# **Kyckr Roadshow Presentation**

Globally, the pre-eminent source for corporate identities.

#### **Disclaimer**

The purpose of the presentation is to provide an update of the business of Kyckr Limited ACN 609 323 257 (ASX:KYK). These slides have been prepared as a presentation aid only and the information they contain may require further explanation and/or clarification. Accordingly, these slides and the information they contain should not be relied upon as an independent source of information. Please refer to the Company's website and/or the Company's filings to the ASX for further information.

The views expressed in this presentation contain information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information. Any forward looking statements in this presentation have been prepared on the basis of a number of assumptions which may prove incorrect and the current intentions, plans, expectations and beliefs about future events are subject to risks, uncertainties and other factors, many of which are outside Kyckr Limited's control. Important factors that could cause actual results to differ materially from assumptions or expectations expressed or implied in this presentation include known and unknown risks. Because actual results could differ materially to assumptions made about Kyckr Limited's current intentions, plans, expectations and beliefs about the future, you are urged to view all forward looking statements contained in this presentation with caution. This presentation should not be relied on as a recommendation or forecast by Kyckr Limited. Nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy or sell shares in any jurisdiction.

### **Glossary of terms**

- **4AMLD** The European Union 4<sup>th</sup> Anti-Money Laundering Directive which places greater emphasis on UBOs as part of the KYC, expanded requirements when looking at people as shareholders and directors and now includes the gambling sector.
- **5AMLD** Proposed amendments to the 4AMLD where businesses have the obligations to hold beneficial ownership records with their authority in their country of registration and also ownership is now examined at 10%+ (currently 25%+).
- **AML** Anti Money Laundering. This is majority source of legislation relevant to KYC.
- API Application Program Interface which a cloud based means of accessing our services and information. This does not require the provision of code or programs to customers.
- **B2B** Business to Business. Services and products requiring sales personnel to sell direct.
- Business to Consumers which are online services and do not require sales personnel but require digital marketing.

- **CDD** Customer Due Diligence which is a full KYC check on a business customer.
- **CMGR** Compound Monthly Growth Rate
- **EDD** Enhanced Due Diligence which is required for high risk companies.
- **KYC** Know Your Customer which for Kyckr is specific to companies, funds and entities (i.e. not people).
- OCR Optical Character Recognition which is a means of extracting text from PDF type documents.
- **Perpetual KYC** Perpetual KYC is a means of providing event driven KYC where the event refers to changes to company attributes.
- PII Personally Identifiable Information.
- RegTech Regulatory Technology business.
- **SME** Small to Medium Enterprise or business.
- UBO Ultimate Beneficial Owners which is a map of the shareholders and if a shareholder is a company who their shareholders are all the way through to the final people based shareholders.

Legal Entities

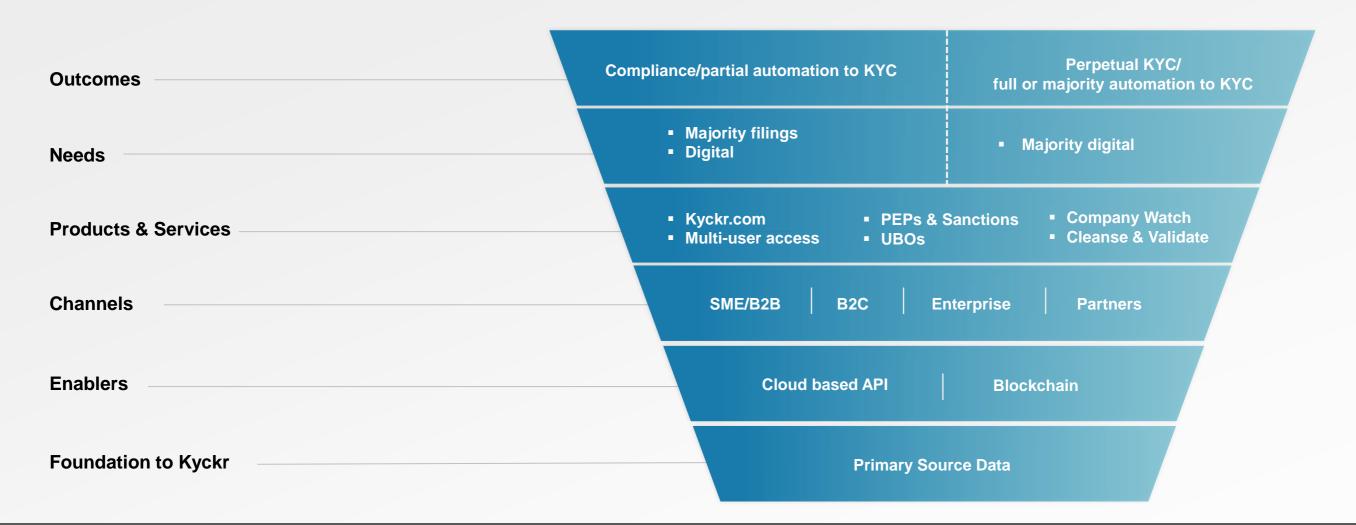

✓ Primary source data

- Global Spread and continual expansion
- No database means no stored data
- ✓ Kyckr Company Watch

