

AstiVita Limited ABN 46 139 461 733

12 December 2017

AstiVita Trading Result Update

The anticipated estimated trading loss for first half FY18 is \$200,000. As disappointing as it may be, it is an improvement on first half FY17 loss of \$979,000.

We have successfully launched some of our product ranges on Amazon website (in Australia) and were rated #1 seller in one of the categories for last week. New Zealand sales and Senterprisys software have been delayed until first quarter 2018.

We will update the market early in January 2018.
