ASX RELEASE

## SOFWERX ThunderDrone RPEII Event

---

**DroneShield Ltd (ASX:DRO)** ("DroneShield" or the "Company") is pleased to announce that it has participated in the SOFWERX ThunderDrone RPEII event.

SOFWERX is a Tampa, Florida based experimental lab created under a Partnership Intermediary Agreement between Doolittle Institute and the United States Special Operations Command (USSOCOM).

ThunderDrone RPEII is the SOFWERX exercise focused on counterdrone systems and designed to expose new and emerging counterdrone technologies to the Strategic Capabilities Office (SCO) and USSOCOM. DroneShield was one of a limited number of counter-drone providers invited to participate in the event.

The event continues to cement the Company's involvement in the U.S. and international defence space, following on the recent announcement of DroneShield's participation in the 2018 Urban 5th Generation Marine Exploration and Experimentation Exercise ("U5G 18") organised by the United States Marine Corps Deputy Commandant for Combat Development & Integration ("CD&I") and the Deputy Assistant Secretary of the Navy for Research, Development, Test and Evaluation ("NR&DE").
