PORTFOLIO REPLENISHMENT THROUGH STRATEGIC SITE ACQUISITIONS

- \$65.5 million in new site acquisitions:
 - Mount Annan (NSW): \$15.0M
 - Greenmount (QLD): \$26.0M
 - Greenmount adjoining (QLD): \$6.5M

CAPITAL MANAGEMENT

- The Group's combined share buy back programs commenced during 2009 and have reduced the issued shares by more than 50% at an average price of 93 cents per share. These programs have more than doubled the earnings per share profile and greatly enhanced the Group's Net Tangible Asset (NTA) per share.
- The Group's shares on issue have been trading at a discount to NTA, which is providing a continued opportunity for the current buy back program.
 Furthermore, capital has been deployed for new acquisitions totalling \$65.5 million during the year.
- Fully franked dividends for FY17 comprise an interim payment of 4 cents per share (paid March 2017) and a final payment of 4 cents per share (paid September 2017).

- A special dividend of 2 cents per share fully franked reflects the additional contribution from Abian settlements from July through to August 2017.
- Project finance of \$132 million for Abian has been repaid. An additional five year term facility of \$50 million supplements the bond issue and extends the debt maturity profile to 40.8 months.
- Continued settlements have reduced working capital debt, further improving capacity with undrawn lines currently at \$197 million.
- Debt structures support working capital requirements and provide funding for the longer dated development project profiles.

MARKET OVERVIEW

SOUTH-EAST QUEENSLAND CONTINUES to experience growth and we see good opportunities in niche segments of these residential markets, particularly medium-density and master planned communities.

SECURING QUALITY DEVELOPMENT SITES in the key markets of Sydney and South-East Queensland remains extremely competitive.

MIGRATION AND EMPLOYMENT remain the key drivers of growth in capital city markets, with Sydney and Melbourne performing well. While niche markets are performing soundly, we are observing a period of consolidation in the broader housing market.

PROPERTY VALUES REMAIN INCONSISTENT from city to city, particularly between Sydney/ Melbourne and South-East Queensland.

FINANCIAL PRUDENTIAL CONTROLS are exerting their influence across the market and these constraints have resulted in a shift from investors to owner-occupiers as the dominant market.

FY17 MILESTONES

PORTFOLIO

- Sunland's portfolio is strategically weighted towards South-East Queensland, with our continued expansion into Brisbane and targeted site acquisitions on the Gold Coast.
- The Group's retail portfolio will experience sustainable growth over the next five to ten years as opportunities emerge within our mixed-use developments, providing a diversified annuity income stream.
- The re-emergence of Sunland's multi-storey portfolio has a predominant focus on staged residential apartment developments.
- Contract fall overs are not material, representing less than
 2% of revenue. Deposits are forfeited and resales are achieved at contract value or above.
- Sunland completed the sold out, \$240 million Abian residential tower in the Brisbane CBD. This landmark project represents the Group's strategic move to cater to the owner-occupier market, which has significant depth in comparison to the investor market.

OPERATIONAL REVIEW

SALES AND SETTLEMENTS

SUNLAND ENTERS FY18 in an active phase of delivery, with 14 residential projects under construction in Queensland, New South Wales and Victoria.

STRONG CASHFLOW generated from the settlement of significant projects, including the luxury Abian residential tower in the Brisbane CBD, will assist in the delivery and replenishment of the portfolio.

FOLLOWING CONSECUTIVE YEARS of strategic site acquisitions, Sunland intends to launch up to eight new residential and retail developments in FY18 with an estimated end value of \$1.4 billion. This includes a substantial expansion of the Group's multi-storey portfolio on the Gold Coast, comprising both high-rise and integrated mid-rise apartment developments, and new residential housing developments in South-East Queensland and New South Wales.

THE GROUP MAINTAINS its conservative approach to portfolio delivery and replenishment and continues to implement a countercyclical approach to navigate market cycles and mitigate risk.

SUNLAND'S CAPITAL MANAGEMENT initiatives, strong balance sheet, and access to capital continue to provide a stable platform from which to improve profitability a nd d eliver s ustainable shareholder returns.

THE BOARD PROVIDES GUIDANCE of between \$27-\$30 million net profit after tax for FY18. The Board of Directors intend to pay a fully franked dividend for the 2018 financial year of 11 cents per share, payable in two instalments, anticipated in March 2018 and September 2018.
