ASX RELEASE (21st December 2017)

CMDV SIGNS EXCLUSIVE DISTRIBUTION AGREEMENT WITH NANOLUX TECHNOLOGY

Key Points:

- ❖ THC's wholly owned Canadian subsidiary Crystal Mountain-Dragon Vision (CMDV) enters into exclusive distribution contract with Nanolux Technology Inc
- ❖ Nanolux is a leader in supplying innovative lighting technologies to the hydroponics markets with sales in excess of \$100m (www.nanoluxtech.com)
- ❖ Agreement with Nanolux provides a significant opportunity for CMDV to leverage growth in the rapidly expanding Canadian market for cannabis, increasing the range of lighting products available to control and optimise growing conditions
- ❖ New cloud-based App to allow monitoring of crops from anywhere in the world
- ❖ CMDV continues to advance acquisition opportunities in Canada, targeting additional agencies in the coming weeks

The Hydroponics Company Limited (ASX:THC) (“THC” or “the **Company**”) is pleased to announce that its wholly owned Canada-based business, Crystal Mountain-Dragon Vision (CMDV), has today entered into an exclusive distribution agreement to sell Nanolux Technology's products in Canada. This agreement adds to the portfolio of products currently marketed by CMDV to the rapidly growing Canadian marketplace for cannabis growth and production.

Nanolux Technology is a leading developer of lighting and ballasts for the hydroponic markets, with over 40 years of experience in the development of lighting products and distribution to over 600 retailers throughout the USA. Nanolux is an internationally focused company with sales in excess of \$100m. Its new product range is able to control and

regulate lighting in order to optimise growing conditions through a unique and proprietary cloud enabled control system.

Importantly, users can monitor and control their entire facility from anywhere in the world from any Apple or Android device using the unique NCCS App (Nanolux Cloud Control System).

THC’s Chief Executive Officer, David Radford, stated: “The addition of this new range of lighting products to CMDV’s hydroponic portfolio is a significant step forward in the execution of THC’s growth strategy for Canada. Partnering with Nanolux, an international provider of leading technology, brings enormous credibility to the customer focused CMDV team and will significantly improve the scale of the products available.”

THC plans to continue to build the business organically, adding new market leading agencies to the portfolio and is currently advancing discussions with several acquisition targets. The Company expects to be in a position to update the market in the New Year.

About The Hydroponics Company

The Hydroponics Company (ASX: THC) is at the forefront of developing a leading, diversified worldwide cannabis business, focused on three core business units: Development and delivery of medicinal cannabis, manufacturing and distribution of hydroponics equipment, materials and nutrients, and large scale hydroponic greenhouse design and construction. With +17 years of Cannabis sativa breeding, variety selection and growth management, THC is actively developing plant breeding technology to target multiple markets for high purity cannabidiol (CBD), a new class of medicinal product that can be used to target dementia, epilepsy and other neurological disorders.
