Chairman's Report

for the half year ended 31 December 2017

Dear Unitholders.

We are pleased to present the half year financial report for Magellan Infrastructure Fund (Currency Hedged) (Managed Fund) ("MICH" or the "Fund"). MICH is a managed investment scheme for which Magellan Asset Management Limited ("Magellan") acts as both Responsible Entity and Investment Manager.

MICH is quoted on the ASX (code: MICH) and commenced trading on 22 July 2016. As at 31 December 2017, MICH had net assets of \$144 million and a net asset value of \$2.7643 per unit.

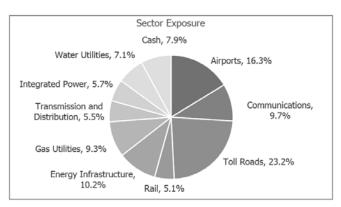

MICH's portfolio is actively managed by Magellan and mirrors, to all intents and purposes the unlisted Magellan Infrastructure Fund. For the six months to 31 December 2017, the Fund returned 5.1% net of fees. Magellan aims to achieve attractive risk-adjusted returns over the medium to long term for unitholders, while reducing the risk of permanent capital loss. To achieve this, the Fund invests in a portfolio of between 20 and 40 high-quality global equity stocks, as assessed by Magellan, whose primary business is the ownership and operation of infrastructure assets. The Fund has the ability to manage equity market risk by holding up to 20% of its net assets in cash. Currency exposure is substantially hedged back to Australian Dollars.

Magellan believes that infrastructure assets, with requisite earnings reliability and a linkage of earnings to inflation, offer an attractive, long-term investment proposition. Magellan has established a proprietary classification criteria to define infrastructure which seeks to identify outstanding companies that exhibit reliable demand and stable cash flow generation and importantly, excludes companies where Magellan has assessed their earnings to have material direct exposure to commodity prices, competitive pressure or sovereign risk. We believe applying a disciplined, clearly defined set of parameters to capture the desired characteristics of infrastructure provides a solid framework for generating attractive, stable returns over the long term.

We would encourage you to read our Investor Letters and monthly and quarterly Fund Reports which provide valuable insight into our investment strategies and portfolio managers' thoughts. These are released on ASX and can also be found on our website: www.magellangroup.com.au.

As at 31 December 2017, the Fund consisted of investments in 29 companies, with the top 10 investments (listed below) representing 49.8% of the investment portfolio. The Fund's cash position was 7.9% which was predominantly held in Australian Dollars. The Fund's industry exposure by source of revenues is highlighted below.

Notes To The Financial Statements

for the half year ended 31 December 2017

1. Summary Of Significant Accounting Policies

Magellan Infrastructure Fund (Currency Hedged) ("the Fund") is a registered managed investment scheme under the *Corporations Act 2001* and was admitted to trading status on the ASX under the AQUA Rules. The Fund was registered on 31 May 2016 and in accordance with the Fund's Constitution, commenced on the date that the first unit was issued, which was 22 July 2016. The Fund terminates on the day immediately preceding the 80th anniversary of the date of commencement, unless terminated earlier in accordance with the Fund's Constitution.

Magellan Asset Management Limited (ABN 31 120 593 946) is the Responsible Entity of the Fund.

This interim financial report was authorised for issue by the Directors of the Responsible Entity on 27 February 2018. The Directors have the power to amend and reissue this financial report.

The principal accounting policies applied in the preparation of these financial statements are set out below.

a) Basis Of Preparation

The interim financial report is a general purpose financial report and has been prepared in accordance with AASB 134: *Interim Financial Reporting*, the *Corporations Act 2001*, other mandatory professional reporting requirements and the Fund's Constitution. It is presented in Australian Dollars.

The Fund is a for-profit unit trust for the purpose of preparing the interim financial report.

The Statement of Financial Position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for financial assets and liabilities at fair value through profit or loss and net assets attributable to unitholders. The amount expected to be recovered or settled within 12 months in relation to these balances cannot be reliably determined.

The interim financial report does not include all the information and disclosures normally included in the Fund's annual financial report. Accordingly, this report should be read in conjunction with the Fund's 30 June 2017 Annual Report and any public announcements made during the half year.

