

Mater select Oneview Healthcare to deploy patient engagement and clinical workflow solution

SYDNEY, AUSTRALIA, 17 January 2018 — Mater Misericordiae Limited, a network of hospitals and healthcare facilities throughout Brisbane, Redland and Springfield, have signed an agreement with Oneview Healthcare PLC (“Oneview”) (ASX:ONE) to deploy their market leading patient engagement and clinical workflow solution in 904 beds across 9 facilities.

The solution features patient-facing touchscreen all-in-one interactive terminals, to provide patients with an immersive care experience and provide the clinical teams with applications to streamline processes and gain efficiencies.

Patients will enjoy a variety of features including streaming services, a la carte meal ordering, patient education and Skype, with the interface available in multiple languages. Clinicians will benefit from tools such as patient rounding applications, room readiness checklists, and discharge planning tools, all on an interactive care team console.

James Fitter, CEO of Oneview Healthcare stated, “Oneview is excited to embark on this partnership with one of Australia’s leading and long-established healthcare systems to continue to provide excellent care and an exceptional patient experience.”

Dr Shane Kelly, Mater Misericordiae Limited Group CEO said, “the implementation of the Oneview patient engagement solution is an important initiative to not only enhance the patient’s experience at Mater but also aligns to our genuine commitment to provide a sustainable, socially relevant health service for the benefit of all our community”.

About Mater Misericordiae Limited

Founded in 1906 by the Sisters of Mercy, Mater comprises a network of hospitals, health centres, a world-class medical research institute, a nationally accredited Registered Training Organisation and pathology and pharmacy businesses. Mater are dedicated to the pursuit of innovation, and to leading the market in health, education and research.

About Oneview Healthcare

Oneview provides interactive healthcare technologies for patients, families and caregivers. Oneview’s technology weaves a facility’s existing disparate systems into a single seamless platform, allowing healthcare facilities to engage patients in meaningful ways, improve communication, and streamline clinical workflows. Patients enjoy the comfort and convenience of information, education, entertainment and environmental controls at the bedside, while facilities enjoy better health outcomes and staff satisfaction.
