2 DETAILS OF THE ENTITLEMENT OFFER

2.1 Overview of the Entitlement Offer

Arc Exploration is undertaking a non-renounceable 1 for 2 pro-rata Entitlement Offer.

If you are an Eligible Shareholder you may apply for 1 New Share for every 2 Existing Shares held at 7.00 pm Sydney time on 14 November 2017 (**Record Date**). This is called your **Entitlement**.

On Application, the Applicant must pay the Offer Price of \$0.51 for each New Share the Applicant wishes to apply for in full.

Assuming that the Entitlement Offer is fully subscribed, on completion of the Entitlement Offer the Company will:

- (a) issue 2,100,122 New Shares; and
- (b) have raised \$1,071,062 (before costs).

The Entitlement Offer is not underwritten.

Eligible Shareholders will be sent the Offer Booklet and a personalised Entitlement and Acceptance Form.

Eligible Shareholders are invited to subscribe for all or part of their Entitlement under the Entitlement Offer and may also apply for Additional New Shares. To the extent that Shareholders do not participate in the Entitlement Offer, their percentage shareholding in the Company will be diluted.

2.2 Purpose of the Equity Raising

Arc Exploration's cash position at the end of June 2017 was approximately \$468,000. Assuming that the Offer is fully subscribed, the Entitlement Offer will provide the Company with additional funds of \$1,071,062 (before costs).

On this basis, on completion of the Entitlement Offer (before costs), the Company will have approximately \$1,539,062 in cash (made up of \$1,071,062 raised under the Entitlement Offer and \$468,000 cash balances at 30 June 2017 (before expenses incurred from 1 July 2017 to the date of this Offer Booklet)).

2.3 Use of funds

As noted in Section 1, the Company is undertaking the Entitlement Offer for the primary purpose of:

- (a) investigating and funding new project acquisitions or joint ventures; and
- (b) providing working capital to the Company generally.

The funds raised under the Entitlement Offer, combined with those noted in Section 2.2 will be allocated as set out in the table below:

| Item | Anticipated funds required (\$) |
|--|---------------------------------|
| Investigating and funding new project acquisitions or joint ventures | \$700,000 |
| Working capital | \$300,000 |

2.4 New Shares

The Offer Price is payable in full by Eligible Shareholders on acceptance of the Entitlement Offer.

The Directors may at any time decide to withdraw this Offer Booklet and the Entitlement Offer made under it, in which case the Company will return all Application Monies (without interest) as soon as practicable.

(a) Rank

The New Shares will be fully paid ordinary shares and will rank equally in all respects from the date of allotment with the Existing Shares.

(b) Issue

New Shares taken up under the Entitlement Offer are expected to be allotted on 11 December 2017 (subject to any changes in the timetable set out in Section 1, at the discretion of the Directors, having regard to the Corporations Act and Listing Rules).

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their new holding statements following the issue of New Shares to them will do so at their own risk.

(c) ASX quotation of New Shares

The Company will apply to ASX for official quotation of the New Shares. If ASX does not grant permission for official quotation of the New Shares, all Application Monies will be returned, without interest, as soon as practicable.

2.5 Entitlements

The number of New Shares to which Eligible Shareholders are entitled is shown on the Entitlement and Acceptance Form accompanying this Offer Booklet.

Eligible Shareholders may accept all, all and Additional New Shares, part or none of their Entitlement.

If Eligible Shareholders choose not to accept any of their Entitlements, then they are not required to do anything.

To the extent that Shareholders do not participate in the Entitlement Offer, their shareholdings in the Company will be diluted by that portion, assuming that the Offer is fully subscribed.

Detailed instructions on how to accept all or part of your Entitlement are set out in Section 3.

2.6 Additional New Shares

Eligible Shareholders who apply for their full Entitlement, may also apply for Additional New Shares. Applicants for Additional New Shares (**Additional Subscribers**) will be allocated Additional New Shares from any Shortfall, which comprise New Shares equivalent to the number not taken up by Eligible Shareholders together with any New Shares that would have been offered to Ineligible Shareholders if they had been eligible to participate in the Entitlement Offer (**Shortfall**).