Changes In Accounting Policy, Accounting Standards And Interpretations

i) New And Amended Standards And Interpretations

The accounting policies are consistent with those of the previous financial year and corresponding reporting period except for the adoption of the new standards and amendments which became mandatory for the first time this reporting period commencing 1 July 2017. None of the new standards or amendments affected any of the amounts or the disclosures in the current or prior year.

ii) Accounting Standards And Interpretations Issued But Not Yet Effective

The Australian and International Accounting Standards issued but not yet mandatory for the 31 December 2017 interim reporting period have not been adopted by the Fund in the preparation of this interim financial report. An assessment of the impact of the new standards and interpretations which may have a material impact on the Fund is set out below:

AASB 9: Financial Instruments (AASB 9) (effective 1 July 2018)

AASB 9 contains new requirements for the classification, measurement and de-recognition of financial assets and liabilities, replacing the recognition and measurement requirements in AASB 139 *Financial Instruments: Recognition and Measurement.* Under the new requirements the four current categories of financial assets will be replaced with two measurement categories: fair value and amortised cost, and financial assets will only be measured at amortised cost where very specific conditions are met. Equity securities are measured at fair value through profit or loss unless an election is made at initial recognition, to present fair value changes in other comprehensive income. This option is irrevocable and applies only to equity instruments which are not held for trading. Gains and losses in other comprehensive income are not recycled on disposal of the securities, however the cumulative gain or loss may be transferred within equity.

AASB 9 was revised in December 2014 to include new hedge accounting requirements including changes to hedge effectiveness testing, treatment of hedging costs, risk components that can be hedged and disclosures. It also introduced a new expected-loss impairment model that requires credit losses to be recognised when financial instruments are first recognised and to recognise full lifetime expected losses on a more timely basis.

Notes To The Financial Statements

for the half year ended 31 December 2017

- 1. Summary Of Significant Accounting Policies (continued)
- a) Basis Of Preparation (continued)

Changes In Accounting Policy, Accounting Standards And Interpretations (continued)

AASB 9: Financial Instruments (AASB 9) (effective 1 July 2018) (continued) At 31 December 2017, no material financial impact is expected on adoption of AASB 9 as the Fund currently classifies financial assets and financial liabilities at fair value or amortised cost. The classification of these is not expected to change upon adoption of AASB 9. The Fund does not apply hedge accounting.

AASB 15: Revenue From Contracts With Customers (effective 1 July 2018) (AASB 15)

AASB 15 supersedes the revenue recognition guidance in AASB 118 *Revenue*, AASB 111 *Construction Contracts* and related interpretations. Although AASB 15 is principles-based, it is a significant change from the current revenue requirements and will involve more judgements and estimates. The core principle in AASB 15 is that an entity recognises revenue at an amount that reflects the consideration to which the entity expects to be entitled to receive in exchange for selling goods or services to customers.

The Fund has undertaken an assessment of the impact of AASB 15 and does not expect any material change to the timing or manner of recognition of the Fund's key revenues as interest revenue, dividend and distribution income and investment gains/(losses) are excluded from the scope of AASB 15.

There are no other pronouncements or accounting standards, not yet effective at this time, that are expected to have a material impact on the Fund's financial statements in future reporting periods.

b) Rounding Of Amounts

The Fund is of a kind referred to in the *Australian Securities & Investments Commission's Corporations (Rounding in Financial/Responsible Entity's Reports) Instrument 2016/191* and consequently amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with that Legislative Instrument, or in certain cases, the nearest dollar.

c) Critical Accounting Estimates And Judgements

The preparation of the financial statements requires the Directors to make judgements, estimates and assumptions that affect the amounts reported in the financial statements. The Directors base their judgements and estimates on historical experience and various other factors they believe to be reasonable under the circumstances, but which are inherently uncertain and unpredictable, the result of which forms the basis of the carrying values of assets and liabilities. As such, actual results could differ from those estimates.

Where listed equities have no active market the Directors determine fair value with reference to external observable information and conditions existing at reporting date (refer to Note 3 b)). Fair values may however move materially with movements in market prices. As the equity security investments are valued with reference to the listed quoted prices and the Fund's cash is held with strongly rated financial institutions, the Fund's financial assets are not subject to significant judgement or complexity nor are the Fund's liabilities.

Notes To The Financial Statements

for the half year ended 31 December 2017

2. Distributions To Unitholders

On 18 December 2017, the Directors declared a distribution of 2.60 cents per unit (December 2016: 1.25 cents per unit), amounting to \$1,357,032 for the half year ended 31 December 2017 (December 2016: \$240,780). The distribution was paid on 16 January 2018.

