Investor Update

March 2018

FORWARD LOOKING STATEMENTS

The purpose of the presentation is to provide an update of the business of Medibio Limited **(ASX:MEB) (OTCQB: MDBIF)**. These slides have been prepared as a presentation aid only and the information they contain may require further explanation and/or clarification.

Accordingly, these slides and the information they contain should be read in conjunction with past and future announcements made by Medibio Limited and should not be relied upon as an independent source of information. Please contact Medibio Limited and/or refer to the Company's website for further information. The views expressed in this presentation contain information derived from publicly available sources that have not been independently verified.

None of Medibio Limited, or any of its affiliates or associated companies (or any of their officers, employees, contractors or agents (the Relevant Persons)) makes any representation or warranty as to the accuracy, completeness or reliability of the information, or the likelihood of fulfillment of any forward looking statement or any outcomes expressed or implied in any forward looking statements.

Any forward looking statements in this presentation have been prepared on the basis of a number of assumptions which may prove incorrect and the current intentions, plans, expectations and beliefs about future events are subject to risks, uncertainties and other factors, many of which are outside Medibio Limited's control. Important factors that could cause actual results to differ materially from assumptions or expectations expressed or implied in this presentation include known and unknown risks.

Because actual results could differ materially to assumptions made and Medibio Limited's current intentions, plans, expectations and beliefs about the future, you are urged to view all forward looking statements contained in this presentation with caution. Except as required by applicable law or the ASX listing rules, the Relevant Persons disclaim any obligation or undertaking to publicly update any statements in this presentation, whether as a result of new information or future events.

**This presentation should not be relied on as a recommendation or forecast by Medibio Limited.
Nothing in this presentation constitutes investment advice or should be construed as either an offer to sell or a solicitation of an offer to buy or sell shares in any jurisdiction.**

The mental health technology and services company using objective physiologic data to assist in the screening, diagnosing, monitoring and management of depression and other mental health conditions.

MENTAL HEALTH REMAINS THE LARGEST HEALTHCARE MARKET IN THE WORLD

Mental illness is among the leading causes of ill-health and disability worldwide

- About **450 million** people in the world currently suffer from a mental health condition.
- **1 in 4 people** in the world will be affected by mental or neurologic disorders during their lifetime.
- Care-related costs are predicted to exceed an estimated **\$6 trillion by 2030.**
- Mental health is one of **the most pressing issues facing humankind.**

THE MEDIBIO MENTAL HEALTH PLATFORM: EMPOWERING THE CARE JOURNEY

From symptoms to successful outcomes, we provide objective measures and insights that empower caregivers and their patients.

Symptom awareness

Searching for help, seeking understanding

Therapy decision making

Treatment, follow-up & prevention

Sustained, positive outcomes

A HISTORY OF PIONEERING RESEARCH

MENTAL ILLNESS AND BIOMARKERS IN THE HUMAN BODY

Physiology

Our approach exploits features of cardiovascular **physiology** influenced directly by the autonomic nervous system and susceptible to perturbation during sleep, as a source of biomarkers that correlate with onset and existence of mental dysfunction.

Data Science

+ Our **data science** approach focuses on deep learning AI to identify multiple mental health diseases via physiologic biomarkers and phenotypes.

