# Our Operating Environments

### **Australia**

- Volume growth continues to be driven by an ageing population
- Majority of our funding arrangements were negotiated in FY'17 with satisfactory outcomes and multiyear terms
- Affordability of health care
- Recently announced reforms to private health insurance will drive lower premium rises next year
- Operational efficiencies continue to drive margin improvement
- Non-hospital earnings growth opportunities emerging

### PRIVATE HEALTH INSURANCE REFORMS

The Federal Health Minister Greg Hunt recently announced a private health insurance (PHI) reform package signalling the government's support of the private health system. We expect to see some recovery in PHI participation rates and opportunities from expanded mental health cover. Major highlights include:

#### Gold/Silver/Bronze/Basic Tiering System

- Simplifies PHI products for consumers
- Makes easier for consumers to compare products
- Commences 1 April 2019

#### Discount insurance for under 30s

- Premium discounts on hospital cover up to 2% each year that a person is under 30 to max 10% for 18-25 year olds
- Sustainability of PHI system relies on broad membership base

#### Waiting period for mental health service waived on a once-off basis

Patients with limited mental health cover will be able to upgrade their cover to access in-hospital mental health services without serving a waiting period

### Private patients in public hospitals

- Impact of PHI patients in public hospitals will be considered in next National **Health Agreement**
- Growth in number of patients utilising insurance in public hospitals contributes about 0.5% pa to premium increases

**Prostheses List Benefits Reductions** 

Benefits payable for most medical devices will be reduced in Feb18. Further reductions will occur in 2019 & 2020

### **France**

- Remains a challenging environment
- Ramsay GdS is developing a positive relationship with the new Macron government
- Cluster strategy to strengthen our portfolio in local geographies is progressing with some acquisition opportunities as well as some small divestments
- Ramsay GdS is investigating out-of-hospital business growth opportunities. Acquired small patient transport business in Lyon in July 2017.

# **United Kingdom**

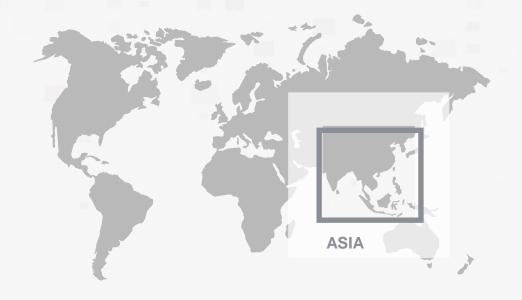

- Ramsay UK remains the leader in 'Choose & Book' NHS referrals in the independent sector
- UK is currently a challenging environment due to NHS cost constraints and referral management schemes
- Public system is under strain
- Increase in tariff in UK scheduled for April 2018
- Brexit impact is unknown
- Cost restructure program implemented in UK in FY'17, delivered operational efficiencies

### Asia

- Strong operational performance with focus on cost controls
- Remains a very competitive environment
- New developments targeting universal health provider patients (BPJS) opening at two of our Indonesian facilities

# Growth Strategy Update

## MACRO INDUSTRY TRENDS

Growth in healthcare will continue to be underpinned by an ageing population, rising prevalence of chronic diseases and improving medical technologies.

# Ageing & growing population

- Increasing life expectancy (global life expectancy will be 73.7 years in 2019 increasing by almost 2 years a decade earlier)
- Over 65s will represent 10.8% of population by 2019 (a 604M increase in the 5 yrs from 2014)

# Proliferation of chronic disease

- Obesity, cardiovascular disease, hypertension and dementia are persistent and widespread health problems
- Chronic disease will challenge public hospital systems
- 387M diabetics expected to increase to 592M by 2035

# Innovative treatment & technologies

- Genomics and the emergence of precision medicine will open new avenues of targeted therapies for the most challenging diseases.
- Medical innovation comes with a high price tag - In all markets, advances in health technologies will continue to drive up costs.

- In all regions, health spending is rising as populations grow and age, technologies improve and patients become better informed.
  - Demand for health care is going to rise faster than the capacity of the sector itself.

# DELIVERING ON OUR GROWTH STRATEGY

### Continuing to create shareholder value through our focused strategy

#### **ORGANIC GROWTH**

Underpinned by demographics, quality portfolio of hospitals, ongoing business improvement and volume expansion.

# BROWNFIELD CAPACITY EXPANSION

Local market knowledge drives business cases. We build capacity aimed at satisfying unmet demand. Apply strong financial discipline.

# PUBLIC/PRIVATE COLLABORATIONS

Global focus on increasing private sector role in service provision for publicly funded patients.

### **ACQUISITIONS**

Exploring acquisitions in existing and new markets Ramsay has proven it can export its management model Must add long-term value to shareholders.

# INTEGRATED CARE

Opportunities arising to supplement our core strategy by developing and delivering integrated care to patients across an increasingly disperse health ecosystem.

# **DEVELOPMENTS**

During FY'17 the following projects were completed or commenced:

**\$535M** projects

**500** beds

27 operating theatres

3 private emergency centres

### **NEW HOSPITALS OPENED FY'17**

### **The Border Cancer Hospital**

- Opened September 2016 in Albury Wodonga
- 28 chairs; 30 overnight beds

### INTEGRATED CARE

Ramsay Health Care is assessing opportunities to grow our services beyond the hospital walls. We have begun this journey with Ramsay Pharmacy.

- Ramsay Pharmacy community franchise network is expanding – circa 55 pharmacies by end CY'17
- Slower than expected expansion due to regulatory delays
- Concentrating on sites close to hospitals so patients can benefit from receiving both medication and other integrated care services beyond the hospital walls
- Includes 4 x 24/7 community pharmacies in our major hospitals

# Outlook

### **KEY FOCUS AREAS**

# **OUR COMPETITIVE ADVANTAGES**

### OUTLOOK

- ✓ Attractive demographic fundamentals combined with geographic, casemix and reimbursement diversification will continue to drive growth
- ✓ Strong growth in our Australian business is expected to continue, while we anticipate ongoing challenging environments in Europe in the near term
- ✓ Driving operational efficiencies will remain a key focus
- ✓ Continual pipeline of development opportunities
- ✓ We are progressing integrated care opportunities which will see us broaden our business beyond hospitals
- ✓ Based on operating conditions in each of our core markets, continued successful execution of our strategy, and barring unforeseen circumstances, Ramsay reaffirms its Core EPS growth target of 8% to 10% for FY'18.
