This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2017 and any public announcements made by White Energy Company Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

White Energy Company Limited
Directors' report
31 December 2017

### **Directors' report**

Your Directors present their report on the consolidated entity (the Group), consisting of White Energy Company Limited (the Company or White Energy) and the entities it controlled at the end of, or during, the half-year ended 31 December 2017.

### **Directors**

The following persons were Directors of White Energy during the whole of the half-year and up to the date of this report unless otherwise stated:

**Travers Duncan** 

**Brian Flannery** 

**Graham Cubbin** 

Vincent O'Rourke

**Terence Crawford** 

The Company Secretary is David Franks, a position he has held the whole of the half-year and up to the date of this report.

### **Review of operations**

### Coal mining and exploration: Mountainside Coal Company, Inc. (MCC) (51% interest- discontinued operation)

MCC coal mining operations in Kentucky, USA generated \$2,436,000 in coal sales revenue in the six months to December 2017. Coal production resumed in mid-August for a seven month period at the Flag Ridge mine with auger operations commencing in late September, and first coal being delivered in September 2017. The coal being produced from the Dean seam has been contracted for sale as thermal coal. The site will be progressively backfilled, graded and hydro-seeded. MCC's personnel are currently planning for future mining activities.

MCC currently has additional permits in various stages of approval and many acres containing low ash Blue Gem coal resources in Kentucky that are in the initial permitting phase. MCC continues to advance the permitting process and additional leases are being sought as mine plans for new areas are progressed.

Reclamation activity continues, with applications being made for bond releases as rehabilitation work in each area is completed. The reclamation activities resulted in the release of \$1.0 million of cash held as security in the six months to December 2017.

In April 2017, White Energy announced that it would seek to sell its 51% interest in MCC. Five parties have been shortlisted and currently negotiations to purchase the Group's interest are continuing.

### BCB Coal Technology: River Energy (51% interest)

White Energy's 51%-owned subsidiary, River Energy South Africa Pty Ltd (**River Energy**), through joint venture partner Proterra Investment Partners (49%), is in discussion with a number of South African coal miners interested in the Group's Binderless Coal Briquetting (**BCB**) technology.

Extensive testing by River Energy, including successful briquetting and combustion trials, has previously demonstrated that a saleable export grade coal product can be produced from South African reject tailings. The management of River Energy are pursuing opportunities on mine sites in South Africa to secure access to fine coal to support BCB projects.

White Energy Company Limited
Directors' report
31 December 2017

# **Directors' report (continued)**

### **Review of operations (continued)**

Management continue to actively pursue opportunities globally to briquette discarded coal fines which currently represent an environmental liability to miners. Application of the BCB technology could provide an opportunity for miners to convert waste coal fines into a saleable product.

Coal samples from a Chinese company are expected to be tested at the Company's Cessnock demonstration and pilot plants during this year.

White Energy and its 49% joint venture partner in River Energy are currently considering alternative ownership and funding structures for River Energy's BCB and coal fine beneficiation businesses in South Africa.

### Coal and minerals exploration: South Australian Coal (EL5719)

Activity in EL5719 during the period was focussed on examining coal gasification opportunities and planning for future exploration activities.

EL5719 lies entirely within the Olympic Dam G9 Structural Corridor. Previous drilling has identified that the geology in the area is similar in age to the mineralisation in the Prominent Hill and Olympic Dam Mines.

### **Legal Dispute**

On 25 July 2017, the Singapore International Commercial Court (SICC) released its judgement in relation to the second tranche of the legal proceedings initiated by subsidiaries of White Energy, BCBC Singapore Pte Ltd (BCBCS) and Binderless Coal Briquetting Company Pty Limited, against PT Bayan Resources Tbk and Bayan International Pte Ltd (Bayan) relating to the KSC joint venture in Indonesia. The SICC found in favour of BCBCS White Energy on substantially all of the matters considered.

Not unexpectedly, a notice of appeal against substantially the whole of the SICC's findings against Bayan in the second tranche judgement was subsequently filed by Bayan on 23 August 2017. The appeal was heard on 7 to 8 February 2018 in Singapore, by three international judges. The judgement has been reserved.

The White Energy Group had invested over US\$110 million in the Tabang project in Indonesia up until 2012 when Bayan repudiated the joint venture. Substantial legal costs have also been incurred in relation to the proceedings to recover damages from Bayan.

After the appeal judgement, White Energy will prepare for the third tranche of the proceedings, seeking damages and costs.