23 + years
of data collected

A comprehensive patent suite

Circadian Heart Rate (CHR), technology, and diagnostics

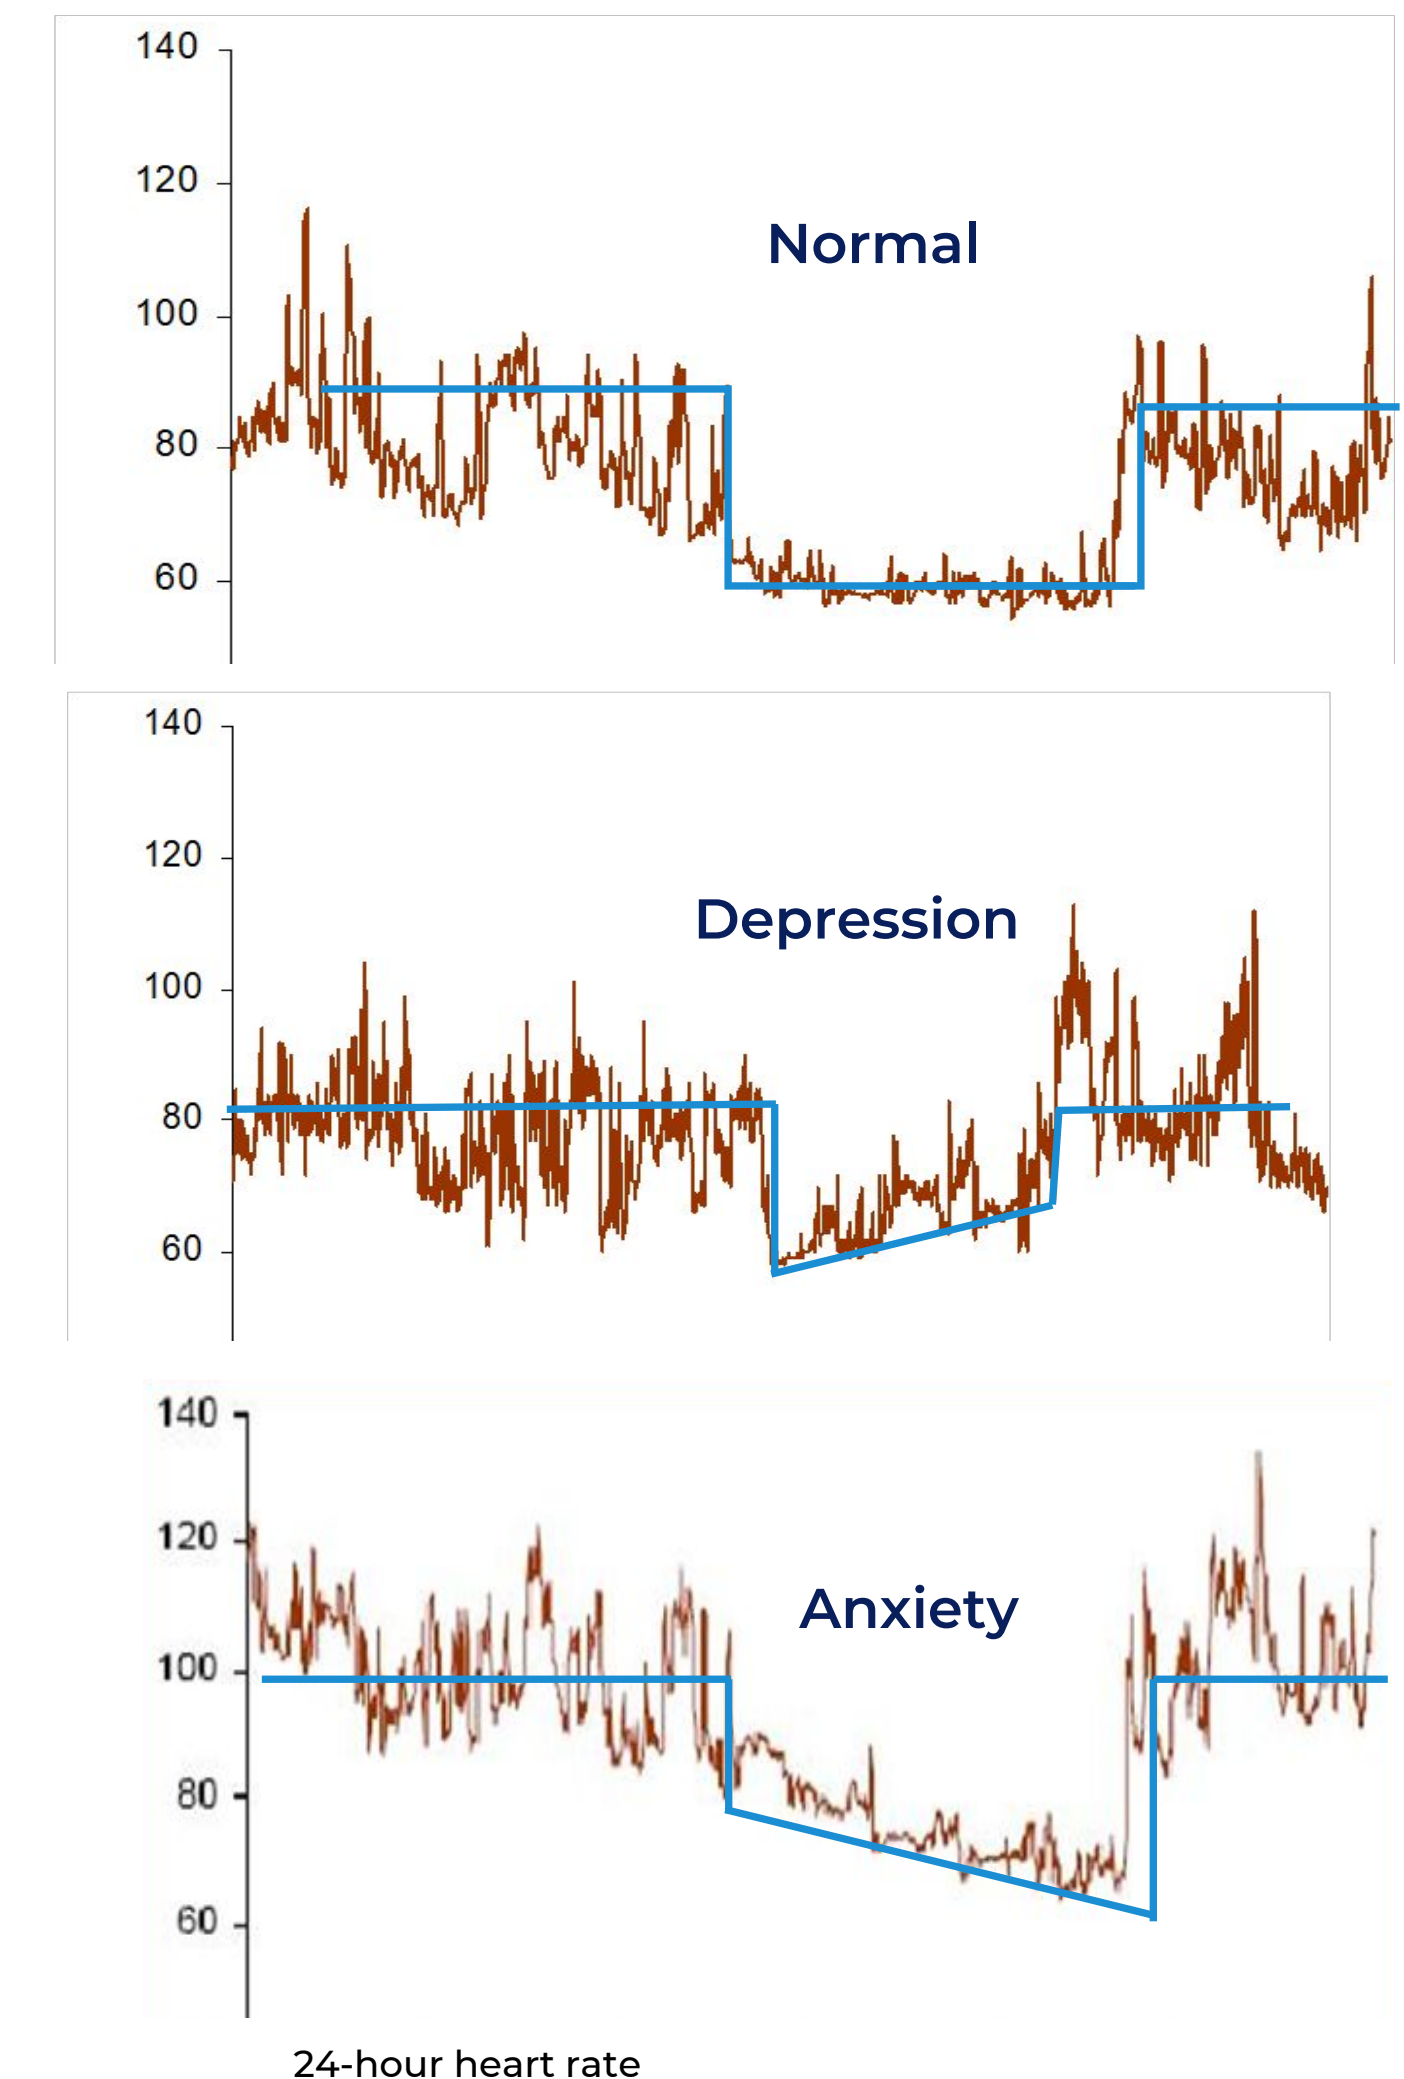

BREAKTHROUGHS IN VISIBLE CIRCADIAN PATTERN DISTURBANCE OBSERVED VIA MONITORING DURING SLEEP

Insights from over 20 years of physiologic data research

Analysis of circadian heart rate (CHR) waveforms gives objective indications of physiological differences between different forms of mental illness such as anxiety, depression, and stress.

Mental state-linked autonomic nervous system disturbance (biological shifts) are observed during sleep when external influences are absent.

Distinctly different patterns are evident during sleep when confounding influences on heart rate are minimal.

