**DIRECTORS' REPORT**

**Review of Operations**

The consolidated loss of the group after providing for income tax amounted to \$1,710,765 (2015: \$1,476,795).

This loss for the current period was primarily attributed to the write off of the assets of the company following the appointment of voluntary administrators on 9 June 2016.

The Company launched 64 new lines of Bath Accessories, Beauty Implements and Hair Care accessories in December 2015.

The Company terminated the Triple R agreement which unfortunately did not deliver on its promise. Regrettably most projects resulted in losses and it was imperative that we suspended the program altogether.

Trading deteriorated during the second half of the year and the Directors placed the Company in Voluntary Administration on 9 June 2016.

**REMUNERATION REPORT**

The remuneration report below reflects the policy adopted by the directors of the Company who were in office prior to the Company entering administration on 9 June 2016. The policy applied up to that date. From that date the Administrators became responsible for the remuneration policy of the Company.

If the proposed recapitalisation is successful, the directors in office at the date of this report and/or those appointed following recapitalisation will develop and adopt a new policy.

The remuneration policy of Bronson Group Limited (subject to Deed of Company Arrangement) has been designed to align key management personnel (KMP) objectives with shareholder and business objectives. The Board of Bronson Group Limited (subject to Deed of Company Arrangement) believes the remuneration policy to be appropriate and effective in its ability to attract and retain high-quality KMP to run and manage the consolidated group and to attain the targets set by the Board and management.

This report details the nature and amount of remuneration for each key management person of Bronson Group Limited (subject to Deed of Company Arrangement), and for the executives receiving the highest remuneration.

Throughout the financial year, the company did not have a remuneration committee as the directors believed the size of the consolidated entity and the size of the Board did not warrant its existence.

The Board's policy for determining the nature and amount of remuneration for KMP of the consolidated group is based on the following:

All KMP receive a base salary (which is based on factors such as length of service and experience), superannuation and options.

Incentives paid in the form of options are intended to align the interests of the directors and company with those of the shareholders.

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities**

(Subject to a Deed of Company Arrangement)

**DIRECTORS' REPORT**

KMP received a superannuation guarantee contribution required by the government, which is currently 9.5% of the individual's average weekly ordinary time earnings (AWOTE), and do not receive any other retirement benefits. Some individuals, however, have chosen to sacrifice part of their salary to increase payment towards superannuation.

- Upon retirement, KMP are paid employee benefit entitlements accrued to the date of retirement. Any options not exercised before or on the date of termination will lapse. The Non-executive Directors are not entitled to retirement benefits. -
- All remuneration paid to KMP is valued at the cost to the company and expensed. -

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

This financial report includes the consolidated financial statements and notes of Bronson Group Limited (subject to Deed of Company Arrangement) and controlled entities ('Consolidated Group' or 'Group').

The separate financial statements of the parent entity, Bronson Group Limited (subject to Deed of Company Arrangement), have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial report was authorised for issue on 26 November 2016 by the Board of Directors.

**Basis of Preparation**

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

**a. Going Concern**

The financial statements have been prepared on the going concern basis, which assumes the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The net loss after income tax for the consolidated entity for the financial year ended 30 June 2016 was \$1,710,765, and as at 30 June 2016, total liabilities exceeded total assets by \$3,095,418.

The Directors placed the Company in Voluntary Administration on 9 June 2016 under S436A of the Corporations Act 2001. As a result the securities of the Company were suspended from trading on ASX on that date in accordance with listing Rule 17.3 pending the Company's compliance with Listing Rule 12.1.

On 7 October 2016 the Company executed a Deed of Company Arrangement with Panorama Technology Services Pty Ltd. In the event that the Company is unable to obtain profitable business opportunities and/or raise additional capital, it will be required to realise its assets and extinguish its liabilities in a manner other than in the normal course of business. The financial report does not include any adjustments relating to the recoverability or classification of recorded asset amounts or classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The ability of the consolidated entity to continue as a going concern is dependent on the approval of shareholders to the proposed recapitalisation.

**b. Incomplete Records**

The management and affairs of the Company and all its controlled entities were not under the control of its Directors since it entered voluntary administration on 9 June 2016 until the date the Deed of Company Arrangement (DOCA) was executed, being 7 October 2016.

The financial report was prepared by Directors at the time the Group entered voluntary administration.

To prepare the financial report, the Directors have reconstructed the financial records of the Company using data extracted from the Company's accounting systems and the record of receipts and payments made available by the Administrators of the Company and its subsidiaries for the period from their appointment. However, it has not been possible for the Directors to obtain all the books and records of the Company and its subsidiary for the period prior to the appointment of the Administrators.

Consequently, although the Directors have prepared this financial report to the best of their knowledge based on the information made available to them, they are of the opinion that it is not possible to state that this financial report has been prepared in accordance with Australian Accounting Standards including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001, being for the year ended 30 June 2016.