# General corporate

The Group has no corporate debt. Non-recourse shareholder loans provided to the Group's 51% owned operations in the USA and South Africa by both White Energy and the minority shareholders in proportion to their ownership interests are repayable in January 2019.

Unsecured loan facilities provided by two of the Company's directors were put in place during the half-year for general working capital requirements while the Company waits for the settlement proceeds from the sale of MCC. The facilities of up to \$1 million each have been provided by Brian Flannery and Travers Duncan, each being a director and substantial shareholder of the Company. The loans are repayable within one year after they are advanced or on demand.

# **Directors' report (continued)**

### **Review of operations (continued)**

### Financial position and results for the half-year

The Group had cash reserves excluding restricted cash of \$1,258,000 (30 June 2017: \$3,216,000). The Group had restricted cash of \$2,000,000 (30 June 2017: \$2,000,000).

The total assets balance decreased from \$55,242,000 at 30 June 2017 to \$50,944,000 as at 31 December 2017, largely as a result of the losses derived by the Company and its subsidiaries.

The increase in liabilities from \$80,330,000 to \$82,493,000 predominantly reflects the additional loans provided by the Group's minority shareholders for their share of the ongoing working capital requirements of MCC and River Energy, and the drawdown of loans in the amount of \$500,000 each provided by two directors.

The Consolidated Entity's net loss before tax for the half-year ended 31 December 2017 was \$7,116,000 (2016: \$13,674,000). The Company's adjusted normalised EBITDA loss for the half-year ended 31 December 2017 was \$2,733,000 (2016: \$4,246,000). The improvement in normalised EBITDA from the comparative period in 2016 is primarily due to the introduction of cost reduction initiatives across the Group. The normalised EBITDA loss has been determined as follows:

	Half-year		
	31 December 2017	31 December 2016	
	\$'000	\$'000	
Consolidated entity net loss for the half-year before income tax _	(7,116)	(13,674)	
Non-cash expenses / (income):			
Depreciation / amortisation	1,552	5,060	
Impairment expense	-	-	
Share-based payments	-	308	
Other	(10)	(37)	
Sub-total – non-cash expenses	1,542	5,331	
Other significant items:			
Finance costs	1,650	1,871	
Legal costs – litigation	414	1,169	
Sub-total – other significant items	2,064	3,040	
Consolidated entity adjusted normalised EBITDA	(3,510)	(5,303)	
Non-controlling interests share of normalised EBITDA	777	1,057	
White Energy adjusted normalised EBITDA	(2,733)	(4,246)	

# **Directors' report (continued)**

### Review of operations (continued)

Normalised EBITDA is a financial measure which is not prescribed by Australian Accounting Standards (AAS) and represents the profit under AIFRS adjusted for specific significant items. The table above summarises key items between statutory loss before tax and normalised EBITDA. The Directors use normalised EBITDA to assess the performance of the Company. The Consolidated Entity's adjusted normalised EBITDA (\$3,510,000) reconciles to the segment information EBITDA result for the year (\$3,924,000) disclosed on page 12, after adding back litigation costs (\$414,000) which are included in the segment expenses line item.

Normalised EBITDA has not been subject to any specific review procedures by our auditor but has been extracted from the accompanying interim financial report.

### Going concern

Management has prepared a cash flow forecast for the next 12 months from the date of this report which demonstrates the need to raise additional funding to meet the Group's forecast expenditure for the period.

The Directors believe that the Group will be able to continue as a going concern on the condition that it will have access to additional funds in the next 12 months. In this regard it should be noted that the Group's external debt comprises limited-recourse shareholder loans, related party loans from key management personnel, trade payables, equipment leases and provisions incurred in the ordinary course of business. The Directors are considering a number of actions for raising additional funds, including from one or more of the following sources:

- (1) Asset sales: The Group is currently running a sale process for its 51% interest in Mountainside Coal Company Inc. Five interested parties have been shortlisted and currently negotiations to purchase the Group's interest are continuing;
- (2) Additional equity funds: As previously foreshadowed, the Company plans to raise additional equity funds for the ongoing activities of the Group, as required. The Company has been successful in raising equity funds through the issue of new shares in the past;
- (3) Debt funding for capital projects: The Directors believe, based on past experience, that they can raise third party debt financing to part fund any future project capital expenditure requirements;
- (4) Loans from minority shareholders: The Group's 51% owned subsidiaries, Mountainside Coal Company Inc., River Energy JV Ltd and River Energy JV UK Limited continue to have access to funds from their 49% minority shareholder under existing shareholder loan agreements (in conjunction with WEC's 51% contributions) to enable them to meet their debts as and when they fall due; and
- (5) Short term loans from related parties: Amounts totalling \$1,000,000 have been received as at 31 December 2017 from two directors (refer note 16(a)). These two loan facilities have an unutilised amount of \$1,000,000. After 31 December 2017, two further loan facilities totalling \$1,000,000 have been provided by the same two directors (refer note 21).