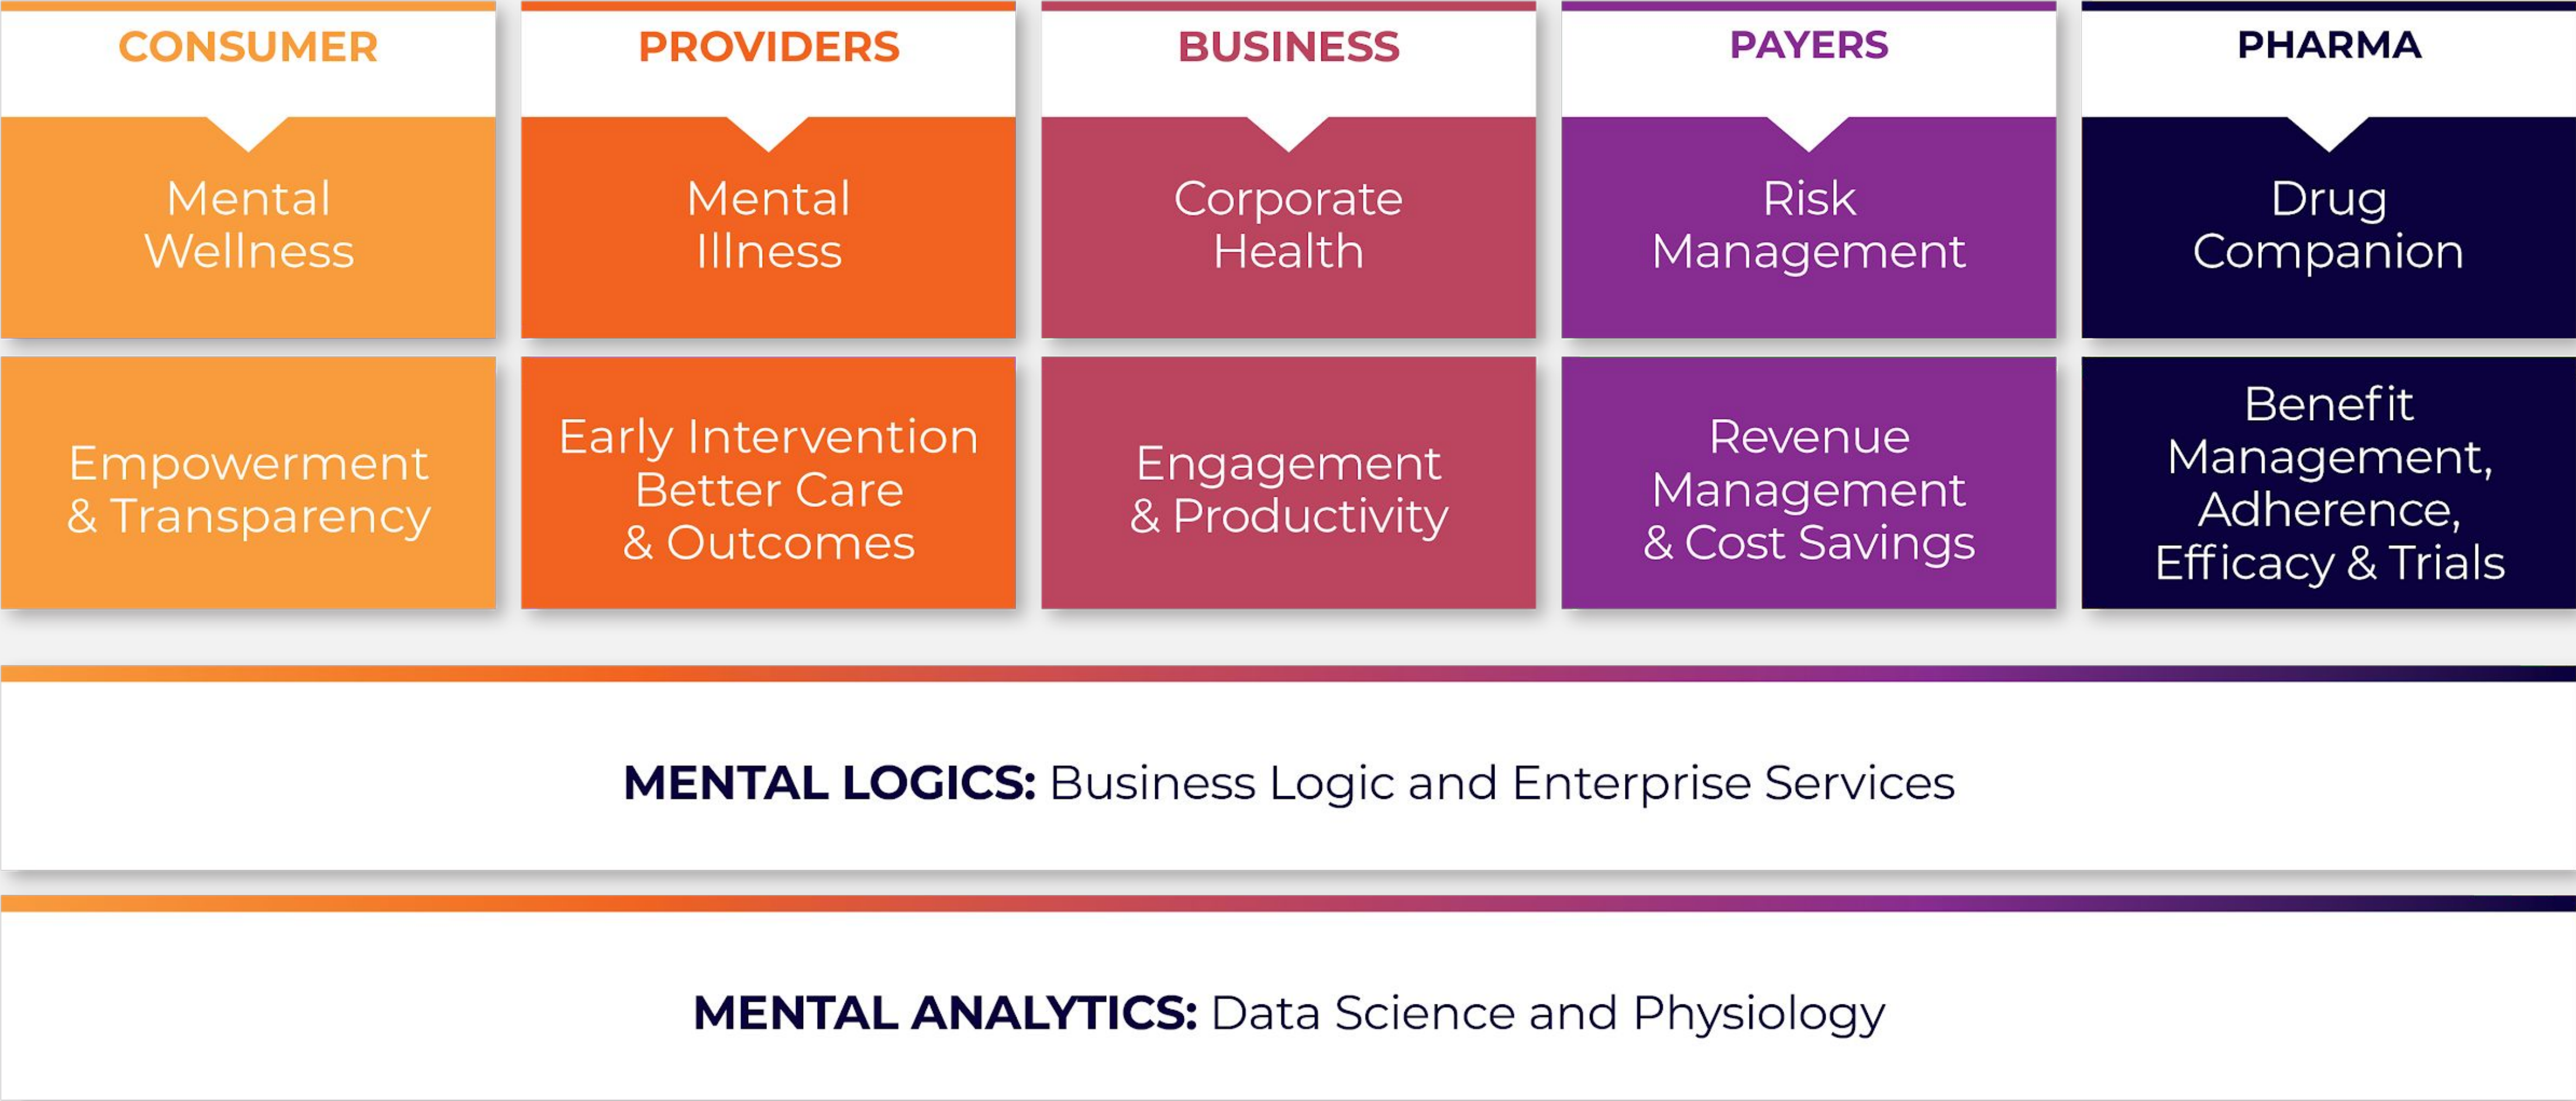

INTRODUCING:

The Medibio Mental Health Technology Platform

A comprehensive product suite of consumer, corporate health, and professional care solutions featuring the world's first