The Directors present their report together with the financial statements of the Company for the financial half-year period ended 31<sup>st</sup> December 2017.

## Directors

The Directors in office during the year and as at the date of this report are:

Mr. Shouyin Wang  
Mr. Jiangang Zhao  
Mr. Gregory Clifton Hall  
Mr. Yong Zhang

Directors have been in office since the start of the financial year (1 July 2017) to date of this report unless otherwise stated.

## Highlights

- The Company currently is investigating gold projects in Laos and Kyrgyzstan, and had field visits to Laos and Kyrgyzstan in August and September 2017;
- Under the JV with Arrow Minerals Ltd (Arrow) (formerly Segue Resources Ltd) Zeus has confirmed the completion of the Stage 1 Farm-in. Arrow has earned a 35% Participating Interest of the tenement of E09/1618, and will continue to Stage 2 farm-in to acquire an additional 15% Participating Interest. The process of transfer 35% interest has been started.

## Corporate and Financial

- Administrative and other operational expenditures are within budget. Continued substantial reduction in overheads achieved;
- Annual General Meeting of 2017 has been held on 27<sup>th</sup> of November 2017.

## Tenement Status

The company undertook a compulsory partial surrender of E28/2097 in this quarter, which reduced the tenement to 7 blocks from 11 blocks. Tenements are shown in Figure 1 and detailed in Table 1.

The Company is investigating gold projects in Laos and Kyrgyzstan, and had field visits to Laos and Kyrgyzstan in August and September 2017.

## Exploration Report

Following a review of the 2015 exploration drilling at Narnoo South, Zeus elected to relinquish four graticular sub-blocks from tenement E28/2097. The relinquished areas occur in the northeast and southeast of the tenement overlying non-prospective parts of the licence.

There were no other changes to Zeus' tenement holdings during the Half Year period. The current projects and licences are shown in

