

MINOTAUR EXPLORATION LIMITED ACN 108 483 601 [ASX:MEP](http://ASX.MEP)

8 February 2018

ASX Release

Alliance Activity Concludes

Following their review of the trial phase of collaboration in the vicinity of the Prominent Hill mine OZ Minerals (ASX: OZL) and Minotaur Exploration have mutually decided to discontinue the work, concluding that regional prospects for shallow copper mineralisation are limited.

The Alliance effort and aims were nonetheless worthy as they provided a constructive model for mid tier - junior explorer cooperation, on which to strengthen their working relationship. Minotaur appreciates OZ Minerals having provided the opportunity to explore OZL's tenements.
