Dear Shareholder

On behalf of the Board, I am pleased to invite you to participate in this Entitlements Issue. This Entitlements Issue provides you with the opportunity to maintain your equity interest in the Company, and to participate in the continued growth of the Company.

Under the Entitlements Issue, Eligible Shareholders are invited to apply for 1 New Share for every 5 Shares held on the Record Date of 19 January 2018 at an issue price of \$0.02 per New Share. If the Entitlements Issue is fully subscribed, the Company will issue 83,207,534 New Shares (assuming no Options are exercised prior to the Record Date) and raise approximately \$1,664,150 before costs.

The Offer is fully underwritten by Cove Capital Pty Ltd and Jiangmen Jinxin Yongkang Health Food Co. Ltd.

Section 5.6 of this Offer Document outlines the effect of the Offer on control of the Company in different scenarios.

The Company intends to use funds raised under the Entitlements Issue to:

- (a) develop the existing businesses and explore of new opportunities in the Traditional Chinese Medicine (**TCM**) business and plant technologies, such as in the field of TCM cannabis*;
- (b) fund general working capital and administrative expenses; and
- (c) fund the expenses of the Offer.

* The new opportunities in TCM and plant technologies in the field of TCM cannabis may result in ASX exercising its discretion under Listing Rules 11.1.2 and 11.1.3 which would require shareholder approval and re-compliance with ASX's admission and quotation requirements under Chapters 1 and 2 of the Listing Rules.

Details of the Entitlements Issue are set out in this Offer Document and I encourage you to read the Offer Document in its entirety before making your investment decision. A summary of risk factors that you should consider in applying for New Shares is set out in section 7.

Finally, on behalf of the Board I thank you for your continued support of the Company and encourage you to take up your Entitlements under the Entitlements Issue.

Yours faithfully

Ms Jamie Khoo

5. DETAILS OF THE ENTITLEMENTS ISSUE

5.1 The Offer

This Offer Document invites Eligible Shareholders to participate in a pro-rata non renounceable Entitlements Issue of up to 83,207,534 New Shares (assuming no Options are exercised prior to the Record Date) in the Company on the basis of 1 New Share for every 5 Shares held on the Record Date, at an issue price of \$0.02 per New Share, for the purpose of raising up to approximately \$1,664,150 before costs.

Any fractional Entitlements to New Shares will be rounded up to the nearest whole number in calculating each Eligible Shareholder's entitlement to New Shares.

The proposed use of funds raised under the Offer, assuming full subscription, is set out below:

Description	(\$)	% of proceeds
Develop the existing businesses and explore of new opportunities in the Traditional Chinese Medicine ("TCM") business and plant technologies, such as in the field of TCM cannabis	1,000,000	60%
Fund general working capital and administrative expenses	534,150	32%
Fund the expenses of the Offer	130,000	8%
Total	1,664,150	100%

The table above is a statement of the Company's current intentions as at the date of this Offer Document. However, Shareholders should note that, as with any budget, the allocation of funds may change depending on a number of factors including outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. The Board therefore reserves the right to alter the way the funds are applied.

5.2 No rights trading and no additional Entitlement

The rights to New Shares under the Offer are non-renounceable. Accordingly, there will be no trading of rights on ASX and you may not dispose of your rights to subscribe for New Shares under the Offer to any other party. There is no ability to subscribe for more than your allocated Entitlement. If you do not take up your Entitlement to New Shares under the Offer by the Closing Date, your Entitlement will lapse.

5.3 Underwriting

The Offer is fully underwritten by Cove and Jiangmen.

All valid applications for New Shares pursuant to this Offer Document received by the Company, from all sources, will be deemed to have been accepted in full by the Company and will go in relief of the obligations of Cove and Jiangmen under the respective Underwriting Agreements.

The Company has agreed to pay:

- (a) Cove an underwriting fee of approximately \$33,207 (excluding GST) (being 5% of the value of the underwritten amount of \$664,150) as consideration for its underwriting obligation in accordance with the Cove Underwriting Agreement; and
- (b) Jiangmen an underwriting fee of approximately \$50,000 (excluding GST) (being 5% of the value of the underwritten amount of \$1,000,000) as consideration for its underwriting obligation in accordance with the Jiangmen Underwriting Agreement,

(together, the **Underwriting Fee**).

Please refer to section 5.6 of this Offer Document for a description of the potential impact of the Offer on control of the Company and to section 8 of this Offer Document for a summary of the material terms and conditions of the Underwriting Agreements.

