We (the entity) give ASX the following information.

Part 1 - All issues

You must complete the relevant sections (attach sheets if there is not enough space).

|---|---|---|
| 1 | +Class of +securities issued or to be issued | Share appreciation rights ("SARS") |
| 2 | Number of +securities issued or to be issued (if known) or maximum number which may be issued | <p>As noted in Appendix 3B released on 12 September 2017, 22,577,706 SARs were granted, subject to shareholders' approval.</p> <p>By this Appendix 3B, we confirm that shareholder approval was given at the Company's annual general meeting on 24 November 2017.</p> <p>The number of Horizon Oil Limited shares which may be issued on the exercise of the SARs is dependent on a number of factors including the number of SARs which vest, the Horizon Oil share price at the time of exercise and whether the board, exercising its discretion, issues shares, rather than paying the cash value of the exercised SARs. The maximum number of Horizon Oil Limited shares which may be issued on the exercise of 22,577,706 SARs is 22,577,706 shares.</p> |

<p>3 Principal terms of the +securities (e.g., if options, exercise price and expiry date; if partly paid +securities, the amount outstanding and due dates for payment; if +convertible securities, the conversion price and dates for conversion)</p>	<p>A SAR is a right to receive either or both a cash payment or shares in the Company, as determined by the board, subject to the Company satisfying certain conditions, including performance conditions.</p> <p>The SARs are exercisable at A\$0.0453 which was the 10 day VWAP of the Company's shares prior to the Effective Allocation Date for the SARs of 1 July 2017, in accordance with the Company's LTI plan.</p> <p>The number of SARs that vest is determined by reference to the Company's total shareholder return ("TSR") over the relevant period relative to that of the S&P/ASX200 Energy Index ("Index"). The number of SARs that vest is:</p> <ul style="list-style-type: none"> • if the Company's TSR is equal to that of the Index ("Minimum Benchmark"), 50%; • if the Company's TSR is 14% or more above that of the Index, 100% ("Maximum Benchmark"); and • if the Company's TSR is more than the Minimum Benchmark but less than the Maximum Benchmark, a percentage between 50% and 100% based on the Company's TSR performance between the Minimum Benchmark and Maximum Benchmark. <p>The SARs will not vest unless the Company achieves a TSR of at least 10% over the relevant period.</p> <p>The performance conditions are tested on the date that is three years after the Effective Grant Date of the SARs, and are then re-tested every six months after that until the date that is five years after the Effective Grant Date of the SARs (the final retesting date). The Effective Grant Date of the SARs is 11 September 2017. The performance conditions are also tested where certain circumstances occur, such as a takeover bid for the Company.</p> <p>SARs will lapse where:</p> <ul style="list-style-type: none"> • the SARs have not vested by the final retesting date which is five years after the date of grant; • if the SARs have vested by the final retesting date that is five years after the date of grant, the SARs have not been exercised within three months of the date that the SARs would have first been able to be exercised if they vested at the final retesting date that is five years after the date of grant. <p>This may be more than five years and three months from the date of grant depending on whether the holder of the SAR is able to deal with shares in the Company under the Company's securities trading policy at the date five years after the date of grant.</p>
---	---

The amount of the cash payment or the number of shares in the Company that the SAR holder receives on exercise of the SAR is based on the value of the SAR at the time it is exercised ("**SAR Value**"), being the excess, if any, of the volume weighted average price ("**VWAP**") of shares in the Company for the ten business day period up to the date before the date the SAR is exercised over the VWAP of shares in the Company for the ten business day period up to the day before the "Effective Allocation Date" for the SARs.

That is, the SAR Value is V minus G where:

- V equals volume weighted average price ('VWAP') of shares in the Company for the ten business day period up to the day before the date the SAR is exercised; and
- G equals the VWAP of shares in the Company for the ten business day period up to the day before the "Effective Allocation Date" for the SARs.

If the board determines that the SARs are to be satisfied in cash, the amount of cash that the participant receives on the exercise of the SARs is the SAR Value multiplied by the number of SARs exercised (less any deduction for taxes that the Company is required to make from the payment).

If the board determines that the SARs are to be satisfied in shares, the number of shares that the participant receives on the exercise of the SARs is the SAR Value, multiplied by the number of SARs exercised and divided by the volume weighted average price of shares in the Company for the ten business day period up to the day before the date on which the SARs are exercised. Where the number of shares calculated is not a whole number, it will be rounded down to the nearest whole number.
