

## ASX/Media statement

1 November 2017

### Domino's Australia media statement

Domino's Pizza Enterprises Ltd (Domino's) welcomes today's decision by the Fair Work Commission for the termination of the existing enterprise bargaining agreements (EBAs) by 24 January 2018.

Domino's did not oppose the termination of the existing EBAs. It requested, and was granted, a period of time to allow the business to transition to the new proposed EBA currently under negotiation by the parties. This new EBA would apply to the 20,000+ employees throughout 660 Domino's stores across Australia.

Negotiations with the relevant parties for a new EBA are well advanced, and the intention is for it to take effect before the termination of the existing EBAs.

Over the past 18 months, Domino's has already increased our team members' take-home pay in good faith in anticipation of the new EBA.

Domino's will communicate the Commission's decision to its franchisee network today, so that employees continue to receive their correct entitlements in this transitional period and beyond.