5.4 Effect of the Offer on the Company's Capital Structure

The capital structure of the Company following completion of the Entitlements Issue, assuming all Entitlements are accepted in full and no Options are exercised prior to the Record Date, is set out below:

Number of Shares on issue as at the date of this Offer Document	416,037,672
Number of New Shares offered under the Entitlements Issue	83,207,534
Total number of Shares on issue on completion of Entitlements Issue assuming full subscription	499,245,206
Number of unlisted Options on issue as at the date of this Offer Document	2,000,000

No new Options are being offered under the Entitlements Issue. Options do not entitle the holder to participate in the Entitlements Issue, however any Shares issued on exercise of Options prior to the Record Date will carry entitlements to participate in the Entitlements Issue. The exercise prices of the Options are 20 cents. The Board considers it reasonable to assume that none of the Options will be exercised prior to the Record Date given the Company's closing Share price on 15 January 2018 was \$0.053 (5.3 cents).

5.5 Dilution

If Eligible Shareholders do not take up their full Entitlements under the Entitlements Issue, then the interests of those Eligible Shareholders will be diluted.

The proportional interests of any ineligible Shareholders will be diluted because those ineligible Shareholders are not entitled to participate in the Entitlements Issue.

Assuming no existing Options are exercised prior to the Record Date, the maximum number of Shares which will be issued pursuant to the Entitlements Issue is 83,207,534. This equates to approximately 16.7% of all the issued Shares in the Company following the completion of the Entitlements Issue (assuming that no Options are exercised prior to that date).

As the Entitlements Issue is fully underwritten, Shareholders should note that if they do not participate in the Entitlements Issue, their holdings will be diluted by up to a maximum of approximately 16.7% (as compared to their holdings and number of Shares on issue as at the Record Date).

In the event that there is a 100% shortfall and the Underwriters are required to subscribe for all of the Entitlements not taken up by Shareholders, the Relevant Interest of the Underwriters will be approximately 8.33% for each of the two Underwriters. The Underwriters are not related parties of the Company.

The Underwriters' present Relevant Interests and changes under several scenarios are set out in the table below:

Event in relation to the Offer	Number of Shares in which Cove has a Relevant Interest	Voting Power of Cove	Number of Shares in which Jiangmen has a Relevant Interest	Voting Power of Jiangmen (%)
Date of Offer Document	Nil	Nil	Nil	Nil
100% subscribed (no Shortfall)	Nil	Nil	Nil	Nil
75% subscribed (25% Shortfall)	10,400,941	2.08%	10,400,941	2.08%
50% subscribed (50% Shortfall)	20,801,883	4.17%	20,801,883	4.17%
25% subscribed (75% Shortfall)	31,202,825	6.25%	31,202,825	6.25%
0% subscribed (100% Shortfall)	33,207,500	6.65%	50,000,000	10.02%

Notes:

1. This assumes that Cove and Jiangmen apply for the Shortfall in equal proportions, except in relation to the 100% Shortfall scenario in which Cove would apply for 33,207,500 Shares and Jiangmen would apply for 50,000,000 Shares.

2. This analysis does not take into account any sub-underwriting commitments that are received by the Underwriters or the impact of any Shortfall placement process described in Section 5.11.

At the date of this Offer Document, the Company's largest Shareholder (Mr Philip Gu Huanqing) does not intend to accept all of his Entitlement. Based on the intentions of the Directors at the date of this Prospectus in relation to the Offer, and assuming that no Options are exercised prior to the Record Date, Mr Philip Gu Huanqing will have the following interests in Shares as at the Closing Date:

Director	Shares held	Options held
Mr Philip Gu Huanqing	105,000,000	Nil

The implementation of Mr Philip Gu Huanqing's current intentions in relation to his ownership interest in the Company will be subject to the applicable regulation (including the Corporations Act), the Listing Rules and the Company's constitution.

In addition, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 16.7% (as compared to their holdings and number of Shares on issue as at the date of the Offer Document). Examples of how the dilution may impact Shareholders are set out in the table below.

Holding as at Record Date	% at Record Date	Entitlement under the Offer	Holding if Offer not taken up	% post completion of the Offer
10,000,000	2.40	2,000,000	10,000,000	2.00
5,000,000	1.20	1,000,000	5,000,000	1.00
1,500,000	0.36	300,000	1,500,000	0.30
400,000	0.10	80,000	400,000	0.08
50,000	0.01	10,000	50,000	0.01

5.6 Effect of the Offer on control of the Company

If all Eligible Shareholders (other than Mr Philip Gu Huanqing) take up their full Entitlements, there would be no significant effect on the control of the Company, as the Offer is made pro-rata and in that case no rights would lapse or revert to the Underwriters or the Shortfall placement process described in Section 5.11.