These conditions give rise to a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. The Group may therefore be unable to realise its assets and discharge its liabilities in the normal course of business.

However the Directors believe that the Group will be successful in raising funds through one or more of the above actions and that the Group will be able to realise its assets and settle its debts as and when they fall due

White Energy Company Limited
Directors' report

# **Directors' report (continued)**

### Review of operations (continued)

and payable in the normal course of business, and accordingly have prepared the financial statements on a going concern basis.

### Auditors' independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 6.

The Group's independent auditor's report for the half-year ended 31 December 2017 contains an emphasis of matter paragraph drawings member's attention to the contents of note 2 of the accompanying financial statements which deals with the Group's going concern assumptions and the basis upon which those financial statements have been prepared. A copy of the independent auditor's report is included with the accompanying financial statements for the half-year ended 31 December 2017.

### **Rounding of amounts**

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial / Directors' Reports) Instrument 2016/191, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' report have been rounded off in accordance with that Instrument to the nearest thousand dollars, or in certain cases, to the nearest dollar.

This report is made in accordance with a resolution of the Directors.

Brian Flannery Managing Director

Brisbane 9 March 2018

# **Auditor's Independence Declaration**

As lead auditor for the review of White Energy Company Limited for the half-year ended 31 December 2017, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (b) no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of White Energy Company Limited and the entities it controlled during the period.

### **Note 1. Segment Information**

### (a) Description of segments

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions.

The Board of Directors considers the business from both a business line and a geographic perspective and has identified four reportable business line segments: coal technology, coal mining, mining exploration and property.

The coal technology segment has the exclusive licence to patented BCB technology developed by the consortia led by CSIRO which processes relatively poor quality coal into a higher quality product.

The coal mining segment reports the financial results of Mountainside Coal Company Inc. (MCC), which operates a series of coal mines in the USA. The Group commenced a process for the sale of MCC in June 2017. The MCC coal mining operations are reported as a discontinued operation in the periods ended 30 June 2017 and 31 December 2017 with the 2016 comparatives reclassified.

The mining exploration segment holds tenements near Coober Pedy, South Australia.

The property segment reflects the agricultural activities of Ingomar Station which operated as a working cattle and sheep property until it was sold in 2016. Although the property segment does not meet the quantitative thresholds required by AASB 8, management has concluded that this segment should be reported, as it was monitored by the Board of Directors and has contributed to the Group's revenue. The property operations are reported as a discontinued operation in the periods ended 30 June 2017 and 31 December 2017.

The Group's business sectors operate in five main geographical areas:

- (i) Australia: The home country of the main operating entity. The areas of operation are the coal technology, mining exploration and property business lines.
- (ii) Asia: Comprises operations carried on in Indonesia, China and Singapore. The area of operation is the coal technology business line.
- (iii) South Africa and Mauritius (**South Africa**): The area of operation is the coal technology business line in the South African market.
- (iv) United States (USA): Operating a series of coal mines and the coal technology business line in the North American market.
- (v) United Kingdom (UK): An investment holding company which owns MCC.

# **Note 1. Segment Information (continued)**

# (b) Segment information provided to the Board of Directors

The Board of Directors regularly reviews the financial performance of the Group for the reportable segments below. The Board does not review assets and liabilities of each segment.

### Note 2. Going concern

As outlined in the Directors' report, the Group recorded a total comprehensive loss for the half-year period ending 31 December 2017 of \$6,461,000 (2016: \$14,542,000), had net cash outflows from operations of \$4,020,000 (2016: \$6,734,000) and a cash balance excluding restricted cash of \$1,258,000 (\$3,216,000 as at 30 June 2017). The Group's current liabilities exceed its current assets by \$22,265,000 (\$17,264,000 as at 30 June 2017). In this regard it should be noted that the Group's external debt comprises limited-recourse shareholder loans, related party loans from key management personnel, trade payables, equipment leases and provisions incurred in the ordinary course of business. The Group has prepared a cash flow forecast to 31 March 2019, which demonstrates the need to raise additional funding to meet the Group's forecast expenditure for the period.