objective, biomarker-based measures in mental health.

ONE PLATFORM, MULTIPLE MARKETS

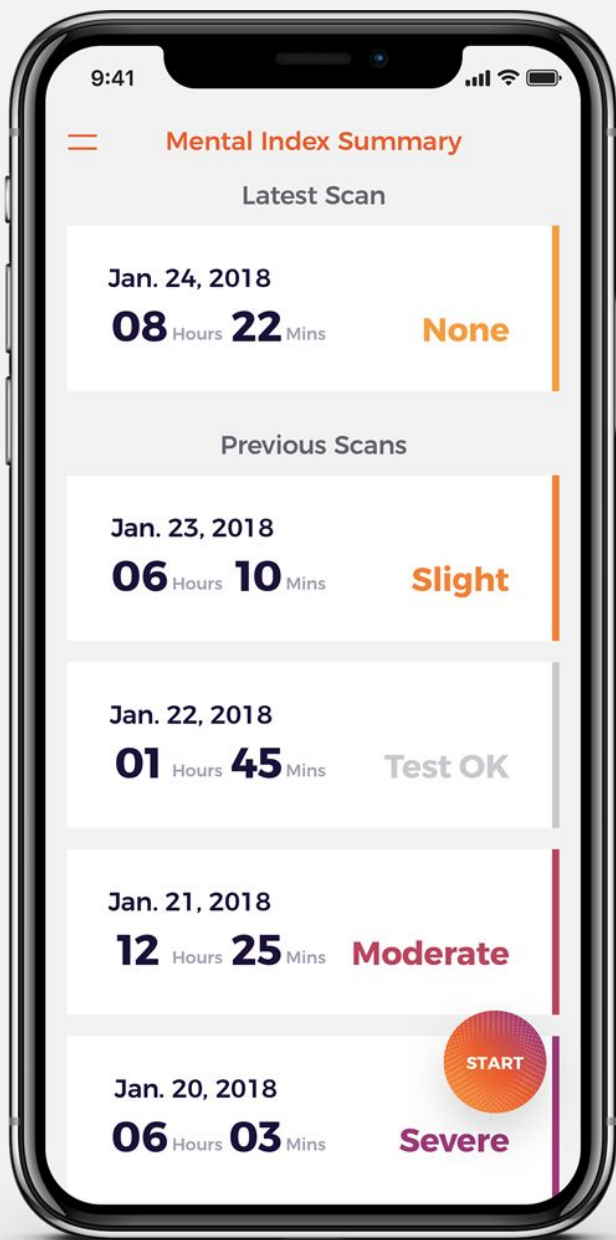

Built on a common technology platform, each product features unique features and capabilities by market.

