### **Off-take Agreement Executed for Amsterdam Output**

The directors of *Integrated Green Energy Solutions Ltd* ("IGES") are pleased to advise that they have signed a binding 5-year agreement for the purchase of all road ready fuel produced from the IGES Amsterdam facility. The agreement is signed with *FinCo Supply and Trading BV* ("FinCo").

This contract has been entered into following the completion of notarisation of the purchase of the Amsterdam entity, *Bin 2 Barrel Amsterdam BV*.

FinCo is a well-established company in the business of the storage, trading and distribution of oil and oil-related products in Northwest Europe. The company represents a good match for IGES as it is also focused on further reduction of CO2 emissions and views safety and sustainability as key imperatives. FinCo's objective is to further expand their activities in the Northwest European downstream energy market.

Further information regarding FinCo is available at: <https://www.fincofuel.com>.

Meanwhile, IGES is continuing to progress the construction of the Amsterdam site with the major emphasis now being the progression of the piling as well as planning the critical path for all subsequent stages of construction.

Concurrently, IGES continues to develop the three sites in the UK and the Camden, Indiana USA site.
