**Kyckr Limited (ASX:KYK)** (Kyckr or the Company), a regulatory technology company, is pleased to announce it has sourced a means of accessing quality Chinese registry data which is now being provided to its global customers.

Since 2015, China has substantially overhauled its company registration systems, which has resulted in the provision of credible, current and accurate company information.

China is an important and fast-growing economy. As China's economy continues to grow and its presence continues to increase in a globalised economy, Kyckr believes its clients and prospects will increasingly require quality Chinese registry data.

**Managing Director of Kyckr, David Cassidy** states: "We are pleased to add a credible source of Chinese data to our ever-growing number of sources around the world. The addition of Chinese registry data significantly expands our data. We continue to extend our global capabilities to meet the needs of our global blue-chip clients."
