"It's a pleasure to report Realm's record profit, and the first full year of operating results from Foxleigh coal mine. This year has seen significant steps taken to secure the longer-term future of the mine, including: equipment upgrades to the mining fleet; the development of a major creek diversion; increased expenditure on rehabilitation and the community; and a drilling programme, which defined additional reserves in the active Foxleigh Plains pit and increased understanding in the lease areas".

"I believe Realm has a very solid platform and a bright future. My confidence is supported by strong relationships with our Foxleigh joint venture partners and a diversified group of quality, long-term customers in key export markets. We continue to focus on improving Foxleigh's operational performance and its longer-term future, including safety, health, environment, and its community".
