ABOUT CML GROUP

CML provides cash flow and integrated business solutions, to help its clients focus on their core business.

CML's primary business is 'factoring' or 'receivables finance'. Through the factoring facility CML provides an advance payment of up to 80% of a client's invoice to help their business overcome the cash pressure of delivering goods or services in advance of payment from their customer (often 30 to 60 days). This is a flexible line of credit that is utilised in line with sales volume. CML will consider an additional advance to a client (above the usual 80%) on occasion, for an additional fee and when there is adequate security from the client to cover the position.