Please note that Additional New Shares will only be allocated to you if there are sufficient New Shares available in the Shortfall, subject to any scale-back that the Company may apply (in its absolute discretion). If you apply for Additional New Shares there is no guarantee you will be allocated any. If you apply for Additional New Shares and are not allocated any or less than the number you applied for, the Application Monies in relation to those Additional New Shares will be returned to you, without interest, as soon as practicable.

2.7 Shortfall

If any Shortfall remains after the Closing Date, the Directors in conjunction with the Lead Manager, reserve the right to place any Shortfall with:

- (a) Additional Subscribers in accordance with Section 2.6; or
- (b) any other parties selected by the Directors in conjunction with the Lead Manager.

Pursuant to Listing Rule 7.2 (exception 3), any allocation of the Shortfall to persons will not count towards the Company's 15% threshold under Listing Rule 7.1, provided that the Company makes the issue within three months after the close of the Entitlement Offer and the issue price is not less than the price at which the Shares were offered under the Entitlement Offer. The Directors reserve the right to issue the Shortfall at their discretion.

2.8 Lead Manager

The Company has appointed Taylor Collison Limited as Lead Manager in respect of the Entitlement Offer pursuant to a certain letter agreement entered into between the Lead Manager and the Company on 8 November 2017 (**Lead Manager Agreement**).

The Lead Manager will assist the Company in marketing the Entitlement Offer, and use its reasonable endeavours to procure subscription for any Shortfall.

A fee of 6.0% plus GST is payable to the Lead Manager on the total amount raised pursuant to the Offer and any Shortfall placed + 150,000 Options exercisable at \$0.75 Expiry Date of 10 October 2019.

2.9 Persons with more than one holding

If you have more than one holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form, and you will have separate Entitlements for each separate holding.

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those shareholdings, only use the unique reference number specific to that shareholding as set out on the applicable Entitlement and Acceptance Form. Do not use the same reference number for more than one of your shareholdings as this can result in your Application Monies being applied to your Entitlement in respect of only one of your shareholdings (with the result that any application in respect of your remaining shareholdings will not be recognised as valid).

2.10 Opening and Closing dates

The Entitlement Offer will open for receipt of acceptances on 17 November 2017.

The Closing Date and time for acceptances and payments under the Entitlement Offer is 4 December 2017 at 5.00 pm Sydney time, subject to the Directors varying these dates (in accordance with the Corporations Act and the Listing Rules). The Company must receive your Entitlement and Acceptance Form and payment before the Closing Date otherwise the Entitlement Offer as it applies to you as an Eligible Shareholder will lapse. Further details on the timetable for the Entitlement Offer are set out in Section 1 of this Offer Booklet.

2.11 Market Prices for Shares on ASX

The lowest and highest market prices of the Shares of the Company on ASX during the three months immediately preceding the date of this Offer Booklet were \$0.51 and \$0.53 respectively.

The closing average price for Shares on the ASX over the 14 trading days preceding the date of announcement of the Entitlement Offer was \$0.51. The Issue Price therefore equals the 14 day closing average price for Shares.

2.12 Application Monies

Pending the allotment of the New Shares or return of Application Monies, the Application Monies will be held in trust for Applicants. No interest will be paid on any Application Monies received or refunded.

2.13 Foreign Shareholders

The New Shares being offered under this Offer Booklet are being offered to Eligible Shareholders only and will not be offered to shareholders resident outside of Australia or New Zealand.

The Company has determined that it is not economically viable and it is unreasonable for it to make offers to Shareholders resident outside of Australia or New Zealand, having regard to the amount seeking to be raised under the Entitlement Offer and the substantial costs involved in complying with the legal and regulatory requirements in those jurisdictions.

In compliance with Listing Rule 7.7, the Company will send each Ineligible Shareholder details of this Entitlement Offer and advise them that the Company will not offer New Shares to them.

New Shares to which any Ineligible Shareholder would otherwise be entitled will form part of the Shortfall (if any) and will be dealt with by the Lead Manager and the Company in accordance with the Lead Manager Agreement.

2.14 Regular Reporting and disclosure

The Company is a disclosing entity for the purposes of the Corporations Act and as such is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the market.

In particular, the Company has an obligation (subject to certain limited exceptions) to notify ASX once it is, or becomes, aware of information concerning the Company which a reasonable person would expect to have a material effect on the price or value of the Company's securities. All announcements made by the Company are available from the ASX website asx.com.au or the Company's website <http://www.arcexploration.com.au>.

