contract value of up to \$55,300 over five years (assuming all extension options are exercised). Whilst the contract value is not considered by the Company to be a material amount, as set out in section 4.3(m) of the Prospectus, this contract is a positive step towards expanding the use of the Company's Schrole Cover application by providing a "white labelled" version of the software for use in other industries, such as healthcare.

Schrole Managing Director, Rob Graham: "The tender with Sir Charles Gairdner Hospital indicates the scope for application of our Schrole Cover system beyond schools. We are very pleased to be able to confirm we will be providing this service to hospitals, and will be actively investigating further opportunities for Schrole Cover in healthcare and other industries."

About Schrole Group Ltd

Schrole is an Australian educational technology company providing schools worldwide with innovative talent management solutions and consulting services to address staffing and recruitment challenges.

Schrole is run by and for education professionals. Founded and managed by former principal Rob Graham, Schrole is passionate about helping schools secure the best teachers and save time on administrative processes, so they can focus on the important job of teaching the next generation. Schrole's innovative solutions are currently being used by over 200 international and domestic schools in more than 30 countries worldwide.

Schrole has three business units: Schrole Connect, an online Software-as-a-Service (SaaS) platform for efficient and effective recruitment of international school teachers; Schrole Cover, a cloud-based SaaS platform for the fast filling of casual staffing positions; and Schrole Develop, a training and consulting organisation that provides Australian-accredited leadership training and strategic consulting services to schools.