These conditions give rise to a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern. The Group may therefore be unable to realise its assets and discharge its liabilities in the normal course of business.

### Note 2. Going concern (continued)

However the Directors believe that the Group will be able to continue as a going concern on the condition that it will have access to additional funds in the next 12 months. The Directors are considering a number of actions for raising additional funds, including from one or more of the following sources:

- (1) Additional Asset sales: The Group is currently running a sale process for its 51% interest in Mountainside Coal Company Inc. Five interested parties have been shortlisted and currently negotiations to purchase the Group's interest are continuing;
- (2) Additional equity funds: As previously foreshadowed, the Company plans to raise additional equity funds for the ongoing activities of the Group, as required. The Company has been successful in raising equity funds through the issue of new shares in the past;
- (3) Debt funding for capital projects: The Directors believe, based on past experience, that they can raise third party debt financing to part fund any future project capital expenditure requirements;
- (4) Loans from minority shareholders: The Group's 51% owned subsidiaries, Mountainside Coal Company Inc., River Energy JV Ltd and River Energy JV UK Limited continue to have access to funds from their 49% minority shareholder under existing shareholder loan agreements (in conjunction with WEC's 51% contributions) to enable them to meet their debts as and when they fall due; and
- (5) Short term loans from related parties: Amounts totalling \$1,000,000 have been received as at 31 December 2017 from two directors (refer note 16(a)). These two loan facilities have an unutilised amount of \$1,000,000. After 31 December 2017, two further loan facilities totalling \$1,000,000 have been provided by the same two directors (refer note 21).

The Directors believe that the Group will be successful in raising funds through one or more of the above actions and that the Group will be able to realise its assets and settle its debts as and when they fall due and payable in the normal course of business, and accordingly have prepared the financial statements on a going concern basis.

### Note 3. Dividends

No amounts have been paid or declared by way of dividend during the half-year ended 31 December 2017 (2016: Nil).

### Note 4. Revenue

	2017	2016
	\$'000	\$'000
From continuing operations

### Note 8. Current assets – Inventories

The coal stockpiles and other inventories of Mountainside Coal Company Inc. are being offered for sale at the reporting period end and are included as assets held for sale (refer note 9).

# Note 9. Assets classified as held for sale and liabilities of disposal group held for sale

In June 2017 the Group commenced a process for the sale of its 51% interest in Mountainside Coal Company Inc. (MCC), which operates coal mines in the USA. Five interested parties have been shortlisted and currently negotiations to purchase the Group's interest are continuing. All of the assets and liabilities of MCC have been presented as held for sale as at 31 December 2017 and 30 June 2017. The operating results of MCC's operations have been reported as a discontinued operation for 2017, with the 2016 comparatives reclassified (refer Note 6).

The assets and liabilities at period end comprised:

	31 December 2017	30 June 2017
	\$'000	\$'000
Assets held for sale		
Cash and cash equivalents	109	96
Inventories	111	112
Trade and other receivables	1,180	339
Restricted cash (a)	2,230	3,233
Available-for-sale financial assets	995	1,152
Prepayments	510	519
Property, plant and equipment (b)	17,537	17,604
Exploration assets (b)	208	211
Total assets of disposal group held for sale	22,880	23,266
Liabilities of disposal group held for sale		
Trade and other payables	2,200	2,033
Provisions (c)	1,882	1,941
Other payables	160	163
Accrued interest on shareholder loans – Black River	4,820	3,986
Loans from shareholders – Black River	30,104	29,227
Total liabilities of disposal group held for sale	39,166	37,350

## (a) Restricted cash - Reclamation bonds

The Group holds certificates of deposit restricted for bonds. The certificates are a requirement of the mining permits issued in Kentucky and Tennessee in the USA. The certificates of deposit restricted for bonds are held as security until reclamation of the permitted sites has been suitably completed by the Group.

# Note 9. Assets classified as held for sale and liabilities of disposal group held for sale (continued)

# (b) Provisions

# Movement in reclamation provision

\$'000	Reclamation
Carrying value at the start of the reporting period	1,941
Additional provision raised	64
Amounts used	(98)
Unwinding of discount	2
Exchange differences	(27)
Carrying value at the end of the reporting period	1,882

### Note 10. Non-current assets - Restricted cash

Loans from shareholders – Black River (c)	28,150	28,650
Total non-current liability	34,910	34,912

### (a) Loans from related parties

Key management personnel Travers Duncan, the Chairman of White Energy, and Brian Flannery, the Managing Director of White Energy, have each loaned to the Company \$500,000 through their private companies Gaffwick Pty Ltd atf Duncan Family Trust and Ilwella Pty Ltd respectively. The amounts disclosed in the Group's financial statements as loans from related parties are the amounts lent by key management personnel and are due for repayment by the Company within one year after they were advanced or on demand. The loans are not secured. The loan's agreements are based on normal commercial terms and conditions and bear interest at a market rate.