A distribution of 4.88 cents per unit, amounting to \$1,532,407 for the year ended 30 June 2017 was paid on 31 July 2017.

a) Distribution Reinvestment Plan (DRP)

The Fund's DRP was available to eligible unitholders during the half year ended 31 December 2017.

Under the terms of the DRP, eligible unitholders are able to elect to reinvest their distributions in additional MICH units, free of any brokerage or other transaction costs. Units are issued and/or transferred to DRP participants at a predetermined price, less any discount that the Directors may elect to apply from time to time. No discount has been applied to the units issued under the DRP in respect of the distribution paid on 16 January 2018. The DRP issue price is equal to the Operational Net Trust Value (as defined in the Constitution) divided by the number of units on issue on 2 January 2018, being 10 business days prior to the distribution payment date. The DRP issue price for the period ended 31 December 2017 was \$2.7564 (December 2016: \$2.4177), as announced on 4 January 2018 to the ASX. The DRP unitholder participation rate was 6.00% (December 2016: 22.94%) and 29,460 units were issued under the terms of the DRP amounting to \$81,204 (December 2016: 22,815 units amounting to \$55,160).

b) Fair Value Disclosures

The Fund classifies the fair value measurements of financial assets and financial liabilities using the three level fair value hierarchy set out below to reflect the source of valuation inputs used when determining the fair value:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of these securities is based on the closing bid price for the security as quoted on the relevant exchange;
- Level 2: valuation techniques using observable inputs either directly (as prices) or indirectly (derived from prices). The fair
 value of derivatives is based on a discounted cash flow analysis using quoted market inputs (spot and forward rates,
 volatility) adjusted for specific features of the instruments and applied debit and credit valuation adjustments based on
 the Fund's counterparties' current credit worthiness; and
- Level 3: valuation techniques using non-market observable inputs.

The following table presents the fair value measurement hierarchy of the Fund's financial assets:

	31 December 2017 \$'000	30 June 2017 \$′000
Assets Measured At Fair Value Level 1: Investments - valued using quoted price ^(A) Level 2: foreign currency contracts	133,336 986	76,357 1,023
Total	134,322	77,380

⁽A) All Australian and international equity securities held by the Fund are level 1 assets.

The Fund does not hold any level 3 assets. There have been no transfers between any of the three levels in the hierarchy during the half year and the Fund's policy is to recognise transfers into and out of fair value hierarchy levels as at the end of each reporting period.

Terms And Conditions Of Units

Each unit confers upon the unitholder an equal interest in the Fund, and is of equal value to other units in the Fund. A unit does not confer upon the holder any interest in any particular asset or investment of the Fund. The rights of unitholders are contained in the Fund's Constitution and include:

- the right to receive a share of any distribution determined by the Responsible Entity in proportion to the units held on the distribution date;
- the right to attend and vote at meetings of unitholders;
- the right to participate in the termination and winding up of the Fund; and
- the right to redeem units, subject to restrictions disclosed in the Fund's Product Disclosure Statement. Those restrictions may include where trading in units on the ASX are suspended for five consecutive business days. In this case, unitholders may apply to the Responsible Entity to make an off-market withdrawal of their investment from the Fund when the Fund is liquid. Where the Fund ceases to be liquid, units may only be withdrawn once an offer is made to all investors in the Fund in accordance with the Fund's Constitution.

There may be other circumstances where off-market withdrawals from the Fund are suspended for up to 28 days, including where:

- a) it is impracticable for the Responsible Entity, or the Responsible Entity is unable, to calculate the net asset value of the Fund:
- b) the payment of withdrawal proceeds involves realising a significant portion of the Fund's assets which would, in the Responsible Entity's opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage or diminution of the value of units held;
- c) the Responsible Entity reasonably considers it would be in the interests of investors, or it is otherwise permitted by law; or
- d) the Responsible Entity receives withdrawal requests of an aggregate value that in its reasonable estimate exceeds 5% of the Fund's assets.

Independent Auditor's Review Report to the Unitholders of Magellan Infrastructure Fund (Currency Hedged)

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Magellan Infrastructure Fund (Currency Hedged) (the "Fund"), which comprises the statement of financial position as at 31 December 2017, the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Fund is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Fund's financial position as at 31 December 2017 and of its financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Responsible Entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Fund's financial position as at 31 December 2017 and its financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the Fund, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