As the Company does not propose to apply to ASIC for approval of the appointment of a nominee for the purposes of section 615 of the Corporations Act, the Company will endeavour to ensure that no person will be permitted to acquire a Relevant Interest in issued Voting Shares in the Company that increases their, or someone else's, Voting Power in the Company either: (i) from 20% or below to more than 20%, or (ii) from a starting point that is above 20% and below 90%.

Those Shareholders holding an interest in 5% or more of the Shares on issue as at the date of this Offer Document are as follows:

Name	Number of Shares	Percentage of Shares
Mr Philip Gu Huanqing	105,000,000	25.20%
Ms Jian Fang Wang	37,500,000	9.01%
Mr Henry Chun Fung Ko	33,361,476	8.02%
Mr Lin Zhang	29,506,483	7.09%
Mr Lai Dany Kong Sang	28,419,378	6.83%

Based on the information known as at the date of this Offer Document, on the assumption that Eligible Shareholders (other than Mr Philip Gu Huanqing) take up their full Entitlements under the Offer, as at the Closing Date the following persons will have an interest in 5% or more of the Shares on issue:

Name	Number of Shares	Percentage of Shares
Mr Philip Gu Huanqing	105,000,000	21.03%
Ms Jian Fang Wang	45,000,000	9.01%
Mr Henry Chun Fung Ko	40,033,771	8.02%
Mr Lin Zhang	35,407,780	7.09%
Mr Lai Dany Kong Sang	34,103,254	6.83%

5.7 Entitlements and Acceptance

Participation in the Entitlements Issue is open to all Shareholders who are registered on the Company's register of members at 5.00pm (AEDT) on the Record Date of 19 January 2018 with a registered address in Australia, New Zealand, China, Hong Kong, Malaysia, Singapore or Taiwan. The number of New Shares to which you are entitled is shown in the accompanying Entitlement and Acceptance Form. If you do not take up your Entitlement by the Closing Date of 5.00pm (AEDT) on 13 February 2018, the Offer to you will lapse.

You may take any of the following actions:

- (a) take up all of your Entitlement;
- (b) take up some of your Entitlement and allow the balance of your Entitlement to lapse; or
- (c) do nothing and allow all of your Entitlement to lapse.

In determining entitlements, any fractional entitlement will be rounded up to the nearest whole number.

A completed and lodged Entitlement and Acceptance Form, together with payment for the number of New Shares accepted, cannot be withdrawn and constitutes a binding application for, and acceptance of, the number of New

Shares specified in the Entitlement and Acceptance Form on the terms set out in this Offer Document. The Entitlement and Acceptance Form does not need to be signed to be binding.

If the Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid Application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

Further details regarding action required to be taken by Shareholders is contained in section 6.

5.8 Opening and Closing Dates

The Entitlements Issue will open for receipt of acceptances at 9.00 am AEDT on 23 January 2018 and will close at 5pm AEDT on 13 February 2018, or such later date as the Directors may determine and provided that the Company gives ASX notice of the change in accordance with the Listing Rules.

5.9 Brokerage

No brokerage or stamp duty will be payable by investors for New Shares offered under the Entitlement Issue.

5.10 Issue of New Shares

New Shares offered by this Offer Document are expected to be issued on the date specified in the indicative timetable in section 4.2.

It is the responsibility of applicants to determine their allocation prior to trading in the New Shares. Applicants who sell New Shares prior to receiving their holding statements do so at their own risk.

5.11 Entitlement Issue Shortfall

Any New Shares not taken up by Eligible Shareholders may become available as Shortfall and will be dealt with in accordance with the Underwriting Agreements.

In the event that there are any Shortfall Shares remaining after allocation to the Underwriter, the remaining Shortfall Shares may be placed at the discretion of the Directors within 3 months of the Closing Date, to sophisticated investors and professional investors.

To the extent that it is commercially practicable and taking into account the Company's requirement for funds, the Directors will endeavour to allot the Shortfall Shares to a spread of investors, in order to mitigate any control effects which may arise from issuing the Shortfall Shares to a single or small number of investors. In any event, the Company will endeavour to ensure that no subscriber will be permitted to acquire Shortfall Shares under the Shortfall placement to the extent that such acquisition would result in that subscriber acquiring a Relevant Interest in issued Voting Shares in the Company that increases their, or someone else's, Voting Power in the Company either: (i) from 20% or below to more than 20%, or (ii) from a starting point that is above

20% and below 90% (on a post Entitlement Issue and post Shortfall placement basis).