2.15 No rights trading

This Entitlement Offer is made on a non-renounceable basis. Eligible Shareholders who are registered as at the Record Date may not renounce, sell, transfer or deal with all or any part of their Entitlement to the New Shares which they do not wish to accept.

If you do not take up your Entitlement by the Closing Date, the Entitlement Offer will lapse, your shareholding in the Company will be diluted and any Shortfall will be dealt with in accordance with Section 5 of this Offer Booklet.

2.16 Enquiries

If you have any questions concerning your Entitlement or this Offer Booklet, please contact your professional adviser or the Share Registry, Advanced Share Registry Limited on (08) 9389 8033 (within Australia) or +61 8 9389 8033 (outside Australia), from 8.30 am to 5.00 pm Perth time, Monday to Friday.

You must make your application for New Shares and Additional New Shares in accordance with this Offer Booklet and the personalised Entitlement and Acceptance Form. Arc Exploration reserves the right to reject applications not made in this way.

Arc Exploration also reserves the right (in its absolute discretion) to reduce the number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if their claims prove to be overstated or if they or their nominees fail to provide information to substantiate their claims.

Submitting an Application constitutes a binding offer to acquire New Shares (and if applicable, Additional New Shares) on the terms and subject to the conditions set out in this Offer Booklet and Entitlement and Acceptance Form and, once lodged, cannot be withdrawn.

You do not need to sign the personalised Entitlement and Acceptance Form for it to be considered binding.

An Application may still be treated as a valid Application for New Shares (and if applicable, Additional New Shares) even if it is not completed or submitted correctly. The Company's decision whether to treat an Application as valid and how to construe, amend, complete or submit the Application is final.

By completing and returning your Entitlement and Acceptance Form with the requisite Application Monies or making a payment by BPAY®, you will be deemed to have acknowledged, represented and warranted:

- (xv) declare that you are the current registered holder of Shares and are a resident of Australia or New Zealand, and are not in the United States or a U.S. Person, or acting for the account or benefit of a U.S. Person;
- (xvi) agree that if in the future you decide to sell or otherwise transfer the New Shares (or Additional New Shares, if applicable), you will only do so outside the United States in a standard (regular way) brokered transaction on the ASX where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States or person that is a U.S. Person or that is acting for the account or benefit of a U.S. Person, in accordance with Regulation S under the U.S. Securities Act; and
- (xvii) have not, and will not, send any materials relating to the Entitlement Offer to any person in the United States or that is, or is acting for the account or benefit of, a U.S. Person.

Prior to deciding whether to apply for New Shares under the Entitlement Offer, Eligible Shareholders should read this Offer Booklet in its entirety and review all announcements made by the Company to the ASX in order to gain an understanding of the Company, its activities, operations, financial position and prospects.

The risks included in this Section are key risks identified by the Board as being specific to the Company and its operations as at the date of this Offer Booklet and reasonably anticipated by the Board. It is important to note that the risks listed in this Section are not an exhaustive list of the risks relevant to the Company.

Shareholders are strongly encouraged to:

- (a) rely on their own knowledge of the Company;
- (b) refer to disclosures made by the Company to ASX; and
- (c) consult their professional advisers,

before deciding whether to apply for New Shares.

Announcements made by the Company to ASX are available from the ASX website www.asx.com.au or from the Company's website <http://www.arcexploration.com.au>.

The risks described in this Section may impact upon the Company's future performance, so the Company and its Directors have endeavoured (and will continue to do so) to take steps to safeguard the Company from, and to mitigate the Company's exposure to, these risks.

4.1 General Risks

(a) Share Market

Share market conditions may affect listed securities regardless of operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- movements in, or outlook on, interest rates and inflation rates;
- currency fluctuations;
- commodity prices;
- changes in investor sentiment towards particular market sectors; and
- the demand for, and supply of, capital.

Many factors will affect the price of the New Shares including local and international stock markets, movements in commodity prices, interest rates, economic conditions and investor sentiment generally.

(b) Economic Factors

Factors such as inflation, currency fluctuation, interest rates, supply and demand and industrial disruption have an impact on operating costs, commodity prices and stock market processes. The Company's future possible revenues and Share price can be affected by these factors which are beyond the control of the Company and its Directors.

