

Data#3 Wins Whole of Australian Government Microsoft Licensing Solutions Provider Contract

March, 09, 2018; Brisbane, Australia: Leading Australian technology provider, Data#3, has been selected by the Digital Transformation Agency (DTA), representing the Commonwealth of Australia, as the sole provider of Microsoft licensing solutions to the Australian Government, following a recent competitive tender process.

The key objective of the tender was to ensure innovation, ongoing value for money and benefit for federal government departments/agencies, as well as a broad range of Commonwealth, State and Territory bodies, leveraging the Software Licensing and Services Panel.

While the tender afforded the possibility for multiple providers, the Data#3 response as a single provider presented a solution that;

- delivered on the objectives set by the DTA,
- demonstrated the company's proven technical and consultative expertise, and
- provided a platform that addressed the DTA's future needs.

Data#3 Chief Executive Officer and Managing Director, Laurence Baynham, commented, "Data#3 has provided software and services to the Australian Government for many years. We are pleased that the skills and knowledge provided by our team across government is valued. In winning this significant contract, we have committed to a business relationship that is based on trust, innovation, and the delivery of successful outcomes. We look forward to working with the DTA and all associated entities, helping them to leverage innovative technology and to provide benefit to the Australian economy."

ENDS

About Data#3

A leading Australian IT services and solutions provider, Data#3 Limited (DTL) is focused on helping customers solve complex business challenges using innovative technology solutions.