THE MEDIBIO MENTAL HEALTH TECHNOLOGY PLATFORM

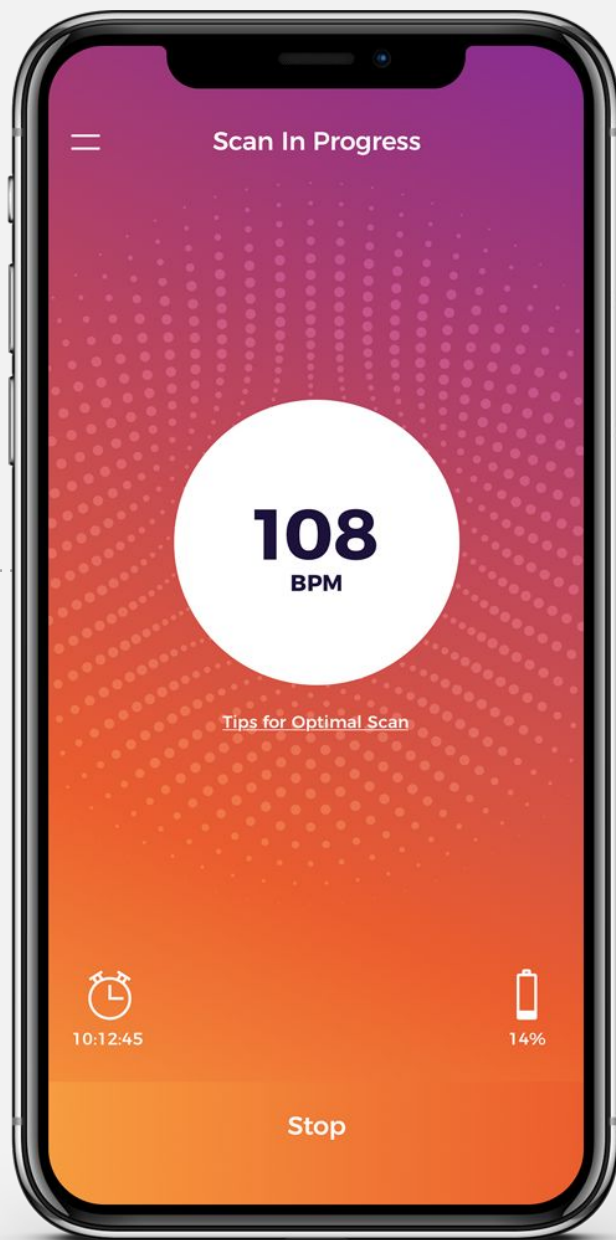

Mental **Insights**TM

An **unregulated** product for self-managing mental health

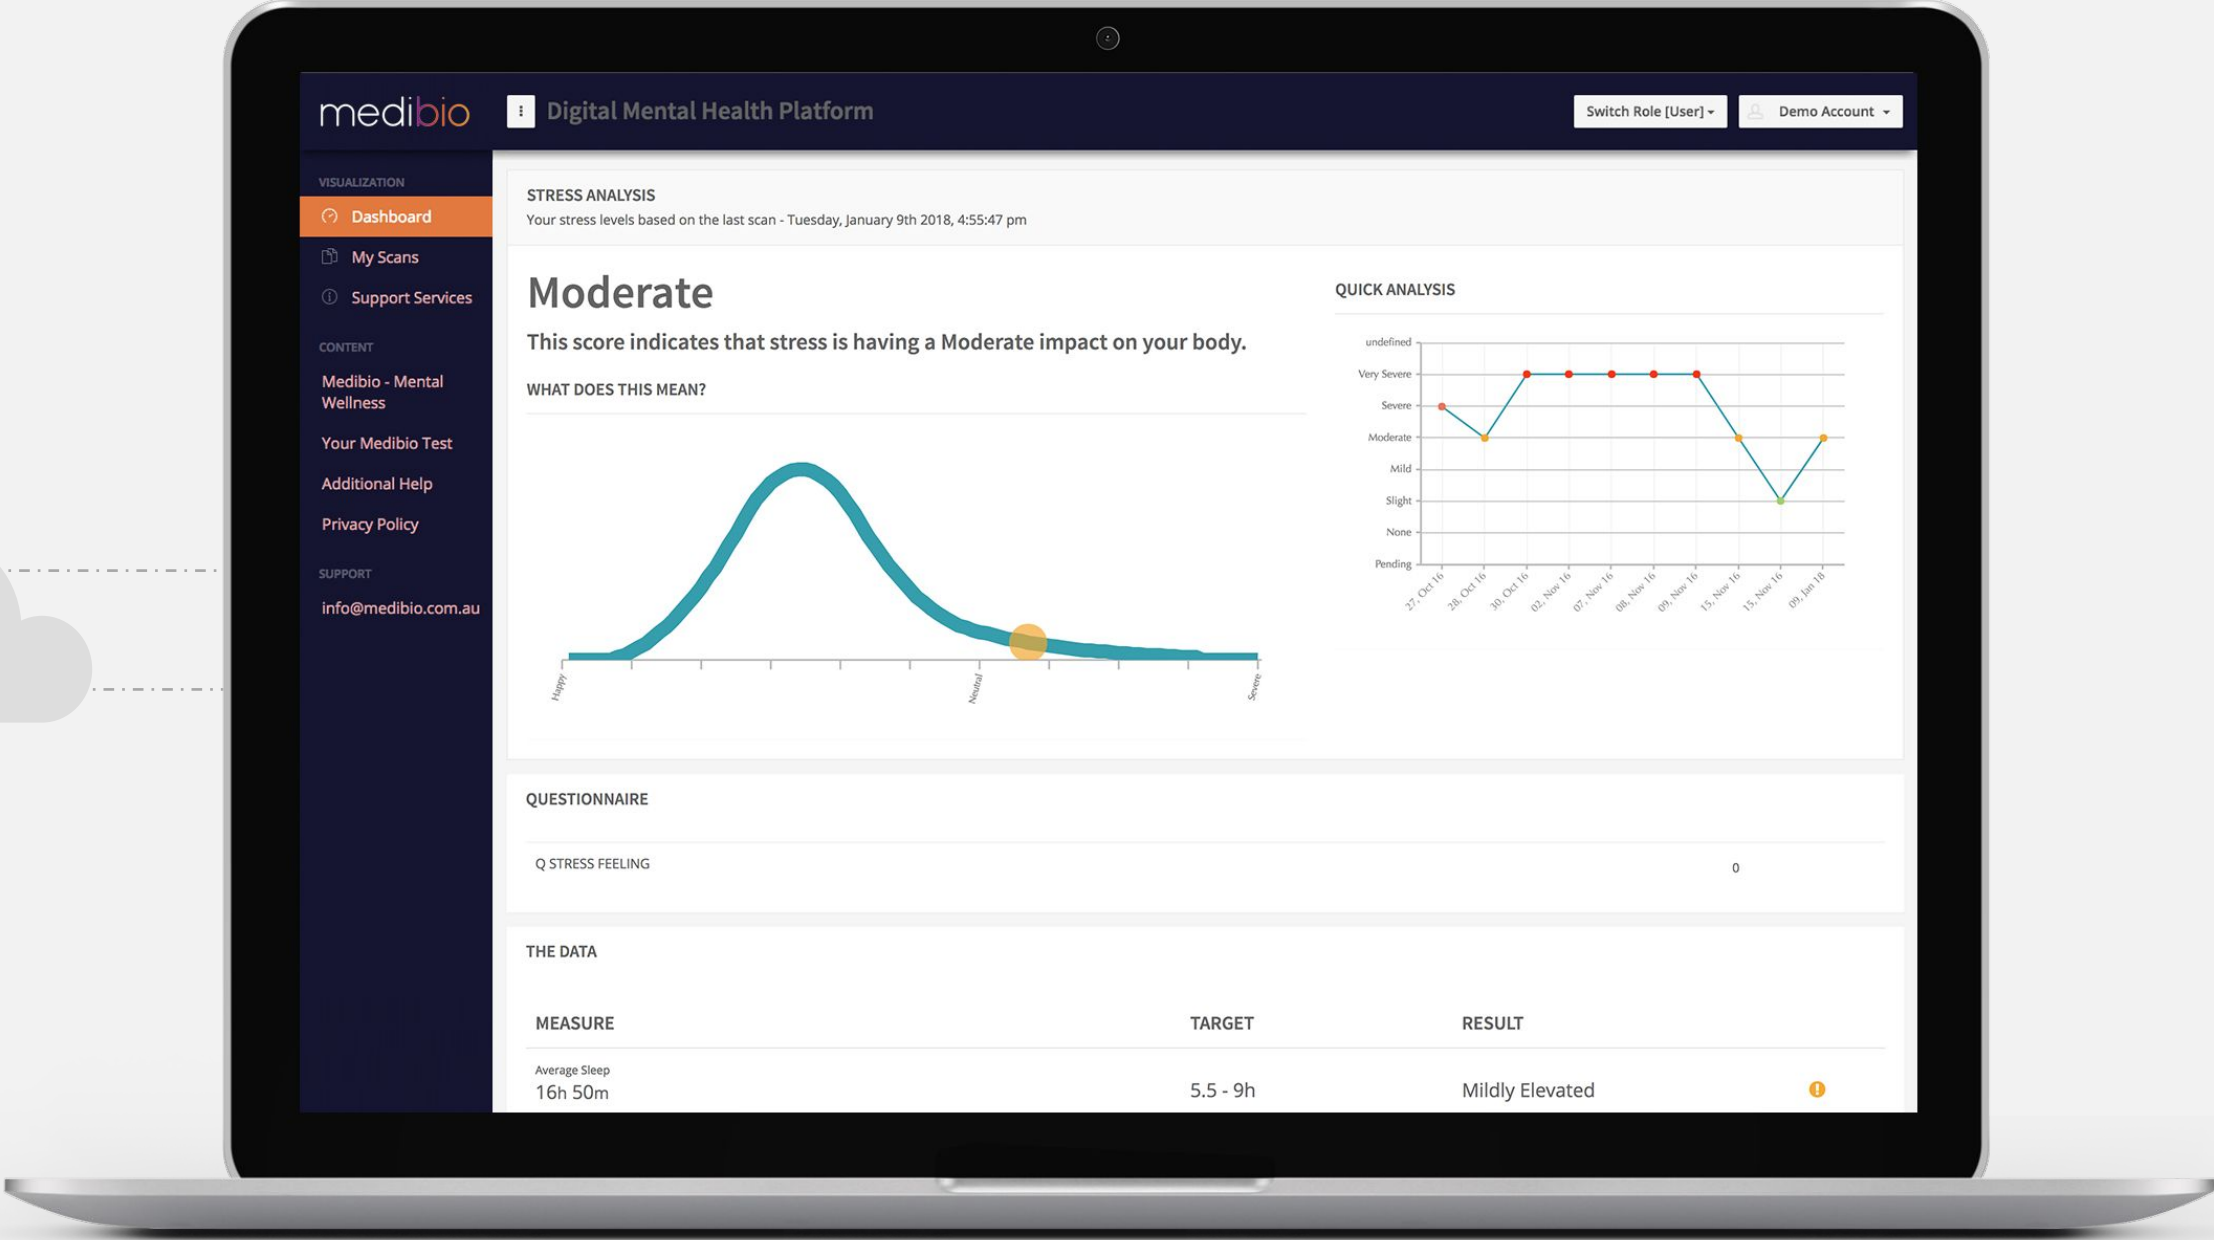

Mental **Index**TM

A **regulated** product for monitoring mental illness

Mental **Logics Professional Portal**TM

A clinical decision support and data analysis platform.

REVENUE MODELS BY MARKET

CORPORATE HEALTH: Estimated Release Q4	
MENTAL INSIGHTS APP + HR PORTAL	
Initial Screening	\$20 per employee
Mental Insights Subscription	\$4.99 per employee, per month
Estimated Addressable Market	54 million US employees

CONSUMER: Estimated Release Q4, Q1 FY19		
	MHA CHECK-IN APP	MENTAL INSIGHTS
Cost Per Download	\$0	\$0
View Mental Insights Trending	Feature not available	\$4.99 per user, per month
Estimated Addressable Market	1 in 4 adults globally	1 in 4 adults globally

INTEGRATED HEALTH PLAN: Estimated Release Q1 FY19	
MENTAL INDEX APP + PROVIDER PORTAL	
Initial Exam Assessment	\$20 per patient
Mental Index Subscription	\$9.99 per patient, per month
Estimated Addressable Market	65.9 million US mental health visits a year