(c) Government

Changes in government, monetary policies, taxation and other laws can have a significant influence on the outlook for companies and the returns to investors.

(d) **Commodity price risk**

The demand for and price of commodities is highly dependent on a variety of factors, including, the level of forward selling by producers, costs of production, general economic conditions, inflation levels, interest rates and exchange rates.

These factors may adversely impact on the Company's ability to fund operations, exploration, evaluation and development activities.

(e) **Future capital needs and additional funding**

The future capital requirements of the Company will depend on many factors. There can be no guarantee that the Company will be able to raise additional capital to meet future funding requirements.

Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

4.2 Exploration and Development

The Company is a gold, silver and base metal exploration company focusing on the discovery of economic gold deposits. There is a significant risk for the Company that its proposed exploration programs will not result in success.

Prospective investors should understand that exploration, development and production are high-risk enterprises, only occasionally providing high rewards. In addition to the normal competition for prospective ground, and the high average costs of discovery of an economic resource, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery.

There is no assurance that exploration of the mineral interests currently held by the Company, or in any other exploration interest the Company may subsequently acquire, will result in the discovery of an economically viable resource. Even if an apparently viable resource is identified, there is no guarantee that it can be profitably exploited.

4.3 Licences and permits

The Company's mining exploration activities are dependent upon the good standing of all required licences, concessions, leases, tenements, permits and regulatory consents. Maintaining tenements, obtaining renewals, or getting tenements granted often depends on the Company being successful in obtaining the required statutory approvals for its proposed activities and that the licences, concessions, leases, permits or consents it holds will be renewed as and when required. There is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed in connection therewith.

4.4 Foreign interests

Indonesia and other Asian countries in which the Company may operate continue to experience economic, social and political volatility. As a result, the Company's operations may be impacted by currency fluctuations, political reforms, changes in government policies and procedures, civil unrest, social and religious conflict and deteriorating economic conditions, Indonesia is also subject to natural disasters such as earthquakes and tsunamis. These events lead to business and social dislocation amongst other things.

The existing mining law in Indonesia requires government regulations to dictate how the law will be applied in practice. There is a continuing degree of uncertainty regarding the legislative regime for

mining and exploration in Indonesia and the treatment of foreign and domestic investment in exploration and mining licences.

Licence holders are required to process minerals within Indonesia. Foreign investment companies holding mining license are required to divest to Indonesians within five years of commencing production (subject to regulation).

4.5 Insurance Risks

The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

4.6 Competition Risk

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

4.7 Environmental

The Company's existing project is subject to Indonesian laws and regulations relating to environmental matters. Should the Company proceed to development of one or more mines, it could be expected that such developments would have numerous environmental impacts which would require various statutory approvals to be put in place. There is no guarantee that such approvals would be granted. The Company intends to conduct its operations in an environmentally responsible manner and in accordance with relevant legislation. However, the Company is unable to predict the effect of future changes to environmental legislation or policy and the cost effect of such changes on its operations and financial position.

4.8 Potential Acquisitions

As part of its business strategy, the Company may make acquisitions of or significant investments in companies, products, technologies or resource projects. Any such future transactions would be accompanied by the risks commonly encountered in making acquisitions of companies, products, technologies or resource projects.

4.9 Resource estimates

Resource estimates are expressions of judgment based on knowledge, experience and industry practice. Estimates that are valid when made may change significantly when new information becomes available through drilling, sampling and similar examinations.

In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter mineralisation or formations different from those predicted, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

4.10 Reliance on key management

The responsibility of overseeing the day to day operations and strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance

given that there will be no detrimental impact on the Company if one or more of the key personnel leave the Company.

4.11 Risks associated with operations in foreign jurisdictions

As a company with international interests, the Company is subject to the risks associated with operating in countries that may not have the same degree of political, financial and economic stability as enjoyed in Australia. Accordingly, it may be subject to various levels of political, economic and other risks and uncertainties, including, but not limited to, terrorism, hostage taking, military repression, extreme fluctuations in currency exchange rates, high rates of inflation, labour unrest, the risks of war or civil unrest, expropriation and nationalisation, renegotiation or nullification of existing concessions, licences, permits and contracts, changes in taxation policies, restrictions on foreign exchange and repatriation and changing political conditions, currency controls and governmental regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction.