5.12 Rights Attaching to New Shares

The New Shares issued will rank equally with existing Shares on issue. The rights and liabilities attaching to the New Shares are set out in the constitution of the Company and in the Corporations Act.

5.13 Quotation

The Company will make an application to ASX for Official Quotation of the New Shares.

If approval is not granted by ASX, the Company will not allot any New Shares and will repay all Application Monies (where applicable) as soon as practicable, without interest.

5.14 CHESS

The Company participates in CHESS, operated by ASX Settlement, a wholly-owned subsidiary of ASX, in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under this system, the Company will not issue certificates to investors. Instead, Shareholders will receive a statement of their holdings in the Company.

If an investor is broker-sponsored, ASX Settlement will send them a CHESS statement.

The CHESS statement will set out the number of New Shares allotted to each holder under the Offer Document and give details of their holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Shares.

In the case of an issuer sponsored sub-register, the statement will be dispatched by the Share Registry and will contain the number of New Shares allotted under the Offer Document and the Shareholder's security reference number (**SRN**).

A CHESS statement or Issuer Sponsored statement will routinely be sent to holders at the end of any calendar month during which the balance of their holding changes. A holder may request a statement at any other time, however a charge may be incurred for additional statements.

5.15 Foreign Jurisdictions

This Offer Document does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make that offer or invitation. Foreign exchange control restrictions or restrictions on remitting funds from your country to Australia may apply. Your Application for New Shares is subject to all requisite authorities and clearances being obtained for the Company to lawfully receive your Application Monies.

The Company is of the view that it is unreasonable to make an offer under this Offer Document to Shareholders outside of Australia, New Zealand, China, Hong Kong, Malaysia, Singapore and Taiwan (**Excluded Shareholders**) having regard to:

- (a) the number of Excluded Shareholders;
- (b) the number and value of the securities to be offered to Excluded Shareholders; and

5.16 Taxation Implications

The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of subscribing for New Shares. 7. RISK FACTORS

7.1 Introduction

This section identifies the areas the Directors regard as the major risks associated with an investment in the Company. Investors should be aware that an investment in the Company involves many risks, which may be higher than the risks associated with an investment in other companies. Intending investors should read the whole of this Offer Document in order to fully appreciate such matters and the manner in which the Company intends to operate before deciding whether to apply for New Shares pursuant to this Offer Document.

There are numerous widespread risks associated with investing in any form of business and with investing in the share market generally. There is also a range of specific risks associated with the Company's business. These risk factors are largely beyond the control of the Company and its Directors because of the nature of the business of the Company. The following summary, which is not exhaustive, represents some of the major risk factors which potential investors need to be aware of.

7.2 Risks specific to the Offer

Suspension

The Company intends to use funds raised under the Entitlements Issue to (inter alia) develop the existing businesses and explore of new opportunities in the Traditional Chinese Medicine (**TCM**) business and plant technologies, such as in the field of TCM cannabis. The new opportunities in TCM and plant technologies in the field of TCM cannabis may result in ASX exercising its discretion under Listing Rules 11.1.2 and 11.1.3 which would require shareholder approval and re-compliance with ASX's admission and quotation requirements under Chapters 1 and 2 of the Listing Rules.

Potential for significant dilution

Upon completion of the Offer, assuming all Entitlements are accepted and no Options are exercised prior to the Record Date, the number of Shares in the Company will increase from 416,037,672 to 499,245,206. This increase equates to approximately 17% of all the issued Shares in the Company following completion of the Offer.

This means that each Share will represent a significantly lower proportion of the ownership of the Company. It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer and the Directors do not make any representation to such matters.

The last trading price of Shares on ASX prior to the Offer Document being lodged of \$0.053 (5.3 cents) is not a reliable indicator as to the potential trading price of Shares following completion of the Offer.

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 16.7% (as compared to their holdings and number of Shares on issue as at the date of the Offer Document).

Please refer to section 5.6 of this Offer Document for examples of how the potential dilutionary effect of the Offer may impact Shareholders.

7.3 Risks specific to the Company's projects

New Business and Mr Gu Huanqing

The Company has only been carrying on business since July 2014, and has a limited track record. The Board considers that Mr Gu Huanqing's participation in running and developing the Company's business is important to achieving success during its development phase. If for any reason Mr Gu Huanqing's services are not available, the development of the Company's business may be impaired.

