

ASX RELEASE

December 19th, 2017

Toast and GetSwift sign Partnership Agreement

GetSwift Limited (ASX: GSW) ('GetSwift' or the 'Company'), the SaaS solution company that optimises delivery logistics world-wide, is pleased to announce that it has signed a partnership agreement with Toast (Toastab.com).

GetSwift has partnered with Toast to offer additional global touchpoints for its platform. Toast is a POS platform for restaurants and hospitality businesses primarily based in the United States. Currently Toast is present in more than 42 states and covers a network of more than 20,000 merchant outlets.

The technical integration with the Toast platform has already been well progressed in parallel with finalising the agreement, and as a result deployment of the GetSwift solution will commence without delay across the merchant network. Upon completion the Company estimates that this will have a capacity impact of up to 400,000 deliveries a month, or close to 5,000,000 per year through organic channel growth.

The Company continues to execute its technical, product and commercial roadmap as planned. It is well positioned to continue expanding across all venues and channels that will allow it to have unrestricted access to as many merchants as possible that require delivery or order fulfilment functions regardless of industry vertical, size or geographic placement.