- In the 5 years post GFC, US banks alone have been fined over US\$120B in compliance related fines
- Standard Chartered (\$327 million) in 2012 and BNP Paribas (\$8.9 billion) in 2014
- In the UK and Canada, maximum prison terms of up to 5 years in addition to fines
- Increased regulatory scrutiny in Australia of financial institutions in the area of compliance
- In the US, money laundering 5 to 20 years. Many other cases of imprisonment for money laundering in Spain, the UK & the US

## Primary source, foundation of all capabilities

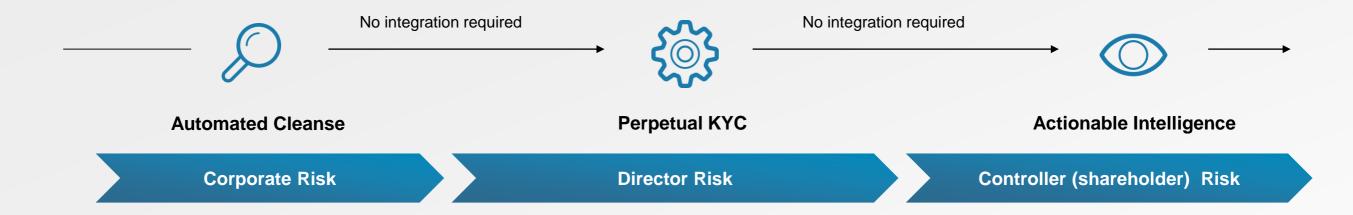

### **Business success, drivers & innovation**

Regulation is driving increased interest in our success & innovation

Decrease dependency on Australian Financial **(** Elavon Successes **Bloomberg** Aggregated access IPO Business Service Client Bank of Ireland single enterprise client to over 150 sources ASX Sample new global blue globally Cornerstone chip clients **Global Payments** citigroup enterprise Client Provider 2008 2019 2015 2016 2017 2018 Regulatory Imperatives **GDPR** Need for Panama 4AMLD & 5AMLD objective, current **Papers** Focus on UBO and accurate assessment (automation) Development Continued development of Demand to extend Blockchain **Event** of API enterprise capabilities access to capabilities to: based Innovation Enterprise corporate Investment in IT infrastructure to KYC Director risk Capabilities identity support demands from new Shareholder risk (UBO) (Perpetual enterprise clients Vetting identity on a per KYC) Increased to 200+ sources transaction basis

## Innovation from regulatory drivers

## AML Challenge

#### **Primary Vs Secondary Source**

- Companies obliged to update company information in a company registry.
- Stored data providers are not obliged to keep records up to date

#### GDPR, 4/5AMLD, MiFID II

- GDPR presents privacy challenges to those who store personal information
- Ever-increasing move to Perpetual KYC to better manage AML risks and obligations
- Increasing focus on who controls a company in borderless worlds
- Countries such as China and Russia are working to increase transparency across data handling obligations

#### **Corporate Intelligence**

- Shareholder data used to make UBO decisions are generally performed manually, increasing risk
- Other sectors are pursing AI capabilities to support complex decisions but the world of KYC has stagnated by using poor data

### Critical enablers for our continued innovation

#### Know Your Customer (KYC) for:

- AML demand extending past company risk to director and shareholder risk
- Vetting transaction identity on traditional and crypto platforms

- Connected to 200+ sources globally
- Primary source, no storage, updates through Company Watch

- Security through encryption
- Distributed Ledger
- Scalability for vetting transactional identity

- Google indexing
- Self learning
- Self service
- Scalability
- Real-time node expansion

- Security and standards
- Accompanying services and data sets

## Strategy for continued growth & success

Continued innovation to meet ever increasing regulatory challenges for our clients

Continued to develop new and existing sources

Employ technology to maintain economies of scale

Pursue enterprise clients directly, extracting the best revenue yield over time

Deliver KYC capabilities for all transaction platform including cryptocurrencies

Develop further access to data and intelligence in digital form

Ability to deliver all of our clients needs (company, director and shareholder risk), whilst continually advocating primary source

Continue to develop partnership opportunities
