

OPERATIONAL UPDATE

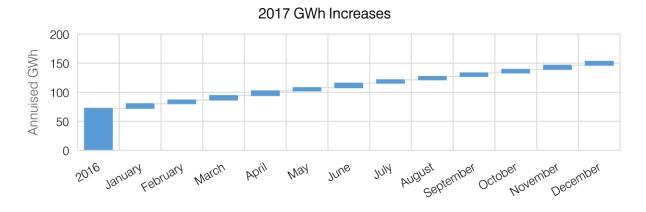

ADDED 13.73GWh OF BILLING IN NOVEMBER AND DECEMBER 2017 TO 152.32GWh INCREASE OF 9.91%

- LPE is billing 152.32GWh, representing a 9.91% increase since October 2017
- An additional 13.73GWh has commenced billing
- November 7.12 GWh / December 6.61 GWh

Locality Planning Energy Holdings Limited (ASX: LPE) (the Company or LPE) is pleased to inform shareholders of an additional 13.73GWh in billing contracts Under Management (UM) through November and December the final two months of the calendar year, representing a 9.91% increase.

The current UM billing of 152.32GWh of annualised volume increases the Company's recurring revenue for an average contract length of 7.1 years.

This operational update closes out the calendar year with the Company bringing 80.735GWh of new energy volume Under Management for the 12 month period. This is an average monthly volume increase of 6.72GWh per month equal to an average increase of 6.51% month on month for the period.

For the year the company has seen a slight decrease in the average contract length from 7.2 years to 7.1 years, this is wholly due to the increase of existing and takeover (5 year) contracts compared with new development (10 Year) contracts.

LPE management is pleased with the progress on the proposed debt facility and is anticipating providing more information to the market in the near future.

Due to the complexity and time in reconciling GWh volumes with reportable accuracy to the market, the company will no longer be providing monthly updates. The Company will continue to make ASX announcements in line with its continuous disclosure obligations and will also provide appropriate investor updates outside of quarterly reporting when possible.