**c. Principles of Consolidation**

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities (subject to Deed of Company Arrangement)**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by Bronson Group Limited (subject to Deed of Company Arrangement) at the end of the reporting period. A controlled entity is any entity over which Bronson Group Limited (subject to Deed of Company Arrangement) has the ability and right to govern the financial and operating policies so as to obtain benefits from the entity's activities.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities is included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 13 to the financial statements.

In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the consolidated group have been eliminated in full on consolidation.

Non-controlling interests, being the equity in a subsidiary not attributable, directly or indirectly, to a parent, are reported separately within the equity section of the consolidated statement of financial position and statement of comprehensive income. The non-controlling interests in the net assets comprise their interests at the date of the original business combination and their share of changes in equity since that date.

*Reverse Acquisition*

The consolidated financial statements have been prepared using reverse acquisition accounting. In reverse acquisition accounting, the cost of the business combination is deemed to have been incurred by the legal subsidiary Bronson Marketing Pty Ltd (the acquirer for accounting purposes) in the form of equity instruments issued to the owners of the legal parent, Bronson Group Limited (subject to Deed of Company Arrangement) (the acquiree for accounting purposes).

As set out in Note 15, goodwill has been fully impaired.

*Business Combinations*

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is attained, whereby the fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exemptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured in each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to business combinations are recognised as expenses in profit or loss when incurred.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

**c. Income Tax**

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities (subject to Deed of Company Arrangement)  
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

*Tax Consolidation*

Bronson Group Limited (subject to Deed of Company Arrangement) and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity in the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The group notified the Australian Tax Office that it had formed an income tax consolidated group under the tax consolidation regime. The tax consolidated group has entered a tax funding arrangement whereby each company in the group contributes to the income tax payable by the group in proportion to their contribution to the group's taxable income. Differences between the amounts of net tax assets and liabilities derecognised and the net amounts recognised pursuant to the funding arrangement are recognised as either a contribution by, or distribution to the head entity.

**d. Inventories**

Inventories are measured at the lower of cost and net realisable value.

**e. Plant and Equipment**

Each class of plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment is measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

**Depreciation**

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line or diminishing value basis as appropriate over the asset's useful life to the consolidated group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

<b>Class of Fixed Asset</b>	<b>Depreciation Rate</b>
Plant and equipment	11–40%
Office equipment	10–50%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities (subject to Deed of Company Arrangement)**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

**f. Impairment of Assets**

At each reporting date, the group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

**g. Intangibles**

**Patents and web design**

Patents and web design are recognised at cost. Patents and web design have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and web design are amortised over their useful life.

<b>Class of Intangible Asset</b>	<b>Useful Life</b>
Patents	10 years
Web design	2 years
Supply agreement	5 years

**h. Foreign Currency Transactions and Balances**

**Functional and presentation currency**

The functional currency of each of the group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

**Transaction and balances**

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the gain or loss is directly recognised in other comprehensive income, otherwise the exchange difference is recognised in the statement of profit or loss.

**Group companies**

The financial results and position of foreign operations, whose functional currency is different from the Group's presentation currency, are translated as follows:

- assets and liabilities are translated at exchange rates prevailing at the end of the reporting period;
- income and expenses are translated at average exchange rates for the period; and

**Bronson Group Limited ABN 60 006 569 124**  
**and Controlled Entities (subject to Deed of Company Arrangement)**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

— retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

**i. Employee Benefits**

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries, termination and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**j. Provisions**

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

**k. Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with banks, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

**l. Revenue**

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed.

Revenue from the sale of goods is recognised at the point of delivery as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

All revenue is stated net of the amount of goods and services tax (GST).

**m. Trade, Other Receivables and Other Assets**

**(i) Trade and other Receivables**

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

**(ii) Other Assets**

Other assets are initially recognised at fair value and subsequently measured at amortised cost, less any provision for impairment. Refer to Note 16 for further discussion on Other Assets.

**n. Borrowing Costs**

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

**o. Goods and Services Tax (GST)**

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities (subject to Deed of Company Arrangement)  
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

**p. Share-based payments**

Equity-settled share-based payments are measured at fair value at the date of grant. Fair value is measured by use of the Black Scholes Option Pricing model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period.

For cash-settled share-based payments, a liability equal to the portion of the goods or services received is recognised at the current fair value determined at each reporting date.

**q. Comparative Figures**

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the group has retrospectively applied an accounting policy, made a retrospective restatement of items in the financial statements or reclassified items in its financial statements, an additional statement of financial position as at the beginning of the earliest comparative period will be disclosed.

**r. Critical Accounting Estimates and Judgments**

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

**NOTE 28: NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE PERIODS**

Accounting Standards and Interpretations issued by the AASB that are not yet mandatorily applicable to the Group, together with an assessment of the potential impact of such pronouncements on the Group when adopted in future periods, are discussed below:

AASB 9: *Financial Instruments* and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018).

**Bronson Group Limited ABN 60 006 569 124  
and Controlled Entities (subject to Deed of Company Arrangement)**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016**

The Standard will be applicable retrospectively (subject to the provisions on hedge accounting outlined below) and includes revised requirements for the classification and measurement of financial instruments, revised recognition and derecognition requirements for financial instruments and simplified requirements for hedge accounting.