### (b) Deferred income - government grant

The Company received \$4,349,000 in 2008 from the Commonwealth Government of Australia as part of the

# Note 16. Other payables (continued)

AusIndustry's Commercial Ready innovation grant program. This amount is being amortised over the life of the Cessnock Demonstration Plant.

### (c) Loans from shareholders

White Energy and the 49% minority shareholder in its River Energy and Mountainside Coal Company operations have jointly funded those businesses through shareholder loans. The amounts disclosed in the Group's financial statements as loans from shareholders are the amounts contributed by the 49% minority shareholder which attract interest and are due for repayment by the relevant Group subsidiary at future dates in accordance with the terms of the relevant shareholder loan agreements. The loans are not secured.

### Note 17. Contributed equity

	31 December 2017	30 June 2017	31 December 2017	30 June 2017

Share based payment	7,012	7,012
Foreign currency translation	(19,487)	(19,171)
	(12,475)	(12,159)

### Note 19. Share based payments

The Company maintains a long term incentive plan (LTIP) which is designed to align the performance of employees with that of the interests of shareholders and to assist in the retention of experienced personnel. Share options have been issued under the LTIP. The number of share options in the Company held during the period is set out below:

Grant date	Expiry date	Note	Balance at 1 July 2017	Granted during the period	Exercised or forfeited during the period	Balance at 31 December 2017
			Number	Number	Number	Number
2017						
18/11/2016	18/11/2022	a	10,000,000	-	-	10,000,000
Total			10,000,000	ı	-	10,000,000

(a) Incentive Options granted in 2016 under the LTIP have an exercise price of \$0.20 per share and may be exercised at any time prior to their expiry date. The Board may determine that the options lapse if the

### Note 19. Share based payments (continued)

option holder ceases to be an employee prior to exercise. The options may be forfeited in other circumstances, including if the employee acts fraudulently or dishonestly or engages in gross misconduct. The rules of the LTIP and the terms of the grant contain provisions relating to the treatment of the options in the event of a takeover or change of control and in the event of a bonus issue or capital reorganisation. At grant date the options had a fair value of \$0.0308 per option.

### Note 20. Contingencies

### (a) Contingencies – KSC legal dispute

White Energy's wholly owned subsidiaries, Binderless Coal Briquetting Company Pty Ltd (BCBC) and BCBC Singapore Pte Ltd (BCBCS), are currently engaged in legal proceedings against PT Bayan Resources Tbk and Bayan International Pte Ltd (Bayan) in the Singapore International Commercial Court (SICC). The proceedings relate to various disputed matters arising from a company which was jointly owned by BCBCS and Bayan, which owned and operated the Tabang coal upgrade plant located at Bayan's Tabang mine in East Kalimantan, Indonesia.

As a result of the SICC dismissing Bayan's counterclaim against BCBCS and BCBC in April 2016, there are no longer any claims outstanding against the White Energy Group from these proceedings.

The SICC handed down its judgement on Tranche Two of the trial in July 2017 and found in favour of BCBCS and BCBC on substantially all of the matters considered. A notice of appeal against substantially the whole of the SICC's findings against Bayan in the Tranche Two judgement was subsequently filed by Bayan on 23 August 2017. The appeal was heard on 7 to 8 February 2018 in Singapore, by three international judges. The judgement is reserved.

Assuming Bayan's appeal is not successful, the third tranche of the trial will be held to determine causation and damages that are required to be paid to the Group. The Group may be liable for costs should the Court ultimately decide to award costs against BCBCS and BCBC in future proceedings.

### (b) Contingencies - Former employee legal dispute

White Energy's wholly owned subsidiary, Mountainside Coal Company Inc. (MCC), has been engaged in legal proceedings brought against it in the 2015 financial year related to disputed matters arising from a layoff of an employee that occurred in 2015. MCC may be liable for costs should a court ultimately decide to award costs and damages against MCC. Interrogatories have been provided and there is no fixed trial date.