Patent Applications

The Company's intellectual property includes certain technologies for which patent applications have been made. The Company has only relatively recently applied for such patents. It is likely to take several years before any patent is granted (if at all). Further, the Company will be required to pay registration fees of approximately US\$10,000 to the local patent office in each country where a patent is to be registered. Such applications may not result in patents being granted. In addition, if patents are granted it may be difficult to prevent the unauthorised use of the technology with the result that the Company may obtain no competitive advantage from its technology. Further, until the patents are granted, the Company cannot be certain that others will not independently develop the same or similar technology on their own account or gain access to trade secrets and unpatented knowhow.

Supply of Raw Materials

The Company is dependant on the supply of raw materials to carry on its business, particularly the supply of seedlings or "mother plants" from Dendrobium farms from which the Company will extract stem cells. Such supply may be disrupted by natural occurrences such as flood, drought and other occurrences that may cause crop failure. Further, the availability of supply may be adversely affected over time as demand for raw materials increases generally if production does not keep pace with demand.

Manufacturing of Product

Until the Company has the capacity to manufacture product itself, it is reliant on third parties having the capacity to do so within the timeframes required by the Company and at a reasonable cost. Circumstances may arise where the Company is unable to achieve the manufacture of product on this basis.

Supply of Product into Market

The Company's business model depends on being able to supply product into the markets outside Singapore. Access to those markets could in future be restricted or the market may become regulated or it may not be possible to obtain necessary import licences.

Supply and Demand

The price of raw materials used by the Company may fluctuate, as may demand for its product. The Company's ability to make a profit on sales will depend on its being able to maintain a margin between its cost of raw materials and production and distribution and the price at which it is able to sell its product.

Product Liability

The Company provides material for use in Traditional Chinese Medicine which is taken by humans for therapeutic purposes. If Traditional Chinese Medicine incorporating the Company's product causes damage or loss of life, claims may be made against the Company that it has supplied defective materials. Such claims could be expensive to defend and could result in the Company being liable for substantial damages. Because the Company's products use only natural ingredients and the Company does not supply direct to consumers, the Directors consider the likelihood of the Company incurring liability for defective materials to be small.

7.4 General Risks specific to the Company

Economic Risks

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

Additional requirements for capital

The Company may require further financing. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is however, no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

Insurance coverage risk

Exploration and development operations on mineral properties involve numerous risks, including unexpected or unusual geological operating conditions, rock bursts, cave-ins, ground or slope failures, fires, floods, earthquakes and other environmental occurrences, political and social instability that could result in damage to or destruction of mineral properties or producing facilities, personal injury or death, environmental damage, delays in mining caused by industrial accidents or labour disputes, changes in regulatory environment, monetary losses and possible legal liability.

It is not always possible to obtain insurance against all such risks and the Company may decide not to insure against certain risks because of high premiums or other reasons.

Unforeseen expenses

The Company may be subject to significant unforeseen expenses or actions. This may include unplanned operating expenses, future legal actions or expenses in relation to future unforeseen events. The Directors expect that the Company will have adequate working capital to carry out its stated objectives however there is the risk that additional funds may be required to fund the Company's future objectives.

Litigation risk

The Company is subject to litigation risks. All industries, including the minerals exploration industry, are subject to legal claims, with and without merit. Defence and settlement costs of legal claims can be substantial, even with respect to claims that have no merit.

Due to the inherent uncertainty of the litigation process, the resolution of any particular legal proceeding to which the Company is or may become subject could have a material effect on its financial position, results of operations or the Company's activities.

Share market risk

The market price of the Company's Shares could fluctuate significantly. The market price of the Company's Shares may fluctuate based on a number of factors including the Company's operating performance and the performance of competitors and other similar companies, the public's reaction to the Company's press releases, other public announcements and the Company's filings with the various securities regulatory authorities, changes in earnings estimates or recommendations by research analysts who track the Company's Shares or the shares of other companies in the resource sector, changes in general economic conditions, the number of the Company's Shares publicly traded and the arrival or departure of key personnel, acquisitions, strategic alliances or joint ventures involving the Company or its competitors.

In addition, the market price of the Company's Shares are affected by many variables not directly related to the Company's success and are therefore not within the Company's control, including other developments that affect the market for all resource sector shares, the breadth of the public market for the Company's Shares, and the attractiveness of alternative investments.

Reliance on key personnel

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. The loss of the services of one or more of such key management personnel could have a material adverse effect on the Company. The Company's ability to manage its exploration and development activities, and hence its success, will depend in large part on the efforts of these individuals. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

7.5 Speculative nature of investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Offer Document.