CORPORATE HEALTH

Providing objective analysis and complement of mental health care services to employers

Corporate health initiatives to focus on mental health and wellbeing of employees.

Businesses can now harness objective mental health measures to give employees a real time understanding of their own mental health.

OPPORTUNITY SUMMARY

MEDIBIO DELIVERS:

A BETTER UNDERSTANDING OF MENTAL HEALTH

Traditional approaches to mental health care rely heavily on patient input and clinical judgement. Medibio to bring objective measures tracked and collected by physicians and their patients to provide a new, unbiased view of mental health.

EMPOWERED PRACTITIONER DECISION SUPPORT

Medibio to provide a comprehensive dashboard with multiple, objective data points facilitates decision making.

IMPROVED OUTCOMES

Medibio to unlock powerful applications in the diagnosis, treatment, and monitoring of mental health. Ultimately patients who have access to self-management tools are more likely to engage in their own health outcomes.

APPENDIX

CHR PATTERN ANALYSIS

INDIVIDUAL WITH **NORMAL BEHAVIORS**

- Sleep rates are visibly lower and less variable than awake rates.
- The onset of sleep and moment of waking show a clear change in the mean trend.
- Sleep and waking is usually brief and occurs quickly.
- Body movement data clearly correlates with heart rate, with a cessation of movement during the sleep period.

CHR PATTERN ANALYSIS

INDIVIDUAL WITH DEPRESSION

- The mean is within the normal range, but the sleep mean is slightly elevated.
- Rates fall to their lowest level shortly after the onset of sleep, and then rise progressively to awake values.
- This rising trend causes early waking, a common symptom of depression.
- Correlation between heart rate and body movement variable.

CHR PATTERN ANALYSIS

INDIVIDUAL WITH ANXIETY DISORDER

- Both the 24 hour and sleep means are moderately elevated.
- Rates are high at the onset of sleep due to sustained daytime physiological arousal.
- Heart rate declines to its lowest values an hour or two before waking.
- Morning rates are also elevated, accounting for acute morning anxiety that is often experienced by sufferers.

THANK YOU