### (c) Contingent liabilities and assets - Indemnity and insurance claims

The Company has received indemnity claims from certain former Directors of the Company for legal costs incurred as a result of their participation in an ICAC public inquiry (**Operation Jasper**) and subsequent court proceedings during prior periods. The Company's insurers have also directly received claims from certain former Directors in respect of ICAC legal costs and subsequent proceedings.

The Company has established an independent board committee (**IBC**) to review these claims and determine the most appropriate course of action for the Company, including whether the Company will have to make any future payments in relation to these claims and whether any expense incurred as a consequence would be reimbursable under the Company's insurance policies.

The IBC do not currently believe that the Company will have to provide for any additional amounts in respect of these claims beyond amounts already accrued. The total amount of claims against the Company in relation to the matters referred to above is \$7,400,000 as at the date of signing the financial report (30 June 2017: \$7,400,000).

# Note 20. Contingencies (continued)

During the year ended 30 June 2017, a claim was made under the Company's Directors' & Officers insurance policy with the Company's insurers in relation to legal costs paid by the Company for Operation Jasper and subsequent court proceedings during prior periods. The quantum of the claim that will be paid is uncertain and is still being negotiated.

### Note 21. Events occurring after the reporting period

On 9 March 2018, key management personnel Travers Duncan, the Chairman of White Energy, and Brian Flannery, the Managing Director of White Energy, each provided a loan facility to the Company of up to \$500,000 through their private companies Gaffwick Pty Ltd atf Duncan Family Trust and Ilwella Pty Ltd respectively. The purpose of the facilities is for general working capital requirements prior to the receipt of settlement proceeds from the sale of the Company's subsidiary Mountainside Coal Company Inc. (refer note 6(b)). Loans drawn under the facilities are repayable by the Company within one year after they are advanced or on demand. The loans are not secured. The loan's agreements are based on normal commercial terms and conditions and bear interest at a market rate.

No other matters or circumstances have arisen since 31 December 2017 that have significantly affected, or may significantly affect:

- (1) the Group's operations in future financial years, or
- (2) the results of those operations in future financial years, or
- (3) the Group's state of affairs in future financial years.

### Note 22. Basis of preparation of half-year report

This consolidated interim financial report for the half-year reporting period ended 31 December 2017 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2017 and any public announcements made by White Energy during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except as set out below:

### (a) New and amended standard adopted by the Group

The Group did not have to change its accounting policies or make retrospective adjustments as a result of new accounting standards or changes to accounting standards. There may be some changes to the disclosures in the 30 June 2018 Annual Report as a consequence of these amendments.

### (b) Impact of standards issued but not yet applied by the Group

The Australian Accounting Standards Board has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. The Group has decided not to early adopt these standards.

# Note 22. Basis of preparation of half-year report (continued)

Standard or Interpretation	Effective for reporting periods beginning on or after		
AASB 9 Financial Instruments	1 January 2018		
AASB 15 Revenue from Contracts with Customers	1 January 2018		
AASB 16 Leases	1 January 2019		

The Group's preliminary assessment is that there won't be a material effect on the amounts recognised in its financial statements resulting from the application of these standards. This view may change after a full assessment is completed.

White Energy Company Limited
Directors' declaration
31 December 2017

# **Directors' declaration**

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 7 to 25 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Group's financial position as at 31 December 2017 and of its performance for the half-year ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Brian Flannery Managing Director

Brisbane 9 March 2018

# **Independent auditor's review report to the members of White Energy Company Limited**

# Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of White Energy Company Limited (the Company), which comprises the consolidated balance sheet as at 31 December 2017, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration for White Energy Company Limited. The consolidated entity comprises the Company and the entities it controlled during that half-year.

# Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

# Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of White Energy Company Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of White Energy Company Limited is not in accordance with the *Corporations Act 2001* including:

- 1. giving a true and fair view of the consolidated entity's financial position as at 31 December 2017 and of its performance for the half-year ended on that date;
- 2. complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

# Materiality uncertainty related to going concern

We draw attention to Note 2 in the interim financial report, which indicates that the Group incurred a total comprehensive loss of \$6,461,000 during the half-year and net cash outflow from operating activities of \$4,020,000 during the financial year ended 31 December 2017 and will require additional funding to meet the Group's liabilities in respect of forecast expenditure within twelve months of the date of this report. These conditions, along with other matters set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt about the Groups' ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

PricewaterhouseCoopers '

Simon Neill Partner Brisbane 9 March 2018