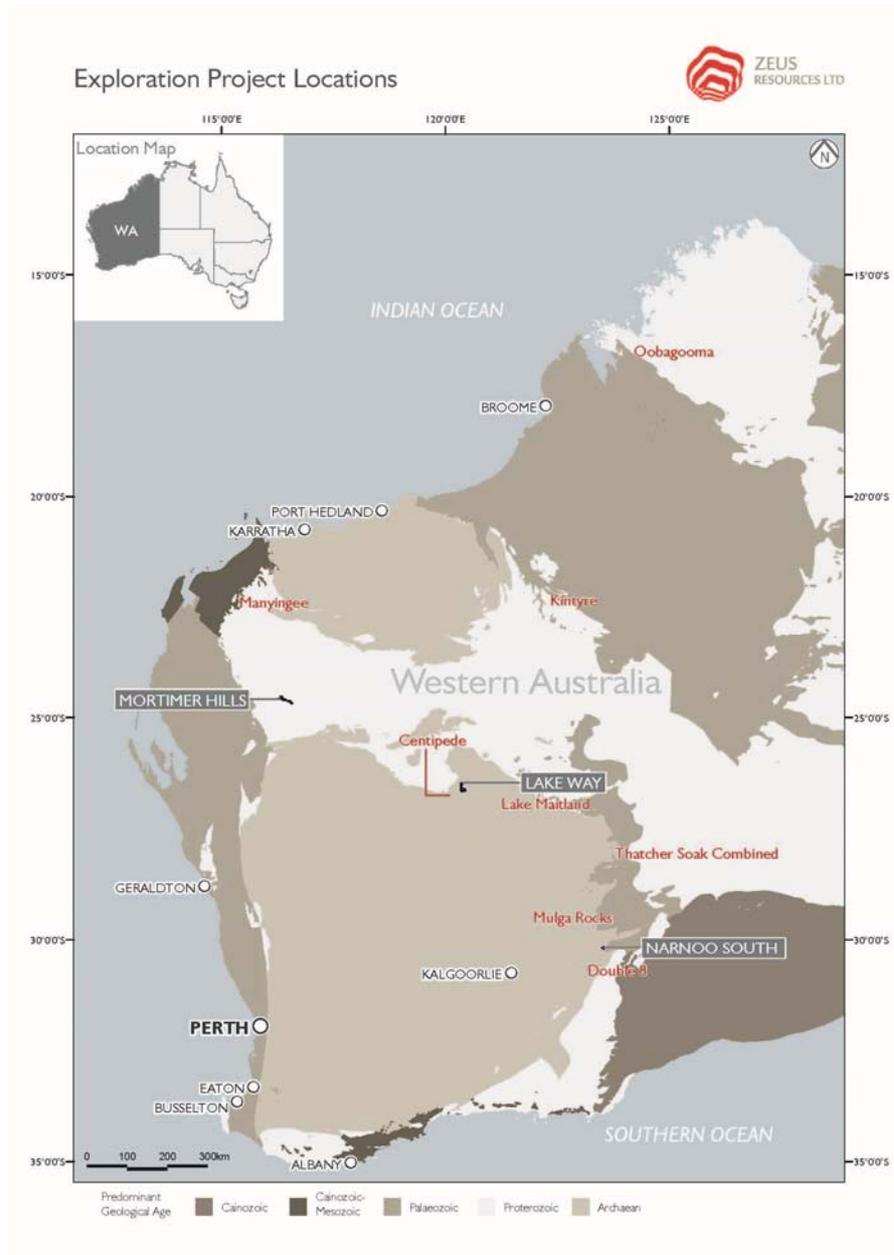

Figure 1 and detailed in **Error! Reference source not found.**

## DIRECTORS' REPORT

**Exploration Program**

Exploration efforts during the Half-Year have focussed on a review of previously conducted exploration and planning of follow up exploration programs. A field investigation visit was undertaken to the Gascoyne project to assess the potential for Lithium-Tantalum pegmatites and base metal mineralisation within E09/2147.

**Wiluna Project**

During the reporting period Zeus continued to explore options for follow up drilling on the Lake Way Project. The proposed drilling is a follow up to a successful drilling program conducted in December 2014 where prospective reduced sediments were determined to be widespread at depth within the Lake Way Palaeochannel, with a regionally extensive target sand horizon determined to be restricted to the palaeovalley axis.

The follow up drill program has been planned to target these prospective reduced palaeochannel sandstones within the Kukububba (Lake Way) Palaeochannel.

Approval for this drilling program has been granted by the DMP, with Aboriginal heritage clearance also obtained, for these drill locations within the Lake Way Project area.

**Narnoo Project**

Exploration drilling conducted at Narnoo South, E28/2097, during May 2015 intersected low-grade uranium mineralisation within a narrow tributary paleochannel, steeply incised into underlying Permian clays. Tertiary lignites and paleochannel sandstones were well developed with the channel, with up to 27m of lignite intersected. A broad zone of lignite-hosted uranium mineralisation, similar in style to the Mulga Rocks Uranium deposits, was identified at a Redox boundary developed at the top of the lignite horizon.

Assay results from the mineralised zones within Zeus drill holes indicate an average thickness of 2-3m, with average grades across this interval exceeding 0.02% U<sub>3</sub>O<sub>8</sub>. Historical drilling within the vicinity suggests the mineralised zone ranges from 1-5m thick and extends across the full width of the paleochannel. Mineralisation occurs over a length of ~4km within the channel with this zone remaining open to both the S/SE (upstream) and W/NW (downstream).

During the reporting period Zeus continued to explore options for follow up drilling of the Narnoo South (E28/2097) uranium prospect.

The follow up drilling program of 12 (priority 1) holes at Narnoo South is designed to confirm uranium grade and thicknesses within the Driller's Palaeochannel which was identified during an initial drilling program conducted in May 2015.

Approval for this drilling program has been granted by the DMP for these drill locations.

Following a review of the 2015 exploration drilling at Narnoo South, Zeus elected to relinquish four graticular sub-blocks from tenement E28/2097. The relinquished areas occur in the northeast and southeast of the tenement overlying non-prospective parts of the licence.