The Company's operations may be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on production, price controls, export controls, foreign currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and safety issues.

Failure to comply strictly with applicable laws, regulations and local practices could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interests.

The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on the operations or profitability of the Company.

4.12 Investments may not be wholly owned

Resource investments (minerals and oil and gas) are often structured through joint ventures. There is a risk that development/production activity could be disrupted in situations where there is a disagreement on development/production programs or other issues between the Company and the other parties in such joint ventures. Should such disagreements occur, this may have a deleterious impact on the Company's operations and performance generally.

4.13 Speculative Investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of New Shares offered under this Offer Booklet.

Therefore, New Shares to be issued pursuant to this Offer Booklet carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares pursuant to this Offer Booklet.

5 Additional Information

5.1 Effect of the Offer on control of the Company

The potential effect the Offer will have on the control of the Company is as follows:

- (a) if all Shareholders are Eligible Shareholders and take up their Entitlements under the Offer then the Entitlement Offer will have no effect on the control of the Company;
- (b) if not all Shareholders are Eligible Shareholders or do not take up their full Entitlements, the Shortfall will be allocated:
 - (i) to Eligible Shareholders who subscribe for Additional New Shares; and
 - (ii) to parties selected by the Company in consultation with the Lead Manager.

The effect the placement of the Shortfall may have on control will depend entirely on any Additional Subscriptions by Shareholders and the allocations made by the Company and the Lead Manager;

- (c) if some Shareholders do not take up their Entitlements (whether because they are Ineligible Shareholders or otherwise), their equity in the Company will be diluted. The equity of Shareholders who only take up part of their Entitlement will also be diluted, but to a lesser extent;
- (d) the Options the Company currently has on issue are not expected to be exercised prior to the Record Date as the exercise price for these Options exceeds the Offer Price and the share price on 8 November 2017, of \$0.51 per Share at close of trade, therefore the Options are expected to have no effect on the Offer or the control of the Company.

The capital structure of the Company on completion of the Entitlement Offer will be as follows (assuming none of the Options currently on issue are exercised before the Record Date):

| | |
|---|-------------------------------|
| Total number of Shares on issue immediately before the Entitlement Offer | 4,200,244 |
| Options currently on issue | 209,545* |
| Number of New Shares offered under the Entitlement Offer | 2,100,122 |
| Total number of Shares on issue immediately after completion of the Entitlement Offer | 6,300,366** |
| Total amount to be raised from the Entitlement Offer | \$1,071,062 (before costs)*** |

**The Options have exercise prices of between \$0.75 and \$4.50 (inclusive). The Board considers it reasonable to assume that none of the Options will be exercised before the Record Date given the Company's share price as at close of trading on 8 November 2017 of \$0.51.*

***Assuming the Offer is fully subscribed and none of the Options currently on issue in the Company are exercised before the Record date.*

****Assuming the Offer is fully subscribed.*

** Assumes that the Offer is fully subscribed and that none of the Options are exercised before the Record Date (or completion of the Entitlement Offer).

If any of the Substantial Shareholders elect not to take up their Entitlement, or takes up only part of their Entitlement, then its shareholding will be diluted.

The Company considers it highly unlikely that any Shareholder will increase its shareholding in the Company to 20% or more.

5.4 CHESS

The Company participates in the CHESS operated by ASX Settlement Corporation (**ASX Settlement**), a wholly owned subsidiary of the ASX, in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, the Company will not issue certificates to Applicants. Instead, Applicants will receive a statement of their holdings in the Company of New Shares. If the Applicant is broker sponsored, ASX Settlement will send them a CHESS statement.

The CHESS statement will set out the number of New Shares issued under this Offer Booklet, provide the details of a Shareholder's holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Shares.

If you are registered on the issuer sponsored sub-register, your statement will be dispatched by the Share Registry and will contain the number of New Shares issued to you under this Offer Booklet and your security reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time; however a charge may apply for additional statements.

5.5 Taxation Implications

Shareholders should be aware that there may be taxation implications in participating in the Entitlement Offer and subscribing for New Shares. The taxation consequences of participating in the Entitlement Offer and/or acquiring New Shares may vary depending on the individual circumstances of each Shareholder.