The key changes that may affect the Group on initial application include certain simplifications to the classification of financial assets, simplifications to the accounting of embedded derivatives, upfront accounting for expected credit loss, and the irrevocable election to recognise gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. AASB 9 also introduces a new model for hedge accounting that will allow greater flexibility in the ability to hedge risk, particularly with respect to hedges of non-financial items. Should the entity elect to change its hedge policies in line with the new hedge accounting requirements of the Standard, the application of such accounting would be largely prospective.

This standard is not expected to impact the group's financial statements.

*AASB 15: Revenue from Contracts with Customers* (applicable to annual reporting periods commencing on or after 1 January 2018).

When effective, this Standard will replace the current accounting requirements applicable to revenue with a single, principles-based model. Except for a limited number of exceptions, including leases, the new revenue model in AASB 15 will apply to all contracts with customers as well as non-monetary exchanges between entities in the same line of business to facilitate sales to customers and potential customers.

The core principle of the Standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for the goods or services. To achieve this objective, AASB 15 provides the following five-step process:

- identify the contract(s) with a customer;
- identify the performance obligations in the contract(s);
- determine the transaction price;
- allocate the transaction price to the performance obligations in the contract(s); and
- recognise revenue when (or as) the performance obligations are satisfied.

This Standard will require retrospective restatement, as well as enhanced disclosures regarding revenue.

Although the directors anticipate that the adoption of AASB 15 may have an impact on the Group's financial statements, it is impracticable at this stage to provide a reasonable estimate of such impact.

**Directors' Responsibility for the Financial Report**

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1(b), the directors also state, in accordance with Australian Accounting Standard AASB 101: Presentation of Financial Statements, that, where possible, the financial statements have been reconstructed to comply with International Financial Reporting Standards, though financial records are incomplete. Accordingly, the directors disclaim any responsibility for the completeness of the Financial Statements, and do not provide any statement to such effect in accordance with Australian Accounting Standard AASB 101: Presentation of Financial Statements.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the financial report based on our audit. We have conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

Because of the matter discussed in the basis of Disclaimer of Auditor's Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

### **Independence**

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

### **Basis for Disclaimer of Auditor's Opinion**

As disclosed in Note 1(b) to the financial statements, on 9 June 2016 the company's securities were suspended from official quotation on the ASX. The company was placed into voluntary administration on 9 June 2016 under s436A of the Corporations Act 2001 until the date the Deed of Company Arrangement was effectuated, being 10 October 2016. Consequently, the financial information relating to the year under audit was not subject to the same accounting and internal controls processes, which includes the implementation and maintenance of internal controls that are relevant to the preparation and fair presentation of the financial report. Whilst the books and records of the company have been reconstructed to the maximum extent possible, we were unable to satisfy ourselves as to the completeness of the general ledger and financial records as well as the relevant disclosures in the financial report.

As stated in Note 1(b), the current Directors are unable to state that the financial report is in accordance with all the requirements of the Corporations Act 2001 and the Australian Accounting Standards.

As disclosed in Note 1(a) to the financial statements, the Directors state that the going concern basis used in the financial report is appropriate. This is on the basis that the company is able to successfully restructure and recapitalise the company after shareholder's approval. In our opinion these circumstances indicate the existence of a material uncertainty that may cast significant doubt on the company's ability to continue as a going concern and therefore it may be unable to realise its assets and discharge its liabilities in the normal course of business and at the amounts stated in the financial report.

### **Disclaimer of Auditor's Opinion**

In our opinion, because of the existence of the limitation on the scope of our work, as described in the Basis for Disclaimer of Auditor's Opinion paragraph noted above, and the effects of such adjustments, if any, as might have been determined to be necessary had the limitation not existed, we are unable to, and do not express, an opinion as to whether the financial report of Bronson Group Limited is in accordance with the Corporations Act 2001, including:

- a. giving a true and fair view of the company's financial position as at 30 June 2016 and of its performance for the year ended on that date;
- b. complying with Australian Accounting Standards to the extent described in Note 1, and the Corporations Regulations 2001; and
- c. complying with all the requirements of the International Financial Reporting Standards.

**Report on Other Legal and Regulatory Requirements**

Due to the matter described in the Basis for Disclaimer of Auditor's Opinion paragraph, we have not been given all information, explanation and assistance necessary for the conduct of the audit; and we are unable to determine whether the company has kept:

- a. financial records sufficient to enable the financial report to be prepared and audited; and
- b. other records and registers as required by the Corporations Act 2001.

**Report on the Remuneration Report**

We have audited the remuneration report on pages 6 to 9 of the directors' report for the year ended 30 June 2016. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

**Disclaimer of Opinion**

In our opinion, because of the existence of the limitation on scope of our work, as described in the Basis of Disclaimer of Auditor's Opinion, and the effects of such adjustments, if any, as might have been determined to be necessary had the limitation not existed, we are unable to, and do not express, an opinion on the remuneration report of Bronson Group Limited for the year ended 30 June 2016 and whether it complies with Section 300A of the Corporations Act 2001.