## DIRECTORS' REPORT

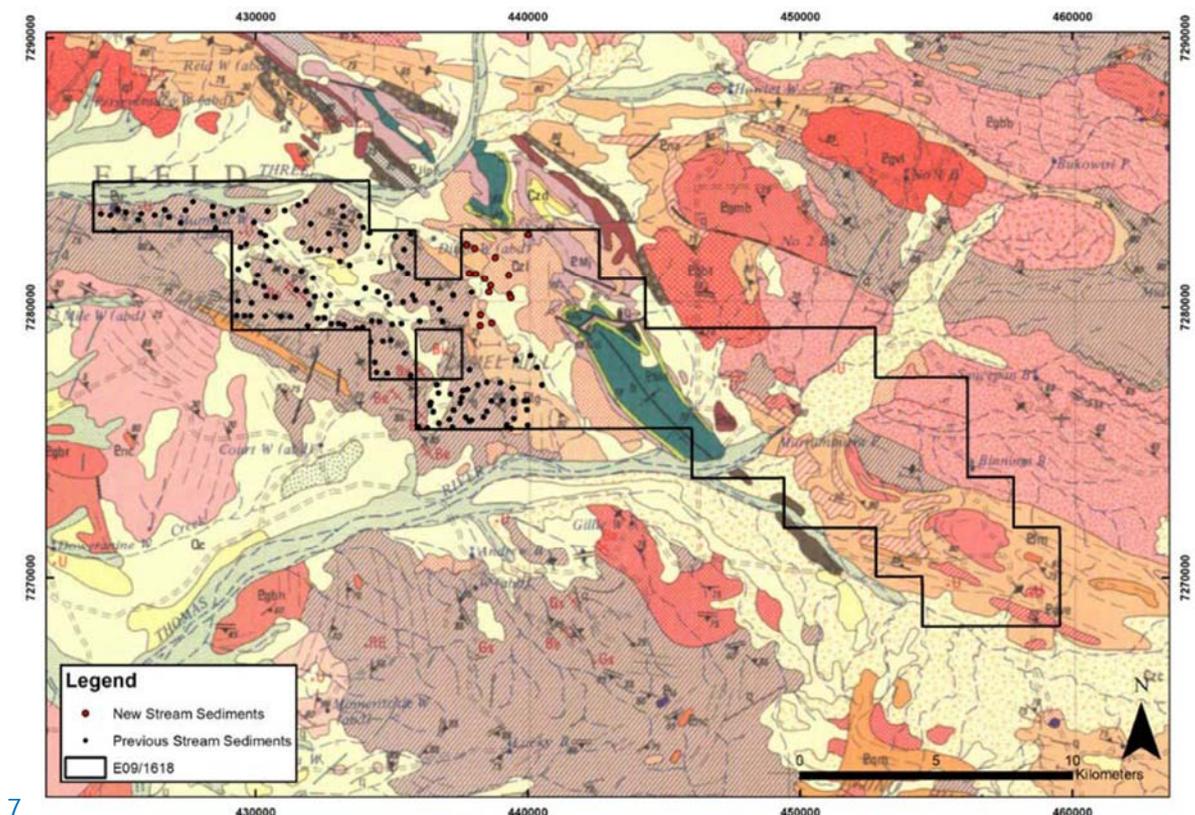

### Gascoyne Project

During March 2017, joint venture partner Arrow Minerals Ltd (formerly Segue Resources Ltd.) carried out a follow-up stream sediment survey on E09/1618 over the Camel Hill Prospect, where anomalous results for Lithium Caesium Tantalum (LCT) indicator minerals had been identified. The stream sediment survey extended upon the previous exploration of prospective ground around Camel Hill within the metasediments of the Mount James Subgroup and Leake Springs Metamorphics.

The results from the stream sediment sampling within E09/1618 and the wider project area, showed a strong correlation amongst the Lithium Caesium Tantalum (LCT) Pegmatite pathfinder elements Li-Cs-Ta + Be, Rb, Nb, Sn. The sampling programs highlighted the potential of the Camel Hills areas to host LCT pegmatites by defining a low order Li-Cs-Ta-Rb anomaly which warrants further exploration.

During September 2016 exploration licence E09/2147 at Mortimer Hills was granted to Zeus Resources Ltd. A four day field trip was undertaken by Company geologists during April 2017. The purpose of the field trip was to investigate a reported copper/galena barite vein within E09/2147 and to assess the potential for Lithium-Tantalum pegmatites, such as those identified on the Company's adjacent licence, E09/1618, which is being explored in a joint venture with Arrow Minerals Ltd (formerly Segue Resources Ltd).

A number of mapping and rock chip sampling traverses were completed over potential target areas, with a total of six rock chips samples collected, including two samples targeting gold mineralisation associated with shear zone hosted, quartz veining.

## Zeus Resources Limited

Independent auditor's review report to members

### Report on the Review of the Half-Year Financial Report

#### Conclusion

We have reviewed the accompanying half-year financial report of Zeus Resources Limited (the company) on pages 14 to 23, which comprises the statement of financial position as at 31 December 2017, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Zeus Resources Limited on pages 14 to 23 is not in accordance with the Corporations Act 2001 including:

- a) giving a true and fair view of the company's financial position as at 31 December 2017 and of its performance for the half year ended on that date; and
- b) complying with Australian Accounting Standard 134 Interim Financial Reporting and the Corporations Regulations 2001.

#### Responsibilities of the Directors for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibilities for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including:

- giving a true and fair view of the company's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and
- complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

As the auditor of Zeus Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Independence**

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of Zeus Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.
