

1 December 2017

### **Tamawood Profit Update**

Despite the State Government election and 16 days of poor weather, the Board confirms that the unaudited financial results for the five months to November 2017 are in line with the previous comparative five months.

The sales have shown a slight decline during the State Government election and due to the current uncertainty of the result, however, the current dividends can be maintained unless circumstances change dramatically.
